The Fundamentals of Horticulture Theory and Practice

Cambridge University Press Essential reading for all studying horticulture and keen gardeners. This clear introduction to the principles underlying the practical applications of horticulture opens up the excitement of growing plants and garden development, without readers having to wade through complex information. Full-colour images tied closely to the text and practical case study boxes inspire readers by making topics relevant to their own horticultural experiences. Written by a team of highly motivated and experienced horticultural tutors, the text supports the newly restructured RHS Level 2 qualifications, with related Level 3 topics in boxes and signposting to Level 4 topics, together with other horticultural qualifications at these levels.
