McClelland & Stewart A wry comic novel with an acerbic wit, *A Hero of Our Time* is a vicious takedown of superficial diversity initiatives and tech culture, with a beating heart of broken sincerity. Osman Shah is a pitstop on his white colleague Olivia Robinson's quest for corporate domination at AAP, an edutech startup determined to automate higher education. Osman, obsessed by Olivia's ability to successfully disguise ambition and self-interest as collectivist diversity politics, is bent on exposing her. Aided by his colleague turned comrade-in-arms Nena, who loathes and tolerates him in equal measure, Osman delves into Olivia's twisted past. But at every turn, he's stymied by his unfailing gift for cruel observation, which he turns with most ferocity on himself, without ever noticing what it is that stops him from connecting to anyone in his past or present. As Osman loses his grip on his family, Nena, and everything he thought was essential to his identity, he confronts an enemy who may simply be too good at her job to be defeated. *A Hero of Our Time* cracks the veneer of well-intentioned race conversations in the West, dismantles cheery narratives of progress through tech and "streamlined" education, and exposes the venomous self-congratulation and devouring lust for wealth, power, and property that lurks beneath. Twisted Scholastic UK Gritty and hard hitting, this is thoughtful teen fiction at its finest. Seventeen-year-old Tyler is the popular boy in high school after years of being "the geek". Can Tyler find a way out of the mess he's in? *Altered Genes, Twisted Truth* How the Venture to Genetically Engineer Our Food Has Subverted Science, Corrupted Government, and Systematically Deceived the Public Chelsea Green Publishing Company Druker discusses how the massive enterprise to restructure the genetic core of the world's food supply came into being, how it advanced by consistently violating the protocols of science, and how for more than three decades, hundreds of eminent biologists and esteemed institutions have systematically contorted the truth in order to conceal the unique risks of its products--and get them onto our dinner plates. *Twisted* Natasha Knight My brother was right.
