world cultural exchange to Eurasian and world history. On the one hand, historian James A. Millward treats the silk road broadly, to stand in for the cross-cultural communication between peoples across the Eurasian continent since at least the Neolithic era. On the other, he highlights specific examples of goods and ideas exchanged between the Mediterranean, Persia, India, and China, along with the significance of these exchanges. While including silks, spices, and travelers' tales of colorful locales, the book explains the dynamics of Central Eurasian history that promoted Silk Road interactions--especially the role of nomad empires--highlighting the importance of the biological, technological, artistic, intellectual, and religious interchanges across the continent. Millward shows that these exchanges had a profound effect on the old world that was akin to, if not on the scale of, modern globalization. He also disputes the idea that the silk road declined after the collapse of the Mongol empire or the opening of direct sea routes from Europe to Asia, showing how silk road phenomena continued through the early modern and modern expansion of the Russian and Chinese states across Central Asia. Millward concludes that the idea of the silk road has remained powerful, not only as a popular name for boutiques and restaurants, but also in modern politics and diplomacy, such as U.S. Secretary of State Hilary Clinton's "Silk Road Initiative" for India, Pakistan, and Afghanistan.

**Cave Temples of Dunhuang Buddhist Art on China's Silk Road Getty Publications** The Mogao grottoes in northwestern China, located near the town of Dunhuang on the fabled Silk Road, constitute one of the world's most significant sites of Buddhist art. Preserved in some five hundred caves carved into rock cliffs at the edge of the Gobi Desert are one thousand years of exquisite wall paintings and sculpture. Founded by Buddhist monks in the late fourth century, Mogao grew into an artistic and spiritual center whose renown extended from the Chinese capital to the far western kingdoms of the Silk Road. Among its treasures are 45,000 square meters of murals, more than 2,000 statues, and over 40,000 medieval silk paintings and illustrated manuscripts. This sumptuous catalogue accompanies an exhibition of the same name, which will run from May 7 through September 4, 2016, at the Getty Center. Organized by the Getty Conservation Institute, Getty Research Institute, Dunhuang Academy, and Dunhuang Foundation, the exhibition celebrates a decades-long collaboration between the GCI and the Dunhuang Academy to conserve this UNESCO World Heritage Site. It presents, for the first time in North America, a collection of objects from the so-called Library Cave, including illustrated sutras, prayer books, and other exquisite treasures, as well as three full-scale, handpainted replica caves. This volume includes essays by leading scholars, an illustrated portfolio on the replica caves, and comprehensive entries on all objects in the exhibition.

**Through the Jade Gate- China to Rome: CreateSpace** John Hill's eagerly awaited second edition - in two volumes - of the annotated translation of the Hou Hanshu - renamed *Through the Jade Gate - China to Rome* - has been extensively revised. The book grew so big that it had to be published in two volumes. Readers will require both volumes. · Volume I includes the original Chinese text, a detailed introduction, maps and comprehensive notes to the text. · Volume II has 26 appendices which highlight extra fascinating information of special interest - such as Rhinoceroses, the Story of Sea-silk and the Significance and Use of Skull Cups - and the comprehensive bibliography. This updated, definitive English translation of the complete Chronicle on the Western Regions from the Hou Hanshu, presents an intriguing picture of this little-known period of history. It describes the origins of the Silk Routes using information collected from soldiers, merchants, envoys and spies. The text is based on the report to the Chinese Emperor An, circa 125 CE, by Ban Yong, his senior general in the Western Regions. The Chronicle contains the earliest geographical, historical, political, economic and cultural information in Chinese about the Roman Empire, Egypt, India, Parthia and many other kingdoms, and also describes the routes between East and West. Along these arteries travelled people, cultures, languages, philosophies, religions, technologies, animals, plants, countless precious and rare trade items, and the knowledge of distant places. These exchanges were critical for the development and flowering of the great civilizations of China, Rome, Parthia, the Kushans and India, and unquestionably laid the foundations of modern globalisation. The first edition of this work received critical acclaim from scholars world-wide and is widely quoted in academic works. This much expanded second edition should prove to be an even more useful guide and source-book on the early history of the Silk Routes. "This treasure house of remarkable facts and speculations should appeal to both scholars and the curious."

**Bradshaw's illustrated hand-book to Switzerland and the Tyrol The New England Farmer American Railroad Journal Cave Temples of Mogao Art and History on the Silk Road Getty Publications** The Mogao grottoes in China, situated near the oasis town of Dunhuang on the fabled Silk Road, constitute one of the world's most significant sites of Buddhist art. In some five hundred caves carved into rock cliffs at the edge of the Gobi desert are preserved one thousand years of exquisite murals and sculpture. Mogao, founded by Buddhist monks as an isolated monastery in the late fourth century, evolved into an artistic and spiritual center whose renown extended from the Chinese capital to the far western kingdoms of the Silk Road. Among its treasures are miles of stunning wall paintings, more than two thousand statues, magnificent works on silk and paper, and thousands of ancient manuscripts, such as sutras, poems, and prayer sheets, which in 1900 were found sealed in one of the caves and then dispersed to museums throughout the world. Illustrated in color throughout, *Cave Temples of Mogao* combines lavish photographs of the caves and their art with the fascinating history of Mogao, Dunhuang, and the Silk Road to create a vivid portrait of this remarkable site. Chapters discuss the development of the cave temples, the iconography of the wall paintings, and the extraordinary story of the rare manuscripts, including the oldest printed book in existence, a ninth-century copy of the Diamond Sutra. The book also describes the long-term collaboration between the Getty Conservation Institute and Chinese authorities in conservation projects at Mogao as well as the caves and the museum that can be visited today. The publication of this book coincides with the centenary of the discovery of the manuscripts in the Library Cave.

June 1847 - July/Oct. 1939 Congressional Record Containing the Proceedings and Debates of the ... Congress The Dawn of Eurasia On the Trail of the New World Order Penguin UK** *In this original and timely book, Bruno Maçães argues that the best word for the emerging global order is 'Eurasian', and shows why we need to begin thinking on a super-continental scale. While China and Russia have been quicker to recognise the increasing strategic significance of Eurasia, even Europeans are realizing that their political project is intimately linked to the rest of the supercontinent - and as Maçães shows, they will be stronger for it. Weaving together history, diplomacy and vivid reports from his six-month overland journey across Eurasia from Baku to Samarkand, Vladivostock to Beijing, Maçães provides a fascinating portrait of this shifting geopolitical landscape. As he demonstrates, we can already see the coming Eurasianism in China's bold infrastructure project reopening the historic Silk Road, in the success of cities like Hong Kong and Singapore, in Turkey's increasing global role and in the fact that, revealingly, the United States is redefining its place as between Europe and Asia. An insightful and clarifying book for our turbulent times, The Dawn of Eurasia argues that the artificial separation of the world's largest island cannot hold, and the sooner we realise it, the better.* **Fort Plain Nelliston History 1580-1947 "The" Athenaeum Journal of Literature, Science, the Fine Arts, Music and the Drama The Silk Road A New History Oxford University Press** *The Silk Road is as iconic in world history as the Colossus of Rhodes or the Suez Canal. But what was it, exactly? It conjures up a hazy image of a caravan of camels laden with silk on a dusty desert track, reaching from China to Rome. The reality was different--and far more interesting--as revealed in this new history. In The Silk Road, Valerie Hansen describes the remarkable archeological finds that revolutionize our understanding of these trade routes. For centuries, key records remained hidden--sometimes deliberately buried by bureaucrats for safe keeping. But the sands of the Taklamakan Desert have revealed fascinating material, sometimes preserved by illiterate locals who recycled official documents to make insoles for shoes or garments for the dead. Hansen explores seven oases along the road, from Xi'an to Samarkand, where merchants, envoys, pilgrims, and travelers mixed in cosmopolitan communities, tolerant of religions from Buddhism to Zoroastrianism. There was no single, continuous road, but a chain of markets that traded between east and west. China and the Roman Empire had very little direct trade. China's main partners were the peoples of modern-day Iran, whose tombs in China reveal much about their Zoroastrian beliefs. Silk was not the most important good on the road; paper, invented in China before Julius Caesar was born, had a bigger impact in Europe, while metals, spices, and glass were just as important as silk. Perhaps most significant of all was the road's transmission of ideas, technologies, and artistic motifs. The Silk Road is a fascinating story of archeological discovery, cultural transmission, and the intricate chains across Central Asia and China.* **The Congressional Globe Oneida circular International Books in Print**
