TECHNOLOGY, GLOBALIZATION, AND SUSTAINABLE DEVELOPMENT

TRANSFORMING THE INDUSTRIAL STATE

Yale University Press *In this work, the authors offer a unified, transdisciplinary approach for achieving sustainable development in industrialized nations. They present an insightful analysis of the ways in which industrial states are unsustainable and how economic and social welfare are related to the environment, public health and safety.*

PROPOSED TECHNICAL ASSISTANCE CLUSTER TO THE PEOPLE'S REPUBLIC OF CHINA FOR THE PROMOTION OF CLEAN TECHNOLOGY

REPORT ON THE HIGH-LEVEL REGIONAL DIALOGUE ON THE MAINSTREAMING OF BIODIVERSITY IN THE AGRICULTURAL, FORESTRY AND FISHERIES SECTORS (DRANIBA)

TOWARDS THE MAINSTREAMING OF BIODIVERSITY IN FOOD SYSTEMS AND AGRICULTURAL, FORESTRY, FISHERIES AND AQUACULTURE PRODUCTION PROCESSES IN LATIN AMERICA AND THE CARIBBEAN

Food & Agriculture Org. *Achieving food and nutrition security for all people intrinsically links to the maintenance of biodiversity. Therefore, increasing sustainable production of healthy, nutritious and safe food requires mainstreaming biodiversity use and conservation criteria within crops, livestock, forestry, fisheries and aquaculture production systems. This cannot be achieved without the active participation and commitment of all productive sectors and different actors within the food system, from producers of different sectors and sub-sectors to consumers. This report presents the recommendations, conclusions and action plan emerged from the High Level Regional Dialogue on the Integration of Biodiversity in Agriculture, Forestry and Fisheries (DRANIBA) in Latin America and the Caribbean, organized by FAO and the Government of Mexico in October 2018, within the framework of the Conference of the Parties (COP) to the Convention on Biological Diversity. Delegates from different productive sectors representing eleven countries of the region, and representatives from international and cooperation agencies, civil society and academia, reviewed case studies and discussed issues related to biodiversity mainstreaming in the agricultural, livestock, forestry, fisheries and aquaculture sectors. DRANIBA brought attention to stakeholders' efforts in promoting the international agreements related to biological diversity and will contribute to COP-14 and its follow-up phases.*

MARKET-BASED INSTRUMENTS FOR WATER POLLUTION CONTROL IN THE PEOPLE'S REPUBLIC OF CHINA

Asian Development Bank *This report summarizes the current state of water pollution and water pollution management strategies in the People's Republic of China (PRC). It also provides specific recommendations for implementing market-based policy instruments, such as designed to mitigate water pollution and its negative effects. Market-based instruments such as water quality trading, fees and taxation, and public-private partnerships, have been tested internationally and in the PRC, and may be used as guide in implementing positive environmental policy reforms in the country. Success with such instruments provides a blueprint for developing more sophisticated water pollution control strategies using policy innovations to achieve greater benefits at lower costs. The Asian Development Bank is providing technical assistance to aid the government in its quest to identify the best possible options for ensuring clean water for its citizens. Experiences gained in the PRC can be relevant to practitioners in the other developing countries as well.*

CATALOG OF FEDERAL DOMESTIC ASSISTANCE

Identifies and describes specific government assistance opportunities such as loans, grants, counseling, and procurement contracts available under many agencies and programs.

ENVIRONMENTALLY SUSTAINABLE DEVELOPMENT IN THE PEOPLE'S REPUBLIC OF CHINA

VISIONS FOR THE FUTURE AND THE ROLE OF THE ASIAN DEVELOPMENT BANK

Asian Development Bank *The rapid pace of growth, the sectoral structure of the economy, the sources of energy used, and increased urbanization are four large-scale drivers behind the complex environmental agenda of the People's Republic of China (PRC). To improve the quality of the ambient environment, the recently released Macro Strategic Research Report on the PRC's Environment recognized the need for changing the momentum of the four driving forces, and included visions throughout 2050 for long-term environmentally sustainable development. Revisiting these visions for the future, this paper examines the key elements that the government needs to keep in mind in its efforts toward environmentally sustainable development, and articulates the role that the Asian Development Bank can play in contributing to the government's environmental agenda in the next decade.*

ECONOMIC DEVELOPMENT AND ENVIRONMENTAL SUSTAINABILITY

NEW POLICY OPTIONS

OUP Oxford *Economic growth as we know it today cannot persist indefinitely if it entails continuous degradation of natural resources and the environment. While in a few countries around the world it appears that environmental degradation has been the result of rapid economic growth, in the vast majority of the developing countries the environment has been equally spoiled despite slow or even negative economic growth. This book provides new insights on the common roots of economic stagnation, poverty and environmental degradation which, unfortunately, generally reside in misguided government policies and priorities. By doing this, the volume seeks to provide a broader policy option framework than those found in conventional policy analyses, mainly dominated by the "Washington Consensus". It shows that a major omission of the conventional view is that governments tend to allocate government expenditures in a biased way favouring subsidies to the economic elites to the detriment of investments in public goods, including human capital, R&D, as well as the development of institutions (environmental and otherwise), which are vital for long run growth, poverty reduction and environmental sustainability.*

COMPETITIVENESS AND PRIVATE SECTOR DEVELOPMENT COMPETITIVENESS IN SOUTH EAST EUROPE 2021 A POLICY OUTLOOK

A POLICY OUTLOOK

OECD Publishing *The future sustainable economic development and well-being of citizens in South East Europe depend on greater economic competitiveness. Reinforcing the region's economic potential in a post-COVID-19 context requires a holistic, inclusive and growth-oriented approach to policy making.*

STREAMLINING AND IMPROVING EFFICIENCY OF TRANSPORTATION AND INFRASTRUCTURE PROGRAMS

HEARING BEFORE THE COMMITTEE ON TRANSPORTATION AND INFRASTRUCTURE, HOUSE OF REPRESENTATIVES, ONE HUNDRED FOURTH CONGRESS, FIRST SESSION, JANUARY 31, 1995

THE 2030 AGENDA AND THE SUSTAINABLE DEVELOPMENT GOALS: THE CHALLENGE FOR AQUACULTURE DEVELOPMENT AND MANAGEMENT

Food & Agriculture Org. *This report explores the alignment of aquaculture with the 2030 agenda's goals and targets, suggesting that existing guidance needs strengthening in cross-cutting areas - such as poverty alleviation and resource use efficiency.*

ANALYTICAL TOOLS FOR ENVIRONMENTAL DESIGN AND MANAGEMENT IN A SYSTEMS PERSPECTIVE

THE COMBINED USE OF ANALYTICAL TOOLS

Springer Science & Business Media *The aim of this book is to link demand and supply of environmental information in the field of Life Cycle Management. The book is based on the results of the CHAINET concerted action financed by EU-DGXII for the work period 1998-2000, and is intended to build bridges between the different scientific communities in the field of Life Cycle Management. A structured approach is followed, meaning that both demand and supply of environmental information are characterised, after which the two are linked.*

INTEGRATING ENVIRONMENTAL AND CLIMATE ACTION INTO DEVELOPMENT CO-OPERATION REPORTING ON DAC MEMBERS' HIGH-LEVEL MEETING COMMITMENTS

REPORTING ON DAC MEMBERS' HIGH-LEVEL MEETING COMMITMENTS

OECD Publishing *At their High-Level Meeting (HLM) in 2020, members of the OECD Development Assistance Committee (DAC) set out a number of commitments and aspirations to align development co-operation with the objectives of international agreements to fight climate change and protect the environment. One year later, this report documents the individual and collective steps taken to give effect to the four voluntary commitments set out in the HLM Communiqué.*

GLOBAL SECURITY WATCH—THE MAGHREB: ALGERIA, LIBYA, MOROCCO, AND TUNISIA

ABC-CLIO *An unprecedented analysis of how the liberation from colonial rule has threatened the Maghreb region of Africa and created political and social challenges that puts global security at risk. • Includes biographies of key security leaders • Contains documents and excerpts from state constitutions and regional alliances, including those relating to the creation of Al-Qaeda in the Islamic Maghreb (AQMI) • Features political maps of the core countries • Reveals anti-terrorist legislations adopted by the national governments*

RURAL, ENVIRONMENT, AND SOCIAL DEVELOPMENT STRATEGIES FOR THE EUROPE AND CENTRAL ASIA REGION

World Bank Publications *This report proposes a World Bank strategy for assisting the rural, environmental, and social development of Eastern Europe and Central Asia. It has been produced for a general audience partly for consultation purposes, and is therefore a work in progress. Each of the three areas of development is examined in separate chapters, and each summarises the World Bank assistance strategy in that area. The conclusion is that the challenge posed by the objectives of this report are far beyond the World Bank's abilities to achieve on its own.*

TOWARD AN ENVIRONMENTALLY SUSTAINABLE FUTURE

COUNTRY ENVIRONMENTAL ANALYSIS OF THE PEOPLE'S REPUBLIC OF CHINA

Asian Development Bank *This publication presents the results of a 2-year effort to update environmental assessment in the People's Republic of China (PRC). The research was a collaborative effort involving the Asian Development Bank (ADB), the Ministry of Environmental Protection, the National Development and Reform Commission, and numerous other technical and research institutions in the PRC. Based on this research and extensive consultations, ADB proposes a wide range of programs and policies that will help improve environmental quality despite new and emerging sources of pollution and challenges to natural resources management. Inclusive growth and a green economy are the government's guiding principles for its development agenda under the 12th Five-Year Plan and beyond to 2020. To support these principles, the PRC needs to restructure its economic and fiscal systems to reflect environmental externality, expand the use of market-based instruments to control pollution, and introduce and implement legal reforms to clarify responsibility and promote cooperation.*

DELHI URBAN ENVIRONMENT AND INFRASTRUCTURE IMPROVEMENT PROJECT (DUEIIP).

GUIDE FOR INDUSTRIAL WASTE MANAGEMENT

DIANE Publishing *Designed to assist facility managers, state & tribal environmental managers, & the public to evaluate & choose protective practices for managing industrial waste in new landfills, waste piles, surface impoundments, & land application units. Identifies the components of a sound waste management system & the reasons why each is important. Also includes groundwater & air models, as well as other tools to help tailor waste management practices to a particular facility. This guidance reflects 4 underlying principles: protect human health & the environment; tailor management practices to risks; affirm state & tribal leadership; & foster a partnership.*

THE ENVIRONMENTAL IMPLICATIONS OF PRIVATIZATION

LESSONS FOR DEVELOPING COUNTRIES

World Bank Publications *Governments have increasingly come to recognize the economic potential and fiscal advantages of privatization. Privatization, under the right conditions, can also yield environmental benefits and contribute to sustainable development. This report contains a number of case studies which highlight the lessons learned about the environmental implications of privatization. It stresses that privatization offers an opportunity for making strategic decisions with longer-term impacts. This report also emphasizes that integrating environmental and social considerations into the privatization process leads to more sustainable outcomes. It also recommends strategies toward building on the positive linkages between privatization and environmental protection.*

GLOBAL POLITICAL ECONOMY

THEORY AND PRACTICE

Routledge Praised for its authoritative coverage, *Global Political Economy* places the study of international political economy (IPE) in its broadest theoretical context now updated to cover the continuing global economic crisis and regional relationships and impacts. This text not only helps students understand the fundamentals of how the global economy works but also encourages them to use theory to more fully grasp the connections between key issue areas like trade and development. Written by a leading IPE scholar, this text equally emphasizes theory and practice to provide a framework for analyzing current events and long-term developments in the global economy. New to the Seventh Edition Focuses on the ongoing global economic crisis and the continuing European sovereign debt crisis, along with other regional economic issues, including their implications for relationships in the global economy. Offers fuller and updated discussions of critical perspectives like feminism and environmentalism, and includes new material differentiating among the terms neomercantilism, realism, mercantilism, and economic nationalism. Updated, author-written Test Bank is provided to professors as an e-Resource on the book's Webpage.

FOREIGN OPERATIONS, EXPORT FINANCING, AND RELATED PROGRAMS APPROPRIATIONS FOR 2000

HEARINGS BEFORE A SUBCOMMITTEE OF THE COMMITTEE ON APPROPRIATIONS, HOUSE OF REPRESENTATIVES, ONE HUNDRED SIXTH CONGRESS, FIRST SESSION

WHO GUIDELINES FOR INDOOR AIR QUALITY

SELECTED POLLUTANTS

World Health Organization This book presents WHO guidelines for the protection of public health from risks due to a number of chemicals commonly present in indoor air. The substances considered in this review, i.e. benzene, carbon monoxide, formaldehyde, naphthalene, nitrogen dioxide, polycyclic aromatic hydrocarbons (especially benzo[a]pyrene), radon, trichloroethylene and tetrachloroethylene, have indoor sources, are known in respect of their hazardousness to health and are often found indoors in concentrations of health concern. The guidelines are targeted at public health professionals involved in preventing health risks of environmental exposures, as well as specialists and authorities involved in the design and use of buildings, indoor materials and products. They provide a scientific basis for legally enforceable standards.

ENERGY, ENVIRONMENT AND SUSTAINABLE DEVELOPMENT

Concept Publishing Company "The papers in this volume, presented by the author on different occasions in the capacity Chairman of the Delhi State Centre, the Institution of Engineers (India), address various issues concerning energy, environment and sustainable development. Discussing the application of energy and environment to corporate and social sectors, the author looks into the issues of sustainable energy supply, power distribution through private companies, impact of energy efficiency on power sector, technology, R&D, CNG, rural energy and the role of NGO's. He also examines the impact of government policies on reforms. Environmental concerns for effective corporate planning, environmental protection, disaster mitigation, capacity building, mountains and the safer human settlements, and sustainable water supply make part of the deliberations as well"--Dust jacket.
