CAPITAL PUNISHMENT: NEW PERSPECTIVES

Routledge *This collection asks questions about the received wisdom of the debate about capital punishment. Woven through the book, questions are asked of, and remedies proposed for, a raft of issues identified as having been overlooked in the traditional discourse. It provides a long overdue review of the disparate groups and strategies that lay claim to abolitionism. The authors argue that capital litigators should use their skills challenging the abuses not just of process, but of the conditions in which the condemned await their fate, namely prison conditions, education, leisure, visits, medical services, etc. In the aftermath of successful constitutional challenges it is the beneficiaries (arguably those who are considered successes, having been 'saved' from the death penalty and now serving living death penalties of one sort or another) who are suffering the cruel and inhumane alternative. Part I of the book offers a selection of diverse, nuanced examinations of death penalty phenomena, scrutinizing complexities frequently omitted from the narrative of academics and activists. It offers a challenging and comprehensive analysis of issues critical to the abolition debate. Part II offers examinations of countries usually absent from academic analysis to provide an understanding of the status of the debate locally, with opportunities for wider application.*

RESPONSIBILITY AND PUNISHMENT

Springer Science & Business Media *This volume provides discussions of both the concept of responsibility and of punishment, and of both individual and collective responsibility. It provides in-depth Socratic and Kantian bases for a new version of retributivism, and defends that version against the main criticisms that have been raised against retributivism in general. It includes chapters on criminal recidivism and capital punishment, as well as one on forgiveness, apology and punishment that is congruent with the basic precepts of the new retributivism defended therein. Finally, chapters on corporate responsibility and punishment are included, with a closing chapter on holding the U.S. accountable for its most recent invasion and occupation of Iraq. The book is well-focused but also presents the widest ranging set of topics of any book of its kind as it demonstrates how the concepts of responsibility and punishment apply to some of the most important problems of our time. "This is one of the best books on punishment, and the Fourth Edition continues its tradition of excellence. The book connects punishment importantly to moral responsibility and desert, and it is comprehensive in its scope, both addressing abstract, theoretical issues and applied issues as well. The topics treated include collective responsibility, apology, forgiveness, capital punishment, and war crimes. Highly recommended."—John Martin Fischer, Distinguished Professor of Philosophy,*

IMPRISONED BY THE PAST

WARREN MCCLESKEY AND THE AMERICAN DEATH PENALTY

Oxford University Press, USA In 1987, the United States Supreme Court decided a case that could have ended the death penalty in the United States. *Imprisoned by the Past: Warren McCleskey and the American Death Penalty* examines the long history of the American death penalty and its connection to the case of Warren McCleskey, revealing how that case marked a turning point for the history of the death penalty. In this book, Jeffrey L. Kirchmeier explores one of the most important Supreme Court cases in history, a case that raised important questions about race and punishment, and ultimately changed the way we understand the death penalty today. McCleskey's case resulted in one of the most important Supreme Court decisions in U.S. history, where the Court confronted evidence of racial discrimination in the administration of capital punishment. The case currently marks the last time that the Supreme Court had a realistic chance of completely striking down capital punishment. As such, the case also marked a turning point in the death penalty debate in the country. Going back nearly four centuries, this book connects McCleskey's life and crime to the issues that have haunted the American death penalty debate since the first executions by early settlers through the modern twenty-first century death penalty. *Imprisoned by the Past* ties together three unique American stories. First, the book considers the changing American death penalty across centuries where drastic changes have occurred in the last fifty years. Second, the book discusses the role that race played in that history. And third, the book tells the story of Warren McCleskey and how his life and legal case brought together the other two narratives.

THE NEW PUNITIVENESS

Routledge *Throughout much of the western world more and more people are being sent to prison, one of a number of changes inspired by a 'new punitiveness' in penal and political affairs. This book seeks to understand these developments, bringing together leading authorities in the field to provide a wide-ranging analysis of new penal trends, compare the development of differing patterns of punishment across different types of societies, and to provide a range of theoretical analyses and commentaries to help understand their significance. As well as increases in imprisonment this book is also concerned to address a number of other aspects of 'the new punitiveness': firstly, the return of a number of forms of punishment previously thought extinct or inappropriate, such as the return of shaming punishments and chain gangs (in parts of the USA); and secondly, the increasing public involvement in penal affairs and penal development, for example in relation to length of sentences and the California Three Strikes Law, and a growing accreditation of the rights of victims. The book will be essential reading for students*

seeking to understand trends and theories of punishment on law, criminology, penology and other courses.

CAPITAL PUNISHMENT

A HAZARD TO A SUSTAINABLE CRIMINAL JUSTICE SYSTEM?

Routledge *As most jurisdictions move away from the death penalty, some remain strongly committed to it, while others hold on to it but use it sparingly. This volume seeks to understand why, by examining the death penalty's relationship to state governance in the past and present. It also examines how international, transnational and national forces intersect in order to understand the possibilities of future death penalty abolition. The chapters cover the USA - the only western democracy that still uses the death penalty - and Asia - the site of some 90 per cent of all executions. Also included are discussions of the death penalty in Islam and its practice in selected Muslim majority countries. There is also a comparative chapter departing from the response to the mass killings in Norway in 2011. Leading experts in law, criminology and human rights combine theory and empirical research to further our understanding of the relationships between ways of governance, the role of leadership and the death penalty practices. This book questions whether the death penalty in and of itself is a hazard to a sustainable development of criminal justice. It is an invaluable resource for all those researching and campaigning for the global abolition of capital punishment.*

PROOF OF GUILT

**BARBARA GRAHAM AND THE POLITICS OF EXECUTING WOMEN IN
AMERICA**

U of Nebraska Press *Barbara Graham might have been a diabolical dame in a hard-boiled detective story--beautiful, sexy, and deadly. Charged alongside two male friends in the murder of an elderly widow during a botched robbery attempt, "Bloody Babs" became the third woman executed in California--after a 1953 trial that played out before standing-room-only crowds captured the imaginations of journalists, filmmakers, and death penalty opponents. Why, Kathleen A. Cairns asks, of all the capital cases in the twentieth century, did Graham's have such political resonance and staying power? Leaving aside the question of guilt or innocence--debated to this day--Cairns examines how Graham's case became a touchstone in the ongoing debate over capital punishment. While prosecutors positioned the accused woman as a femme fatale, the media came to offer a counternarrative for Graham's life highlighting her abusive and lonely beginnings. Cairns shows how Graham's case became crucial to the abolitionists of the time, who used instances of questionable guilt to raise awareness of the arbitrary and capricious nature of death penalty prosecutions. Critical in keeping capital punishment in the forefront of public consciousness until abolitionists homed in on a winning strategy, Graham's case illustrates the power of individual stories to shape wider perceptions and ultimately public policies.*

LIVING AND DYING ON DEATH ROW IN AMERICA

Univ of North Carolina Press *In this stark and powerful book, Bruce Jackson and Diane Christian explore life on Death Row in Texas and in other states, as well as the convoluted and arbitrary judicial processes that populate all Death Rows. They document the capriciousness of capital punishment and capture the day-to-day experiences of Death Row inmates in the official "nonperiod" between sentencing and execution. In the first section, "Pictures," ninety-two photographs taken during their fieldwork for the book and documentary film Death Row illustrate life on cell block J in Ellis Unit of the Texas Department of Corrections. The second section, "Words," further reveals the world of Death Row prisoners and offers an unflinching commentary on the judicial system and the fates of the men they met on the Row. The third section, "Working," addresses profound moral and ethical issues the authors have encountered throughout their careers documenting the Row. Included in this enhanced ebook edition is Jackson and Christian's 1979 documentary film, Death Row.*
