Book Excerpt: ...erk's room, at the offices of James and Walter How, on a July morning. The room is old fashioned, furnished with well-worn mahogany and leather, and lined with tin boxes and estate plans. It has three doors. Two of them are close together in the centre of a wall. One of these two doors leads to the outer office, which is only divided from the managing clerk's room by a partition of wood and clear glass; and when the door into this outer office is opened there can be seen the wide outer door leading out on to the stone stairway of the building. The other of these two centre doors leads to the junior clerk's room. The third door is that leading to the partners' room. The managing clerk, COKESON, is sitting at his table adding up figures in a pass-book, and murmuring their numbers to himself. He is a man of sixty, wearing spectacles; rather short, with a bald head, and an honest, pugdog face. He is dressed in a well-worn black frock-coat and pepper-and-salt trousers. COKESON. And five's twelve, and..

Banking Law and Practice, 4th Edition

Comparative Criminal Procedure

Edward Elgar Publishing This Handbook presents innovative research that compares different criminal procedure systems by focusing on the mechanisms by which legal systems seek to avoid error, protect rights, ground their legitimacy, expand lay participation in the criminal process and develop alternatives to criminal trials, such as plea bargaining, as well as alternatives to the criminal process as a whole, such as intelligence operations. The criminal procedures examined in this book include those of the United States, Germany, France, Spain, Russia, India, Latin America, Taiwan and Japan, among others.

Salmond on Jurisprudence

The Sources of International Law

Oxford University Press The question of what is, and what is not, part of international law is of course fundamental. Traditionally, treaties between states and custom (state practice) have been seen as the primary means by which international law is created. These two sources, along with the "general principles of law", are specified in the Statute of the International Court of Justice (Article 38), and this text has long been treated as generally authoritative. However, whether this is still an adequate definition of the sources of international law, and how they may operate in modern international society, has been questioned in significant ways. Taking Article 38 ICJ Statute as starting-point, this book provides a careful assessment of all the recognised, or asserted, sources of international law. Among the issues considered are: the impact of ethical principles on the creation of international law; the existence of peremptory norms (those of jus cogens), and whether they come into being through the same sources as other norms; the place of these, and of norms involving rights and obligations erga omnes, in the operation of international legal relationships; the definition and role of "general principles of law"; whether any of international law's sub-disciplines involve the application of additional sources; and the continuously evolving relationship between treaty-based law and customary international law. Re-examining the traditional model, the

work takes account of the increasing role of international jurisprudence, and looks at international organisations and non-state actors as potential new sources of international law. The book provides a perfect introduction to the law of sources, as well as innovative perspectives on new developments, making it essential reading for anyone studying or working in any field of international law.

Tort Law Directions

Oxford University Press Tort Law Directions is written in an engaging and lively manner with an emphasis on explaining the key topics covered on tort law courses with clarity. The book includes helpful learning features to guide students through the material in an interesting and interactive way.

The Smell of War

Lessons from the Battlefield

Roland Bartetzko is a former soldier with the German Army, the Kosovo Liberation Army, and Croatian Defense Council and took part in extensive engagements during the conflicts in the Balkans. These are his memories of dangerous, deadly, and sometimes funny times. It is the true story of what the war was like in Bosnia and in Kosovo. Combined with the stories are his 'observations' about the military tactics that were applied in these conflicts. They provide practical advice for soldiers and civilians on how to survive in a war zone.

Make Your Story a Movie

Adapting Your Book or Idea for Hollywood

St. Martin's Griffin \$50 Billion of Advice in One Book Have you ever wondered why some books and stories are adapted into movies, and others aren't? Or wished you could sit down and pick the brains of the people whose stories have been adapted--or the screenwriters, producers, and directors who adapted them? Author John Robert Marlow has done it for you. He spoke to book authors, playwrights, comic book creators and publishers, as well as Hollywood screenwriters, producers and directors responsible for adapting fictional and true stories into Emmy-winning TV shows, Oscar-winning films, billion-dollar megahits and smaller independents. Then he talked to the entertainment attorneys who made the deals. He came away with a unique understanding of adaptations--an understanding he shares in this book: which stories make good source material (and why); what Hollywood wants (and doesn't); what you can (and can't) get in a movie deal; how to write and pitch your story to maximize the chances of a Hollywood adaptation--and how much (and when) you can expect to be paid. *This book contains the distilled experience of creators, storytellers and others whose works have earned over \$50 billion worldwide. Whether you're looking to sell film rights, adapt your own story (alone or with help), or option and adapt someone else's property--this book is for you.*

EU Foreign Investment Law

Oxford University Press Regulation of foreign investment is one of the most topical and controversial subjects in EU law and international investment law. This book examines the legal foundations upon which EU investment policy is based, addressing the legal, practical, and political concerns created by the establishment of a common investment policy.

Economic Development of Underdeveloped Countries

The Subject of Human Rights

Stanford University Press *The Subject of Human Rights* is the first book to systematically address the "human" part of "human rights." Drawing on the finest thinking in political theory, cultural studies, history, law, anthropology, and literary studies, this volume examines how human rights—as discourse, law, and practice—shape how we understand humanity and human beings. It asks how the humanness that the human rights idea seeks to protect and promote is experienced. The essays in this volume consider how human rights norms and practices affect the way we relate to ourselves, to other people, and to the nonhuman world. They investigate what kinds of institutions and actors are subjected to human rights and are charged with respecting their demands and realizing their aspirations. And they explore how human rights shape and even create the very subjects they seek to protect. Through critical reflection on these issues, *The Subject of Human Rights* suggests ways in which we might reimagine the relationship between human rights and subjectivity with a view to benefiting human rights and subjects alike.

The Task of Law

Law and Economics in India

Understanding and practice

Taylor & Francis This is one of the first volumes that uses economic tools to analyse and evaluate law and policy in India. Applying economic theories such as incentive analysis, cost-benefit studies, and game theory, the essays in the volume negotiate contentious issues in law including property, contracts, torts, nuclear liability regime, bankruptcy law, criminal law and procedure, constitutional law, administrative law, environmental law, and family law. A radical take on commercial and socio-legal issues in India, this book will greatly interest scholars and researchers of law, political economy, and public policy.

Untold Ghost Stories of Singapore

Vol. 2

Hindu Law (Classic Reprint)

Forgotten Books Excerpt from Hindu Law Ix preparing the present edition of what was originally called Elements of Hindu law, the author has no acknowledgments to make, in any quarter, for assistance, or suggestion; though invitation, and even solicitation, on his part, has not been wanting; as, independent of other reference, appears by the concluding paragraph of the Pre face to the first. In this respect, the author has been careful not to be deficient in his duty. In a work of the kind, it was imperative. Conscious how ungrateful is the subject - bowing to the almost universal indifference as to what regards India, further than as our own direct interests are involved, the author is not disappointed, - not having been sanguine in his expectations -and the' failure of all encouragement of the sort, in the progress of such preparation, will have had no other effect, than that of stimulating his care and diligence, toward attaining his object, in the culti vation of his own resources. The principal change in the present edition is in the arrangement of the matter; producing a different succes sion of chapters, with a reduction of them from thirteen to twelve. This has occasioned parts to be written over again. With considerable alteration; and these so incorporated and connected with the composition, as it originally stood, that, in justice to the purchasers and possessorsrhi preface. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. The Indian Constitution Cornerstone of a Nation Interpretation of Statutes Why Catholic Bibles Are Bigger Revised Second Edition

*Catholic Answers Press Some differences between Catholicism and Protestantism can be tricky to grasp, but one of them just requires the ability to count: Catholic bibles have seventy-three books, whereas Protestant bibles have sixty-six - plus an appendix with the strange title Apocrypha. What's the story here? Protestants claim that the medieval Catholic Church added six extra books that had never been considered part of the Old Testament, either by Jews or early Christians. Catholics say that the Protestant Reformers removed those books, long considered part of Sacred Scripture, because they didn't like what they contained. In *Why Catholic Bibles Are Bigger*, Gary Michuta presents a revised and expanded version of his authoritative work on this key issue. Combing the historical record from pre-Christian times to the Patristic era to the Reformation and its aftermath, he traces the canon controversy through the writings and actions of its major players.*
