Montlake Romance Life turns upside down for two sisters in Wall Street Journal bestselling author Jamie Beck's emotional novel about how secrets and differences can break--or bind--a family. Sisters Amanda Foster and Erin Turner have little in common except the childhood bedroom they once shared and the certainty each feels that her way of life is best. Amanda follows the rules--at the school where she works; in her community; and as a picture-perfect daughter, wife, and mother-to-be. Erin follows her heart--in love and otherwise--living a bohemian lifestyle on a shoestring budget and honoring her late father's memory with a passion for music and her fledgling bath-products business. The sisters are content leading separate but happy lives in their hometown of Potomac Point until everything is upended by lies that force them to confront unsettling truths about their family, themselves, and each other. For sisters as different as these two, building trust doesn't come easily--especially with one secret still between them--but it may be the only way to save their family.

APPROPRIATE

THE HOUSES OF JOSEPH ESHERICK

William K Stout Pub Joseph Esherick was arguably the foremost San Francisco architect from the 1960s until his death in the late 1990s, following in the wake of William Wurster. Esherick established his own practice in the late 1940s and the firm produced a continuous stream of laudable buildings, among them houses appropriate to their site and times. Affected less by national and international fashion than by the exigencies of local climate, social demands, and suitable technology, Esherick produced a large number of truly classic residences.

AMERICAN RUST

Simon and Schuster Set in a beautiful but dying Pennsylvania steel town, American Rust is a novel of the lost American dream and the desperation that arises from its loss. It is the story of two young men bound to the town by family, responsibility, inertia and the beauty around them who dream of a future beyond the factories, abandoned homes, and the polluted river. Isaac is the smartest kid in town, left behind to care for his sick father after his mother commits suicide and his sister Lee moves away. Now Isaac wants out too. Not even his best friend, Billy Poe, can stand in his way: broad-shouldered Billy, always ready for a fight, still living in his mother's trailer. Then, on the very day of Isaac's leaving, something happens that changes the friends' fates and tests the loyalties of their friendship and those of their lovers, families, and the town itself. Evoking John Steinbeck's novels of restless lives during the Great Depression, American Rust is an extraordinarily moving novel about the bleak realities that battle our desire for transcendence, and the power of love and friendship to redeem us.

But other parties now know about the notebook, and will do anything to obtain it. For Ben and his friends, it becomes a race against time and against ruthless rivals. AFFECTIVE HEALTH AND MASCULINITIES IN SOUTH AFRICA

AN ETHNOGRAPHY OF (IN)VULNERABILITY

Routledge Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.
