**Managing the Risks of Extreme Events and Disasters to Advance Climate Change Adaptation Special Report of the Intergovernmental Panel on Climate Change** Cambridge University Press This Intergovernmental Panel on Climate Change Special Report (IPCC-SREX) explores the challenge of understanding and managing the risks of climate extremes to advance climate change adaptation. Extreme weather and climate events, interacting with exposed and vulnerable human and natural systems, can lead to disasters. Changes in the frequency and severity of the physical events affect disaster risk, but so do the spatially diverse and temporally dynamic patterns of exposure and vulnerability. Some types of extreme weather and climate events have increased in frequency or magnitude, but populations and assets at risk have also increased, with consequences for disaster risk. Opportunities for managing risks of weather- and climate-related disasters exist or can be developed at any scale, local to international. Prepared following strict IPCC procedures, SREX is an invaluable assessment for anyone interested in climate extremes, environmental disasters and adaptation to climate change, including policymakers, the private sector and academic researchers. **How Will You Measure Your Life? (Harvard Business Review Classics)** Harvard Business Review Press In the spring of 2010, Harvard Business School's graduating class asked HBS professor Clay Christensen to address them—but not on how to apply his principles and thinking to their post-HBS careers. The students wanted to know how to apply his wisdom to their personal lives. He shared with them a set of guidelines that have helped him find meaning in his own life, which led to this now-classic article. Although Christensen's thinking is rooted in his deep religious faith, these are strategies anyone can use. Since 1922, Harvard Business Review has been a leading source of breakthrough ideas in management practice. The Harvard Business Review Classics series now offers you the opportunity to make these seminal pieces a part of your permanent management library. Each highly readable volume contains a groundbreaking idea that continues to shape best practices and inspire countless managers around the world. **Lonely No More: A Woman's Journey to Personal, Marital and Spiritual Healing** [ Mainstay Ministries Lonely No More looks those lies finally in the eye and begins to deal with them honestly. "If my marriage is as perfect as I say it is, why am I so lonely?" "What are these dreams, these painful emotions, these attractions pointing to?" This book was extremely controversial in certain sections of ultra-conservative Christianity so I warn you, read it carefully. I stand behind every word, despite the controversy. It may even shake the ground beneath your feet. I will probably never write anything this well again. But I have certainly paid for the effort to be excellent, to be lovingly truthful, to want God. Covers age 45-52. **Hide and Seek** Montlake Romance She's hunting. He's watching. Special Agent Macy Crow is a survivor. After a vicious hit-and-run nearly kills her, she gets right back to work, and now she's gunning for a spot on the FBI's elite profiling team. As an audition, she offers to investigate the recently discovered bones of Tobi Turner, a high school girl who disappeared fifteen years ago. While investigating with local sheriff Mike Nevada, a former colleague and onetime lover, Macy discovers a link between Tobi's case and several others that occurred around the same time as her disappearance. As Macy interviews victims and examines old cases, she uncovers a sinister picture of a stalker who graduated to sexual assault--and then murder. Macy and Nevada race to put this monster behind bars before he can come out of hiding. But the murderer's had years to hone his skills, and soon Macy herself becomes a target. She's no stranger to pain and terror, but will Macy's first profiling case be her last? **Strange Virtues Ethics in a Multicultural World** InterVarsity Press Theologian and veteran missionary Bernard Adeney addresses in-depth what may be the stickiest crosscultural communication problem of our day: differing approaches to morality. In this comprehensive treatment, he considers ethics across cultures, addresses the ethical import of other religions and gender relations, explores how the Bible and culture interact to produce ethical stances, and includes particular case studies. Strange Virtues will benefit not only missionaries, ethicists and students, but all Christians who want to better understand their neighbors here at home. **Clinical Pharmacy and Therapeutics** A practical guide for the treatment of common diseases, this updated edition includes the very latest information. It covers the treatment of disease by drug therapy and uses case studies to illustrate the application of the principles discussed **Welfare in America Christian Perspectives on a Policy in Crisis** Wm. B. Eerdmans Publishing Discusses the current issue of welfare reform and shares views on what the church's position should be. **A Year with Swollen**

**Appendices Brian Eno's Diary** Faber & Faber The diary and essays of Brian Eno republished twenty-five years on with a new introduction by the artist in a beautiful hardback edition. 'A cranium tour of one of the most creative minds of our age . . . [Eno] delivers razor-sharp commentary with devilish snarkiness and brutal honesty.' Wired At the end of 1994, Brian Eno resolved to keep a diary. His plans to go to the cinema, theatre and galleries fell quickly to the wayside. What he did do - and write - however, was astonishing: ruminations on his collaborative work with David Bowie, U2, James and Jah Wobble, interspersed with correspondence and essays dating back to 1978. These 'appendices' covered topics from the generative and ambient music Eno pioneered to what he believed the role of an artist and their art to be, alongside adroit commentary on quotidian tribulations and happenings around the world. An intimate insight into one of the most influential creative artists of our time, A Year with Swollen Appendices is an essential classic. **Mindfreak Secret Revelations** Harper Collins The hottest magician in years takes us behind-the-scenes of his hit A&E show and offers secret tips to 25 illusions you won't see anywhere else. Criss Angel is poised to take the magic world by storm. He had his first 1-hour special on ABC in '01, headlined Madison Square Garden's annual Halloween special a year later to an audience of 60,000, performed in front of 75,000 people in Times Square, had two subsequent 1-hour specials on the Sci-Fi channel, he's received countless magician awards, and he currently has a groundbreaking show on A&E called CRISS ANGEL MINDFREAK, the first weekly magic show in over 40 years, that consistently wins its timeslot. MINDFREAK - the book - will be an extension of the show, which uses a specific topic each week - like 'Buried Alive', 'Bullet Catch', 'Building Walk', or 'Levitation' - to delve into the history of each subject, and see if Criss can't break new ground by doing something no one has done before. We are also going to try and include secrets in the book - clues to be dissected by readers - that relate back to magic he will perform on the show, where the book will be heavily promoted. **Hacker, Hoaxer, Whistleblower, Spy The Many Faces of Anonymous** Verso Books Here is the ultimate book on the worldwide movement of hackers, pranksters, and activists that operates under the non-name Anonymous, by the writer the Huffington Post says "knows all of Anonymous' deepest, darkest secrets." Half a dozen years ago, anthropologist Gabriella Coleman set out to study the rise of this global phenomenon just as some of its members were turning to political protest and dangerous disruption (before Anonymous shot to fame as a key player in the battles over WikiLeaks, the Arab Spring, and Occupy Wall Street). She ended up becoming so closely connected to Anonymous that the tricky story of her inside-outside status as Anon confidante, interpreter, and erstwhile mouthpiece forms one of the themes of this witty and entirely engrossing book. The narrative brims with details unearthed from within a notoriously mysterious subculture, whose semi-legendary tricksters—such as Topiary, tflow, Anachaos, and Sabu—emerge as complex, diverse, politically and culturally sophisticated people. Propelled by years of chats and encounters with a multitude of hackers, including imprisoned activist Jeremy Hammond and the double agent who helped put him away, Hector Monsegur, Hacker, Hoaxer, Whistleblower, Spy is filled with insights into the meaning of digital activism and little understood facets of culture in the Internet age, including the history of "trolling," the ethics and metaphysics of hacking, and the origins and manifold meanings of "the lulz." **Cosmeceuticals and Active Cosmetics** CRC Press Cosmeceuticals and Active Cosmetics discusses the science of nearly two dozen cosmeceuticals used today. This third edition provides ample evidence on specific cosmeceutical substances, their classes of use, skin conditions for which they are used, and points of interest arising from other considerations, such as toxicology and manufacturing. The book discusses both cosmetic and therapeutic uses of cosmeceuticals for various conditions including rosacea, dry skin, alopecia, eczema, seborrheic dermatitis, purpura, and vitiligo. Active ingredients in the following products are discussed: caffeine, curcumin, green tea, Rhodiola rosea, milk thistle, and more. Also covered are topical peptides and proteins, amino acids and derivatives, antioxidants, vitamins E and C, niacinamide, botanical extracts, and biomarine actives. Providing ample scientific references, this book is an excellent guide to understanding the science behind the use of cosmeceuticals to treat a variety of dermatological conditions. **I Am Aspien Woman The Unique Characteristics, Traits, and Gifts of Adult Females on the Autism Spectrum** Have you ever wondered about a friend, a partner, a mother, sister or daughter? Wondered why she says she feels 'different'? Maybe she is a woman on the Autism spectrum, with a unique constellation of super-abilities, strengths and challenges? **Peter Salter Walmer Yard** Circa Peter Salter is an architect and teacher (at the Architectural Association, the University of East London, the University of Bath, and the Welsh School of Architecture) whose work has influenced several generations of students. Walmer Yard, in Notting Hill, is his first residential project in the UK and one of only a small number of buildings he has completed worldwide. Although modest in scale, the project is extraordinary in many ways. On an irregularly shaped site, Salter's design brings four houses into a complex relationship with each other, half-formal, half-familiar, interdependent yet solitary. Similarly, the relations among the core team who developed the design are more nuanced than in most architectural projects, since they all met at the Architectural Association in Peter Salter's unit, where Crispin Kelly (the client) and Fenella Collingridge (Peter's current collaborator) were student contemporaries. This book documents the project with Peter Salter's original pen-and-ink drawings and Home Binet's extraordinary photographs. **Launch! Advertising and Promotion in Real Time** Flat World Knowledge **Making and Being Embodiment, Collaboration, and Circulation in the Visual Arts** "Making and Being draws on the lived experience of Susan Jahoda and Caroline Woolard, visual arts educators who have developed a framework for teaching art with the collective BFAMDAPhD that emphasizes contemplation, collaboration, and political economy. The authors share ideas and pedagogical strategies that they have adapted to spaces of learning which reange widely, from self-organized workshops for professional artists to Foundations BFA and MFA thesis classes. This hands-on guide includes activities, worksheets, and assignments and is a critical resource for artists and art educator's today"--Page 4 of cover. **Leadership Roles and Management Functions in Nursing Theory and Application** **Grunge Is Dead The Oral History of Seattle Rock Music** ECW Press Grunge Is Dead weaves together the definitive story of the Seattle music scene through a series of interviews with the people who were there. Taking the form of an "oral" history, this books contains over 130 interviews, along with essential background information from acclaimed music writer Greg Prato. The early '90s grunge movement may have last only a few years, but it spawned some of the greatest rock music of all time: Pearl Jam, Nirvana, Alice in Chains, and Soundgarden. This book contains the first-ever interview in which Pearl Jam's Eddie Vedder was willing to discuss the group's history in great detail; Alice in Chains' band members and Layne Staley's mom on Staley's drug addiction and death; insights into the Riot Grrrl movement and oft-overlooked but highly influential Seattle bands like Mother Love Bone/Andy Wood, the Melvins, Screaming Trees, and Mudhoney; and much more. Grunge Is Dead digs deeper than

the average grunge history, starting in the early '60s, and explaining the chain of events that gave way to the grunge movement. The end result is a book that includes a wealth of previously untold stories and insight for the longtime fan, as well as its renowned story for the newcomer. Grunge Is Dead collects the whole truth of grunge music in one comprehensive volume. **The Ampleforth Journal I Am Aspiengirl The Unique Characteristics, Traits and Gifts of Females on the Autism Spectrum** Aspiengirl(r) Have you ever wondered why she says she feels different to her peers? Wondered why life seems challenging for her? Her peers seem to gracefully and naturally meet their milestones, yet she has reached some developmental milestones early and some late. She may have spoken and read early, asking an endless array of questions. Maybe at age four she was teaching herself to read as you drove down the road by reading street signs. She may have been an overly active child, had sensory issues, or had a speech delay. You knew she was bright from early on, with a sprinkle of some anxiety, social and eating issues, yet the professionals just cannot find an explanation that completely fits her. She may be very artistic, whether she sings, draws, paints, or writes, at times, too mature for her age. Yet, she struggles socially and emotionally, acting and appearing younger than her peers. She may be ten years old now, yet none of your research completely fits her or maybe you have just now come across some information on females that completely makes sense to you. Maybe she is "Aspien," a young female with Asperger Syndrome or High-Functioning Autism. She has a unique constellation of super-abilities, strengths and challenges. She may feel or say that she is from another Planet, Planet Aspien(r). If you are looking for a book on the often perplexing and unique female Autism Spectrum traits, then this is the book for you. Watch for "I am AspienWoman," coming soon. **The Architecture of Ruins Designs on the Past, Present and Future** Routledge The Architecture of Ruins: Designs on the Past, Present and Future identifies an alternative and significant history of architecture from the sixteenth century to the twenty-first century, in which a building is designed, occupied and imagined as a ruin. This design practice conceives a monument and a ruin as creative, interdependent and simultaneous themes within a single building dialectic, addressing temporal and environmental questions in poetic, psychological and practical terms, and stimulating questions of personal and national identity, nature and culture, weather and climate, permanence and impermanence and life and death. Conceiving a building as a dialogue between a monument and a ruin intensifies the already blurred relations between the unfinished and the ruined and envisages the past, the present and the future in a single architecture. Structured around a collection of biographies, this book conceives a monument and a ruin as metaphors for a life and means to negotiate between a self and a society. Emphasising the interconnections between designers and the particular ways in which later architects learned from earlier ones, the chapters investigate an evolving, interdisciplinary design practice to show the relevance of historical understanding to design. Like a history, a design is a reinterpretation of the past that is meaningful to the present. Equally, a design is equivalent to a fiction, convincing users to suspend disbelief. We expect a history or a novel to be written in words, but they can also be delineated in drawing, cast in concrete or seeded in soil. The architect is a 'physical novelist' as well as a 'physical historian'. Like building sites, ruins are full of potential. In revealing not only what is lost, but also what is incomplete, a ruin suggests the future as well as the past. As a stimulus to the imagination, a ruin's incomplete and broken forms expand architecture's allegorical and metaphorical capacity, indicating that a building can remain unfinished, literally and in the imagination, focusing attention on the creativity of users as well as architects. Emphasising the symbiotic relations between nature and culture, a building designed, occupied and imagined as a ruin acknowledges the coproduction of multiple authors, whether human, non-human or atmospheric, and is an appropriate model for architecture in an era of increasing climate change. **Victims of Political Violence and Terrorism Making Up Resilient Survivors** Routledge This book examines the survivors of political violence and terrorism, considering both how they have responded and how they have been responded to following critical incidents. As this work demonstrates, survivors of comparatively rare and spectacular violence hold a mirror up to society's normative assumptions around trauma, recovery and resilience. Drawing on two years of observational field research with a British NGO who works with victims and former perpetrators of PVT, this book explores contested notions of 'resilience' and what it might mean for those negotiating the aftermaths of violence. Examining knowledge about resilience from a multitude of sources, including security policy, media, academic literature and the survivors themselves, this book contends that in order to make empirical sense of resilience we must reckon with both its discursive and practical manifestations. An accessible and compelling read, this book will appeal to students and scholars of criminology, sociology, victimology, criminal justice and all those interested in the stories of survivors. **Cinema Studies: The Key Concepts** Routledge In this second edition essential guide some 150 key genres, movements, theories and production terms are explained and analysed with depth and clarity. **Reassembling Scholarly Communications Histories, Infrastructures, and Global Politics of Open Access** MIT Press A range of perspectives on the complex political, philosophical, and pragmatic implications of opening research and scholarship through digital technologies. The Open Access Movement proposes to remove price and permission barriers for accessing peer-reviewed research work--to use the power of the internet to duplicate material at an infinitesimal cost-per-copy. In this volume, contributors show that open access does not exist in a technological vacuum; there are complex political, philosophical, and pragmatic implications for opening research through digital technologies. The contributors examine open access across spans of colonial legacies, knowledge frameworks, publics and politics, archives and digital preservation, infrastructures and platforms, and global communities. **From Stoke Mandeville to Stratford A History of the Summer Paralympic Games** Common Ground Publishing As Aristotle once said, "If you would understand anything, observe its beginning and its development." When Dr Ian Brittain started researching the history of the Paralympic Games after beginning his PhD studies in 1999, it quickly became clear that there was no clear or comprehensive source of information about the Paralympic Games or Great Britain's participation in the Games. This book is an attempt to document the history of the summer Paralympic Games and present it in one accessible and easy-to-read volume. From the outset, it should be made very clear that this book is not meant to be an academic text. It has always been the author's intention that it should be a resource for anyone with an interest in the Paralympic Games, their history, or Great Britain's participation in the Games. Through twelve years of research, the author has brought together all of the facts, figures, and interesting stories that have occurred in the development of the summer Games--from their roots at Stoke Mandeville Hospital in the United Kingdom to the global mega-event they have become today. This is the first publication to include images of posters, winner's medals, and other artefacts connected with the Games--some of which have never been seen in print. Every endeavour has been made to include all relevant information, and this text serves as an ideal

starting point from which future researchers and historians may begin. As we have noticed recently with the increased documentation of Olympic history, it is the author's hope that this text will inspire others to contribute to a more complete history of the Paralympic Games. A more complete history may lead to a better understanding of the importance of the Paralympic Games and their impact upon the lives of people with disabilities.

**Zen Sand The Book of Capping Phrases for Koan Practice** University of Hawaii Press Zen Sand is a classic collection of verses aimed at aiding practitioners of kōan meditation to negotiate the difficult relationship between insight and language. As such it represents a major contribution to both Western Zen practice and English-language Zen scholarship. In Japan the traditional Rinzai Zen kōan curriculum includes the use of jakugo, or "capping phrases." Once a monk has successfully replied to a kōan, the Zen master orders the search for a classical verse to express the monk's insight into the kōan. Special collections of these jakugo were compiled as handbooks to aid in that search. Until now, Zen students in the West, lacking this important resource, have been severely limited in carrying out this practice. Zen Sand combines and translates two standard jakugo handbooks and opens the way for incorporating this important tradition fully into Western Zen practice. For the scholar, Zen Sand provides a detailed description of the jakugo practice and its place in the overall kōan curriculum, as well as a brief history of the Zen phrase book. This volume also contributes to the understanding of East Asian culture in a broader sense.

**Not for You Pearl Jam and the Present Tense** Bloomsbury Publishing USA There has never been a band like Pearl Jam. The Seattle quintet has recorded eleven studio albums; sold some 85 million records; played over a thousand shows, in fifty countries; and had five different albums reach number one. But Pearl Jam's story is about much more than music. Through resilience, integrity, and sheer force of will, they transcended several eras, and shaped the way a whole generation thought about art, entertainment, and commerce. Not for You: Pearl Jam and the Present Tense is the first full-length biography of America's preeminent band, from Ten to Gigaton. A study of their role in history – from Operation Desert Storm to the Dixie Chicks; "Jeremy" to Columbine; Kurt Cobain to Chris Cornell; Ticketmaster to Trump – Not for You explores the band's origins and evolution over thirty years of American culture. It starts with their founding, and the eruption of grunge, in 1991; continues through their golden age (Vs., Vitalogy, No Code, and Yield); their middle period (Binaural, Riot Act); and the more divisive recent catalog. Along the way, it considers the band's activism, idealism, and impact, from "W.M.A." to the Battle of Seattle and Body of War. More than the first critical study, Not for You is a tribute to a famously obsessive fan base, in the spirit of Nick Hornby's Fever Pitch. It's an old-fashioned – if, at times, ambivalent – appreciation; a reflection on pleasure, fandom, and guilt; and an essay on the nature of adolescence, nostalgia, and adulthood. Partly social history, partly autobiography, and entirely outspoken, discursive, and droll, Not for You is the first full-length treatment of Pearl Jam's odyssey and importance in the culture, from the '90s to the present.

**The Origin and Evolution of New Businesses** Oxford University Press Few would deny the crucial role that entrepreneurs play in our increasingly global economy-but exactly what is this vital, yet loosely defined business force we call the entrepreneurial spirit? This landmark study is the first to examine analytically the nature of the opportunities that entrepreneurs pursue, the problems they face, the traits they require, and the social and economic contributions they make. Until recently, entrepreneurs have been largely ignored in modern economic theory. But at the dawn of a networked age, marked by the advent of e-business and the home office, there's no question that entrepreneurs have recaptured the popular imagination. Studies now show that most men and women dream of starting their own businesses rather than rising through the corporate ranks. Yet in spite of increased attention by many of today's leading business schools, entrepreneurship has remained largely a mystery, an apparently intuitive sense of values possessed by certain individuals.; This book targets the issues central to successful start-up ventures, such as endowments and opportunities, planning versus adaptation, securing resources, corporate initiatives, venture capital, revolutionary ventures and the evolution of fledgling businesses. Focusing on hard data and evaluations of numerous start-up businesses, including many of today's major industry leaders, this book presents a new economic model-a key to understanding the guts, determination, luck and skills that constitute the underpinnings of corporate success. Written in clear, concise prose, The Origin and Evolution of New Businesses goes behind the charts and graphs of business theory to the true heart of success. It is essential reading for business students, would-be entrepreneurs, or executives wanting to incorporate the vitality of the entrepreneurial spirit into their organization.

**The Disinformation Age Politics, Technology, and Disruptive Communication in the United States** Cambridge University Press This book shows how disinformation spread by partisan organizations and media platforms undermines institutional legitimacy on which authoritative information depends.

**Life in the Studio Inspiration and Lessons on Creativity** Artisan A handbook for leading a creatively fulfilling life, from renowned potter Frances Palmer.

**Sleepwalk with Me And Other Painfully True Stories** Simon and Schuster In a tie-in to a one-man show that will be touring the United States in Fall 2010, a comedian offers a charming, funny memoir about first love, denial, sleepwalking and the perils and pitfalls of being ... himself.

**The Definitive Book Of Body Language** HarperCollins Australia From internationally renowned authors, Allan and Barbara Pease comes the worldwide bestseller The Definitive Book of Body Language. In this book they examine and explain in simple terms, each component of body language. Regardless of your vocation or position in life, you will be able to use it to obtain a better understanding of life's most complex event – a face-to-face encounter with another person. It will make you more aware of your own non-verbal cues and signals, and will show you how to use them to communicate effectively and obtain the reactions you want. You will also discover how to:

- Make a positive impression on others
- Interview and negotiate successfully
- Know if someone is available
- Bond quickly and encourage others to co-operate
- Make yourself likeable and approachable
- Tell if someone is lying
- Read between the lines of what is said
- Recognise love-signs and power-plays

This book will enable you to use body language to read others – and get what you want!

**Essentials of Negotiation**

**The MIT Encyclopedia of the Cognitive Sciences (MITECS)** MIT Press Since the 1970s the cognitive sciences have offered multidisciplinary ways of understanding the mind and cognition. The MIT Encyclopedia of the Cognitive Sciences (MITECS) is a landmark, comprehensive reference work that represents the methodological and theoretical diversity of this changing field. At the core of the encyclopedia are 471 concise entries, from Acquisition and Adaptationism to Wundt and X-bar Theory. Each article, written by a leading researcher in the field, provides an accessible introduction to an important concept in the cognitive sciences, as well as references or further readings. Six extended essays, which collectively serve as a roadmap to the articles, provide overviews of each of six major areas of cognitive science: Philosophy; Psychology; Neurosciences; Computational Intelligence; Linguistics and Language; and Culture, Cognition, and

Evolution. For both students and researchers, MITECS will be an indispensable guide to the current state of the cognitive sciences. **Best in Design** Interior Design magazine's 2021 compendium of the best architecture and design projects across genres, from workplace and hospitality to residential and institutional. **Clinical Psychology** Routledge Clinical Psychology, Third Edition offers an introduction to clinical psychology as it is operating on the ground – delivering clinical interventions, supervision, consultation, leadership, training and research, in rapidly changing health and care services. This new edition of Clinical Psychology brings together practitioners, researchers, and people who have used the services of clinical psychologists to explain how clinical psychologists work, the evidence that their work is based on, and how it can change peoples' lives for the better. The book explains the core principles of clinical practice, as well as outlining the role of a clinical psychologist within a healthcare team. It covers issues involved in working with children and families, adult mental health problems, people with disabilities and physical health issues, and the use of neuropsychology. In this fully revised third edition, every chapter has been brought up to date with developments in research and practice, and chapters have been added regarding the important fields of working with autistic people and working with people in forensic mental health services. Given the popularity of clinical psychology for many undergraduate and graduate students, the contents of this text have been designed around teaching and learning features that can be used as the basis for an intermediate or advanced-level course that will allow students to learn both breadth and depth about clinical psychology. **The Witch's Spellbook Enchantments, Incantations, and Rituals from Around the World** Fair Winds Press (MA) Originally published in 2015 as Spellcraft for a magical year. **Git-R-Done** Three Rivers Press One of America's most successful stand-up comics, Larry the Cable Guy shares his hilarious blue-collar reflections on life, love, his eccentric family, NASCAR, battle with the bulge, and other politically incorrect topics. Reprint. 100,000 first printing. **Advances in Human Factors and Ergonomics in Healthcare and Medical Devices Proceedings of the AHFE 2021 Virtual Conference on Human Factors and Ergonomics in Healthcare and Medical Devices, July 25-29, 2021, USA** Springer This book is concerned with human factors and ergonomics research and developments in the design and use of systems and devices for effective and safe healthcare delivery. It reports on approaches for improving healthcare devices so that they better fit to people's, including special population's needs. It also covers assistive devices aimed at reducing occupational risks of health professionals as well as innovative strategies for error reduction, and more effective training and education methods for healthcare workers and professionals. Equal emphasis is given to digital technologies and to physical, cognitive and organizational aspects, which are considered in an integrated manner, so as to facilitate a systemic approach for improving the quality and safety of healthcare service. The book also includes a special section dedicated to innovative strategies for assisting caregivers', patients', and people's needs during pandemic. Based on papers presented at the AHFE 2021 Conference on Human Factors and Ergonomics in Healthcare and Medical Devices, held virtually on 25-29 July, 2021, from USA, the book offers a timely reference guide to both researchers and healthcare professionals involved in the design of medical systems and managing healthcare settings, as well as to healthcare counselors and global health organizations. **Taking Up Space The Black Girl's Manifesto for Change** Random House 'Brilliant' CANDICE CARTY-WILLIAMS, author of QUEENIE 'Essential' BERNARDINE EVARISTO, author of GIRL, WOMAN, OTHER 'Hugely important' PAULA AKPAN \_\_\_\_\_ As a minority in a predominantly white institution, taking up space is an act of resistance. Recent Cambridge grads Chelsea and Ore experienced this first-hand, and wrote Taking Up Space as a guide and a manifesto for change. FOR BLACK GIRLS: Understand that your journey is unique. Use this book as a guide. Our wish for you is that you read this and feel empowered, comforted and validated in every emotion you experience, or decision that you make. FOR EVERYONE ELSE: We can only hope that reading this helps you to be a better friend, parent, sibling or teacher to black girls living through what we did. It's time we stepped away from seeing this as a problem that black people are charged with solving on their own. It's a collective effort. And everyone has a role to play. Featuring honest conversations with students past and present, Taking Up Space goes beyond the buzzwords of diversity and inclusion and explores what those words truly mean for young black girls today. \_\_\_\_\_ #Merky Books was set up by publishers Penguin Random House and Stormzy in June 2018 to find and publish the best writers of a new generation and to publish the stories that are not being heard. #Merky Books aims to open up the world of publishing, and this year has launched a New Writer's Prize and will soon be launching a #Merky Books traineeship. 'I know too many talented writers that don't always have an outlet or a means to get their work seen, and hopefully #Merky Books can now be a reference point for them to say "I can be an author", and for that to be a realistic and achievable goal... Reading and writing as a kid were integral to where I am today and I, from the bottom of my heart, cannot wait to hear your stories and get them out into the big wide world.' STORMZY **Organization Theory and Design An International Perspective** Organizing involves continuous challenges in the face of uncertainty and change. How is globalization impacting organizations? How will new strategies for a turbulent world affect organizational design? In this second edition of Organization Theory and Design, developed for students in the UK, Europe, the Middle East and Africa, respected academics Jonathan Murphy and Hugh Willmott continue to add an international perspective to Richard L. Daft's landmark text. Together they tackle these questions in a comprehensive, clear and accessible study of the subject.
