The Quest for Alpha

The Holy Grail of Investing

John Wiley & Sons *The final word on passive vs. active investing The debate on active investing-stock picking and market timing-versus passive investing-markets are highly efficient and almost impossible to outperform-has raged for decades. Which side is right? In The Quest for Alpha: The Holy Grail of Investing, author Larry E. Swedroe puts an end to the debate, proving once and for all that active investing is likely to prove futile as the associated expenses-costs, fees, and time spent analyzing individual stocks and the overall market-are likely to exceed any benefits gained. The book Presents research, data, and quotations that reveal it's extremely difficult to outperform the market Explains why investors should focus on asset allocation, fund construction, costs, tax efficiency, and the building of a globally diversified portfolio that minimizes, if not eliminates, the taking of idiosyncratic, uncompensated risks Other titles by Swedroe: The Only Guide to Alternative Investments You'll Ever*

Mall Maker

Victor Gruen, Architect of an American Dream

University of Pennsylvania Press *The shopping mall is both the most visible and the most contentious symbol of American prosperity. Despite their convenience, malls are routinely criticized for representing much that is wrong in America—sprawl, conspicuous consumption, the loss of regional character, and the decline of Mom and Pop stores. So ubiquitous are malls that most people would be surprised to learn that they are the brainchild of a single person, architect Victor Gruen. An immigrant from Austria who fled the Nazis in 1938, Gruen based his idea for the mall on an idealized America: the dream of concentrated shops that would benefit the businessperson as well as the consumer and that would foster a sense of shared community. Modernist Philip Johnson applauded Gruen for creating a true civic art and architecture that enriched Americans' daily lives, and for decades he received praise from luminaries such as Lewis Mumford, Winthrop Rockefeller, and Lady Bird Johnson. Yet, in the end, Gruen returned to Europe, thoroughly disillusioned with his American dream. In Mall Maker, the first biography of this visionary spirit, M. Jeffrey Hardwick relates Gruen's successes and failures—his work at the 1939 World's Fair, his makeover of New York's Fifth Avenue boutiques, his rejected plans for reworking entire communities, such as Fort Worth, Texas, and his crowning achievement, the enclosed shopping mall. Throughout Hardwick illuminates the dramatic shifts in American culture during the mid-twentieth century, notably the rise of suburbia and automobiles, the death of downtown, and the effect these changes had on American life. Gruen championed the redesign of suburbs and cities through giant shopping malls, earnestly believing that he was promoting an American ideal, the ability to build a community. Yet, as malls began covering the landscape and downtowns became more depressed, Gruen became painfully aware that his dream of overcoming social problems through architecture and commerce was slipping away. By the tumultuous year of 1968, it had disappeared. Victor Gruen made America depend upon its shopping malls. While they did not provide an invigorated sense of community as he had hoped, they are enduring monuments to the lure of consumer culture.*

Samuel Mockbee and the Rural Studio

Community Architecture

The architect and teacher Samuel Mockbee, founder of Auburn University's Rural Studio, was an idealist who put into action one of the boldest programs in contemporary architecture. Mockbee led his students in the design and construction of homes, community centers and other essential structures in Hale County, Alabama--one of the poorest counties in the United States. Mockbee believed that architecture could play a determining role in combating the brutalities of poverty. He inspired students to create vanguard designs and utilize an array of innovative, cost-effective building materials that included scraps of carpet baled into rectangular building blocks. This combination of ingenuity and enterprise informed the unique character of Mockbee's undertaking. "Samuel Mockbee and the Rural Studio" appraises Mockbee's unique contribution, assessing how he believed that architecture, practiced as a community-oriented undertaking, could transform the social environment.

The Fama Portfolio

Selected Papers of Eugene F. Fama

University of Chicago Press *Few scholars have been as influential in finance, both as an academic field and an industry, as Eugene Fama. Yet there is no one collection where one can easily find his best work in all fields. "The Fama Portfolio" will be an outstanding and unprecedented resource in a field that still concentrates mainly on questions stemming from Fama's work: Is the finance industry too large or too small? Why do people continue to pay active managers so much? What accounts for the monstrous amount of trading? Do high-speed traders help or hurt? The ideas, facts, and empirical methods in Fama's work continue to guide these investigations. "The Fama Portfolio" will be a historic and long-lasting collection of some of the finest work ever produced in finance.*

Yvain

The Knight of the Lion

Yale University Press *The twelfth-century French poet Chrétien de Troyes is a major figure in European literature. His courtly romances fathered the Arthurian tradition and influenced countless other poets in England as well as on the continent. Yet because of the difficulty of capturing his swift-moving style in translation, English-speaking audiences are largely unfamiliar with the pleasures of reading his poems. Now, for the first time, an experienced translator of medieval verse who is himself a poet provides a translation of Chrétien's major poem, Yvain, in verse that fully and satisfyingly captures the*

movement, the sense, and the spirit of the Old French original. Yvain is a courtly romance with a moral tenor; it is ironic and sometimes bawdy; the poetry is crisp and vivid. In addition, the psychological and the socio-historical perceptions of the poem are of profound literary and historical importance, for it evokes the emotions and the values of a flourishing, vibrant medieval past.
