Stereo Review Keyboard Meacham - American Patrol Rimshot American Patrol - Frank White Meacham / Piano Sheet Music 1885 American Patrol Frank White Meacham 1856 5 31 1909 12 22 **Home & Studio Recording Piano The Making of a Steinway Concert Grand Macmillan** An alluring exploration of the people and the legendary craftsmanship behind a single Steinway piano Like no other instrument, a grand piano melds engineering feats with the magical sounds of great music: the thunder of a full-throated bass, the bright, delicate trill of the upper treble. Alone among the big piano companies, Steinway still crafts all of its pianos largely by hand, imbuing each one with the promise and burden of its brand. In this captivating narrative, James Barron of The New York Times tells the story of one Steinway piano, from raw lumber to finished instrument. Barron follows that brand-new piano-known by its number, K0862-on its eleven-month journey through the Steinway factory, where time-honored manufacturing methods vie with modern-day industrial efficiency. He looks over the shoulders of men and women-some second- and third-generation employees, some recently arrived immigrants-who transform wood and steel into a concert grand. Together, they carry on the traditions begun more than 150 years ago by the immigrants who founded Steinway & Sons-a family that soared to prominence in the music world and, for a while, in New York City's political and economic life. Barron also explores the art and science of developing a piano's timbre and character before its first performance, when the essential question will be answered: Does K0862 live up to the Steinway legend? From start to finish, Piano will charm and enlighten music lovers. **Maths Copy And Other Vignettes Notion Press** The author seeks to take the reader on a slow roller coaster ride down memory lane, halting en route at the stations of childhood, youth and adulthood. Managing World Order United Nations Peace Operations and the Security Agenda I.B. Tauris Since the end of the Cold War, United Nations peace operations have become an established and prominent feature of world politics. From Liberia to East Timor, the UN now carries out extensive governance-related functions and is a significant political force in Southern states and societies. Here Richard Al-Qaq leads us to a radical new understanding of the UN and its role in international politics. He uncovers the political and socio-economic import of such 'peace' activities for subject societies, and raises important questions about the functioning and dynamics of the global political order. A critical view of the internal process of programmatic reform within the UN is elaborated by detailed studies of the politics of UN peace operations in three seminal cases of the 1990s, in Somalia, Rwanda and Angola.
