## Family Justice Review

### final report

The Stationery Office The Family Justice Review examines the effectiveness of the family justice system and the outcomes it delivers. The review covers both public and private law cases; explores if better use can be made of mediation and how best to support contact between children and non-resident parents or grandparents; examines the processes (but not the law) involved in granting divorces and awarding ancillary relief, and looks at how the different parts of the family justice system are organised and managed. The review is aiming to produce a system which allows families to reach easy, simple and efficient agreements which are in the best interests of children whilst protecting children and vulnerable adults from risk of harm. The agencies and professionals directly involved in the family justice system are all in scope for the Review. This final report takes into account views expressed during the consultation on the interim report and the call for evidence. It makes a number of recommendations to improve public and private law and looks at how the agencies within the family justice system could work together more effectively to improve the experience for children and

families

A rusty ship sails into the harbour and begins to unload its cargo on the site of the once famous but now abandoned Gallery of Future Art, known to the world as GoFA. One day the city's residents are awoken by a high-pitched sound no one has heard for two generations: a factory whistle. GoFA's owner, world-famous billionaire Dundas Faussett, is creating his most ambitious installation yet. He's going to defeat technology's dominance over our lives by establishing a new Year Zero: 1948. Those whose jobs have been destroyed by Amazon and Uber and Airbnb are invited to fight back in the only way that can possibly succeed: by living as if the internet had never been invented. The hold of Bezos, Musk, Zuckerberg and their ilk starts to loosen as the revolutionary example of Factory 19 spreads. Can nostalgia really defeat the future? Can the little people win back the world? We are about to find out. 'Like Orwell, of whom he has written so brilliantly, Dennis Glover's work is charged with courage, intelligence and purpose. He is the complete writer, and one made for our times.' —Don Watson 'Savagely hilarious and unlike anything else you'll read this year. It boils with the anger of the present moment.' —Rohan Wilson

## The Contemporary Freudian Tradition

## Past and Present

Routledge This is the first book dedicated to the Contemporary Freudian Tradition. In its introduction, and through its selection of papers, it describes the development and rich diversity of this tradition over recent decades, showing how theory and practice are inseparable in the psychoanalytic treatment of children, adolescents and adults. The book is organized around four major concerns in the Contemporary Freudian Tradition: the nature of the Unconscious and the ways that it manifests itself; the extension of Freud's theories of development through the work of Anna Freud and later theorists; the body and psychosexuality, including the centrality of bodily experience as it is elaborated over time in the life of the individual; and aggression. It also illustrates how within the Tradition different exponents have been influenced by psychoanalytic thinking outside it, whether from the

Kleinian and Independent Groups, or from French Freudian thinking. Throughout the book there is strong emphasis on the clinical setting, in, for example, the value of the Tradition's approach to the complex interrelationship of body and mind in promoting a deeper understanding of somatic symptoms and illnesses and working with them. There are four papers on the subject of dreams within the Contemporary Freudian Tradition, illustrating the continuing importance accorded to dreams and dreaming in psychoanalytic treatment. This is the only book that describes in detail the family resemblances shared by those working psychoanalytically within the richly diverse Contemporary Freudian Tradition. It should appeal to anyone, from student onwards, who is interested in the living tradition of Freud's work as understood by one of the three major groups within British psychoanalysis.
