Karaoke Around the World

Global Technology, Local Singing

Routledge The karaoke machine is much more than an instrument which allows us to be a star for three minutes. The contributors to this lively collection address the importance of karaoke within Japanese culture and its spread to other parts of the world, exploring the influence of karaoke in such different societies as the United Kingdom, North America, Italy, Sweden, Korea and Brazil. They also consider the nature of the karaoke experience, which involves people as singers, co-singers and listeners.

Achtung-Panzer!

The Development of Armoured Forces, Their Tactics and Operational Potential

Arms & Armour This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age,

exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

Don't Stop Believin'

How Karaoke Conquered the World and Changed My Life

Da Capo Press Armed with a keen eye and a terrible singing voice, writer Brian Raftery sets out across the globe, tracing karaoke's evolution from cult fad to multi-million dollar phenomenon. In Japan, he meets Daisuke Inoue, the godfather of karaoke; in Thailand, he follows a group of Americans hoping to win the Karaoke World Championships; and in New York City, he hangs out backstage with the world's longest-running heavy-metal karaoke band. Along the way, Raftery chronicles his

own time as an obsessive karaoke fan, recalling a life's worth of noisy relationships and poor song choices, and analyzing the karaoke-bar merits of such artists as Prince, Bob Dylan and Fugazi. Part cultural history, part memoir, Don't Stop Believin': How Karaoke Conquered the World and Changed My Life is a hilarious and densely reported look at the liberating effects of a good sing-along.

AMC Muscle Cars

Motorbooks International Anybody who wanted to go toe to toe with the Big Three in the 1960s had to produce credible muscle cars. American Motors Corporation did exactly that with the SC Rambler and the incredibly fast AMX. Some argue, however, that AMC's insistence on pouring its relatively limited resources into the "muscle wars" ultimately led to its demise. Illustrated throughout with modern photography of restored and factory-original cars, archival images, AMC concept drawings, period advertisements, and cutaway illustrations, this color history primarily focuses on the conception, development, production, and performance of the AMX, as well as the Javelin upon which it was based. Special models like the Mark Donohue Signature Edition Javelin, along with the less-than-well-received Marlin, Rebel, SST, Hornet 360, Gremlin X, and others are also included.

Engineering Mathematics

Taylor & Francis Now in its eighth edition, Engineering Mathematics is an established textbook that has helped thousands of students to succeed in their exams. John Bird's approach is based on worked examples and interactive problems. Mathematical theories are explained in a straightforward manner, being supported by practical engineering examples and applications in order to ensure that readers can relate theory to practice. The extensive and thorough topic coverage makes this an ideal text for a range of Level 2 and 3 engineering courses. This title is supported by a companion website with resources for both students and lecturers, including lists of essential formulae and multiple choice tests.

USB Embedded Hosts

The Developer's Guide

Lakeview Research LLC Developers who want to access USB devices from their embedded systems will find a helpful resource in *USB Embedded Hosts: The Developer's Guide*. This new book from the author of *USB Complete* shows how small systems can take advantage of the same wealth of USB devices available to conventional PCs. The book begins with a review of USB host communication protocols. Readers then learn which USB host requirements are relaxed for embedded systems and what new requirements some embedded systems must meet. To help in selecting a development platform, the book explores available hardware and software for USB host communications in small systems. The heart of the book focuses on communicating with USB devices. The topics (with example code) include USB drives, keyboards, virtual serial ports, network bridges, mics, speakers, video cameras, and printers, plus devices that don't fit defined USB classes. Also discussed are systems that support both USB host and device functions. The example code is written for the BeagleBoard-xM open development board using a distribution of Linux targeted to small systems. Also covered is how to use Linux commands and utilities to learn about, monitor, and debug communications with USB devices.

Divorce Sucks

What to do when irreconcilable differences, lawyer fees, and your ex's Hollywood wife make you miserable

Simon and Schuster Hock the platinum. Take down the vacation photos. Cancel the joint checking account. There's no question . . . Divorce Sucks. And perhaps no one knows that better than author Mary Jo Eustace, whose ex-husband Dean McDermott married Tori Spelling a mere thirty days after their divorce was finalized. One part tell-all and one part guide to get readers on their feet after a bitter breakup, this hilarious addition to the bestselling Sucks series tells everything readers don't want to know about divorce - from what a phone call with a lawyer will cost; to how to handle your newer, younger replacement; to what Hollywood divorcees are actually thinking when they watch their ex walk the red carpet with a millionaire. Sometimes horrifying, sometimes gratifying, and never merciful, this book will give readers an inside look at one of today's most public divorces while reminding them - hey, it could always be worse.

Soul Mates

Honoring the Mysteries of Love and Relat

HarperCollins This companion volume to Care of the Soul offers more of Thomas Moore's inspiring wisdom and empathy as it expands on his ideas about life, love, and the mysteries of human relationships. In Care of the Soul, Thomas Moore explored the importance of nurturing the soul and struck a chord nationwide—the book became a long-standing bestseller, topping charts across the country. Building on that book's wisdom, Soul Mates explores how relationships of all kinds enhance our lives and fulfill the needs of our souls. Moore emphasizes the difficulties that inevitably accompany many relationships and focuses on the need to work through these differences in order to experience the deep reward that comes with intimacy and unconfined love.

Notes from the Hyena's Belly

An Ethiopian Boyhood

Picador In this acclaimed memoir, Mezlekia recalls his boyhood in the arid city of Jijiga, Ethiopia, and his journey to manhood during the 1970s and 1980s. He traces his personal evolution from child to soldier--forced at the age of eighteen to join a guerrilla army. And he describes the hardships that consumed Ethiopia after the fall of Emperor Haile Selassie and the rise to power of the communist junta, in whose terror thousands of Ethiopians died. Part autobiography and part social history, *Notes from the Hyena's Belly* offers an unforgettable portrait of Ethiopia, and of Africa, during the defining and turbulent years of the last century.

Blue Period 8

Blue Period Winner of the 2020 Manga Taisho Grand Prize! A manga about the struggles and rewards of a life dedicated to art. Popular guy Yatora realizes he's just going through the motions to make other people happy and finds himself in a new passion- painting. But untethering yourself from all your past expectations is dangerous as well as thrilling... Yatora studies hard and gets good grades, and he parties hard, staying out late drinking and watching soccer with his friends. He checks all the boxes he needs to be the perfect high school student. But it all starts to feel empty, and he begins to wonder what part of his life expresses who he is...or even if he has a unique voice at all. Then he wanders into the art room one day, and a lone painting captures his eye, awakening him to a kind of beauty he never knew. Compelled and consumed, he dives in headfirst--and he's about to learn how savage, unforgiving, and exhilarating creating art can be!

The Development of the Secondary Curriculum

Routledge Originally published in 1986. This book's focus is on English secondary schooling in the late 19th and 20th Centuries, during which the definition of a general 'secondary' education was itself negotiated and consolidated before the development of secondary modern and then comprehensive schools. In each chapter, a specialist contributor considers the changing ideology, shape and status of one of the seven traditional academic subjects, namely Classics, Modern Languages, English, History, Geography, Mathematics and Science. These seven school subjects have dominated the academic school curriculum since the nineteenth century and continue to exert a powerful influence upon the contemporary school curriculum today despite the emergence of various rivals and the growing status of 'practical' subjects.

The Story of my Life (100th Anniversary Edition)

*Penguin Helen Keller's triumph over her blindness and deafness has become one of the most inspiring stories of our time. Here, in a book first published when she was young woman, is Helen Keller's own story—complex, poignant, and filled with love. With unforgettable immediacy, Helen's own words reveal the heart of an exceptional woman, her struggles and joys, including that memorable moment when she finally understands that Anne's finger-spelled letters w-a-t-e-r mean the fluid rushing over her hand. Helen Keller was always a compassionate and witty advocate for the handicapped, and her sincere and eloquent memoir is deeply moving for the sighted and the blind, the deaf and the hearing. "Her spirit will endure," said Senator Lister Hill at her funeral, "as long as man can read and stories can be told of the woman who showed the world there are no boundaries to courage and faith." Through movies and plays, most notably *The Miracle Worker*, which portrayed her relationship with her teacher, Anne Sullivan, Keller's life has become an emblem of hope for people everywhere. With an Introduction by Jim Knipfel and an Afterword by*

Marlee Matlin This Signet Classic edition includes a facsimile of the Braille alphabet, a sign-language alphabet, and a full selection of Helen Keller's letters.

Multiple Choice Questions in Science and Mathematics for Engineering

Intermediate GNVQ

Butterworth-Heinemann Engineering GNVQs require students to take multiple choice test papers for all units. This new series of photocopiable question banks provides copious material for students to practice this style of question. The questions are presented in the form of 14 model test papers, each comprising 20 questions, as the GNVQ tests do. Answers are printed at the back of the book. The pilot GNVQ has revealed that many students found particular difficulties in tackling multiple choice style questions in maths and science. Used flexibly for tests and practice exercises, this pack will be the key to success in the GNVQ tests for many students.
