Modernity At Large

Cultural Dimensions of Globalization

U of Minnesota Press

The Philosophy of Money

Routledge 'I have lost interest ...in all that I have written prior to *The Philosophy of Money* . This one is really my book, the others appear to me colourless and seem as if they could have been written by anyone else.' - Georg Simmel to Heinrich Rickert (1904) In *The Philosophy of Money* , Simmel provides us with a remarkably wide-ranging discussion of the social, psychological and philosophical aspects of the money economy, full of brilliant insights into the forms that social relationships take. He analyzes the relationships of money to exchange, the human personality, the position of women, individual freedom and many other areas of human existence. Later he provides us with an account of the consequences of the modern money economy and the division of labour, which examines the processes of alienation and reification in work, urban life and elsewhere. Perhaps, more than any of his other sociological works, *The Philosophy of Money* gives us an example of his comprehensive analysis of the interrelationships between the most diverse and seemingly connected social phenomena. This revised edition of the translation by Tom Bottomore and David Frisby, includes a new Preface by Davi

All that is Solid Melts Into Air

The Experience of Modernity

Verso The experience of modernization -- the dizzying social changes that swept millions of people into the capitalist world -- and modernism in art, literature and architecture are brilliantly integrated in this account.

Passage to Modernity

An Essay in the Hermeneutics of Nature and Culture

Yale University Press Did modernity begin with the Renaissance and end with post-modernism? Dupre challenges both these assumptions, discussing the roots, development and impact of modern thought and tracing the principles of modernity to the late 14th century.

Negative Dialectics

Routledge This is the first British paperback edition of this modern classic written by one of the towering intellectual of the twentieth century. Theodor Adorno (1903-69) was a leading member of the Frankfurt School. His books include The Jargon of Authenticity, Dialectic of Enlightenment (with Max Horkheimer), and Aesthetic Theory

The Social Documentary in Latin America

University of Pittsburgh Pre Twenty essays by major filmmakers and critics provide the first survey of the evolution of documentary film in Latin America. While acknowledging the political and historical weight of the documentary, the contributors are also concerned with the aesthetic dimensions of the medium and how Latin American practitioners have defined the boundaries of the form.

Consuming Life

John Wiley & Sons With the advent of liquid modernity, the society of producers is transformed into a society of consumers. In this new consumer society, individuals become simultaneously the promoters of commodities and the commodities they promote. They are, at one and the same time, the merchandise and the marketer, the goods and the travelling salespeople. They all inhabit the same social space that is customarily described by the term the market. The test they need to pass in order to acquire the social prizes they covet requires them to recast themselves as products capable of drawing attention to themselves. This subtle and pervasive transformation of consumers into commodities is the most important feature of the society of consumers. It is the hidden truth, the deepest and most closely guarded secret, of the consumer society in which we now live. In this new book Zygmunt Bauman examines the impact of consumerist attitudes and patterns of conduct on various apparently unconnected aspects of social life politics and democracy, social divisions and stratification, communities and partnerships, identity building, the production and use of knowledge, and value preferences. The invasion and colonization of the web of human relations by the worldviews and behavioural patterns inspired and shaped by commodity markets, and the sources of resentment, dissent and occasional resistance to the occupying forces, are the central themes of this brilliant new book by one of the worlds most original and insightful social thinkers.

Pluriversal Politics

The Real and the Possible

Latin America in Translation Reflecting on the experience, philosophy, and practice of Latin American indigenous and Afro-descendant activist-intellectuals who mobilize to defend their territories from large-scale extraction, Arturo Escobar shows how the key to addressing planetary crises is the creation of the pluriverse--a world of many epistemological and ontological worlds.

Dialectic of Enlightenment

Burns & Oates A major study of modern culture, Dialectic of Enlightenment for many years led an underground existence among the homeless Left of the German Federal Republic until its definitive publication in West Germany in 1969. Originally composed by its two distinguished authors during their Californian exile in 1944, the book can stand as a monument of classic German progressive social theory in the twentieth century.>

Heartbreak Tango

Dalkey Archive Press Awash in small-town gossip, petty jealousy, and intrigues, Manuel Puig's Heartbreak Tango is a comedic assault on the fault lines between the disappointments of the everyday world, and the impossible promises of commercials, pop songs, and movies. This melancholy and hilarious tango concerns the many women in orbit around Juan Carlos Etchepare, an impossibly beautiful Lothario wasting away ever-so-slowly from consumption, while those who loved and were spurned by him move on into workaday lives and unhappy marriages. Part elegy, part melodrama, and part dirty joke, this wicked and charming novel demonstrates Manuel Puig's mastery of both the highest and lowest forms of life and culture.

The Myth Of The Male Breadwinner

Women And Industrialization In The Caribbean

Routledge First Published in 2018. Routledge is an imprint of Taylor & Francis, an Informa company.

Collective Imaginings

Spinoza, Past and Present

Routledge Why would the work of the 17th century philosopher Benedict de Spinoza concern us today? How can Spinoza shed any light on contemporary thought? In this intriguing book, Moira Gatens and Genevieve Lloyd show us that in spite of or rather because of Spinoza's apparent strangeness, his philosophy can be a rich resource for cultural self-understanding in the present. Collective Imaginings draws on recent re-assessments of the philosophy of Spinoza to develop new ways of conceptualising issues of freedom and difference. This ground-breaking study will be invaluable reading to anyone wishing to gain a fresh perspective on Spinoza's thought.

Philosophy and Community Practices

Peter Lang Gmbh, Internationaler Verlag Der Wissenschaften The book deals with the relevance of community-based philosophical practices to individual and social empowerment. The methodological focus is on «Philosophy for Communities», an application of Lipman and Sharp's «Philosophy for Children» to non-formal and informal education contexts with adults. The book shows how to assess community practices.

World Inequality Report 2018

Belknap Press World Inequality Report 2018 is the most authoritative and up-to-date account of global trends in inequality. Researched, compiled, and written by a team of the world's leading economists of inequality, it presents--with unrivaled clarity and depth--information and analysis that will be vital to policy makers and scholars everywhere. Inequality has taken center stage in public debate as the wealthiest people in most parts of the world have seen their share of the economy soar relative to that of others, many

of whom, especially in the West, have experienced stagnation. The resulting political and social pressures have posed harsh new challenges for governments and created a pressing demand for reliable data. The World Inequality Lab at the Paris School of Economics and the University of California, Berkeley, has answered this call by coordinating research into the latest trends in the accumulation and distribution of income and wealth on every continent. This inaugural report analyzes the Lab's findings, which include data from major countries where information has traditionally been difficult to acquire, such as China, India, and Brazil. Among nations, inequality has been decreasing as traditionally poor countries' economies have caught up with the West. The report shows, however, that inequality has been steadily deepening within almost every nation, though national trajectories vary, suggesting the importance of institutional and policy frameworks in shaping inequality. World Inequality Report 2018 will be a key document for anyone concerned about one of the most imperative and contentious subjects in contemporary politics and economics.

Cruel Modernity

Duke University Press Analyzing the conditions under which dehumanizing cruelty came to be used by states and rogue groups in Latin America, Jean Franco argues that acts of extreme cruelty and the ways they are rationalized are defining features of modernity.

Democracy and Disagreement

Harvard University Press Gutmann and Thompson show how a deliberative democracy can address some of our most difficult controversies--from abortion and affirmative action to health care and welfare--and can allow diverse groups to reason together.

Sepharad

A Novel

HMH An “amazing” novel about the diaspora of Sephardic Jews amid the tumult of twentieth century history (The Washington Post Book World). From one of Spain’s most celebrated writers, this extraordinary blend of fiction, history, and memoir tells the story of the Sephardic diaspora through seventeen interlinked chapters. “If Balzac wrote The Human Comedy, [Antonio] Muñoz Molina has written the adventure of exile, solitude, and memory,” Arturo Pérez-Reverte observed of this “masterpiece” that shifts seamlessly from the past to the present along the escape routes employed by Sephardic Jews across countries and continents as they fled Hitler’s

Holocaust and Stalin's purges in the mid-twentieth century (The New York Review of Books). In a remarkable display of narrative dexterity, Muñoz Molina fashions a "rich and complex story" out of the experiences of people both real and imagined: Eugenia Ginzburg and Greta Buber-Neumann, one on a train to the gulag, the other heading toward a Nazi concentration camp; a shoemaker and a nun who become lovers in a small Spanish town; and Primo Levi, bound for Auschwitz (Milwaukee Journal-Sentinel). From the well-known to the virtually unknown, all of Muñoz Molina's characters are voices of separation, nostalgia, love, and endless waiting. "Stories that vibrate beneath the burden of history, that lift with the breath of human life." —Los Angeles Times Book Review "A magnificent novel about the iniquity and horror of fanaticism, and especially the human being's indestructible spirit." —Mario Vargas Llosa "Moving and often astonishing." —The New York Times

Indigenous Peoples in International Law

Oxford University Press, USA In this thoroughly revised and updated edition of the first book-length treatment of the subject, S. James Anaya incorporates references to all the latest treaties and recent developments in the international law of indigenous peoples. Anaya demonstrates that, while historical trends in international law largely facilitated colonization of indigenous peoples and their lands, modern international law's human rights program has been modestly responsive to indigenous peoples' aspirations to survive as distinct communities in control of their own destinies. This book provides a theoretically grounded and practically oriented synthesis of the historical, contemporary and emerging international law related to indigenous peoples. It will be of great interest to scholars and lawyers in international law and human rights, as well as to those interested in the dynamics of indigenous and ethnic identity.

The Return of the Native

Indians and Myth-Making in Spanish America, 1810–1930

Duke University Press The Return of the Native offers a look at the role of preconquest peoples such as the Aztecs and the Incas in the imagination of Spanish American elites in the first century after independence.

Venezuelan Democracy Under Stress

University of Miami North South Center Press The seriousness of the crisis became evident with two abortive military coups in 1992 and the suspension of Carlos Andres Perez's presidential term in 1994.

Practising Feminist Political Ecologies

Moving Beyond the 'Green Economy'

Zed Books Ltd. Destined to transform its field, this volume features some of the most exciting feminist scholars and activists working within feminist political ecology, including Giovanna Di Chiro, Dianne Rocheleau, Catherine Walsh and Christa Wichterich. Offering a collective critique of the 'green economy', it features the latest analyses of the post-Rio+20 debates alongside a nuanced reading of the impact of the current ecological and economic crises on women as well as their communities and ecologies. This new, politically timely and engaging text puts feminist political ecology back on the map.

The Fiscal System of Venezuela

A Report

Johns Hopkins University Press

Consuming Modernity

Public Culture in a South Asian World

U of Minnesota Press The book aims to illustrate that what is distinctive about any particular society is not the fact of its modernity, but rather its own unique debates about modernity. Behind the embattled arena of culture in India, for example, lie particular social and political interests such as the growing middle class, the entrepreneurs and commercial institutions, and the state. The contributors address the roles of these various intertwined interests in the making of India's public culture, each examining different sites of consumption. The sites which are explored include cinema, radio, cricket, restaurants and tourism. The book also makes distinct the differences among public, mass and popular culture.

Economic Development

The History of an Idea

University of Chicago Press "Economic Development makes an important contribution of the literature on economic development, especially as it incorporates ideas on a theme that informs our concern for social justice, individual and social freedom, identify, and community."—Winston E. Langley, *Annals of the American Academy of Political and Social Science*

Civil Society and Political Theory

MIT Press In this first serious work on the theory of civil society to appear in many years, Jean Cohen and Andrew Arato contend that the concept of civil society articulates a contested terrain in the West that could become the primary locus for the expansion of democracy and rights. In this major contribution to contemporary political theory, Jean Cohen and Andrew Arato argue that the concept of civil society articulates a contested terrain in the West that could become a primary locus for the expansion of democracy and rights.

The Origins of Mexican Nationalism

Einleitung in Die Moralwissenschaft

Eine Kritik Der Ethischen Grundbegriffe;

Franklin Classics This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

The Production of Local Knowledge

Elsewhere Texts This volume presents a comprehensive examination of the work of René Zavaleta Mercado (1939-1984), the most notable Bolivian political thinker of the twentieth century. While Zavaleta did not live to see the triumph of the indigenous social movements that have made Bolivia famous in recent years, his writings influenced many of the activists and ideologues who made today's changes possible. This exploration of Zavaleta's work by Luis Tapia, a contemporary political analyst who has been a colleague of many of the central actors in today's government, presents a detailed panorama of Bolivian history that establishes the context of Zavaleta's analysis of the events of his time, from the revolutionary nationalist movement which took power in 1952 through the military dictatorships that followed it from 1964 onwards to the popular protests that eventually defeated the dictatorship and restored democratic government in 1982. The book will be necessary reading for anyone who wants to understand the decades of history and the ideological currents that laid the groundwork for the rise to power of the neo-indigenists lead by Evo Morales in the twenty-first century.

History of the Inca Empire

An Account of the Indians' Customs and Their Origin, Together with a Treatise on Inca Legends, History, and Social Institutions

University of Texas Press The Historia del Nuevo Mundo, set down by Father Bernabe Cobo during the first half of the seventeenth century, represents a singularly valuable source on Inca culture. Working directly from the original document, Roland Hamilton has translated that part of Cobo's massive manuscripts that focuses on the history of the kingdom of Peru. The volume includes a general account of the aspect, character, and dress of the Indians as well as a superb treatise on the Incas—their legends, history, and social institutions.

An Introduction to Marxist Economic Theory

Resistance Books

Consumers and Citizens

Globalization and Multicultural Conflicts

U of Minnesota Press Nestor Garcia Canclini, the best-known and most innovative cultural studies scholar in Latin America, maps the critical effects of urban sprawl, global media, and commodity markets on citizens. The complex results mean not only a shrinkage of certain traditional rights (particularly those of the welfare or client state) but also indicate new openings for expanding citizenship.

Eternally Vigilant

Free Speech in the Modern Era

University of Chicago Press While freedom of speech has been guaranteed us for centuries, the First Amendment as we know it today is largely a creation of the past eighty years. Eternally Vigilant brings together a group of distinguished legal scholars to reflect boldly on its past, its present shape, and what forms our understanding of it might take in the future. The result is a unique volume spanning the entire spectrum of First Amendment issues, from its philosophical underpinnings to specific issues like campaign regulation, obscenity, and the new media. "With group efforts, such as this collection of essays, it is almost inevitable that there will be a couple—and often several—duds among the bunch, or at least a dismaying repetition of ideas. Such is not the case here. . . . Whether one agrees with a given author or not (and it is possible to do both with any of the essays), each has something to add. Overall, Eternally Vigilant is a thoughtful and thought-provoking book, consistently intelligent and, at times, brilliant."—Richard J. Mollot, *New York Law Journal* Contributors: Lillian R. BeVier Vincent Blasi Lee C. Bollinger Stanley Fish Owen M. Fiss R. Kent Greenawalt Richard A. Posner Robert C. Post Frederick Schauer Geoffrey R. Stone David A. Strauss Cass R. Sunstein

Over Here

International Perspectives on Art and Culture

Mit Press Artists and scholars living and working outside of mainstream cultural circuits address the cultural entanglements of the global and the local.

Material Christianity

Religion and Popular Culture in America

Yale University Press What can the religious objects used by nineteenth- and twentieth-century Americans tell us about American Christianity? What is the relationship between the beliefs of the faithful and the landscapes they build? This lavishly illustrated book investigates the history and meaning of Christian material culture in America over the last 150 years. Drawing on a rich array of historical sources and on in-depth interviews with Protestants, Catholics, and Mormons, Colleen McDannell examines the relationship between religion and mass consumption. She describes examples of nineteenth-century religious practice: Victorians burying their dead in cultivated cemetery parks; Protestants producing and displaying elaborate family Bibles; Catholics writing for special water from Lourdes reputed to have miraculous powers. And she looks at today's Christians: Mormons wearing sacred underclothing as a reminder of their religious promises, Catholics debating the design of tasteful churches, and Protestants manufacturing, marketing, and using a vast array of prints, clothing, figurines, jewelry, and toys that some label "Jesus junk" but that others see as a witness to their faith. McDannell claims that previous studies of American Christianity have overemphasized the written, cognitive, and ethical dimensions of religion, presenting faith as a disembodied system of beliefs. She shifts attention from the church and the theological seminary to the workplace, home, cemetery, and Sunday school, highlighting a different Christianity--one in which average Christians experience the divine, the nature of death, the power of healing, and the meaning of community through interacting with a created world of devotional images, environments, and objects.

The End of the Cognitive Empire

The Coming of Age of Epistemologies of the South

Duke University Press In The End of the Cognitive Empire Boaventura de Sousa Santos further develops his concept of the "epistemologies of the South," in which he outlines a theoretical, methodological, and pedagogical framework for challenging the dominance of Eurocentric thought. As a collection of knowledges born of and anchored in the experiences of marginalized peoples who actively resist capitalism, colonialism, and patriarchy, epistemologies of the South represent those forms of knowledge that are generally discredited, erased, and ignored by dominant cultures of the global North. Noting the declining efficacy of established social and political solutions to combat inequality and discrimination, Santos suggests that global justice can only come about through an

epistemological shift that guarantees cognitive justice. Such a shift would create new, alternative strategies for political mobilization and activism and give oppressed social groups the means through which to represent the world as their own and in their own terms.

The Machiavellian Moment

Florentine Political Thought and the Atlantic Republican Tradition

Princeton University Press Originally published in 1975, The Machiavellian Moment remains a landmark of historical and political thought. Celebrated historian J.G.A. Pocock looks at the consequences for modern historical and social consciousness arising from the ideal of the classical republic revived by Machiavelli and other thinkers of Renaissance Italy. Pocock shows that Machiavelli's prime emphasis was on the moment in which the republic confronts the problem of its own instability in time, which Pocock calls the "Machiavellian moment." After examining this problem in the works of Machiavelli, Guicciardini, and Giannotti, Pocock turns to the revival of republican ideology in Puritan England and in Revolutionary and Federalist America. He argues that the American Revolution can be considered the last great act of civic humanism of the Renaissance and he relates the origins of modern historicism to the clash between civic, Christian, and commercial values in eighteenth-century thought. This Princeton Classics edition of The Machiavellian Moment features a new introduction by Richard Whatmore.

Democratic Practice

Origins of the Iberian Divide in Political Inclusion

Oxford University Press At a time of growing concern over the fate of contemporary democracy this book shows how vast differences between countries in forms of political conduct, and taken for granted assumptions, determine what democracies actually accomplish. In Democratic Practice, Robert M. Fishman elucidates why some democracies include the economically underprivileged, and cultural others within the circles of political relevance that set policies and the political agenda, whereas others exclude them. On

the basis of in-depth research on Portugal and Spain, Fishman develops a theoretically innovative explanation for the breadth of democratic inclusion and draws out large implications for democracies everywhere. Democratic Practice examines the record of two countries that began the worldwide turn to democracy in the 1970s, showing how and why basic assumptions about what democracy is, and how political actors should treat one another, diverged. The book offers detailed empirical evidence on how an inclusive approach to democratic politics provides major benefits not only for the poor and excluded but also for others, drawing large lessons for contemporary democracies.

Family, Household and Gender Relations in Latin America

Routledge This study of family, household and gender relations in Latin America by leading specialists illustrates new approaches to the subject developed by researchers from the region over the last decade and reflects advances made in studies that concern the work and place of women in society. The volume is divided into four sections: analytical perspectives on family and gender; production and reproduction; family and kinship networks; and social classes and lifestyles. Each of the sections is prefaced with an introduction that highlights the essential contribution that women make to society in Latin America. The methods and research findings presented by the authors make an important contribution to the understanding of Latin American society and the research paradigms underlying the contributions which provide new and valuable insights into the relationship between the family and the wider institutional context, the links between the social processes of production and reproduction and the mutual determinants of private and public domains have important implications for the study of family sociology and society in other parts of th

Another Knowledge is Possible Beyond Northern Epistemologies

Verso Books This is the third volume of the series Reinventing Social Emancipation: Towards New Manifestoes series. Another Knowledge is Possible explores the struggles against moral and cultural imperialism and neoliberal globalization that have taken place over the past few decades, and the alternatives that have emerged in countries throughout the developing world from Brazil and Colombia, to India, South Africa and Mozambique. In particular it looks at the issue of biodiversity, the confrontation between scientific and non- scientific knowledges, and the increasing difficulty experienced by great numbers of people in accessing information and scientific- technological knowledge.
