The Use of Pop Songs in the EFL Classroom

diplom.de Inhaltsangabe:Introduction: I have chosen the topic of using pop songs in the EFL classroom because I strongly believe that working with pop songs is a highly motivational device. When I was a student at a lower and upper secondary school, listening to songs in English classes was my favourite activity. I have always wanted to be able to understand the lyrics of songs I listened to. Later, I realized that I have learned a lot from listening to pop songs and analyzing their lyrics. Therefore, in my diploma project, I would like to prove that using pop songs is a highly motivational device in teaching English with instructional value, and that students enjoy working with pop songs. The theoretical part of this diploma project is based on relevant sources of background literature. In the first two chapters, the use of songs is described with regard to motivation and the Multiple Intelligences Theory. The third and fourth chapter deal with the reasons for using songs and their classification. In the last two chapters of the theoretical part, pedagogical principles of using pop songs in class, as well as the pros and cons of teaching through pop songs are presented. The practical part is based on the findings of three surveys I have conducted in the field of using songs in the EFL classroom. In the first part of the research, I present an analysis of questionnaires which I distributed among English teachers at lower and upper secondary schools and grammar schools. In the second part of the research, I describe students' attitudes to pop song based lessons which I taught during my teaching practice at grammar schools. In the third part of the research, I analyze the types of songs presented in commonly used textbooks at lower and upper secondary schools. In addition, I present a self-developed teaching material containing a list of pop songs suitable for the EFL classroom. In the last part of the practical part, I answer the research questions and provide some implications for my own teaching. Second Language Writing Instruction in Global Contexts

English Language Teacher Preparation and Development

Multilingual Matters This book revisits second language (L2) writing teacher education by exploring the complex layers of L2 writing instruction in non-English dominant contexts (i.e. English as a foreign language contexts). It pushes the boundaries of teacher education by specifically examining the development of teacher literacy in writing in under-represented L2 writing contexts, and re-envisioning L2 writing teacher education that is contextually and culturally situated, moving away from the uncritical embracement of Western-based writing pedagogies. It explores and expands on writing teacher education - how language teachers come to understand their own writing practices and instruction, and what their related experiences are in non-English dominant contexts across the globe.
