Help your child to explore his/her imagination. Great gift for teachers or grandparents to give to children to get their imagination to working. Would make a great project for you and the child for quality time together. 50 sheets/100 pages, 8.5x11 Inches*

A SPACE OF HER OWN

PERSONAL NARRATIVES OF TWELVE WOMEN

SAGE *Several books have been written about the position of women in India's patriarchal society. This collection of twelve narratives, however, focuses not so much on women's subservient position vis-a-vis men, but on women's relations with each other. With the authors locating their personal struggles within those of three generations of women in their families, these narratives span a period of over a 100 years, and intersect both the private and public domains. Each narrative in A Space of Her Own is a tale of how the author fought to establish her own personhood and create a sphere of autonomy where she is able to make decisions to nurture herself and those around her. It is stories such as these, the editors argue which, when repeated over generations, will inspire women to live with dignity and to create and defend lives for themselves, their families, and the women who follow them....*

PRESERVING DANCE ACROSS TIME AND SPACE

Routledge *Dance is the art least susceptible to preservation since its embodied, kinaesthetic nature has proven difficult to capture in notation and even in still or moving images. However, frameworks have been established and guidance made available for keeping dances, performances, and choreographers' legacies alive so that the dancers of today and tomorrow can experience and learn from the dances and dancers of the past. In this volume, a range of voices address the issue of dance preservation through memory, artistic choice, interpretation, imagery and notation, as well as looking at relevant archives, legal structures, documentation and artefacts. The intertwining of dance preservation and creativity is a core theme discussed throughout this text, pointing to the essential continuity of dance history and dance innovation. The demands of preservation stretch across time, geographies, institutions and interpersonal connections, and this book focuses on the fascinating web that supports the fragile yet urgent effort to sustain our dancing heritage. The articles in this book were originally published in the journal Dance Chronicle: Studies in Dance and the Related Arts.*

A SPACE OF MY OWN

INSPIRATIONAL IDEAS FOR HOME OFFICES, CRAFT ROOMS AND STUDIES

For some of us it's a small desk in the corner of a kitchen or living room, for others it's a self-contained home office, but we all need a space we can call our own – where we can catch up on emails, tackle household admin or enjoy some crafting. In *A Space of My Own*, Caroline Clifton-Mogg shows you how to make the most of your personal work space. Part 1 explores The Elements that make up a successful work area, from choosing the right Furniture for comfort and the right Lighting for the task, to attractive Storage to keep things conveniently at hand and Decoration to create an environment that truly brings out the creativity in you. Part 2 is about The Spaces as a whole, showing examples of Home Offices, Shared Work Spaces, Sewing and Craft Rooms and Space for Children and Teens. Featuring case studies of successful examples of all four areas, it provides ideas and inspiration which can be easily translated into your own home. Because personal work space should be both practical and inspiring, and, quite simply, the more it is designed around your needs and tastes, the more inspired you will be. • Creating space within the home to work or craft is a growing trend. • Includes inspirational case studies and hundreds of tips and ideas from highly-respected interiors journalist Caroline Clifton-Mogg. • Includes more than 250 beautiful, inspirational photographs of studies, home offices and craft rooms.

GILLIAN MK2

Author House Suddenly, in 1994, the author stopped taking life for granted. When her existence filled with sunshine, parties and good times came to an end. A near fatal car crash left her comatose for six weeks; Gillian doesn't know what happened on that night and 'never will'. 'Gillian Mk2' chronicles her feisty determination to regain independence in a society where she was invisible. We follow her trek for the first four years. From hospitals, doctors, falls, nurses onto more hospitals, specialists, falls, attitudes, patients... Gillian Firth is lucky, clearly her family adore her, she lives to tell the tale and does so with blunt honesty. She knew nothing and only remembered she smoked because Pathetic bought her cigarettes, into the hospital ironically, her mum went mad. A Traumatic Brain Injury (TBI) is serious, life-changing, but you laugh out loud, then cry and laugh again, as we listen to Gillian speaking. Watch how she improves, cringe or agree with her observations, feel the anger and frustration, be embarrassed by comments and reactions. This author will be remembered for her flippant, but serious, heart rending yet hilarious, kick in the teeth, that's what it is. Funny, factual and inspirational... my eyes are open.

SPACE ARCHITECTURE

THE NEW FRONTIER FOR DESIGN RESEARCH

John Wiley & Sons Forty years on from the first moon landing, architecture in Space is entering a new era. Over the last decade, there has been a fundamental shift in the Space industry from short-term pioneering expeditions to long-term planning for colonisation, and new ventures such as Space tourism. Architects are now involved in designing the interiors of long-term habitable structures in Space, such as the International Space Station, researching advanced robotic fabrication technologies for building structures on the Moon and Mars, envisioning new 'space yachts' for the super-rich, and building new facilities, such as the Virgin Galactic 'Spaceport America' in New Mexico designed by Foster + Partners. Meanwhile the mystique of Space remains as alluring as ever, as high-profile designers and educators – such as Greg Lynn – are running design studios drawing upon ever more inventive computational design techniques. This issue of AD features the most significant current projects underway and highlights key areas of research in Space, such as energy, materials, manufacture and robotics. It also looks at how this research and investment in new technologies might transfer to terrestrial design and construction. Space architects: Constance Adams, Marc Cohen, Ondrej Doule, Sandra Häuplik-Meusburger, Scott Howe, Brent Sherwood, Madhu Thangavelu, Andreas Vogler, Robert Zubrin. Architects: Bevk Perovic Arhitekti, Dekleva Gregoric Arhitekti, Foster + Partners, Neil Leach, Greg Lynn, OFIS architects, SADAR + VUGA.

SWEDEN IN SPACE

SWEDISH SPACE ACTIVITIES 1959-1972

Sweden in space is an account of the early years of Swedish space research, up until the formation of the present national space organisation. It is a story of scientific successes, optimism and pioneer spirit, but also of the resistance that was encountered by a new and expensive activity as it sought to find a place in the established research and technical community.

JOURNAL OF THE TRANSACTIONS OF THE VICTORIA INSTITUTE, OR PHILOSOPHICAL SOCIETY OF GREAT BRITAIN

A MAN OF AFRICA

THE POLITICAL THOUGHT OF HARRY OPPENHEIMER

Penguin Random House South Africa *Principled reformer or duplicitous exploiter? The contested legacy of Harry Oppenheimer reflects the tensions involved in dealing with South Africa's complex past. The head of a sprawling global business empire, Oppenheimer played an influential role in twentieth-century South Africa - a role celebrated by some and condemned by others. This book investigates his political thinking over half a century, and considers the nature of his opposition to apartheid as well as his contribution to the democratic age ushered in by Tambo and Mandela. A Man of Africa presents Oppenheimer's views on liberalism, apartheid, socialism, sanctions, trade unions, education, geopolitics and the legacy of Cecil John Rhodes. Each topic is explored via extracts from his speeches, and is followed by an assessment by prominent South Africans such as Kgalema Motlanthe, Albie Sachs, Clem Sunter, Denis Beckett, Bobby Godsell, Jonathan Jansen and Xolela Mangcu. Fascinating and insightful, A Man of Africa shines new light on one of South Africa's most powerful and multifaceted figures, and reflects on the role of principled business in a political economy.*

SPACE, TIME AND LIFE

MS. MAGAZINE

WRITINGS ON MUSIC, 1965-2000

Oxford University Press *In the mid-1960s, Steve Reich radically renewed the musical landscape with a back-to-basics sound that came to be called Minimalism. These early works, characterized by a relentless pulse and static harmony, focused single-mindedly on the process of gradual rhythmic change. Throughout his career, Reich has continued to reinvigorate the music world, drawing from a wide array of classical, popular, sacred, and non-western idioms. His works reflect the steady evolution of an original musical mind. Writings on Music documents the creative journey of this thoughtful, groundbreaking composer. These 64 short pieces include Reich's 1968 essay "Music as a Gradual Process," widely considered one of the most influential pieces of music theory in the second half of the 20th century. Subsequent essays, articles, and interviews treat Reich's early work with tape and phase shifting, showing its development into more recent work with speech melody and instrumental music. Other essays recount his exposure to non-western music -- African drumming, Balinese gamelan, Hebrew cantillation -- and the influence of these musics as structures and not as sounds. The writings include Reich's reactions to and appreciations of the works of his contemporaries (John Cage, Luciano Berio, Morton Feldman, Gyorgy Ligeti) and older influences (Kurt Weill, Schoenberg). Each major work of the composer's career is also explored through notes written for performances and recordings. Paul Hillier, himself a respected figure in the early music and new music worlds, has revisited these texts, working with the author to clarify their central narrative: the aesthetic and intellectual development of an influential composer. For long-time listeners and young musicians recently introduced to his work, this book provides an opportunity to get to know Reich's music in greater depth and perspective.*
