Infrared Spectroscopy of Symmetric and Spherical Spindles for Space Observation 1

John Wiley & Sons **This book is dedicated to the description and application of various different theoretical models to identify the near and mid-infrared spectra of symmetric and spherical top molecules in their gaseous form. Theoretical models based on the use of group theory are applied to rigid and non-rigid molecules, characterized by the phenomenon of tunneling and large amplitude motions. The calculation of vibration-rotation energy levels and the analysis of infrared transitions are applied to molecules of ammonia (NH₃) and methane (CH₄). The applications show**

how interactions at the molecular scale modify the near and mid-infrared spectra of isolated molecules, under the influence of the pressure of a nano-cage (the substitution site of a rare gas matrix, clathrate, fullerene or zeolite) or a surface, and allow us to identify the characteristics of the perturbing environment. This book provides valuable support for teachers and researchers but is also intended for engineering students, working research engineers and Masters and doctorate students.

The Indian Family in Transition

Reading Literary and Cultural Texts

SAGE Publications India This book critiques literary and cultural representations of the Indian family to explore the manner in which the family and its structure are in transition. The papers explore (and expose) how the Indian family, whether in India or in diaspora, needs to be redefined in the current context-in this age of rapid industrialization, globalization (both cultural and economic), and the emergence of new technologies. The family is viewed from a variety of perspectives, as represented in film, theatre, and literature-both English and vernacular. Including reflective pieces by several well-known scholars, this volume offers a holistic understanding of local and global shifts and fissures that shape the family today.

The Marwaris

From Jagat Seth to the Birlas

Penguin UK **In the nineteenth century, a tiny community from the deserts of Rajasthan spread out to every corner of India. The Marwaris controlled much of the country's inland trade by the time of the First World War. They then turned their hand to industry and, by the 1970s, owned most of India's private industrial assets. Today, Marwari businessmen account for a quarter of the Indian names on the Forbes billionaires list.// What makes the Marwaris so successful? Illustrating the Past in Early Modern England

The Representation of History in Printed Books

Routledge **Illustrating the Past** is a study of the status of visual and verbal media in early modern English representations of the past. It focuses on general attitudes towards visual and verbal representations of history as well as specific illustrated books produced during the period. Through a close examination of the relationship of image to text in light of contemporary discussions of poetic and aesthetic practice, the book demonstrates that the struggle between the image and the word played a profoundly important role in England's emergent historical self-awareness. The opposition between history and story, fact and fiction, often tenuous, provided a sounding board for deeper conflicts over the form in which representations might best yield truth from history. The ensuing schism between poets and historians over the proper venue for the lessons of the past manifested itself on the pages of early modern printed books. The discussion focuses on the word and image relationships in several important illustrated books printed during the second half of the sixteenth century-including Holinshed's *Chronicles* (1577) and Foxe's *Book of Martyrs* (1563, 1570)-in the context of contemporary works on history and poetics, such as Sir Philip Sidney's *Apology for Poetry* and Thomas Blundeville's *The true order and Method of wryting and reading Hystories*. **Illustrating the Past** specifically answers two important questions concerning the resultant production of literary and historical texts in the period: Why did the use of images in printed histories suddenly become unpopular at the end of the sixteenth century? and What impact did this publishing trend have on writers of literary and historical texts?
