## **MY OBSESSIVE QUEST TO FIND THE SUNKEN CITY**

---

Text Publishing The New York Times bestselling author of Turn Right at Machu Picchu sets out to uncover the truth behind the legendary lost city of Atlantis. A few years ago, Mark Adams made a strange discovery: everything we know about the famous city of Atlantis comes from the work of Plato. Then he made a second, stranger discovery: amateur explorers are still actively searching for the sunken city all around the world, based entirely on the clues Plato left behind. Meet Me in Atlantis is Adams's enthralling account of his quest to solve one of history's greatest mysteries. It is a travelogue that takes readers to fascinating locations to meet irresistible characters, an intriguing examination of ancient codes in Plato's writings, and a deep, often humorous look at the human longing to rediscover a lost world. Mark Adams is the author of the acclaimed history Mr. America, which the Washington Post named a Best Book of 2009. A writer for many publications, including GQ, Outside and the New York Times, he lives near New York City with his wife and children. 'The collision between Adams' youthful zeal and journalistic sensibilities provide an arresting dichotomy to an absorbing search...Fact or fiction, Atlantis, as the author ably demonstrates, still has the power to enthrall inquiring minds.' Kirkus 'Adam's informal prose acts as a remedy transforming an academic topic into a work of travelogue, investigative journalism, and serious philosophical examination.' Publishers Weekly 'Writing with the same jaunty style as Turn Right at Machu Picchu, Adams merrily entertains the lost-cities audience.' Booklist 'Adventurous, inquisitive and mirthful, Mark Adams gamely sifts through the eons of rumor, science, and lore to find a place that, in the end, seems startlingly real indeed.' Hampton Sides, author of In the Kingdom of Ice 'Adams maintains a journalistic scepticism and a buoyant sense of humour, making Atlantis a gripping journey.' Entertainment Weekly 'An entertainingly written guide to discerning history from myth and sorting out the knowledge from the nutjobs.' New Zealand Listener 'Never less than entertaining...touching and revealing.' Australian 'Meet Me in Atlantis is like a detective story that tries to assemble all the evidence in one place, but it's also a travelogue and a comprehensive history...An informative and engrossing read.' Good Reading 'Funny, engaging and skeptical, Meet Me In Atlantis is the ultimate travelogue to nowhere.' Vacations and Travel

## **ESSAYS ON THE FIFTIETH ANNIVERSARY OF THOMAS PYNCHON'S V.**

---

Cambridge Scholars Publishing Dream Tonight of Peacock Tails marks the first in-depth examination of Pynchon's debut novel, which was immediately recognized as a breakthrough masterpiece. The eight essays collected in the volume provide both scholars and avid readers with new and original insights into a too-often underestimated work that, probably even more than Gravity's Rainbow, established Pynchon as one of the great masters of twentieth-century American literature. This book deliberately privileges a multidisciplinary and transnational approach, encompassing collaborations from a particularly international and diverse academic context. As such, this volume offers a multifaceted pattern of expanding investigation that tackles the novel's apparently chaotic but meticulously organized structure by rereading it in the light of recent US and European history and economics, as well as by exploring its many real and imagined locations. Not only are the essays brought together here revelatory of Pynchon's way of working, but they also tell us something about our own ways of approaching his fiction.

### **20 MILLION YEARS OF HUMAN AND PRE-HUMAN CULTURES**

---

Simon and Schuster A comprehensive exploration of Earth's ancient past, the evolution of humanity, the rise of civilization, and the effects of global catastrophes • Explores biological evidence for the aquatic ape theory and 20-million-year-old evidence of pre-human cultures from which we are not descended • Traces the genesis of modern human civilization to Indonesia and the Central Pacific 75,000 years ago after a near-extinction-level volcanic eruption • Examines the profound similarities of megaliths around the world, including Nabta Playa and Gobekli Tepe, to reveal the transoceanic civilization that built them all Exploring emerging and suppressed evidence from archaeology, anthropology, and biology, Frank Joseph challenges conventional theories of evolution, the age of humanity, the origins of civilization, and the purpose of megaliths around the world. He reveals 20-million-year-old quartzite tools discovered in the remains of extinct fauna in Argentina and other evidence of ancient pre-human cultures from which we are not descended. He traces the genesis of modern human civilization to Indonesia and the Central Pacific 75,000 years ago, launched by a catastrophic volcanic eruption that abruptly reduced humanity from two million to a few thousand individuals worldwide. Further investigating the evolutionary branches of humanity, he explores the mounting biological evidence supporting the aquatic ape theory--that our ancestors spent one or more evolutionary phases in water--and shows how these aquatic phases of humanity fall neatly into place within his revised timeline of ancient history. Examining the profound similarities of megaliths around the world, including Nabta Playa, Gobekli Tepe, Stonehenge, New Hampshire's Mystery Hill, and the Japanese Oyu circles, the author explains how these precisely placed monuments of quartz were built specifically to produce altered states of consciousness, revealing the spiritual and technological sophistication of their Neolithic builders--a transoceanic civilization fractured by the cataclysmic effects of comets. Tying in his extensive research into Atlantis and Lemuria, Joseph provides a 20-million-year timeline of the rise and fall of ancient civilizations, both human and pre-human, the evolutionary stages of humanity, and the catastrophes and resulting climate changes that triggered them all--events that our relatively young civilization may soon experience.

### **GENESIS 1-11 IN SCIENCE & MYTH**

---

Wipf and Stock Publishers The first eleven chapters of Genesis (Adam, Eve, Noah) are to the twenty-first century what the Virgin Birth was to the nineteenth century: an impossibility. A technical scientific exegesis of Gen 1-11, however, reveals not only the lost rivers of Eden and its location, but the date of the Flood, the length of the Genesis days, and the importance of comets in the creation of the world. These were hidden in the Hebrew text, now illuminated by modern cosmology, archaeology, and biology. The internet-friendly linguistic tools described in this book make it possible to resolve the mysterious "firmament," to decipher the "bird of the air," and to find the dragonflies of chapter 1. Ancient Egyptian, Greek, Norse, Sumerian, and Sanskrit mythology are all found to support this new interpretation of Genesis. Combining science, myth, and the Genesis accounts together paints a vivid picture of the genetic causes and consequences of the greatest Flood of the human race. It also draws attention to the acute peril our present civilization faces as it follows the same path as its long-forgotten, antediluvian ancestors. Discover why Genesis has never been so possible, so relevant as it is today.

### **THE QUEST: DIE WIRKLICH SPANNENDEN FRAGEN DER ARCHÄOLOGIE UND GESCHICHTE**

---

BoD - Books on Demand Archäologie und Geschichte können auch spannend sein und von der akademischen Strasse der Langweile ausbrechen. Das Buch präsentiert die wirklich interessanten Geschichten und Legenden, welchen reale Fakten zugrunde liegen: Das Kapitel Shangri-La zeigt, wie eine fiktive Geschichte so wirkmächtig werden kann, dass sie die Realität beeinflusste. Die Autorenschaftsdebatte um die Werke von William Shakespeare, gibt es Hinweise, dass jemand anderes die berühmten Dramen verfasste. Der Gral allein der Name ist phantastisch, doch die Sage beruht auf realen Elementen und es gibt sogar Kandidaten für den echten Gral. Ebenso könnte die unsichtbare Gralsburg identifizierbar sein. Atlantis für viele die ultimative Suche. Das Buch untersucht alle Theorien, welche geographisch zumindest eine Chance haben, die reale Lokalisierung von Atlantis abzubilden. Die Entdeckung von Göbekli Tepe hat die grundlegenden Vorstellungen, wie sich die Menschheit entwickelte über den Haufen geworfen. Die Kultur entstand

nicht nach der Sesshaftwerdung sondern existierte bereits Jahrtausende zuvor. Auch die jüngste Vergangenheit kann wirklich mysteriöse Geschichte produzieren: Der Kriminalfall der Isdal-Frau ist inzwischen irgendwo zwischen kriminalistischen Cold Case und einer historischen Legende geworden. Genauso verworren und bis heute nicht abschliessend geklärt ist das Verschwinden von Flug Air Malaysia MH 370. Aktuell deutet vieles auf eine Tat des Piloten - doch wo ist das Flugzeug? Das Buch schlägt einen Bogen von 9600 vor Christus bis ins frühe 21. Jahrhundert: Fakten und Theorien die viele Fragen aufwerfen und versucht einige Dinge zu beantworten.

### **FALSE COLORS**

---

Baen Books MORE WAR... A desperate attack on the Kilrathi homeworld had succeeded in destroying the entire planet, including the Emperor and his warlords. The surviving Kilrathi, on warships and on their colony worlds were hopelessly demoralized and had sued for peace. The catlike warrior race was no longer a threat to Earth and its colonies. Thirty-five years of war had finally come to an end, bringing peace in our time. They thought... The reality was more ominous. There were still plenty of independent Kilrathi warlords surviving, commanding a formidable array of warships and weaponry. Some wanted revenge on the apes who had destroyed the sacred homeworld, some wanted to set up their own new empires, and some were simply content to go pirate, raiding human colonies at will. But back on Earth, the war-weary people and their leaders turned a deaf ear to reports of Kilrathi belligerence, preferring to look forward to a peaceful and prosperous future. But it was only the calm before a new story... At the publisher's request, this title is sold without DRM (Digital Rights Management).

David Wilcock's extensive knowledge of contemporary science has led him to rewrite the Mayan myth; 2012 will not be the end of the world, but will be the start of mankind's golden period. A hidden intelligence, a living energy field that the universe is built from, which David Wilcock calls the Source Field, guides mankind's destiny. David Wilcock has studied this intelligence for over thirty years and has come to understand that the Source Field is the key to unlocking the mysteries mankind have always struggled to answer: who are we, how did we get here and where are we going? Drawing upon alternative science, as well as cutting-edge quantum physics and consciousness research, Wilcock connects the scientific with lost traditions of ancient wisdom to predict what lies in mankind's future.

**MAPPING MEANINGFUL CONNECTION AND THE LANGUAGE OF HUMAN EXPERIENCE**

---

Random House In her latest book, five-time #1 New York Times bestselling author Dr Brené Brown, writes, "If we want to find the way back to ourselves and each other, we need language and the grounded confidence to both tell our stories, and to be stewards of the stories that we hear. This is the framework for meaningful connection." In Atlas of the Heart, Brown takes us on a journey through 87 of the emotions and experiences that define what it means to be human. As she maps the necessary skills and lays out an actionable framework for meaningful connection, she gives us the language and tools to access a universe of new choices and second chances - a universe where we can share and steward the stories of our bravest and most heart-breaking moments with one another in a way that builds connection. Over the past two decades, Brown's extensive research into the experiences that make us who we are has shaped the cultural conversation and helped define what it means to be courageous with our lives. Atlas of the Heart draws on this research, as well as Brown's singular skills as a researcher/storyteller, to lay out an invaluable, research-based framework that shows us that naming an experience doesn't give the experience more power, it gives us the power of understanding, meaning and choice. Brown shares, "I want this to be an atlas for all of us, because I believe that, with an adventurous heart and the right maps, we can travel anywhere and never fear losing ourselves. Even when we have no idea where we are."
