A Mother's Duty [Random House](#) A family at war... Raising three boys and running the Arcadia Hotel almost single-handed are enough to keep widow Kitty Ryan busy. She has no time for romance - unless it's in the form of a rare evening out at the local picture house. Then along comes John Mcleod, bringing with him a second chance at happiness. However, Kitty finds her sons unwilling to accept another man into their household. Unless she can reunite her menfolk, the future looks set to be that of a family in conflict, in a world on the eve of war... Upon the Gardens of Epicurus [Pallas Athene Pub](#) Sir William Temple, diplomat, statesman, and writer, retired to his garden in the 1680s and wrote what has become one of the key texts, not only of gardening, but also of the English aesthetic. It was he who introduced the idea of the charm of irregularity, and who gave it the allegedly Chinese name sharawadgi. The English style of landscape gardening can be traced in a direct line to this essay, which has not been in print for over 95 years. How the Body Shapes the Mind [Clarendon Press](#) How the Body Shapes the Mind is an interdisciplinary work that addresses philosophical questions by appealing to evidence found in experimental psychology, neuroscience, studies of pathologies, and developmental psychology. There is a growing consensus across these disciplines that the contribution of embodiment to cognition is inescapable. Because this insight has been developed across a variety of disciplines, however, there is still a need to develop a common vocabulary that is capable of integrating discussions of brain mechanisms in neuroscience, behavioural expressions in psychology, design concerns in artificial intelligence and robotics, and debates about embodied experience in the phenomenology and philosophy of mind. Shaun Gallagher's book aims to contribute to the formulation of that common vocabulary and to develop a conceptual framework that will avoid both the overly reductionistic approaches that explain everything in terms of bottom-up neuronal mechanisms, and inflationistic approaches that explain everything in terms of Cartesian, top-down cognitive states. Gallagher pursues two basic sets of questions. The first set consists of questions about the phenomenal aspects of the structure of experience, and specifically the relatively regular and constant features that we find in the content of our experience. If throughout conscious experience there is a constant reference to one's own body, even if this is a recessive or marginal awareness, then that reference constitutes a structural feature of the phenomenal field of consciousness, part of a framework that is likely to determine or influence all other aspects of experience. The second set of questions concerns aspects of the structure of experience that are more hidden, those that may be more difficult to get at because they happen before we know it. They do not normally enter into the content of experience in an explicit way, and are often inaccessible to reflective consciousness. To what extent, and in what ways, are consciousness and cognitive processes, which include experiences related to perception, memory, imagination, belief, judgement, and so forth, shaped or structured by the fact that they are embodied in this way? Two Prisoners [Prion Books](#) Miette lives with her retired father and meets the handsome but wilful Peter who falls passionately in love with her. Tormented by jealousy he pursues her and they marry. Their idyll is destroyed by the onset of war, when Peter joins the army and ends up a prisoner of war of the Russians. Semi-Supervised and Unsupervised Machine Learning Novel Strategies [John Wiley & Sons](#) This book provides a detailed and up-to-date overview on classification and data mining methods. The first part is focused on supervised classification algorithms and their applications, including recent research on the combination of classifiers. The second part deals with unsupervised data mining and knowledge discovery, with special attention to text mining. Discovering the underlying structure on a data set has been a key research topic associated to unsupervised techniques with multiple applications and challenges, from web-content mining to the inference of cancer subtypes in genomic microarray data. Among those, the book focuses on a new application for dialog systems which can be thereby made adaptable and portable to different domains. Clustering evaluation metrics and new approaches, such as the ensembles of clustering algorithms, are also described. The Story of the World Activity Book One: Ancient Times; From the Earliest Nomads to the Last Roman Emperor [Peace Hill Press](#) Provides sample questions and answers, recommended readings, maps, and activities. Ties That Bind, Ties That Break [Laurel Leaf](#) Third Sister in the Tao family, Ailin has watched her two older sisters go through the painful process of having their feet bound. In China in 1911, all the women of good families follow this ancient tradition. But Ailin loves to run away from her governess and play games with her male cousins. Knowing she will never run again once her feet are bound, Ailin rebels and refuses to follow this torturous tradition. As a result, however, the family of her intended husband breaks their marriage agreement. And as she enters adolescence, Ailin finds that her family is no longer willing to support her. Chinese society leaves few options for a single woman of good family, but with a bold conviction and an indomitable spirit, Ailin is determined to forge her own destiny. Her story is a tribute to all those women whose courage created new options for the generations who came after them. I Like Him, He Likes Her Alice Alone; Simply Alice; Patiently Alice [Atheneum Books for Young Readers](#) Find a Penny pick it up and all day long you'll have good luck...except, of course, if that Penny is charming and pretty and funny, and the person picking her up just happens to be your boyfriend. Alice McKinley's freshman year is not as "lucky" as she was hoping it would be. But she's is trying to look on the bright side. There are worse things than being single for a semester... for a school year...for the whole summer.... At least Alice can count on her best friends for support—in theory, anyway. Lately they haven't been all that there-for-her. In fact, it seems like Pam and Liz are suddenly involved in intense, secret conversations whenever Alice is around. Single is starting to feel a whole lot like solo. Hockey Towns Untold Stories from the Heart of Canada [HarperCollins](#) Every Canadian town has a hockey story, and Ron MacLean has a hockey story for every town. A new book by the co-author of the national bestseller Cornered. When you first meet Ron MacLean, he asks where you're from, and he always comes back with a story. No one has crossed this country more than MacLean. In his 28 years on Hockey Night in Canada and now as host of Rogers' Hometown Hockey, Ron has met fascinating people from coast to coast and has great stories to tell. Now, in this new book, MacLean is back, with brand new tales from across the country. These are stories you've never heard before. From London to Castlegar, Yellowknife to Cole Harbour, Medicine Hat to Trois Rivieres, from Bantam to Junior B to the NHL, our country is full of great characters: Players, coaches, hockey moms and hockey dads; rivalries, practical jokes, careers that grew out of nothing and "can't lose" prospects who flamed out too soon; spectacular triumphs, heart-breaking tragedies and tales of friendship, betrayal, love and loyalty—all compelling, entertaining and inspiring. Once again working with Kirstie McLellan Day, co-author of the blockbuster bestsellers Playing With Fire, Tough Guy and Cornered, this is MacLean at his finest. The Natural History Of Unicorns [Granta Books](#) For centuries, unicorns have inspired, enchanted and eluded humanity. The beast appears in the Old Testament and there was a brisk trade in unicorn parts in medieval times, with travellers regularly reporting sightings into the modern era. But by the early twentieth century scientists had conceded that the unicorn never existed. It turns out they were a little hasty. Where did the unicorn come from, and how was it accepted as a part of the animal kingdom for so long? Chris Lavers argues that although the unicorn of our imagination isn't real, traces of its character can be found in existing species. In this lively and vivid exploration of the natural world, Lavers follows the beast's trail to the plateaus of India and into the jungles of Africa to unearth the flesh and blood ancestors of our iconic unicorn. Re-Covered Rose A Case Study in Book Cover Design As Intersemiotic Translation [John Benjamins Publishing](#) When a reader picks up a book, the essence of the text has been translated into the visual space of the cover. Using Umberto Eco's bestseller The Name of the Rose as a case study, this is the first study of book cover design as a form of intersemiotic translation based on the purposeful selection of visual signs to represent verbal signs. As an act of translation, the cover of a book ought to be an 'equivalent representation' of the text. But in the absence of any established interpretive criteria, how can equivalence between the visual and the verbal be determined and interpreted? Re-Covered Rose tackles this question in an original and creative way, laying the foundation for a new research trend in Translation Studies. Marco Sonzogno is Senior Lecturer in Italian, School of Languages and Cultures, Victoria University of Wellington, New Zealand. Sebald was a literary phenomenon: a German literary scholar working in England, who took up creative writing out of dissatisfaction with German post-war letters. Within only a few years, his unique prose books made him one of the

most celebrated authors of the late twentieth-century. This...critical introduction...highlights Sebald's double role as writer and academic. It discusses his oeuvre in the order in which his works were published in German in order to offer a deeper understanding of the original development of his literary writings"--publisher's website. My Ruthless Prince Number 4 in series [Hachette UK](#) To London's aristocracy, the Inferno Club is a scandalous society of men no proper young lady would acknowledge. In private, they are warriors who would do anything to protect their king and country. In the ultimate battle of good versus evil, the Order's shadow war against the Prometheans reaches a crescendo; Drake Parry, Earl of Westwood, plays out a deadly masquerade to bring down the conspirators' dark cult from the inside. But can the love of an innocent beauty save the tortured agent's soul, or will he be swallowed up by the darkness he came to destroy? The Language of New Media Design Theory and Practice [Routledge](#) The Language of New Media Design is an innovative new textbook presenting methods on the design and analysis of a variety of non-linear texts, from websites to CD-Roms. Integrating theory and practice, the book explores a range of models for analyzing and constructing multimedia products. For each model the authors outline the theoretical background and demonstrate usage from students' coursework, commonly available websites and other multimedia products. Assuming no prior knowledge, the book adopts an accessible approach to the subject which has been trialled and tested on MA students at the London College of Communication. Written by experienced authors, this textbook will be an invaluable resource for students and teachers of new media design, information technology, linguistics and semiotics. Betrayed [RM Alexander](#) Dreams and danger rule Cami Lockhart's life. Aspirations of building a tiger sanctuary coupled with the danger of caring for the powerful animals make for long days, short nights, empty pockets, and no room for relationships. Alex loves Cami for her stubborn spirit, recognizing in her a light that can't be extinguished. And he needs to protect it. Even if it means tearing his own heart and soul apart, ignoring the pain of unrequited love, and helping Cami care for the majestic and abused tigers of her sanctuary. But when a threat targets the animals, even Alex can't keep Cami safe. As the danger stalks them, Cami and Alex will be forced to face a reality they can't imagine. Advanced Engineering Dynamics [Cambridge University Press](#) This text offers a clear and refreshing exposition of the dynamics of mechanical systems from an engineering perspective. Basic concepts are thoroughly covered, then applied in a systematic manner to solve problems in mechanical systems that have recognisable applications to engineering practice. All theoretical discussions are accompanied by numerous illustrative examples, and each chapter offers a wealth of homework problems. The treatment of the kinematics of particles and rigid bodies is extensive. In this new edition, the author has revised and reorganized sections to enhance understanding of physical principles, and he has modified and added examples, as well as homework problems. The new edition also contains a thorough development of computational methods for solving the differential equations of motion for constrained systems. Be a Star!
