Instead, it suggests that a reformed Group of 20 (G20), for all its current inadequacies, can still provide the critical coordinating function that the management of a process of reglobalization requires. The book argues that globalization is too important to be lost; rather, it needs to be saved from its capture by neoliberalism and rebuilt around different values for a

post-neoliberal era. The emergence of global pandemic as an issue only goes to emphasise the necessity, importance and urgency of the reglobalization project. Reglobalization is essential reading for everybody living in the era of globalization, which is all of us, and worried about its many economic, social and political problems, which is a growing number of us. Climate change, he argues, upends long-standing ideas of history, modernity, and globalization. The burden of *The Climate of History in a Planetary Age* is to grapple with what this means and to confront humanities scholars with ideas they have been reluctant to reconsider—from the changed nature of human agency to a new acceptance of universals. Chakrabarty argues that we must see ourselves from two perspectives at once: the planetary and the global. This distinction is central to Chakrabarty's work—the globe is a human-centric construction, while a planetary perspective intentionally decenters the human. Featuring wide-ranging excursions into historical and philosophical literatures, *The Climate of History in a Planetary Age* boldly considers how to frame the human condition in troubled times. As we open ourselves to the implications of the Anthropocene, few writers are as likely as Chakrabarty to shape our understanding of the best way forward. **Women and Crime Routledge** First published in 1981. In the last few decades, interest in the study of crimes by women has increased. This interest has coincided with the accelerated momentum of the feminist movement and has led to claims that a rising female crime rate is somehow linked with the changing status of women. But are women committing more crimes? And if so, can this be attributed to the impact of the women's movement? In this book, nine essays survey aspects of the relationship between women and the criminal justice system. The contributors include historians, criminologists, lawyers, ex-prisoners and political scientists. *Women and Crime* will be of interest to students of criminology. **The Plain in Flames University of Texas Press** Juan Rulfo is one of the most important writers of twentieth-century Mexico, though he wrote only two books—the novel *Pedro Páramo* (1955) and the short story collection *El llano en llamas* (1953). First translated into English in 1967 as *The Burning Plain*, these starkly realistic stories create a psychologically acute portrait of poverty and dignity in the countryside at a time when Mexico was undergoing rapid industrialization following the upheavals of the Revolution. According to Ilan Stavans, the stories' "depth seems almost inexhaustible: with a few strokes, Rulfo creates a complex human landscape defined by desolation. These stories are lessons in morality. . . . They are also astonishing examples of artistic distillation." To introduce a new generation of readers to Rulfo's unsurpassable literary talents, this new translation repositions the collection as a classic of world literature. Working from the definitive Spanish edition of *El llano en llamas* established by the Fundación Juan Rulfo, Ilan Stavans and co-translator Harold Augenbram present fresh translations of the original fifteen stories, as well as two more stories that have not appeared in English before—"The Legacy of Matilde Arcángel" and "The Day of the Collapse." The translators have artfully preserved the author's "peasantisms," in appreciation of the distinctive voices of his characters. Such careful, elegiac rendering of the stories perfectly suits Rulfo's Mexico, in which people on the edge of despair nonetheless retain a sense of self, of integrity that will not be taken away. **A Death-Dealing Famine The Great Hunger in Ireland Pluto Press** Examines the historiography of the Irish Famine and its relevance now, in the context of the longer-term relationship between England and Ireland. **Criminology**

Millions Saved New Cases of Proven Success in Global Health Brookings Institution Press Over the past fifteen years, people in low- and middle-income countries have experienced a health revolution—one that has created new opportunities and brought new challenges. It is a revolution that keeps mothers and babies alive, helps children grow, and enables adults to thrive. Millions Saved: New Cases of Proven Success in Global Health chronicles the global health revolution from the ground up, showcasing twenty-two local, national, and regional health programs that have been part of this global change. The book profiles eighteen remarkable cases in which large-scale efforts to improve health in low- and middle-income countries succeeded, and four examples of promising interventions that fell short of their health targets when scaled-up in real world conditions. Each case demonstrates how much effort—and sometimes luck—is required to fight illness and sustain good health. The cases are grouped into four main categories, reflecting the diversity of strategies to improve population health in low- and middle-income countries: rolling out medicines and technologies; expanding access to health services; targeting cash transfers to improve health; and promoting population-wide behavior change to decrease risk. The programs covered also come from various regions around the world: seven from sub-Saharan Africa, six from Latin America and the Caribbean, five from East and Southeast Asia, and four from South Asia.

In the Heart of the Country A Novel Penguin A story told in prose as feverishly rich as William Faulkner's, In the Heart of the Country is a work of irresistible power. J.M. Coetzee's latest novel, The Schooldays of Jesus, is now available from Viking. Late Essays: 2006-2016 will be available January 2018. On a remote farm in South Africa, the protagonist of J. M. Coetzee's fierce and passionate novel watches the life from which she has been excluded. Ignored by her callous father, scorned and feared by his servants, she is a bitterly intelligent woman whose outward meekness disguises a desperate resolve not to become "one of the forgotten ones of history." When her father takes an African mistress, that resolve precipitates an act of vengeance that suggests a chemical reaction between the colonizer and the colonized—and between European yearnings and the vastness and solitude of Africa. With vast assurance and an unerring eye, J. M. Coetzee has turned the family romance into a mirror of the colonial experience.
