Subsequently, Duras accorded a whole series of interviews to the young Italian and the result was the publication in 1989 of *La Passione sospesa*, a book which strangely failed to attract the attention of French publishers at the time. Twenty-four years later, the Italian text was rediscovered, rendered into French, published by Les Editions du Seuil and received with acclaim as a major literary event. It was hailed by the critic of the *Nouvel Observateur* as Duras's "secret confession." In its revealing pages, Duras speaks freely on an extraordinary range of subjects: her life as a writer, the cinema, her friendship with Francois Mitterand, her well-known if rather incongruous love of television, her alcoholism, Chekhov and his 'music of silence', football (it triggers a strong sense of 'humanity'), her literary contemporaries (they 'envy' her), Jean-Paul Sartre (responsible for 'France's cultural and political backwardness'), Jacques Lacan (she couldn't make much of his writings), God (is it really possible to be a total unbeliever?) and, most significantly of all perhaps, her childhood in pre-war Vietnam and the influence of her family, with particular insights into a mother she describes as mad and pessimistic and an elder brother who seems to have been a constant figure of menace. **Bodyscapes** Schiffer Pub Limited Can there be more than one reality at a time, and can we experience them both? These were the questions that led photographer and former psychology professor Allan I. Teger to create this collection of black and white Bodyscapes(R). At first glance, Bodyscapes appear to be landscapes; a second look shows that they are in fact nude bodies with small toys and miniatures set on them. Spanning a 35-year period, this collection shows more than 110 black and white images photographed in a single exposure without any post processing or manipulation. The body becomes the setting for golfing, skiing, mountain climbing, surfing, and other sports. Other images feature landscapes ranging from rolling farmlands to beaches and outer space. They are fun, beautiful, and sensual, but always in good taste. This elegant portfolio of Teger's images is an ideal, reality-bending addition to any art photography library. **Komodo Dragons Biology and Conservation** Smithsonian Institution More than twenty years have passed since Walter Auffenberg's monumental *The Behavioral Ecology of the Komodo Monitor*. In the intervening years the populations of Komodo dragons—native only to a handful of islands in southeast Indonesia—have dwindled, sparking intensive conservation efforts. During the last two decades new information about these formidable predators has emerged, and the most important findings are clearly presented here. A memoir from Walter Auffenberg and his son Kurt is followed by the latest information on Komodo dragon biology, ecology, population distribution, and behavior. The second part of the book is dedicated to step-by-step management and conservation techniques, both for wild and captive dragons. This successful model is a useful template for the conservation of other endangered species as well, for, as Kurt and Walter Auffenberg note, "The species may well indeed survive in the wild for generations to come while countless other organisms are lost." **Hot Little Suppers Simple Recipes to Feed Family and Friends** Harper Horizon Hot Little Suppers is more than just a book on cooking for families--it's an invitation to get together and have some fun in the kitchen. An engrossing book whose protagonist could out-think Indiana Jones' Daily Telegraph on *The Lost City of Z* DAILY MAIL BOOK OF THE WEEK One man's perilous quest to cross Antarctica in the footsteps of Shackleton. Henry Worsley was a devoted husband and father and a decorated British special forces officer who believed in honour and sacrifice. He was also a man obsessed. He spent his life idolizing Ernest Shackleton, the 20th-century polar explorer, who tried to become the first person to reach the South Pole and later sought to cross Antarctica on foot. Shackleton never completed his journeys, but he repeatedly rescued his men from certain death and emerged as one of the greatest leaders in history. Worsley felt an overpowering connection to those expeditions. He was related to one of Shackleton's men, Frank Worsley, and spent a fortune collecting artefacts from their epic treks across the continent. He modelled his military command on Shackleton's legendary skills and was determined to measure his own powers of endurance against them. He would succeed where Shackleton had failed, in the most brutal landscape in the world. In 2008, Worsley set out across Antarctica with two other descendants of Shackleton's crew, battling the freezing, desolate landscape, life-threatening physical exhaustion and hidden crevasses. Yet when he returned home he felt compelled to go back. On November 2015, at age 55, Worsley bid farewell to his family and embarked on his most perilous quest: to walk across Antarctica alone. David Grann tells Worsley's remarkable story with the intensity and power that have led him to be called 'simply the best narrative nonfiction writer working today'. Illustrated with more than 50 stunning photographs from Worsley's and Shackleton's journeys, *The White Darkness* is both a gorgeous keepsake volume and a spellbinding story of courage, love and a man pushing himself to the extremes of human capacity. Praise for David Grann's *Killers of the Flower Moon*: 'A riveting true story of greed, serial murder and racial injustice' JON KRAKAUER 'A fiercely entertaining mystery story and a wrenching exploration of evil' KATE ATKINSON 'A fascinating account of a tragic and forgotten chapter in the history of the American West' JOHN GRISHAM 'Disturbing and riveting...Grann has proved himself a master of spinning delicious, many-layered mysteries that also happen to be true...It will sear your soul' DAVE EGGERS, New York Times Book Review 'An extraordinary story with extraordinary pace and atmosphere' Sunday Times 'A marvel of detective-like research and narrative verve' Financial Times **Ballads of Suburbia** Simon and Schuster Ballads are the kind of songs that Kara McNaughton likes best. Not the clichéd ones where a diva hits her dramatic high note or a rock band tones it down a couple of notches for the ladies, but the true ballads: the punk rocker or the country crooner reminding their listeners of the numerous ways to screw things up. In high school, Kara helped maintain the "Stories of Suburbia" notebook, which contained newspaper articles about bizarre, tragic events from suburbs all over America, and personal vignettes that Kara dubbed "ballads" written by her friends in Oak Park, just outside of Chicago. But Kara never wrote her own ballad. Before she could figure out what her song was about, she left town suddenly at the end of her junior year. Now, four years later, Kara returns to her hometown to face the music, needing to revisit the disastrous events that led to her leaving, in order to move on with her life. Intensely powerful and utterly engaging, *Ballads of Suburbia* explores the heartbreaking moments when life changes unexpectedly, and reveals the consequences of being forced to grow up too soon. **Batch Cooking Prep and Cook Your Weeknight Dinners in Less Than 2 Hours** Hardie Grant Cooking in large batches is the perfect way to save time and money. It is a gem reminiscent of Krishnamurti and Hafiz, but with its own punch of emerging wisdom and clarity. Nassrine has what I can only call the overt audacity to challenge dozens of our cherished notions about how to manage our minds and emotions. She offers short 'insight units' pointing toward a direct inner path to the foundational life-knowledge within each of us. While reading these insight units from start to finish, you'll find that a spontaneous process of awakening is stimulated, helping you to unveil what you really are" - John Selby The book has been structured in seven parts. Each part explores a special perspective

regarding the natural consciousness through which life fully blossoms. While reading these pages, your ingrained identification with who you think you are will begin to dissolve naturally, allowing you to experience your original state. Biography : Nassrine was brought up in Switzerland with her Iranian father and Russian mother. Recognized at an early age with the ability to instantly perceive a person's medical condition, Nassrine regularly works with patients and groups, sharing her insights into human nature and fulfillment. For the last decade she's traveled the world leading seminars, conferences and retreats. In 2002 she came forth with a new method for enhanced healing and wellbeing called Nutri-Emotion, focusing on the natural correlations and interactions of water, emotions and physical health. Collaborating with psychologists and doctors, in 2014 she published her first book (in her native tongue of French) called Nutri-Emotion, A New Way of Healing and Self-Realization. In 2016 she published her bestselling book The Power of Acceptance - being reborn in a single instant, which has been very successful in French-speaking countries. **Blueprint for Black Power A Moral, Political, and Economic Imperative for the Twenty-first Century** Afrikan World Infosystems Afrikan life into the coming millennia is imperiled by White and Asian power. 'Blueprint for Black Power' details a master plan for the power revolution necessary for Black survival in the 21st century. White treatment of Afrikan Americans, despite a myriad of theories explaining White behavior, ultimately rests on the fact that they can. They possess the power to do so. Such a power differential must be neutralized if Blacks are to prosper in the 21st century ... Aptly titled, 'Blueprint for Black Power' stops not at critique but prescribes radical, practical theories, frameworks and approaches for true power. It gives a biting look into Black potentiality.
