Tempo imperfetto

Progedit - Progetti editoriali srl L'imperfezione provoca l'intelligenza e incoraggia la ricerca. Libera dalla presunzione tecnologica e aiuta a guardare al futuro, al riparo dalle ambiguità e dai paradossi del tempo presente. Questo libro raccoglie una serie di saggi che da direzioni diverse attraversano ed esplorano il campo della esperienza culturale e quello dei comportamenti sociali per cogliere ambiguità e contraddizioni e poi anche prospettive di crescita, motivi di speranza, linee di progetto e tanti nuovi compiti per la pedagogia (e quindi per l'analisi e la ricerca) e per l'educazione (e quindi per gli operatori della scuola e della formazione). Tempo imperfetto, dunque: perché l'imperfezione è tra noi, perché l'imperfezione è ciò che distingue e disaggrega, è ciò da cui germina la singolarità e si origina l'individualità; ma poi anche Tempo imperfetto per il continuo proporsi di alternative che rendono difficile il confronto, per la lacerazione che si consuma fra pretese di sistematicità razionale e l'emergere della contingenza, per lo sconcerto che talvolta deriva dal disegno utopico e dalla sua distanza dai bisogni e dalle inquietudini d'ogni giorno. E dobbiamo anche dire Tempo imperfetto per cogliere la natura del compito o il profilo del progetto educativo. La grandezza dell'uomo è nell'accettazione di sé. Al di là della siepe c'è l'infinito, e quindi anche il sogno, il desiderio, l'immaginazione e lo slancio vitale: il punto di congiunzione che lega lo spazio e il tempo, il presente e il futuro, la regola e la possibilità di trasgressione, l'esperienza e la padronanza di sé, la competenza e la capacitazione, nell'esercizio attivo ed efficace di una cittadinanza dignitosa, leale, accogliente, partecipe ed attenta alle generazioni che verranno.

From Clans to Co-ops

Confiscated Mafia Land in Sicily

Berghahn Books From Clans to Co-ops explores the social, political, and economic relations that enable the constitution of cooperatives operating on land confiscated from mafiosi in Sicily, a project that the state hails as arguably the greatest symbolic victory over the mafia in Italian history. Rakopoulos's ethnographic focus is on access to resources, divisions of labor, ideologies of community and food, and the material changes that cooperatives bring to people's lives in terms of kinship, work and land management. The book contributes to broader debates about cooperativism, how labor might be salvaged from market fundamentalism, and to emergent discourses about the 'human' economy.

How to Do Things with Tense and Aspect

Performativity before Austin

Cambridge Scholars Publishing Almost all verbs in Slovene (one of the least researched Slavic languages) have two aspectually different forms, the perfective (PF) and the imperfective (IF). But in institutional settings or settings strongly marked with social hierarchy, only the second, the imperfective form, is used by Slovene speakers in a performative sense. Why is that? And what, in fact, has a Slovene speaker said if (s)he has used the imperfective verb in "performative circumstances"? No doubt that (s)he may be in the process of accomplishing such an act. But at the same time, having the possibility of choosing between the PF and the IF form, (s)he may have also indicated that this act hasn't been accomplished (yet): as long as we are only promising (IF), we have not really promised anything yet, and if we are only promising (IF), we cannot take anything as having been really promised. That was how Stanislav Škrabec, the 19th century Slovene linguist and the central figure of this book, saw the role of verbal aspect within language use. Being caught in such a dilemma, a question inevitably arises: how do we accomplish an act of promise (or any other performative act) in Slovene? That dilemma - whether to use the perfective or imperfective aspect when accomplishing performative acts - may seem more than artificial at first, but it was very much alive among Slovene linguists at the end of the 19th century. And it was that very dilemma that quite unexpectedly gave rise to the foundations of performativity in Slovene, half a century before Austin! In the present book, the authors try to shed light on this controversy that involved different Slovene scholars for about thirty years, and propose a delocutive hypothesis as a solution for the performative dilemma this controversy unveiled.

Aspectuality

An Onomasiological Model Applied to the Romance Languages

Walter de Gruyter GmbH & Co KG This synchronic study presents a new onomasiological, frame-theoretical model for the description, classification and theoretical analysis of the cross-linguistic content category aspectuality. It deals specifically with those pieces of information, which, in their interplay, constitute the aspectual value of states of affairs. The focus is on Romance Languages, although the model can be applied just as well to other languages, in that it is underpinned by a principle grounded in a fundamental cognitive ability: the delimitation principle. Unlike traditional approaches, which generally have a semasiological orientation and strictly adhere to a semantic differentiation between grammatical aspect and lexical aspect (Aktionsart), this study makes no such differentiation and understands these as merely different formal realisations of one and the same content category: aspectuality.

Primo corso della grammatica della lingua latina. Diuiso in quattro libri del p. Lodouico Marracci della congregazione de' chierici regolari della Madre di Dio

Mulier Ludens

Bellezza e immagini della mulatta cubana

Mimesis In questo studio sull'estetica della mulatez, la narrazione del fascino della sensuale mulatta cubana, pericolosa perché "quasi bianca", viene esplorata come antifona dalle funzioni contraddittorie: da un lato, l'essere monito contro i tentativi di contaminazione razziale dell'ordine dominante della biancura e della mascolinità; dall'altro, l'essere metafora della possibilità di rottura di questo stesso ordine a favore di un ethos liberale, rivendicazione di nuove forme di cittadinanza in seno alla società di caste coloniale. Concentrandosi sulle prospettive di donne che si autodefiniscono mulatte, l'autrice ne esplora l'"habitus dell'esibizionismo" e la vanità ostentata quale tattica per garantirsi visibilità nel sistema di forze cubano: un fare più che un essere; uno stile performativo critico verso la tradizione rappresentativa che fissa la mulier ludens, la mulatta, come disponibile e passiva.

Challenging the Mafia Mystique

Cosa Nostra from Legitimation to Denunciation

Springer The Sicilian Mafia, or Cosa Nostra, is one of the most intriguing criminal phenomena in the world. It is an unparalleled organised criminal grouping that over almost two centuries has been able not only to successfully permeate licit and illicit economy, politics and civil society, but also to influence and exercise authoritative power over both the underworld and the upper-world. This criminal phenomenon has been a captivating conundrum for scholars of different disciplines who have tried to explain with various paradigms the reasons behind the emergence and consolidation of the mafia. Challenging the Mafia Mystique provides an analysis of the changes the Sicilian mafia has undergone, from legitimisation to denunciation. Rino Coluccello highlights how, from the very emergence of the organised criminal groups in Sicily, a culture existed that was protective and tolerant of the mafia. He argues that the various conceptualisations of the mafia that dominated the public and scientific debate in the nineteenth and more than half of the twentieth century created a mystique, which legitimised the mafia and contributed to their success. This book will be of great interest to scholars and students of organised crime, Italian politics and Italian literature.

Tense and Aspect in Italian Interlanguage

Walter de Gruyter GmbH & Co KG The expression of time is fundamental in communication and languages have developed a variety of means to encode temporal relations. When learning a new language, learners are often faced with the challenging task of discovering a new system of temporal relations. The present study investigates the development of tense and aspect marking in the interlanguage of L3 Italian learners enrolled in university language courses. It examines how the tense-aspect system develops in the interlanguage and how the acquisition process is shaped by factors such as the lexical aspectual value of the predicates and discourse grounding. The data indicate that both lexical aspect and discourse grounding influence the distribution of verbal morphology in the interlanguage. Semantically congruent pairings of lexical aspect, verbal morphology and discourse grounding are used more frequently and appropriately than less prototypical combinations. The acquisition process is also influenced by the learner's L1, which was mostly German in the context of the present study. The study can be used as a guide for curricular decisions in language teaching, and for projecting further research on the development of tense-aspect marking in multilingual learners.

Discourse, Tools and Reasoning

Essays on Situated Cognition

Springer Science & Business Media Not long ago, projections of how office technologies would revolutionize the production of documents in a high-tech future carried many promises. The paperless office and the seamless and problem-free sharing of texts and other work materials among co-workers were just around the corner, we were told. To anyone who has been involved in putting together a volume of the present kind, such forecasts will be met with considerable skepticism, if not outright distrust. The diskette, the email, the fax, the net, and all the other forms of communication that are now around are powerful assets, but they do not in any way reduce the flow of paper or the complexity of coordinating activities involved in producing an artifact such as a book. Instead, the reverse seems to be true. Obviously, the use of such tools requires considerable skill at the center of coordination, to borrow an expression from a chapter in this volume. As editors, we have been fortunate to have Ms. Lotta Strand, Linköping University, at the center of the distributed activity that producing this volume has required over the last few years. With her considerable skill and patience, Ms. Strand and her work provide a powerful illustration of the main thrust of most of the chapters in this volume: Practice is a coordination of thinking and action, and many things had to be kept in mind during the production of this volume.

Compresenze. Corpi, azioni e spazi ibridi nella città contemporanea

Roma TrE-Press Questo libro raccoglie l'esito di una call, lanciata nell'autunno del 2016, promossa da un gruppo di ricercatori del Dottorato in Paesaggi della Città Contemporanea. Politiche, tecniche e studi visuali, afferenti al Dipartimento di Architettura dell'Università Roma Tre. L'invito, rivolto a studiosi, progettisti, fotografi e artisti in diversi ambiti, è di indagare i caratteri delle molteplici manifestazioni con cui le compresenze - le forme di abitare la città e costruire gli spazi urbani che includono differenti e plurali intenzionalità, spontanee, predisposte o suggerite - si compiono nei luoghi delle città contemporanee e sollecitano l'incontro tra corpi, comportamenti, spazi, tempi e culture differenti. Il libro contiene i contributi selezionati, con una ricca varietà di casi e di riflessioni, rivolti sia a pratiche informali sia a progetti autoriali, a edifici e spazi aperti, esperienze didattiche, di ricerca teorica o applicata, in grado di offrire spunti di riflessione per rispondere ad alcune domande di cui proponiamo l'urgenza: quali sono le dinamiche spaziali in corso nelle nostre città capaci di accogliere ed esprimere forme di compresenza? Quali cronologie richiedono o descrivono? Quali gli strumenti, le attitudini e le competenze necessarie per progettare ambiti di compresenza? Quali sono i luoghi privilegiati per sperimentare azioni, pratiche e progetti di compresenza? Il volume contiene inoltre saggi di: Federica Andreoni, Francesco Careri, Matilde Cassani, Fabio Di Carlo, Giulio Giovannoni, Jacopo Leveratto, Giovanni Longobardi, Gabriele Rossi.

Perfect Explorations

Walter de Gruyter This volume contains contributions dealing with the syntax, morphology, semantics, and diachronic development of the Perfect and the components it is built on across languages. The volume brings these aspects together, working towards a comprehensive theory of the Perfect which takes into consideration the interfaces between the various components of the grammar. Issues addressed include: the temporal vs. aspectual character of the perfect, the contribution of adverbial modification, the structure of the perfect participle.

English L2 Reading

Getting to the Bottom

Routledge English L2 Reading: Getting to the Bottom, Second Edition remains a comprehensive, myth-debunking examination of how L1 features (orthographic system, phonology, morphology) can influence English L2 reading at the “bottom” of the reading process. It provides a thorough but very accessible linguistic/psycholinguistic examination of the lowest levels of the reading process. It is both theoretical and practical. The goal is to balance or supplement (not replace) top-down approaches and methodologies with effective low-level options for teaching English reading. Core linguistic and psycholinguistic concepts are presented within the context of their application to teaching. The text clearly explains the strategies that readers of other languages develop in response to their own writing systems (Chinese, Japanese, Arabic, Hebrew, other alphabets, or transparent Roman alphabetic systems), contrasted with an explanation of the strategies that English readers develop in response to the opaque orthography of English, and explicates how other low-level processing strategies for L1 morphology and word formation may aid or hinder processing in English L2 reading acquisition. A complete, balanced reading ideology should be big enough to embrace all reading theories and practices. In particular, it should be able to accommodate those researchers and teachers who find that attention to the details of language can also help students learn to read better. Many ESL/EFL teachers are interested in supplementing their successful whole-language methods with bottom-up reading strategies, but aren't sure how to do it. This book fills that gap. Changes in the Second Edition: *updated content in each chapter and clearer organization for the student to make the text more reader friendly; *expansion in Chapter 2 on alphabets, writing systems, and a brief history of written English and spelling; *extended discussion in Chapter 3 of the cognition of written language and reading transfer; *addition of phonemic, vocal, subvocal, and articulatory development and L2 reading processing in Chapter 4, as well as instructional activities and strategies for teaching these skills to L2 readers; *elaboration of graphs and graphemes in Chapter 5, including discussion of developing graphemic knowledge, processing strategies, and their instructional application, and new sections on reading speed, pattern recognition, and word recognition; *development of the probabilistic section in Chapter 6, particularly the probabilities in context of L2 reading; *updated information on the topic of brain activation studies; and *new treatment of the topic of reading fluency, added in responses to requests from many readers of the first edition. Intended for ESL/EFL reading researchers, teacher trainers and teachers, and as a text for MATESOL students, most chapters contain practical suggestions that teachers can incorporate into whole language methods to teach beginning or intermediate ESL/EFL reading (letters, pronunciation, “smart” phonics, morphemes, and vocabulary acquisition) in a more balanced way. Pre-reading discussion and study questions are provided to stimulate interest and enhance comprehension. End-of-chapter exercises help readers apply the concepts.
