## 10% Happier

# How I Tamed the Voice in My Head, Reduced Stress Without Losing My Edge, and Found Self-Help That Actually Works - A True Story

*Hachette UK #1 New York Times Bestseller and winner of the 2014 Living Now Book Award for Inspirational Memoir. 'An enormously smart, clear-eyed, brave-hearted, and quite a personal look at the benefits of meditation' - Elizabeth Gilbert* 10% Happier is a spiritual book written for - and by - someone who would otherwise never read a spiritual book. It is both a deadly serious and seriously funny look at mindfulness and meditation as the next big public health revolution. Dan Harris always believed the restless, relentless, impossible-to-satisfy voice in his head was one of his greatest assets. How else can you climb the ladder in an ultra-competitive field like TV news except through nonstop hand-wringing and hyper vigilance? For a while, his strategy worked. Harris anchored national broadcasts and he covered wars. Then he hit the brakes, and had a full-blown panic attack live on the air. What happened next was completely unforeseen. Through a bizarre series of events - involving a disgraced evangelical pastor, a mysterious self-help guru and a fateful gift from his wife - Harris stumbled upon something that helped him tame the voice in his head: meditation. At first, he was deeply suspicious. He had long associated meditation with bearded swamis and unwashed hippies. But when confronted with mounting scientific evidence that just a few minutes a day can literally rewire the brain for focus, happiness, and reduced reactivity, Harris took a deep dive. He spent years mingling with scientists, executives and marines on the front lines of a quiet revolution that has the potential to reshape society. He became a daily meditator, and even found himself on a ten-day, silent meditation retreat, which was simultaneously the best and worst experience he'd ever had. Harris's life was not transformed into a parade of rainbows and unicorns, but he did gain a passion for daily meditation. While the book itself is a narrative account of Dan's conversion amid the harried and decidedly non-Zen world of the newsroom, it concludes with a section for the novice on how to get started.

# Alfa Romeo 105 Series Spider

## The Complete Story

*The Crowood Press* The Alfa Romeo 105 series Spider is one of the most admired drop-head sports cars to come out of Italy. Launched in 1966, its radical new look was not immediately welcomed. Despite its inauspicious start, production of this much-admired car lasted for twenty-seven years, finally stopping in 1993. Jim Talbott and Andrew Brown pay homage to the 105/115 series Alfa Spider. With over 330 photographs, many specially commissioned, this new book describes the Alfa Romeo company history including its philosophy of incorporating driver appeal into all of its products, resulting in some of the most desirable vehicles of their age; it details the evolution of the 105/115 series through four distinct body styles; lists the technical design specifications and every major version of the Spider and finally, discusses the issues and challenges of finding and owning a classic Spider.

# Deal: My Three Decades of Drumming, Dreams, and Drugs with the Grateful Dead

*St. Martin's Press* The Grateful Dead are perhaps the most legendary American rock band of all time. For thirty years, beginning in the hippie scene of San Francisco in 1965, they were a musical institution, the original jam band that broke new ground in so many ways. From the music to their live concert sound systems and fan recordings, they were forward-thinking champions of artistic control and outlaw artists who marched to the beat of their own drums. In Deal, Bill Kreutzmann, one of their founding members and drummer for every one of their over 2,300 concerts has written an unflinching and wild account of playing in the greatest improvisational band of all time. Everything a rock music fan would expect is here, but what sets this apart is Bill's incredible life of adventure that was at the heart of the Grateful Dead experience. This was a band that knew no limits and Bill lived life to the fullest, pushing the boundaries of drugs, drums and high times, through devastating tragedy and remarkable triumph. But at this book's beating heart is the music--theirs and others. Some of the greatest musicians and concerts were a part of the Grateful Dead's career, from sharing the stage with Janis Joplin, Bob Dylan, and The Who, to playing in the Acid Tests, The Monterey Pop Festival, Woodstock and Altamont. Bill's life is a chronicle of American music and pop culture history and his epic personal journey is one of sonic discovery and thrilling experiences.

# Alfa Romeo TZ-TZ2

## Born to win

*Giorgio Nada Editore Srl* Having left motor racing in the early 1950s - at least officially - Alfa Romeo returned to the sport once again at the start of the following decade due to the commitment and enthusiasm of Autodelta. This Alfa offshoot distinguished itself by preparing and racing about 30 of the manufacturer's different cars that really did make history. Among them, the Giulia TZ holds a place at the head of the crowd. It had a 1.5-litre, 113 hp engine from the Giulia SS, front and rear suspension of modern conception, disc brakes and an especially bold body shaped by Zagato on a modern tubular chassis. Those were the strong points of this car, which scored results of absolute prestige in its brief career at Sebring, in the Targa Florio, the 24 Hours of Le Mans and the Tour de France. Vito Witting da Prato, already the author of a meticulously written book on the Alfa Romeo SZ, covers the winning, human, technical and sporting factors of this unforgettable car in a monumental work. A book which, to the precise text and painstaking historical reconstruction, has been added illustrations of previously unpublished pictures and technical designs by Autodelta.

# Lancia Hyena Zagato

## Una Delta all'ennesima potenza/The Ultimate Delta

*Giorgio Nada Editore* "We have to recreate the enthusiasm that surrounded the SPORT models, ever a synonym for the Lancia Zagatos": in 1991 this was the brief the recent graduate Andrea Zagato gave to Marco Pedracini, a young designer who had not long been hired by prestigious coachbuilder. It was out of this fortuitous and fortunate coming together of this far-sighted idea and the enthusiasm of Paul Koot, a Dutch fan and a businessman in the automotive sector, that an icon was born, the HYENA. A beautiful car, but one practically unknown to the general public. A car that could have repeated and even surpassed the commercial and sporting success of the Lancia Delta Integrale from which it was derived. Unfortunately just 24 examples were produced due to the debateable decision taken by the Fiat/Lancia directors of the time. Following a rapid review of the evolution of the Lancia Delta over the year, this book, written by an enthusiastic collector, examines the difficult genesis of the Hyena, from the first steps with the publication of the very first (previously unpublished) sketches and numerous photos and then follows its development, engineering and production through to its presentation at the car shows and in brochures. The book is completed by a comprehensive technical section, with the project list and the spare parts catalogue as well as an extensive photographic portrait of one particular example, N. 20. Lastly, all 24 Lancia Hyenas are examined, with the intention of reconstructing their specifications, their destination and the country in which they are jealously conserved by the enthusiast and collectors who possess a precious example.

Alfa Romeo GTA

Il Cavallino Nel Cuore

Autobiography of a designer

*Giorgio Nada Editore Srl* For the first time, one of the major names in Italian car design tells his story from the beginning; from when he made his first sketches on

paper, unbeknown to his parents and not only of cars, to reaching a point at which his name became synonymous with some of the best known and most important cars on the international front. In his 23-year career at Pininfarina, Leonardo Fioravanti, who was first a designer and architect, then managing director and director general of 'Studi & Ricerche' department, created some of the most beautiful Ferraris of all time; they ranged from the 1965 250 LM sports coupe Speciale to the immortal 1968 Daytona through to the 1975 308 GTB and GTS and the 1984 288 GTO, as well as the P5 and P6 of 1968. While continuing his Ferrari essay during his Pininfarina career, Fioravanti also guided the creation of numerous other projects, among them the Dino road car, the 1980 Pinin four-door prototype and went on to the 1984 Testarossa and the 1987 F40. He worked for the Fiat Group from 1988 until 1991, during which time he took on the roles of deputy director general of Ferrari, later became responsible for advanced design CRF and then head of the Fiat Styling Centre. In 1987, he founded Fioravanti srl, an architectural studio, and in 1991 he extended his services to industry, in particular the design of means of transport. Images of an epoch, designs from his own personal archive never previously seen and, above all, a passionate first person account. Those are the key elements of this outstanding book which, through the creations of Leonardo Fioravanti, covers over 50 years of the history of automobile style and culture.

## Millionaire by Thirty

# The Quickest Path to Early Financial Independence

*Hachette UK* The definitive, easy to understand and breakthrough guide on how young people can take their limited first income and turn it into a small fortune by the time they turn thirty from an expert financial planner. Most people know that there are 70 million Baby Boomers in America today....but what is less known is that there are approximately 100 million people in America between the ages of 16 and 30. This generation has just entered, or will soon be entering the work force. And they have no idea how to invest, save, or handle their money. Young people today come out of school having had little or no formal education on the basics of money management. Many have large debts from student loans looming over their heads. And many feel confused and powerless when their pricey educations don't translate into high paying jobs. They feel that their \$30,000-\$40,000 salary is too meager to bother with investing, and they constantly fear that there will be "too much month left at the end of their money." Douglas R. Andrew has shown the parents of this generation a different pathway to financial freedom. Now Doug and his sons, Emron and Aaron - both of whom are in their mid-20s - show the under-30 crowd how they can break from traditional 401k investment plans and instead can find a better way by investing in real estate, budgeting effectively, avoiding unnecessary taxes and using life insurance to create tax-free income. With the principles outlined in Millionaire by Thirty, recent graduates will be earning enough interest on their savings to meet their basic living expenses by the time they're 30. And by the time they're 35, their investments will be earning more money than they are, guaranteeing them a happy, wealthy future.

## Pininfarina

# Masterpieces of Style

*Giorgio Nada Editore Srl* The entire stylistic and industrial history of Pininfarina, a true bastion of the "Made in Italy" phenomenon, is contained in this book with its wealth of black and white and colour photos. For almost 90 years Pininfarina has been synonymous with Italian coachbuilding. Some of the most iconic cars in the history of not only Italian but also worldwide motoring have been clothed by a firm that has been recognised as the creator of true works of art. Battista Farina, known as "Pinin", was the master craftsman who in 1930 founded in Turin the "Società

Anonima Carrozzeria Pinin Farina''. The quality and the beauty of his creations soon established the firm's reputation and well before the outbreak of the Second World War it could boast magnificent bodies on Alfa Romeo, Lancia and Fiat chassis. 1947 saw the presentation of a milestone in the history of Italian design, the Cisitalia 202. Between the 1950s and 1990s the company produced iconic designs such as the Alfa Romeo Giulietta Spider and the "Duetto", the Lancia Aurelia B24 and the Flaminia, the Fiat Dino Spider and the 124 coupé, not to mention the innumerable Ferraris bodied by the prestigious Turin firm that from 1952 had become Maranello's coachbuilder of choice. Numerous 250 GTs, the 250 Le Mans, the 365 Daytona, the 308 GTB, the Testarossa and the 288 GTO are all Pininfarina-bodied Ferraris. This book recounts the most recent history of this giant of Italian car design with all the latest products realised in particular for the Asian market where the Pininfarina brand has an increasing presence. There is also a chapter devoted to Pininfarina Extra, a brand within the brand, which since 1986 has been taking a 360° approach to design. The full story of this iconic Italian design firm finally told in a single volume.
