The United Nations Convention on the Rights of the Child

Taking Stock after 25 Years and Looking Ahead

BRILL This book, based on papers from the conference '25 Years CRC' held by the Department of Child Law at Leiden University, draws together a rich collection of research and insight by academics, practitioners, NGOs and other specialists to reflect on the lessons of the past 25 years, take stock of how international rights find their way into children's lives at the local level, and explore the frontiers of children's rights for the 25 years ahead.

World Guide to Abbreviations of Organizations

Springer Science & Business Media This edition of well over 50,000 entries not only updates its predecessor but considerably increases the coverage of Latin America and Eastern Europe. I have been aided in this work by two colleagues at Glasgow University Library, Dr Lloyd Davies and Barbara MacMillan, and in general revision by Kate Richard. Close on 20% of the text has been altered. The equivalences, introduced into the last edition, linking acronyms in different languages for the same organization, have been extended. New to this edition is the cross-referencing between a defunct organization and its successor. Otherwise the policies adopted in previous editions have been retained: strictly local organizations are omitted, but the subject scope includes activities of all kinds; the country of origin of a national organization is given in brackets, unless it is the home country of the title language or can be readily deduced from the title itself. Acronyms of parent bodies of subsidiary organizations are also added in brackets. A select bibliography guides the reader to specialist works providing more detailed information. Particularly at a time of such widespread political change affecting organizational structures in so many countries, it is impossible to ensure complete up-to-date accuracy in a work of this kind. Readers are earnestly invited to inform me of any errors and omissions for attention in a later edition of this work. H. H. Bibliography Acronyms, Initialisms and Abbreviations Dictionary. 13th edn. Gale Research Co. , Detroit, 1989.

Romans

InterVarsity Press With a scholar's mind and a pastor's heart, Tom Wright walks you through Romans in this guide designed especially with everyday readers in mind. Perfect for group use or daily personal reflection, this study uses the popular inductive method combined with Wright's thoughtful insights to bring contemporary application of Scripture to life.

2 Corinthians

InterVarsity Press With a scholar's mind and a pastor's heart, N. T. Wright guides us through the New Testament book of 2 Corinthians, moving us from the world in which it was lived into the world in which we must live it again. Includes thirteen sessions for group or personal study.

The Gene

An Intimate History

Random House **** NEW YORK TIMES NUMBER ONE BESTSELLER **** The Gene is the story of one of the most powerful and dangerous ideas in our history from the author of The Emperor of All Maladies. The story begins in an Augustinian abbey in 1856, and takes the reader from Darwin's groundbreaking theory of evolution, to the horrors of Nazi eugenics, to present day and beyond - as we learn to "read" and "write" the human genome that unleashes the potential to change the fates and identities of our children. Majestic in its scope and ambition, The Gene provides us with a definitive account of the epic history of the quest to decipher the master-code that makes and defines humans - and paints a fascinating vision of both humanity's past and future. For fans of Sapiens by Yuval Noah Harari, A Brief History of Time by Stephen Hawking and Being Mortal by Atul Gawande. 'Siddhartha Mukherjee is the perfect person to guide us through the past, present, and future of genome science' Bill Gates 'A thrilling and comprehensive account of what seems certain to be the most radical, controversial and, to borrow from the subtitle, intimate science of our time...Read this book and steel yourself for what comes next' Sunday Times

Mark

InterVarsity Press With a scholar's mind and a pastor's heart, Tom Wright walks you through Mark in this guide designed especially with everyday readers in mind. Perfect for group use or daily personal reflection, this study uses the popular inductive method combined with Wright's thoughtful insights to bring contemporary application of Scripture to life.

Obesity Prevention and Treatment

A Practical Guide

CRC Press The World Health Organization estimates that there are 2.1 billion individuals with obesity globally. Nearly three quarters of adults in the United States are overweight or obese. The average individual with obesity cuts ten years off their life expectancy, yet less than 40% of physicians routinely counsel individuals concerning the adverse health consequences of obesity. **Obesity Prevention and Treatment: A Practical Guide** equips healthcare practitioners to include effective weight management counselling in the daily practice of medicine. Written by lifestyle medicine pioneer and cardiologist, Dr. James Rippe and obesity expert Dr. John Foreyt, this book provides evidence-based discussions of obesity and its metabolic consequences. A volume in the Lifestyle Medicine Series, it provides evidence-based information about the prevention and treatment of obesity through lifestyle measures, such as regular physical activity and sound nutrition, as well as the use of new medications or bariatric surgery available to assist in weight management. Provides a framework and practical strategies to assist practitioners in safe and effective treatments of obesity. Contains information explaining the relationship between obesity and increased risk of heart disease, diabetes, cancer, osteoarthritis, and other chronic conditions. Chapters begin with bulleted key points and conclude with a list of Clinical Applications. Written for practitioners at all levels, this user-friendly, evidence-based book on obesity prevention and treatment will be valuable to practitioners in general medicine or subspecialty practices.

Philippians

InterVarsity Press With a scholar's mind and a pastor's heart, N. T. Wright helps us learn from Paul's writing in Phillipians the art of seeing God's purposes working out through problems and difficulties, and deepen our own confidence in God's power. Includes eight sessions for group or personal study.

A Practical Manual for Musculoskeletal Research

World Scientific This manual provides technical protocols for musculoskeletal research on a translational basis, i.e. a disease-orientated approach. It offers guidance on various laboratory techniques, including cell culture and molecular biology, histology and histomorphometry, microscopy and bioimaging, laboratory animal models, CT- and MRI-based densitometry and microarchitectural analysis, biomechanics and functional analysis of orthopedic kinesiology, etc. The content is simple and straightforward, with illustrations and step-by-step procedures as an easy experimental reference for personnel in basic and clinical musculoskeletal research and education. This book will provide a unique multidisciplinary platform for various professions OCo not only orthopedics, but also biomedical engineering and biomaterial sciences OCo involving both basic and clinical medicine."

John

InterVarsity Press With a scholar's mind and a pastor's heart, N. T. Wright helps us discover the clues John gives in his gospel that we might see even more clearly the reality of who Jesus is, the new creation he inaugurates and the difference that all makes. Includes 26 sessions for group or personal study.

The Letters of John

InterVarsity Press In his letters, John expresses delight at believers who are "walking in the truth": behaving with that integrity which reflects the gospel. These nine studies from Tom Wright help us become believers who are "walking in the truth" in our own day-- people in whom the very life of God is at work for all to see.

Ephesians

InterVarsity Press With a scholar's mind and a pastor's heart, Tom Wright walks you through Ephesians in this guide designed especially with everyday readers in mind. Perfect for group use or daily personal reflection, this study uses the popular inductive method combined with Wright's thoughtful insights to bring contemporary application of Scripture to life.

A Field Guide to Narnia

InterVarsity Press Are you traveling to Narnia? No matter if this is your first visit to C. S. Lewis's wonderful fantasy world or if you've been there many times, you'll want to bring along this handy companion to the landscape and inhabitants of Narnia, including an A-to-Z guide to characters, places, objects and events. From Narnia expert Colin Duriez you'll learn Duriez also takes up some the sticky questions that you may be left wondering about, such as the destiny of Susan. His book will help you dig deeper into the series and its implications for understanding the Christian life.

Hebrews

InterVarsity Press With a scholar's mind and a pastor's heart, N. T. Wright guides us through the New Testament book of Hebrews, moving us from the world in which it was lived into the world in which we must live it again. Includes twenty sessions for group or personal study.

Acts

InterVarsity Press With a scholar's mind and a pastor's heart, N. T. Wright guides us through the New Testament book of Acts, moving us from the world in which it was lived into the world in which we must live it again. Twenty-four sessions for group or personal study.

Handbook of Positive Behavior Support

Springer Science & Business Media A revolution in working with difficult students began during the 1980s, with a dramatic shift away from dependence on simply punishing bad behavior to reinforcing desired, positive behaviors of children in the classroom. With its foundation in applied behavior analysis (ABA), positive behavior support (PBS) is a social ecology approach that continues to play an increasingly integral role in public education as well as mental health and social services nationwide. The Handbook of Positive Behavior Support gathers into one concise volume the many elements of this burgeoning field and organizes them into a powerful, dynamic knowledge base - theory, research, and applications. Within its chapters, leading experts, including the primary developers and researchers of PBS: (1) Review the origins, history, and ethical foundations of positive behavior support. (2) Report on applications of PBS in early childhood and family contexts, from Head Start to foster care to mental health settings to autism treatment programs. (3) Examine school-based PBS used to benefit all students regardless of ability or conduct. (4) Relate schoolwide PBS to wraparound mental health services and the RTI (response to intervention) movement. (5) Provide data and discussion on a variety of topics salient to

PBS, including parenting issues, personnel training, high school use, poorly functioning schools, and more. This volume is an essential resource for school-based practitioners as well as clinicians and researchers in clinical child, school, and educational psychology.

America's Changing Demographics

Opposing Viewpoints Thanks to a declining birth rate, upticks in immigration, and evolving gender roles, America looks much different from the way it did 100, 50, or even 25 years ago. Aging baby boomers are putting stress on the current health care system. Young people have different values and priorities from those of previous generations. Unequal distribution of wealth has created a greater economic divide than ever before. How will America's shifting demographics affect the country's future? Through diverse viewpoints, this fascinating volume explores the many factors that contribute to what it means to be an American and how that might change in this century.

Luke

InterVarsity Press With a scholar's mind and a pastor's heart, N. T. Wright guides us through the New Testament book of Luke, showing how we can participate in Luke's story by making it real in our own world. Twenty-six sessions for group or personal study.

Green Walls in High-Rise Buildings

An output of the CTBUH Sustainability Working Group

Images Publishing The Council on Tall Buildings and Urban Habitat has produced four Technical Guides to date, since the series launched in late 2012. Each of these guides is the product of a CTBUH Working Group—committees formed specifically to address focused topical subjects in the industry. The intention of each guide is the same—to provide working knowledge to the typical building owner or professional who wants a better understanding of available options for improving tall buildings, and what affects their design. The object of the series is to provide a tool-kit for the creation of better-performing tall buildings, and to spread the understanding of the considerations that need to be made in designing tall. This technical guide offers an extensive overview of the use of vertical vegetation in high-rise buildings, an indepth analysis of green walls, definitions and typology, including standards, policies and incentives. It features comprehensive case studies, along with architectural theories of the public and private benefits of green walls. The book delves into architect-design considerations and limitations, the effects of green walls on energy efficiencies and includes recommendations and future research.

Galatians

InterVarsity Press With a scholar's mind and a pastor's heart, N. T. Wright guides us through the New Testament, moving us from the world in which it was lived into the world in which we must live it again. Includes twenty-two sessions for group or personal study.

The Black Church

This Is Our Story, This Is Our Song

Penguin The instant New York Times bestseller and companion book to the PBS series. “Absolutely brilliant . . . A necessary and moving work.” —Eddie S. Glaude, Jr., author of *Begin Again* “Engaging. . . In Gates’s telling, the Black church shines bright even as the nation itself moves uncertainly through the gloaming, seeking justice on earth—as it is in heaven.” —Jon Meacham, *New York Times Book Review* From the New York Times bestselling author of *Stony the Road* and one of our most important voices on the African American experience comes a powerful new history of the Black church as a foundation of Black life and a driving force in the larger freedom struggle in America. For the young Henry Louis Gates, Jr., growing up in a small, residentially segregated West Virginia town, the church was a center of gravity—an intimate place where voices rose up in song and neighbors gathered to celebrate life's blessings and offer comfort amid its trials and tribulations. In this tender and expansive reckoning with the meaning of the Black Church in America, Gates takes us on a journey spanning more than five centuries, from the intersection of Christianity and the transatlantic slave trade to today's political landscape. At road's end, and after Gates's distinctive meditation on the churches of his childhood, we emerge with a new understanding of the importance of African American religion to the larger national narrative—as a center of resistance to slavery and white supremacy, as a magnet for political mobilization, as an incubator of musical and oratorical talent that would transform the culture, and as a crucible for working through the Black community's most critical personal and social issues. In a country that has historically afforded its citizens from the African diaspora tragically few safe spaces, the Black Church has always been more than a sanctuary. This fact was never lost on white supremacists: from the earliest days of slavery, when enslaved people were allowed to worship at all, their meetinghouses were subject to surveillance and destruction. Long after slavery's formal eradication, church burnings and bombings by anti-Black racists continued, a hallmark of the violent effort to suppress the African American struggle for equality. The past often isn't even past—Dylann Roof committed his slaughter in the Mother Emanuel AME Church 193 years after it was first burned down by white citizens of Charleston, South Carolina, following a thwarted slave rebellion. But as Gates brilliantly shows, the Black church has never been only one thing. Its story lies at the heart of the Black political struggle, and it has produced many of the Black community's most notable leaders. At the same time, some churches and denominations have eschewed political engagement and exemplified practices of exclusion and intolerance that have caused polarization and pain. Those tensions remain today, as a rising generation demands freedom and dignity for all within and beyond their communities, regardless of race, sex, or gender. Still, as a source of faith and refuge, spiritual sustenance and struggle against society's darkest forces, the Black Church has been central, as this enthralling history makes vividly clear.

1 Corinthians

IVP Connect With a scholar's mind and a pastor's heart, Tom Wright walks you through 1 Corinthians in this guide designed especially with everyday readers in mind. Perfect for group use or daily personal reflection, this study uses the popular inductive method combined with Wright's thoughtful insights to bring contemporary application of Scripture to life. This guide by Tom Wright can be used on its own or alongside his *New Testament for Everyone* commentary on 1 Corinthians. It is designed to help you understand Scripture in fresh ways under the guidance of one of the world's leading New Testament scholars. Thoughtful questions, prayer suggestions, and useful background and cultural information all guide you or a group more deeply into God's Word. Discover how you can participate more fully in God's kingdom.

Mind Games

The Guide to Inner Space

Quest Books A series of mental exercises designed for group participation focuses on the roles of reasoning and imagination in achieving sensory perception

Frankenstein

Character Studies

A&C Black Designed for first year students, this innovative guide builds on the usual knowledge base of students beginning literary study in HE by focusing on the familiar characters in Mary Shelley's classic novel, but introducing more sophisticated analysis.

Witness Essentials

Evangelism that Makes Disciples

InterVarsity Press We know the radical difference the gospel of Jesus Christ makes, and we want others to know of it. So often, though, we feel that we are inadequate to the task. The Bible studies, exercises and readings in Daniel Meyer's new book will deepen your faith and equip you to minister to others with a new sense of confidence and calling.

1 & 2 Thessalonians

IVP Connect First impressions stick with us. Paul's first impression of the Thessalonian Christians was an especially powerful one: The gospel message he preached grasped their hearts and minds, and transformed their lives. That memory moves Paul to write to the young church that's bubbling with a sense of the power of the living God. These studies seek to open our lives to that God who leaves a lasting impression also on us. This guide by Tom Wright can be used on its own or alongside his New Testament for Everyone commentary on 1 & 2 Thessalonians. It is designed to help you understand Scripture in fresh ways under the guidance of one of the world's leading New Testament scholars. Thoughtful questions, prayer suggestions, and useful background and cultural information all guide you or a group more deeply into God's Word. Discover how you can participate more fully in God's kingdom.

Revelation

InterVarsity Press Under the guidance of one of the world's leading New Testament scholars, you and your small group will here discover that the bizarre images of Revelation conceal one of Scripture's clearest and most dramatic visions of God's plan for creation.

The National Parks

America's Best Idea

Alfred a Knopf Incorporated Presents a narrative history of the American National Park System, examining the events and political battles that led to the establishment of each park while profiling each for its unique attributes, in a volume that also pays tribute to key advocates.

Mao and China

A Legacy of Turmoil

Penguin Group USA Mao Zedong died in 1976, yet his ghost still haunts present-day China. In this book, Stanley Karnow examines that dire episode in human history and the man responsible for it, detailing the Communist takeover in 1949 and Mao's lofty vision of transforming China into the ideal Marxist nation.

Matthew

InterVarsity Press With a scholar's mind and a pastor's heart, Tom Wright walks you through Matthew in this guide designed especially with everyday readers in mind. Perfect for group use or daily personal reflection, this study uses the popular inductive method combined with Wright's thoughtful insights to bring contemporary application of Scripture to life.

Colossians & Philemon

IVP Connect Paul must often have felt like a mother duck guiding her ducklings to safety. He had seen the enthusiasm of the Colossian Christians but knew they had no idea of the dangers they would face. Longing for them to continue growing in faith, Paul--now stuck in prison--wrote to his young flock, affirming them, warning them of hazards and pointing them to King Jesus, the supreme one who was with them and at work in them. These eight studies on Colossians and Philemon will similarly guide us toward maturity in King Jesus, who is still at work in his people today. This guide by Tom Wright can be used on its own or alongside his New Testament for Everyone commentary on Colossians and Philemon. It is designed to help you understand Scripture in fresh ways under the guidance of one of the world's leading New Testament scholars. Thoughtful questions, prayer suggestions, and useful background and cultural information all guide you or a group more deeply into God's Word. Discover how you can participate more fully in God's kingdom.

Rutherford and Fry's Complete Guide to Absolutely Everything (Abridged)

new from the stars of BBC Radio 4

Random House THE SUNDAY TIMES BESTSELLER 'Explores just about every area of life' DAILY MAIL 'If only Adam Rutherford and Hannah Fry were on tap to all of us, all the time . . . The pair have such a gift for making life, numbers and the forces at work in the universe all the richer, stranger, funnier and more marvellous.' Stephen Fry In Rutherford and Fry's comprehensive guidebook, they tell the complete story of the universe and absolutely everything in it - skipping over some of the boring parts. This is a celebration of the weirdness of the cosmos, the strangeness of humans and the fact that amid all the mess, we can somehow make sense of life. Our brains have evolved to tell us all sorts of things that feel intuitively right but just aren't true: the world looks flat, the stars seem fixed in the heavenly firmament, a day is 24 hours... This book is crammed full of tales of how stuff really works. With the power of science, Rutherford and Fry show us how to bypass our monkey-brains, taking us on a journey from the origin of time and space, via planets, galaxies, evolution, the dinosaurs, all the way into our minds, and wrestling with some truly head-scratching questions that only science can answer: What is time, and where does it come from? Why are animals the size and shape they are? How horoscopes work (Spoiler: they don't, but you think they do) Does my dog love me? Why nothing is truly round? Do you need your eyes to see? 'A wonderfully engaging blend of wit, enthusiasm, clarity and knowledge.' Bill Bryson 'Like the universe itself, this book is multi-faceted, surprising and full of wonders. It's also funny, wise and exceedingly brainy. You really owe it to yourself to read it.' Tim Harford, author of How To Make The World Add Up

Corporate Crime in the Pharmaceutical Industry (Routledge Revivals)

Routledge First published in 1984, this book examines corporate crime in the pharmaceutical industry. Based on extensive research, including interviews with 131 senior executives of pharmaceutical companies in the United States, the United Kingdom, Australia, Mexico and Guatemala, the book is a major study of white-collar crime. Written in the 1980s, it covers topics such as international bribery and corruption, fraud in the testing of drugs and criminal negligence in the unsafe manufacturing of drugs. The author considers the implications of his findings for a range of strategies to control corporate crime, nationally and internationally.

The Politically Incorrect Guide to Islam (And the Crusades)

Regnery Publishing Presents a critical analysis of the differences between Christianity and Islam and maintains that Islam contains a political agenda which endorses violence and aggression against non-Muslims.

Understanding and Interpreting Educational Research

Guilford Press This user-friendly text takes a learn-by-doing approach to exploring research design issues in education and psychology, offering evenhanded coverage of quantitative, qualitative, mixed-methods, and single-case designs. Readers learn the basics of different methods and steps for critically examining any study's design, data, and conclusions, using sample peer-reviewed journal articles as practice opportunities. The text is unique in featuring full chapters on survey methods, evaluation, reliability and validity, action research, and research syntheses. Pedagogical Features Include: *An exemplar journal article at the end of each methods chapter, together with questions and activities for critiquing it (including, where applicable, checklist forms to identify threats to internal and external validity), plus lists of additional research examples. *Research example boxes showing how studies are designed to address particular research questions. *In every chapter: numbered chapter objectives, bulleted summaries, subheadings written as questions, a running glossary, and end-of-chapter discussion questions. * Electronic Instructor's Resource Manual with Test Bank, provided separately--includes chapter outlines; answers to exercises, discussion questions, and illustrative example questions; and PowerPoints.

Randomization in Clinical Trials

Theory and Practice

John Wiley & Sons Praise for the First Edition "All medical statisticians involved in clinical trials should read this book..." - Controlled Clinical Trials Featuring a unique combination of the applied aspects of randomization in clinical trials with a nonparametric approach to inference, Randomization in Clinical Trials: Theory and Practice, Second Edition is the go-to guide for biostatisticians and pharmaceutical industry statisticians. Randomization in Clinical Trials: Theory and Practice, Second Edition features: Discussions on current philosophies, controversies, and new developments in the increasingly important role of randomization techniques in clinical trials A new chapter on covariate-adaptive randomization, including minimization techniques and inference New developments in restricted randomization and an increased focus on computation of randomization tests as opposed to the asymptotic theory of randomization tests Plenty of problem sets, theoretical exercises, and short computer simulations using SAS® to facilitate classroom teaching, simplify the mathematics, and ease readers' understanding Randomization in Clinical Trials: Theory and Practice, Second Edition is an excellent reference for researchers as well as applied statisticians and biostatisticians. The Second Edition is also an ideal textbook for upper-undergraduate and graduate-level courses in biostatistics and applied statistics. William F. Rosenberger, PhD, is University Professor and Chairman of the Department of Statistics at George Mason University. He is a Fellow of the American Statistical Association and the Institute of Mathematical Statistics, and author of over 80 refereed journal articles, as well as The Theory of Response-Adaptive Randomization in Clinical Trials, also published by Wiley. John M. Lachin, ScD, is Research Professor in the Department of Epidemiology and Biostatistics as well as in the Department of Statistics at The George Washington University. A Fellow of the American Statistical Association and the Society for Clinical Trials, Dr. Lachin is actively involved in coordinating center activities for clinical trials of diabetes. He is the author of Biostatistical Methods: The Assessment of Relative Risks, Second Edition, also published by Wiley.

Rééducation neurologique

Guide pratique de rééducation des affections neurologiques

Arnette "Rééducation neurologique" est une nouvelle version profondément révisée de l'ouvrage. Celle-ci s'imposait non seulement du fait des avancées rapides survenues dans tous les domaines des neurosciences, mais aussi par les progrès majeurs réalisés dans la prise en charge et les techniques de la médecine de rééducation et de réadaptation. Cet ouvrage montre l'enrichissement considérable que notre discipline tire de ces confrontations aux techniques d'exploration les plus récentes. Elles en fondent la démarche, en élargissent le champ, et en confirment la portée. Cependant, l'esprit dans lequel avait été rédigé ce guide - clair, didactique et le plus complet possible - a su être conservé. De même, le découpage des différents chapitres a gardé la présentation en quatre parties : - les bilans - les techniques et moyens de rééducation - les grands syndromes - quelques affections particulières pour apporter des réponses pratiques aux cliniciens et aux professionnels de la rééducation.

1 and 2 Timothy and Titus

InterVarsity Press With a scholar's mind and a pastor's heart, Tom. Wright walks you through 1 2 Timothy Titus in this guide designed especially with everyday readers in mind. Perfect for group use or daily personal reflection, this study uses the popular inductive method combined with Wright's thoughtful insights to bring contemporary application of Scripture to life.

Life's Missing Instruction Manual

The Guidebook You Should Have Been Given at Birth

Wiley

macOS Catalina: The Missing Manual

The Book That Should Have Been in the Box

"O'Reilly Media, Inc." Apple gives macOS new features and improvements right on your desktop and under the hood with Catalina—aka OS X 10.15. With this updated guide, you'll learn how to use your iPad as a second screen, work with iPad apps on your Mac, and use Screen Time on your Mac. This new edition of the #1 bestselling Mac book shows you how to use the revamped apps for Music, Podcasts, and TV. Loaded with illustrations, step-by-step instructions, tips, and tricks, this book from David Pogue—Missing Manual series creator, New York Times columnist, and Emmy-winning tech correspondent for CNBC, CBS, and NPR—covers everything Catalina has to offer with lots of humor and technical insight.
