Teens and reviewers alike have fallen in love with Demonglass' humor, forbidden romance, suspense, and delicious paranormal fun. What's worse, Sophie has powers that threaten the lives of everyone she loves. When Scotland Was Jewish DNA Evidence, Archeology, Analysis of Migrations, and Public and Family Records Show Twelfth Century Semitic Roots McFarland The popular image of Scotland is dominated by widely recognized elements of Celtic culture. But a significant non-Celtic influence on Scotland's history has been largely ignored for centuries? This book argues that much of Scotland's history and culture from 1100 forward is Jewish. The authors provide evidence that many of the national heroes, villains, rulers, nobles, traders, merchants, bishops, guild members, burgesses, and ministers of Scotland were of Jewish descent, their ancestors originating in France and Spain. Much of the traditional historical account of Scotland, it is proposed, rests on fundamental interpretive errors, perpetuated in order to affirm Scotland's identity as a Celtic, Christian society. A more accurate and profound understanding of Scottish history has thus been buried. The authors' wide-ranging research includes examination of census records, archaeological artifacts, castle carvings, cemetery inscriptions, religious seals, coinage, burgess and guild member rolls, noble genealogies, family crests, portraiture, and geographic place

names. **Discovery of the Presence of God Devotional Nonduality Hay House, Inc** The sixth book in a progressive series by Dr. David R. Hawkins, this work finalizes and further clarifies the true nature and core of the condition termed "Enlightenment." It is primarily an instruction manual for the serious spiritual devotee and reveals information only known by those who have transcended the ego to reach Divine Realization. This is the inner route from the self to the Self, and the descriptions of the progressive states are devoted to the reader's own illumination. This work will appeal to those who themselves are dedicated to the spiritual Reality of Truth as the direct pathway to God. **The Book of Souls Kevin Moore** The dead don't come back, but some never leave... Jack Kelly remembers everything about his wife and children. The wonderful smell of his wife's hair, the way she whispers to him at night. His three children running through the house, the sound of their laughter. That was his life before the accident. His near-death experience left him in the in-between space, somewhere between this world and whatever comes next. But he recovered and woke up as his thirteen-year-old self. The doctors tell him it is a false memory, a result of his fall and the insult to his brain from his injuries. "How can a thirteen-year-old boy have a wife and three children?" They ask. But how can he see and hear dead people, demons, ghosts, and shadowy creatures? And if they exist, then is it so inconceivable to believe that Jack's life as a 47-year-old man with a wife and children existed too? Jack begins his journey to find out why and how. And, in the end, he resolves to find his way back to his true existence, back to his family. **The Book of Souls** is the first book in the series. **The Book of Demons** is coming... "... a Spiritual roller coaster ride! Harry Potter meets the Exorcist!" - American Online Radio **What Works in Girls' Education Evidence for the World's Best Investment Brookings Institution Press** Hard-headed evidence on why the returns from investing in girls are so high that no nation or family can afford not to educate their girls. Gene Sperling, author of the seminal 2004 report published by the Council on Foreign Relations, and Rebecca Winthrop, director of the Center for Universal Education, have written this definitive book on the importance of girls' education. As Malala Yousafzai expresses in her foreword, the idea that any child could be denied an education due to poverty, custom, the law, or terrorist threats is just wrong and unimaginable. More than 1,000 studies have provided evidence that high-quality girls' education around the world leads to wide-ranging returns: Better outcomes in economic areas of growth and incomes Reduced rates of infant and maternal mortality Reduced rates of child marriage Reduced rates of the incidence of HIV/AIDS and malaria Increased agricultural productivity Increased resilience to natural disasters Women's empowerment **What Works in Girls' Education** is a compelling work for both concerned global citizens, and any academic, expert, nongovernmental organization (NGO) staff member, policymaker, or journalist seeking to dive into the evidence and policies on girls' education. **Pre-Incident Indicators of Terrorist Incidents The Identification of Behavioral,**

Geographic and Temporal Patterns of Preparatory Conduct DIANE Publishing This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. First the ghost of her evil grandmother haunted her every move, then her best friend was accused of murder and of course there was the discovery that Archer Cross, aka the boy of her dreams, was actually an undercover demon hunter - which would probably be something she could have worked on, if she hadn't also discovered that she was actually the demon Archer was hunting... So, despite their issues, Sophie is actually relieved to be spending the summer in London with her father. But when your father is Head of The Council of Prodigium and your summer is being spent at the headquarters of everything magical, then a quiet holiday isn't really that likely. And, as Sophie struggles to come to terms with her new found demon powers, she finds herself thrust once again into a world of dark magic and conspiracies. The only thing that could possibly make things more complicated would be for Archer Cross to show up again, which of course he wouldn't, would he? **Mental Health and Disasters** Cambridge University Press A reference on mental health and disasters, focused on the full spectrum of psychopathologies associated with many different types of disasters. **The Nightmare Affair** Tor Teen **The Nightmare Affair** is the first in a gripping new urban fantasy trilogy by Mindee Arnett. Putnam's Sons "In the sequel to REBEL BELLE, Harper Price and her new boyfriend and oracle David Stark face new challenges as the powerful Ephors seek to claim David for their own"-- The Global Smartphone Beyond a youth technology UCL Press The smartphone is often literally right in front of our nose, so you would think we would know what it is. But do we? To find out, 11 anthropologists each spent 16 months living in communities in Africa, Asia, Europe and South America, focusing on the take up of smartphones by older people. Their research reveals that smartphones are technology for everyone, not just for the young. The Global Smartphone presents a series of original perspectives deriving from this global and comparative research project. Smartphones have become as much a place within which we live as a device we use to provide 'perpetual opportunism', as they are always with us. The authors show how the smartphone is more than an 'app device' and explore differences between what people say about smartphones and how they use them. The smartphone is unprecedented in the degree to which we can transform it. As a result, it quickly assimilates personal values. In order to comprehend it, we must take into consideration a range of national and cultural nuances, such as visual communication in China and Japan, mobile money in Cameroon and Uganda, and access to health information in Chile and Ireland - all alongside diverse trajectories of ageing in Al Quds, Brazil and Italy. Only then can we know what a smartphone is and understand its consequences for people's lives around the world. It offers guidance on developing and delivering mental health promotion interventions across a variety of settings internationally. Chapters outline key mental health promotion concepts, implementation processes, and outcomes through empirical findings, practical advice based on successful evidence-based approaches, and templates for action. In addition, chapters answer key “how” questions on practical implementation as well as the “whys”, providing rationales for mental health promotion and identifying the key factors and underlying principles that make these interventions work. The book includes examples of evidence-based practice with 17 case studies of innovative interventions from different international settings. These case studies illustrate the practical aspects of intervention development and delivery and the realities of implementing policies and programmes outside of controlled research conditions. It is aimed largely at researchers and practitioners including health care workers, social workers, educators and law enforcement officials. *The World Cannot Give* Simon and Schuster “*The Secret History meets The Price of Salt*” (Vogue) in this “equal parts dangerous and delicious” (Entertainment Weekly) novel about queer desire, religious zealotry, and the hunger for transcendence among the members of a cultic chapel choir at a Maine boarding school—and the ambitious, terrifyingly charismatic girl that rules over them. When shy, sensitive Laura Stearns arrives at St. Dunstan’s Academy in Maine, she dreams that life there will echo her favorite novel, *All Before Them*, the sole surviving piece of writing by Byronic “prep school prophet” (and St. Dunstan’s alum) Sebastian Webster, who died at

nineteen, fighting in the Spanish Civil War. She soon finds the intensity she is looking for among the insular, Webster-worshipping members of the school's chapel choir, which is presided over by the charismatic, neurotic, overachiever Virginia Strauss. Virginia is as fanatical about her newfound Christian faith as she is about the miles she runs every morning before dawn. She expects nothing short of perfection from herself—and from the member of the choir. Virginia inducts the besotted Laura into a world of transcendent music and arcane ritual, illicit cliff-diving and midnight crypt visits: a world that, like Webster's novels, finally seems to Laura to be full of meaning. But when a new school chaplain challenges Virginia's hold on the "family" she has created, and Virginia's efforts to wield her power become increasingly dangerous, Laura must decide how far she will let her devotion to Virginia go. The World Cannot Give is a "hypnotic and intense" (Shondaland) meditation on the power, and danger, of wanting more from the world. Ignition! An Informal History of Liquid Rocket Propellants Rutgers University Press This newly reissued debut book in the Rutgers University Press Classics Imprint is the story of the search for a rocket propellant which could be trusted to take man into space. This

search was a hazardous enterprise carried out by rival labs who worked against the known laws of nature, with no guarantee of success or safety. Acclaimed scientist and sci-fi author John Drury Clark writes with irreverent and eyewitness immediacy about the development of the explosive fuels strong enough to negate the relentless restraints of gravity. The resulting volume is as much a memoir as a work of history, sharing a behind-the-scenes view of an enterprise which eventually took men to the moon, missiles to the planets, and satellites to outer space. A classic work in the history of science, and described as “a good book on rocket stuff...that’s a really fun one” by SpaceX founder Elon Musk, readers will want to get their hands on this influential classic, available for the first time in decades. New and ever-larger offices, banks, warehouses and salerooms, often innovative in design and of spectacular architectural quality, were built in a highly concentrated area, which powerfully represents the confidence and prosperity of the period. This book, attractively illustrated by photographs and drawings, tells the story of the business quarter from the 18th century to the present day and emphasises that conservation of historic commercial buildings is important in retaining the area's distinctive character. Slavery and the British Country House In 2007 English Heritage commissioned initial research into links with transatlantic slavery or its abolition amongst families who owned properties now in its care. This was part of the commitment by English Heritage to commemorate the bicentenary of the abolition of the British transatlantic slave trade with work that would make a real difference to our understanding of the historic environment in the longer term. The research findings and those of other scholars and heritage practitioners were presented at the 'Slavery and the British Country House' conference which brought together academics, heritage professionals, country house owners and community researchers from across Britain to explore how

country houses might be reconsidered in the light of their slavery linkages and how such links have been and might be presented to visitors. Since then the conference papers have been updated and reworked into a cutting edge volume which represents the most current and comprehensive consideration of slavery and the British country house as yet undertaken. **Adapting to Climate Change Thresholds, Values, Governance Cambridge University Press** This presents top scientific research by leading researchers and practitioners on the critical issue of adapting to climate change. **England's Schools History, architecture and adaptation Historic England** For most of us, school was our first detailed experience of a building outside the homes of our parents, friends and relations. Many people react emotionally when their old school, charged with so many memories, is closed or demolished. Not all school buildings are worthy of designation, but many are major local landmarks and demonstrate an important part of our society's evolution. This book aims to raise awareness of the wide range of school buildings built in England from the Reformation to the Millennium, and discusses which buildings may be worthy of greater appreciation and preservation. It summarises the development of schools and analyses how social attitudes have been expressed in their architecture and planning. Finally, it looks at the adaptation of older schools to modern needs and new uses for schools around the country, drawing on examples of best practice from **Historic Building Inspectors and Advisers. Prominent Families of New York Being an Account in Biographical Form of Individuals and Families Distinguished as Representatives of the Social, Professional and Civic Life of New York City** **The Horribly Haunted School Chivers North Amer** Monty's mother sends him to the Brinsley Codd School for Sensible Thought, hoping he will learn that there is no such thing as ghosts, but he soon discovers that the school itself is haunted by its founder. **Chinese Adolescents in Hong Kong Family Life, Psychological Well-Being and Risk Behavior Springer** This book documents the findings of a 3-year longitudinal study on the quality of family life, personal well-being and risk behavior in Chinese adolescents in Hong Kong. It presents the profiles of quality of family life (family functioning, parental behavioral control, parental psychological control and parent-child relational qualities); personal well-being (positive youth development and life satisfaction measures) and adolescent risk behavior (substance abuse, delinquency, self-harm and suicidal behavior and behavioral intentions to engage in risk behavior) in different adolescent populations across time. It also examines theoretical issues concerning the interrelationships between family quality of life, psychological well-being and risk behavior in adolescents. Practically speaking, the findings can help youth workers appreciate the importance of family quality of life and positive youth development in shaping the personal well-being and risk behavior in Chinese adolescents in Hong Kong. **Berwick-upon-Tweed Three Places, Two Nations, One Town Informed Conservation Nikolaus Pevsner** described Berwick-upon-Tweed as 'one of the most exciting towns in

England' [Nikolaus Pevsner, *Buildings of England: Northumberland* (1957), 88] - a place where an absorbing historical tale can still be read in the dense fabric of its old streets and buildings. It attracts not only day-trippers and holidaymakers but also new residents who have learnt to appreciate the spirit of the place. But outsiders all too easily confine their attention to the space within the impressive Elizabethan ramparts, while local people are sometimes unaware or dismissive of the wider significance of the very things that they know so intimately. Berwick deserves to be known better, and to be celebrated not just as a vivid reminder of what many other towns were once like, but more especially as something unique and distinctive, shaped by a peculiar combination of historical and geographical circumstances. This distinctiveness is acutely apparent as one passes between Berwick and the contrasting, but historically intertwined, settlements of Tweedmouth and Spittal. This book presents something of the wealth of historic interest encapsulated in Berwick, Tweedmouth and Spittal, and explains how these places came to assume such varied and distinctive forms. Above all, it urges that a town anxious for stability and prosperity in the future must know where it has come from as well as where it is going. The Clockwork Scarab Stoker and Holmes Evaline Stoker and Mina Holmes never meant to get into the family business. The pressure is on, and the stakes are high—if Stoker and Holmes don't figure out why London's finest sixteen-year-old women are in danger, they'll become the next victims. The Favour 'A thrilling debut—I couldn't put it down!' - Shari Lapena Pan Macmillan 'Taut, compelling and deliciously dark' - B. A. Paris bestselling author of *Behind Closed Doors* Leah Dawson and McKenna Hawkins had a lot in common, but they had never met. They are smart, professional women living in the same sunny, prosperous neighbourhood in lovely houses with picket fences and beautiful gardens. And they were both married to successful, good-looking men who both seem bent on having 'the perfect wife'. They don't - ever - find themselves in the same train carriage or meet accidentally at the gym or in the coffee shop. And they don't - ever - discuss their problems and find common ground. But they do cross paths. And they see something each recognizes in the other. That they are living in hell. Neither narrator is unreliable. They always tell us the truth. And their truth hurts. A lot. Because these two attractive, intelligent professional women are living in a hell of their husband's making. And there is no way to get out of hell. Is there?
