### Watching Jazz

## Encounters with Jazz Performance on Screen

*Oxford University Press* **Watching Jazz: Encounters with Jazz Performance on Screen** is the first systematic study of jazz on screen media. Where earlier studies have focused almost entirely on the role and portrayal of jazz in Hollywood film, the present book engages with a plethora of technologies and media from early film and soundies through television to recent developments in digital technologies and online media. Likewise, the authors discuss jazz in the widest sense, ranging from Duke Ellington and Jimmy Dorsey through the likes of Dizzy Gillespie, Art Blakey, Oscar Peterson, Miles Davis, John Coltrane and Charles Mingus to Pat Metheny. Much of this rich and fascinating material has never been studied in depth before, and what emerges most clearly are the manifold connections between the music and the media on which it was and is being recorded. Its long association with film and television has left its trace in jazz, just as online and social media are subtly shaping it now. Vice versa, visual media have always benefited from focusing on music and this significantly affected their development. The book follows these interrelations, showing how jazz was presented and represented on screen and what this tells us about the music, the people who made it and their audiences. The result is a new approach to jazz and the media, which will be required reading for students of both fields.

## Hanna-Barbera

## A History

*McFarland* With careers spanning eight decades, William Hanna and Joseph Barbera were two of the most prolific animation producers in American history. In 1940, the two met at MGM and the result was the Tom and Jerry duo, whose antics made up for whatever words weren't actually spoken. The cat and mouse creation earned 14 Academy Award nominations and seven wins. The emergence of television led to the founding of Hanna-Barbera's legendary studio that produced hundreds of hours of cartoons, with beloved characters from Fred Flintstone and Scooby Doo to the Super Friends and the Smurfs. Prime-time animated sitcoms, Saturday morning cartoons, and Cartoon Network's cable animation are some of the many areas of television revolutionized by the team, and their resulting productions are critical to our cultural history, reflecting ideologies and trends in both media and society. This book offers a complete company history and examines its productions' influences, changing technologies, and enduring cultural legacy.

## The Eagle and the Dragon

## Globalization and European Dreams of Conquest in China and America in the Sixteenth Century

*John Wiley & Sons* **In this important new book the renowned historian Serge Gruzinski returns to two episodes in the sixteenth century which mark a decisive stage in global history and show how China and Mexico experienced the expansion of Europe. In the early 1520s, Magellan set sail for Asia by the Western route, Cortes seized Mexico and some Portuguese based in Malacca dreamed of colonizing China. The Aztec Eagle was destroyed but the Chinese Dragon held strong and repelled the invaders - after first seizing their cannon. For the first time, people from three continents encountered one other, confronted one other and their lives became entangled. These events were of great interest to contemporaries and many people at the time grasped the magnitude of what was going on around them. The Iberians succeeded in America and failed in China. The New World became inseparable from the Europeans who were to conquer it, while the Celestial Empire became, for a long time to come, an unattainable goal. Gruzinski explores this encounter between civilizations that were different from one another but that already fascinated contemporaries, and he shows that our world today bears the mark of this distant age. For it was in the sixteenth century that human history began to be played out on a global stage. It was then that connections between different parts of the world began to accelerate, not only between Europe and the Americas but also between Europe and China. This is what is revealed by a global history of the sixteenth century, conceived as another way of reading the Renaissance, less Eurocentric and more in tune with our age.**

### A Novel

*Simon and Schuster* From Graham Norton, the BAFTA-award-winning Irish television host and author of the “sparkling and impish” (Daily Mail) memoirs *The Life and Loves of a He Devil and So Me*, comes a charming debut novel set in an idyllic Irish village where a bumbling investigator has to sort through decades of gossip and secrets to solve a mysterious crime. The remote Irish village of Duneen has known little drama but when human remains are discovered on an old farm, suspected to be that of Tommy Burke—a former lover of two different inhabitants—the village’s dark past begins to unravel. As the frustrated sergeant PJ Collins struggles to solve a genuine case for the first time in his life, he unearths a community’s worth of anger and resentments, secrets and regret. In this darkly comic, touching, and at times heartbreaking novel, perfect for fans of J.K. Rowling’s *The Casual Vacancy*, Graham Norton employs his acerbic wit to breathe life into a host of loveable characters, and explore—with searing honesty—the complexities and contradictions that make us human.
