PAST PAPERS MRCOG PART ONE MULTIPLE CHOICE QUESTIONS

1997-2001

Cambridge University Press The Part 1 MRCOG covers basic science knowledge as it applies to obstetrics and gynaecology. There are two papers, both of which contain a mixture of single best answer questions (SBAs) and multiple choice questions (MCQs). This book provides a verbatim transcript for the MCQ element of each of the 10 papers set between 1997 and 2001, giving candidates the opportunity to test their knowledge and preparedness for the examination against real questions.

REVISION NOTES FOR THE MRCOG

Oxford University Press This concise revision text brings together the fundamentals of the basic sciences required for Obstetrics and Gynaecology trainees to pass the MRCOG Part 1 exam. A note-style format and over 100 illustrations make this the ideal revision guide to passing the exam.

SBA QUESTIONS FOR THE PART 2 MRCOG

Cambridge University Press SBA Questions for the Part 2 MRCOG is a valuable preparation resource aimed at those specialising in obstetrics and gynaecology who are planning to take the Part 2 MRCOG examination. It contains two hundred practice single best answer questions written by MRCOG question writers, with accompanying explanations and references. It also contains an introduction to the new format of the examination and the rationale for the changes. The first section consists of two hundred single best answers allowing the reader to test their knowledge. The second section lists the correct response accompanied by an explanation and suggestions for further reading. SBA Questions for the Part 2 MRCOG is the only official preparation book produced by the RCOG and is therefore essential reading for candidates sitting this examination in its new format.

MCQS FOR MRCOG PART 1

A SELF-ASSESSMENT GUIDE

CRC Press This book includes MCQs in the basic sciences that underpin the study of obstetrics and gynaecology, as is examined in Part 1 of the membership examination. Following the syllabus recommended by the RCOG, the questions are arranged in papers of 60 questions, each question having 5 stems with True/False answer options. Full answers with explanatory text will be provided. Where appropriate the answers will be supplemented by key message boxes and footnotes to direct further study - in this way the book can be used as a study guide as well as a tool for revision and self-assessment. A unique feature of the book will be the accompanying CD-ROM. Using this the candidate will be able to select at random questions to make up a practice paper which they can sit under 'examination conditions'. When the candidate has completed the mock examination the program will calculate their scores and indicate whether this would represent a 'good pass / pass / borderline pass or fail'. As with the text, full explanations of the answers will be provided.

100 CASES IN OBSTETRICS AND GYNAECOLOGY

CRC Press A 24-year-old woman is referred from the emergency department with sudden onset of left iliac fossa pain and you are the medic on duty... 100 Cases in Obstetrics and Gynaecology presents 100 commonly seen obstetric and gynaecological scenarios. The patient's history, examination and initial investigations are presented along with questions on the diagnosis and management of each case. The answer includes a detailed discussion on each topic, providing an essential revision aid as well as a practical guide for junior clinicians. Making clinical decisions is one of the most challenging and difficult parts of training to become a doctor. These cases will teach medics and medical students to recognize important obstetric and gynaecological conditions and help them develop their diagnostic and management skills.

GET THROUGH MRCOG PART 2: SHORT ANSWER QUESTIONS

CRC Press Get Through MRCOG Part 2: Short Answer Questions is an essential revision guide for candidates preparing for the MRCOG Part 2 exam. This comprehensive collection of practice Short Answer Questions (SAQs) is designed to help candidates test and assess their own knowledge, aiding thorough preparation for the exam. The book opens with an introduction to the exam and includes advice on how to prepare for it, information on what to expect, and guidance on how to write excellent answers. This is followed by two sections: the first provides a wide range of SAQs divided into obstetric and gynaecological topics, and the second presents six practice exams set out in the format of the actual exam. For each question, the authors highlight the key words in the question, followed by a brief essay plan and then give a worked example answer. The specimen answers indicate how many marks the candidate would obtain for each point made, and are supplemented with valuable extra information and further reading, to enhance understanding and aid further revision.

GET THROUGH MRCOG PART 2: EMQS

CRC Press Modelled on the current MRCOG syllabus, Get Through MRCOG Part 2: EMQs is designed to test candidates' theoretical and practical knowledge of obstetrics and gynaecology. The book opens with an introductory section explaining the format of the examination, providing advice on how to prepare for it and how EMQs should be approached in order to obtain the highest marks. 320 EMQs are presented in the form of eight practice papers, reflecting the level of difficulty and style of the actual examination, and each answer is supplemented with a detailed explanation to help candidates assess and improve their own level of knowledge. Providing an invaluable bank of revision questions, Get Through MRCOG Part 2: EMQs is the essential revision guide for all specialist trainees preparing for this examination. The book is comprehensive and authoritative: Justin Konje was closely involved in pioneering the introduction of EMQs into the MRCOG examination and runs a highly regarded MRCOG Part 2 course in the UK.

SHORT ESSAY QUESTIONS FOR THE MRCOG

A SELF-ASSESSMENT GUIDE

CRC Press Modelled on the current MRCOG syllabus, this book has been carefully designed to assist the candidate in preparation for the short essay paper of the written MRCOG Part 2 examinations. The book comprises three important elements. 1) An Introductory section outlining all the candidate needs to know when writing short essays - how to tackle the questions, how to structure the answers, how to search for evidence during revision and other advice and background information 2) A section of 10 practice papers comprising 50 questions in obstetrics and 50 in gynaecology, with comprehensive answers indicating specific points where marks are allocated 3) A section of 5 practice papers for candidates to test themselves under mock examination conditions In this way, the text provides the candidate with a firm grounding in examination principles and techniques, relevant to both the short essay paper and other components of the MRCOG Part 2 examination. With core areas of the syllabus firmly in mind, and a generous number of practice papers included this will be an invaluable guide to all those in preparation for the MRCOG Part 2 examination.

PARENTOLOGY

EVERYTHING YOU WANTED TO KNOW ABOUT THE SCIENCE OF RAISING CHILDREN BUT WERE TOO EXHAUSTED TO ASK

Simon and Schuster An award-winning scientist offers his unorthodox approach to childrearing: "Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions" (Amy Chua, author of *Battle Hymn of the Tiger Mother*). If you're like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In *Parentology*, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley's sassy kids show him the limits of his profession. *Parentology* teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You'll be laughing and learning at the same time.

OBSTETRICS AND GYNAECOLOGY FOR FINALS, DRCOG AND MRCOG

MRCOG

CRC Press This title includes Foreword by David Taylor, Professor and Vice Dean of Leicester Medical School. Preparing for the Part 2 MRCOG examination remains a daunting and complex task, particularly as learning and revision often need to fit around clinical commitments. Much has been written about how to prepare for and pass exams, yet it remains surprising how often well-read candidates provide unsatisfactory answers in areas which they know well. Clearly, a sound understanding of the topic area is essential, but deeper knowledge also increases uncertainty, and the vast developments in the field mean that proficiency in all areas is next to impossible. Thus a critical point for postgraduate candidates, who more often than not will prepare for the examination in isolation, is to develop a real understanding of what the examination is meant to assess...This revision aid in obstetrics and gynaecology is based on the Extended Matching Question format (EMQ). It contains forty-two questions of varying degrees of difficulty, along with detailed answers. "MRCOG Part 2 Essential EMQs" is an indispensable study and revision aid for postgraduate medical students preparing for Part 2 of the Membership of the Royal College of Gynaecologists (MRCOG) examination or equivalent. "The number of published revision aids including this question format in postgraduate Obstetrics and Gynaecology remains limited. With this book we wanted to produce a comprehensive selection of EMQ, covering broad areas relevant to the speciality, which would be useful those preparing for postgraduate examinations at Part 2 MRCOG level or equivalent." - Marwan Habiba, Andrea Akkad, Justin Konje.
