Virtual Immersive and 3D Learning Spaces: Emerging Technologies and Trends

Emerging Technologies and Trends

IGI Global **Virtual Immersive and 3D Learning Spaces: Emerging Technologies** helps push the conceptual and applied boundaries of virtual immersive learning. Virtual immersive spaces bring with them plenty of promise, of sensory information-rich learning experiences that will enable a much wider range of experiential learning and training—delivered to computer desktops, augmented reality spaces, digital installations, and mobile projective devices. This work explains how these spaces may be exploited for effective learning in terms of the technologies, pedagogical strategies, and directions.

Virtual Clinical Excursions 1.0 to Accompany Medical-Surgical Nursing

Assessment and Management of Clinical Problems

Mosby Incorporated Guiding students through a virtual clinical experience, VCE: Red Rock Canyon Medical Center is a teaching hospital that is modeled after a real medical-surgical floor. It contains five patient rooms, a nurses' station, a supervisor's office, two conference rooms, a nurses' lounge, and a waiting room with an elevator. The following patients are seeking treatment in Red Rock Canyon Medical Center: Carmen Gonzalez: This older Hispanic female presents with an infected leg that has become gangrenous. She has Type 2 diabetes mellitus, as well as complications of congestive heart failure and osteomyelitis David Ruskin: Following a car-bicycle accident, this young adult African-American male is admitted with a possible closed head injury and a badly fractured right humerus. He undergoes an open reduction and internal fixations of the right humerus. Sally Begay: This Native American woman enters the hospital and is initially suspected of having a Hanta virus infection. She has a confirmed diagnosis of bacterial lung infection. This client's complications include chronic obstructive pulmonary disease and inactive tuberculosis. Ira Bradley: Ira is a caucasian adult male with late-stage HIV disease who is admitted for an opportunistic respiratory infection. He has complications of oral fungal infection, malnutrition, and wasting. Andrea Wang: This young Asian female entered the hospital after a diving accident in which T6 is crushed, with partial transection of the spinal cord. After a week in the ICU, she has been transferred to the medical-surgical unit, where she is being closely monitored. Includes a guided tutorial which shows students how to work with a patient in the virtual hospital · collect patient data from various sources (reports, charts, medication administration record, short video clips and audio clips of nurse-patient interactions) · record patient data · listen to a report and itemize a patient's problems and high-priority concerns · and sometimes administer medications. Requires students to use their critical thinking skills to set priorities for care, collect data, analyze and interpret data, and reach conclusions about complex problems within a health-illness transition. Encourages active learning and provides opportunities to identify information to collect and process data for evidence-based patient care; work with data entry and retrieval screens; optimize use of available information resources; understand hospital information systems; manage information for decision-making; and maintain and improve core computing skills.. A series of groundbreaking, new workbooks and CD-ROMs, Virtual Clinical Excursions bring learning to life in two different "virtual" hospital settings! Each lesson in Virtual Clinical Excursions has a core textbook reading assignment with corresponding CD-ROM and workbook activities. The exercises in the workbook complement the content in the the parent text and provide a perfect environment in which students may "practice" what they are learning in the text. The workbooks act as maps - guiding students through the CD-ROM as they care for patients in the virtual hospital. Virtual hospital visits on the CD-ROM allow students to access realistic information resources that are essential to patient care.

Virtual Clinical Excursions 1. 0 to Accompany Medical-Surgical Nursing

Critical Thinking for Collaborative Care

Saunders CD-ROM features virtual hospital setting with five unique patients, whose charts, lab data and medical administration records can be assessed and monitored; each lesson in workbook has a reading assignment from Ignatavicius & Workman, Medical-surgical nursing, 4th edition, Saunders, c2001.

Virtual Clinical Excursions 3. 0 to Accompany Medical Surgical Nursing

Clinical Management for Positive Outcomes

Saunders Completely updated for easier use and more control, VCE Pacific View is a groundbreaking workbook/CD-ROM package that brings learning to life in a "virtual" hospital setting. This guided learning experience features textbook reading assignments that correspond with the CD-ROM and workbook activities. The workbook acts as a map, guiding students through the CD-ROM as they care for patients in the virtual hospital to help students make connections between what they experience through the CD-ROM and what they've learned in their textbook. Each virtual hospital visit allows the student to access realistic information resources essential to patient care resulting in a true-to-life, hands-on learning experience. Users will also discover that this edition of VCE is easier to use with the inclusion of flash-based technology and the elimination of previously needed third-party plug-ins. Meaningful, real-world problems place users in nursing scenarios where they can set priorities for care, collect data, analyze and interpret data, and reach conclusions about complex problems within a health-illness transition. The highly-engaging format encourages active learning and provides opportunities to identify information to collect and process data for evidence-based patient care; work with data entry and retrieval screens; optimize use of available information resources; understand hospital information systems; manage information for decision-making; and maintain and improve core computing skills. Lessons in the workbook complement the content in the textbook and guide the student through the virtual hospital. Includes NCLEX examination-style questions that offer built-in testing of clinical knowledge. The CD-ROM offers users the opportunity to visit each patient and access realistic information essential for patient care, including: charts, medical administration records, electronic patient records, video clips of nurse-client interactions, and other related materials. A clock icon appears under each lesson, estimating how much time it will take to complete. A linkage icon alerts the user whenever they are about to begin an exercise that connects with previous lessons. The elimination of third-party plug-ins facilitates fast and easy software installation Flash-based technology allows for more ease of use and seamless navigation. Greater faculty support with the addition of the FAC PAC, an expanded instructors' website, and a radically expanded testing component. A medication administration feature enables users to select, prepare, and administer medications. Over 50 common medication errors imbedded within the software to boost clinical realism and prepare students for current practice. A Medication Room that contains a wide variety of drug storage areas, such as a Unit Dosage Cabinet, Automated Dispensing System, IV Storage, and a Refrigerator. 6 unique patients/cases, each with complex medical-surgical conditions for students to care for and monitor within the virtual hospital.

Medical-Surgical Nursing Concepts & Practice

Elsevier Health Sciences Providing a solid foundation in medical-surgical nursing, Susan deWit's *Medical-Surgical Nursing: Concepts and Practice*, 3rd Edition ensures you have the information you need to pass the NCLEX-PN® Examination and succeed in practice. Part of the popular LPN/LVN Threads series, this uniquely understandable, concise text builds on the fundamentals of nursing, covering roles, settings, and health care trends; all body systems and their disorders; emergency and disaster management; and mental health nursing. With updated content, chapter objectives, and review questions, this new edition relates national LPN/LVN standards to practice with its integration of QSEN competencies, hypertension, diabetes, and hypoglycemia. Concept Maps in the disorders chapters help you visualize difficult material, and illustrate how a disorder's multiple symptoms, treatments, and side effects relate to each other. Get Ready for the NCLEX® Examination! section includes Key Points that summarize chapter objectives, additional resources for further study, review questions for the NCLEX® Examination, and critical thinking questions. Nursing Care Plans with critical thinking questions provide a clinical scenario and demonstrate application of the nursing process with updated NANDA-I nursing diagnoses to individual patient problems. Anatomy and physiology content in each body system overview chapter provides basic information for understanding the body system and its disorders, and appears along with Focused Assessment boxes highlighting the key tasks of data collection for each body system. Assignment Considerations, discussed in Chapter 1 and highlighted in feature boxes, address situations in which the RN delegates tasks to the LPN/LVN, or the LPN/LVN assigns tasks to nurse assistants, per the individual state nurse practice act. Gerontologic nursing presented throughout in the context of specific disorders with Elder Care Points boxes that address the unique medical-surgical care issues that affect older adults. Safety Alert boxes call out specific dangers to patients and teach you to identify and implement safe clinical care. Evidence-based Practice icons highlight current references to research in nursing and medical practice. Patient Teaching boxes provide step-by-step instructions and guidelines for post-hospital care - and prepare you to educate patients on their health condition and recovery. Health Promotion boxes address wellness and disease prevention strategies that you can provide in patient teaching. NEW! Content updated with the most current health care standards, including QSEN competencies, hypertension, diabetes, and hypoglycemia, to relate national standards to LPN/LVN practice. UPDATED! Revised chapter objectives and content reflects higher-level critical thinking, communication, patient safety, and priority setting. UPDATED! Get Ready for the NCLEX®! review questions updated per the 2014 NCLEX-PN® test plan.

Handbook of Research on Engineering Education in a Global Context

IGI Global Engineering education methods and standards are important features of engineering programs that should be carefully designed both to provide students and stakeholders with valuable, active, integrated learning experiences, and to provide a vehicle for assessing program outcomes. With the driving force of the globalization of the engineering profession, standards should be developed for mutual recognition of engineering education across the world, but it is proving difficult to achieve. The *Handbook of Research on Engineering Education in a Global Context* provides innovative insights into the importance of quality training and preparation for engineering students. It explores the common and current problems encountered in areas such as quality and standards, management information systems, innovation and enhanced learning technologies in education, as well as the challenges of employability, entrepreneurship, and diversity. This publication is vital reference source for science and engineering educators, engineering professionals, and educational administrators interested in topics centered on the education of students in the field of engineering.

Medical Surgical Nursing: Clinical Management for Positive Outcomes, 8e (2 Vol Set) Without CD

Medical-Surgical Nursing: Clinical Management for Positive Outcomes, 8th Edition takes you from basic to advanced medical-surgical nursing with an enhanced multimedia package that makes it easier to learn and apply concepts. This text provides a reliable foundation in anatomy and physiology, pathophysiology, medical management, and nursing care for the full spectrum of adult health conditions. The roles of various healthcare professionals in managing each disorder and are clearly outlined, and evidence-based practice and clinical guidelines are integrated throughout the text. UNIQUE! Evidence-Based Practice icons identify statements based on primary research or standardized guidelines and teach you to base your practice on solid research evidence. Translating Evidence into Practice boxes present a topic in the form of a clinical question and summarize the conclusions of 4-5 research articles, encouraging you to judge the research for yourself and consider how it relates to the nursing setting. Care Plans highlight nursing diagnoses and collaborative problems, expected outcomes, interventions with rationales, and evaluation to help you prioritize tasks and determine the appropriate treatment. Thinking Critically questions at the end of each nursing care chapter pose short, typical client scenarios followed by questions about what actions to take to test your critical thinking skills. Concept Maps illustrate the links among pathophysiological processes, clinical manifestations, medical treatment, and nursing interventions. Integrating Pharmacology boxes help you understand how medications can be used for disease management by exploring common classifications of routinely used medications. Bridge to Critical Care and Bridge to Home Health Care boxes introduce you to critical care and home health nursing by connecting these related specialties to medical-surgical nursing. Feature boxes highlight issues in Critical Monitoring, Management and Delegation, Genetics, Terrorism, Community-Based Practice, and Physical Assessment in the Healthy Adult.

Medical Surgical Nursing

Independently Published Master the essential medical-surgical nursing content you'll need for success on the Next Generation NCLEX(R) Exam (NGN) and safe clinical practice! *Medical-Surgical Nursing: Concepts for Interprofessional Collaborative Care*, 10th Edition uses a conceptual approach to provide adult health knowledge and help you develop the clinical nursing judgment skills that today's medical-surgical nurses need to deliver safe, effective care. "Iggy" emphasizes three emerging trends in nursing — interprofessional collaborative care, concept-based learning, and clinical judgment and systems thinking — trends that will ground you in how to think like a nurse and how to apply your knowledge in the classroom, simulation laboratory, and clinical settings. A perennial bestseller, "Iggy" also features NCLEX Exam-style Challenge and Mastery questions to prepare you for success on the NGN! Consistent use of interprofessional terminology promotes interprofessional collaboration through the use of a common healthcare language, instead of using isolated nursing-specific diagnostic language. UNIQUE! Enhanced conceptual approach to learning integrates nursing concepts and exemplars, providing a foundation in professional nursing concepts and health and illness concepts, and showing their application in each chapter. Unparalleled emphasis on clinical reasoning and clinical judgment helps you develop these vital skills when applying concepts to clinical situations. Emphasis on QSEN and patient safety focuses on safety and evidence-based practice with Nursing Safety Priority boxes, including Drug Alert, Critical Rescue, and Action Alert boxes. Direct, easy-to-read writing style features concise sentences and straightforward vocabulary. Emphasis on health promotion and community-based care reflects the reality that most adult health care takes place in environments outside of high-acuity (hospital) settings.

Immunisation against infectious diseases

The Stationery Office This is the third edition of this publication which contains the latest information on vaccines and vaccination procedures for all the vaccine preventable infectious diseases that may occur in the UK or in travellers going outside of the UK, particularly those immunisations that comprise the routine immunisation programme for all children from birth to adolescence. It is divided into two sections: the first section covers principles, practices and procedures, including issues of consent, contraindications, storage, distribution and disposal of vaccines, surveillance and monitoring, and the Vaccine Damage Payment Scheme; the second section covers the range of different diseases and vaccines.

Virtual Clinical Excursions Online and Print Workbook for Elsevier's Psychiatric Nursing

Elsevier One of the most complete nursing education learning systems available, Virtual Clinical Excursions guides you through a virtual hospital setting where the patients are real and their conditions are constantly changing. By immersing yourself in a realistic, yet safe, nursing environment, VCE allows you to get acclimated to the routine and rigors of the average clinical rotation where you can conduct a complete assessment of a patient and set priorities for care, collect data, analyze and interpret data, prepare and administer medications, and reach conclusions about complex problems. Each lesson has a textbook reading assignment and activities based on "visiting" the patients in the hospital, which provide a perfect environment in which you may "practice" what you are learning.

Nursing Interventions & Clinical Skills E-Book

Elsevier Health Sciences Master nursing skills with this guide from the respected Perry, Potter & Ostendorf author team! The concise coverage in Nursing Interventions & Clinical Skills, 7th Edition makes it easy to learn the skills most commonly used in everyday nursing practice. Clear, step-by-step instructions cover more than 160 basic, intermediate, and advanced skills — from measuring body temperature to insertion of a peripheral intravenous device — using evidence-based concepts to improve patient safety and outcomes. A streamlined, visual approach makes the book easy to read, and an Evolve companion website enhances learning with review questions and handy checklists for each clinical skill. Coverage of more than 160 skills and interventions addresses the basic, intermediate, and advanced skills you'll use every day in practice. Safe Patient Care Alerts highlight risks or other key information to know in performing skills, so you can plan ahead at each step of nursing care. Unique! Using Evidence in Nursing Practice chapter provides the information needed to use evidence-based care to solve clinical problems. Coverage of evidence-based nursing techniques includes the concept of care bundles, structured practices that improve patient safety and outcomes, in addition to the coverage of teach-back. Delegation & Collaboration guidelines help you make decisions in whether to delegate a skill to unlicensed assistive personnel, and indicates what key information must be shared. Teach-Back step shows how to evaluate the success of patient teaching, so you can see whether the patient understands a task or topic or if additional teaching may be needed. Recording guidelines describe what should be reported and documented after performing skills, with Hand-off Reporting sections listing important patient care information to include in the handoff. Special Considerations indicate the additional risks or accommodations you may face when caring for pediatric or geriatric patients, as well as patients in home care settings. A consistent format for nursing skills makes it easier to perform skills, organized by Assessment, Planning, Implementation, and Evaluation. Media resources include skills performance checklists on the Evolve companion website and related lessons, videos, and interactive exercises on Nursing Skills Online. NEW! 2017 Infusion Nurses Society standards are included on administering IVs and on other changes in evidence-based practice. NEW! Disaster Preparedness chapter focuses on caring for patients after biological, chemical, or radiation exposure. NEW! SBAR samples show how to quickly and effectively communicate a patient's condition in terms of Situation, Background, Assessment, and Recommendation. NEW! Practice Reflections sections include a clinical scenario and questions, helping you reflect on clinical and simulation experiences. NEW! Three Master Debriefs help you develop a better understanding of the "big picture" by synthesizing skill performance with overall patient care.

Daughters Tribe Nearing Extinction

Eloquent Books No male heir had been born to the ruling tribe for nearly fifty years. It was nearing extinction. So it was that the last ruler decreed that when each of his three daughters married, their husbands would take his surname as their own. For, as it was well known, females could not be suitable rulers. However, the Spirit Gods decreed that the eleventh daughter born to the last ruler's youngest daughter was destined to be the queen who would rule over the tribe and restore its fertility and prosperity. But first the beautiful eleventh daughter, Gwendolyn Buntline, must overcome the scheming of her sisters and adversity beyond measure. This is her story. It is an epic tale of romance, adventure, and supernatural forces as one woman fights to fulfill her destiny. Author Joyce Black is a retired nurse living in London. She has two more novels in the works. Publisher's website: <http://www.strategicpublishinggroup.com/title/Daughters-TribeNearingExtinction.htm>

Patient Safety and Quality

An Evidence-based Handbook for Nurses

"Nurses play a vital role in improving the safety and quality of patient care -- not only in the hospital or ambulatory treatment facility, but also of community-based care and the care performed by family members. Nurses need know what proven techniques and interventions they can use to enhance patient outcomes. To address this need, the Agency for Healthcare Research and Quality (AHRQ), with additional funding from the Robert Wood Johnson Foundation, has prepared this comprehensive, 1,400-page, handbook for nurses on patient safety and quality -- Patient Safety and Quality: An Evidence-Based Handbook for Nurses. (AHRQ Publication No. 08-0043)."--Online AHRQ blurb,
