English for Competitive Examinations: (Includes Descriptive and Objective Tests)

S. Chand Publishing This book has been designed by combining the goodness of the original Wren & Martin text, High School Grammar & Composition, and specialized content developed by a panel of competitive examination experts in the area of the English language. The USP is therefore adapting a classical text to the needs of the various admission and recruitment competitive examination aspirants. Its exhaustive coverage ensures that virtually no competitive examination remains untouched. Students preparing for descriptive tests such as UPSC (Compulsory English and General English Papers of Main Exams) and state PCS examinations, Judicial Services examination, Indian Forest Service examination, Statistical Services and many other examinations in which subjective papers/tests are mandatory will find this book immensely useful. The book is also a boon for those students who are preparing for objective tests such as Banking and Insurance, SSC, UPSC preliminary, Defence Services, Law entrance, Business School entrance examinations, and many other admission and recruitment examinations. A unique feature of this book is demonstration of the connectedness of the concepts and their applications visually, with the help of arrows and pointers. The aspirant will also find questions from recent examinations on virtually every page of the book. An index of examination-wise questions has been included so that the aspirant can choose the sections according to the targeted examination and focus more. Topic-wise distribution of questions in English examination papers - both descriptive and objective - will also help aspirants to undertake a very well directed test-prep program using the book.

A New Approach to REASONING Verbal & Non-Verbal

Arihant Publications India limited Reasoning is equally weighed section in any competitive examination. Reasoning tests the thinking power and mind applicability skills of the candidates. The questions on reasoning asked in various competitive examinations are not easy to solve without having enough practice. The revised edition of A New Approach to Reasoning will help candidates master the 'Tricks of the Trade' as it covers all the three types of reasoning very much comprehensively. This book has been divided into 3 Sections - Verbal Reasoning, Analytical Reasoning and Non-Verbal Reasoning each sub-divided into number of chapters with different types of questions of multiple patterns asked in various exams. The Verbal Reasoning section covers Analogy, Clocks, Calendar, Puzzles, Coding-Decoding, Classification, Number Series, Letter Series, Blood Relations, Clerical Aptitude, etc. whereas, the Analytical Reasoning section covers Statement & Arguments, Statement & Assumptions, Course of Action, Cause & Effects, Syllogism, etc. The Non-Verbal Reasoning section covers Analogy, Classification, Completion of Figures, Cubes, Paper Folding, Mirror Image, Water Image, Figure Matrix, etc. Two Leveled Exercises have been given for practice. More than 2000 Previous Years' Questions of different competitive examinations including MAT and other MBA entrances, Bank PO, Clerk, SSC, LIC, RBI, RRB, B.Ed. etc along with their authentic and detailed solutions have been covered in the exercises. The ample number of previous years' questions will help the candidates get an insight into the trends and types of questions asked in the test of reasoning in various competitive and recruitment examinations.

Tibetan Medicinal Plants

CRC Press Increasingly, modern medicine relies on so called traditional or ancient medical knowledge. Holistic practices such as adhering to proper diet, observing rules for appropriate behavior, and administering medical preparations are coupled with the latest technology and methods to treat the whole patient. In light of this trend, there is much to be gained from understanding of one of the oldest medical systems still in existence. Tibetan Medicinal Plants provides you a detailed analysis of how Tibetan plants are used in this centuries old system. The book opens with a summary of Tibetan medicine and covers the various habitats in which the plants are found. The main part of this volume encompasses 60 monographs listed by the Tibetan plant name. Each monograph consists of several chapters addressing different topics related either to the Tibetan or the Western approach. Most of the monographs contain a description of the macroscopic and microscopic characteristics of the used plant parts, and anatomical features of 76 plants are provided. Each monograph presents an overview of the known chemical constituents and pharmacological properties of each plant and describes their use in Tibetan medicine. In contrast to other publications on Tibetan medicine, where translations of the Tibetan terms are given in other languages, this book treats the Tibetan word as a technical term, keeps the Tibetan term and explains its meaning, lessening confusion by reducing the number of translations. Traditional Tibetan medicine has been in existence for centuries. Curative practices existed in the prebuddistic era, and the art of healing developed more than 2500 years ago. Tibetan Medicinal Plants provides a comprehensive overview of all plant types, thus making it easier to grasp the Tibetan concept. It gives you a comprehensive look at this centuries old science.

A Brief History of Modern India

A Comprehensive Course in Library and Information Science

Objective Type Questions for Ugc-Net/Jrf, Slet, Psc, Upsc and Other Competitive Examinations

Ess Ess Publication Based on research in India, this comprehensive book on Library and Information Science (LIS) has been arranged in three parts. The first section includes general information in historical events in LIS, abbreviations, nick-names, books and authors, terms and their developers, words and their origin, language celebrations, conferences and seminars, acts and commissions, famous quotes related to LIS, laws of LIS, bibliometric laws, cataloguing codes, institutions and their locations, library associations and their establishment years, various indexing techniques, international systems, library software and developers, public library acts in Indian states, species of classification, important personalities, etc. The second part of the book deals with main fields in LIS, including the foundation of LIS, library and information center management, knowledge organization (classification and cataloguing), and information technology. There Is a Cure for Diabetes, Revised Edition

The 21-Day+ Holistic Recovery Program

North Atlantic Books Written to provide hope, serious results, and life-long success to diabetes sufferers, this updated edition offers insight into anti-aging, holistic health, how to revitalize your diet, and more Dr. Gabriel Cousens offers an innovative approach to the prevention and healing of what he calls chronic diabetes degenerative syndrome. A leading medical authority in the world of live-food nutrition, Dr. Cousens exposes the dangers of excess glucose and fructose as the key causes of this seemingly unstoppable epidemic that affects more than 25 million Americans and 347 million people worldwide. Cousens, whose Diabetes Recovery Program is the most successful anti-diabetes program in the world, presents a 3-week plan that focuses on a moderate-low complex carbohydrate, live food, plant-source-only diet that reverses diabetes to a physiology of health and well-being by resetting the genetic expression of a person's DNA. The program renders insulin and related medicines unnecessary within 4 days as the blood sugar drops to normal levels, and the diabetic shifts into a nondiabetic physiology within 2 weeks. Substantially revised throughout, this practical and encouraging guide reveals the risks of low cholesterol and low omega-3s in one's diet and includes more than 140 delicious and healthy recipes. The book represents a major breakthrough in understanding the synergy that helps cure diabetes.
