#### ASSESSMENT OF LEARNING

---

**SAGE** This book takes a critical look at how students' achievements are assessed for a range of purposes, from reporting progress to selection and qualification. It considers the relationship between what is taught, and how, and what and how learning outcomes are assessed. The impact of using assessment results for setting targets and evaluation of provision for learning is also discussed. The pros and cons of using tests and examinations and alternatives based on the judgments of teachers are considered in terms of four key criteria: validity, reliability, impact and required resources. Evidence from research and examples of current practice in different countries within and outside the UK support the case for making more and better use of teachers' judgments in assessment of learning. In this way assessment of learning (summative assessment) can be compatible with assessment for learning (formative assessment).

#### THE USES AND ABUSES OF ASSESSMENT

---

**Routledge** Assessment dominates our lives but its good intentions often produce negative consequences. An example that is central to this book is how current forms of assessment encourage shallow 'for-the-test' learning. It is true to say that as the volume of assessment increases, confidence in what it represents is diminishing. This book seeks to reclaim assessment as a constructive activity which can encourage deeper learning. To do this the purpose, and fitness-for-purpose, of assessments have to be clear. Gordon Stobart critically examines five issues that currently have high-profile status: intelligence testing learning skills accountability the 'diploma disease' formative assessment Stobart explains that these form the basis for the argument that we must generate assessments which, in turn, encourage deep and lifelong learning. This book raises controversial questions about current uses of assessment and provides a framework for understanding them. It will be of great interest to teaching professionals involved in further study, and to academics and researchers in the field.

### THE ORGANIZATIONAL AND PROFESSIONAL SOCIALIZATION OF TRAINEE CHARTERED ACCOUNTANTS

---

[Routledge](#) First published in 1998, this organizational and professional socialization of trainee chartered accountants reports the findings of an ICAEW funded research project which explored the training and socialization of trainee accountants in two Big Six firms in the UK. The background to the research, particularly the under-researched nature of the socialization of accountants, is outlined. The research issues are located within the institutional context of the accounting profession in the UK and the academic literature on the professions and professional socialization. The main research findings reported concern the development of trainees' understandings of their professional identity; the role of formal processes and informal norms within socialization; the relationship of professional identity to notions of client service, firm identity, divisionalization, and career success.

## FROM PARA TO DAKAR

### OVERCOMING PARALYSIS AND CONQUERING THE DAKAR RALLY

---

"I've realised that when things are really tough and there seems no hope for the future, it's sometimes just Chapter One of a really cool story, and the ending is entirely up to you."Joey Evans has always loved bikes, from his first second-hand Raleigh Strika at the age of six to the powerful off-road machines that became his passion later on in his life. His dream was one day to ride the most gruelling off-road race in the world, the 9000km Dakar Rally. In 2007 his dream was shattered when he broke his back in a racing accident. His spinal cord was crushed, leaving him paralysed from just below his chest. Doctors gave him a 10 per cent chance of ever walking again. Many would have given up and become resigned to life in a wheelchair, but not Joey Evans. Not only would he get back on his feet and walk, but he would also keep his Dakar dream alive. It was a long and painful road to recovery, involving years of intensive rehabilitation and training, but he had the love and support of both family and friends and an incredible amount of determination. Joey shares the many challenges he and his family faced, relating the setbacks, as well as successes, along the way to the Dakar start line. But the start line was only the first goal. His sights were set on reaching the finish line, which he did in 2017, the only South African to do so. From Para to Dakar is so much more than the story of one man reaching the Dakar finish line. It is a story of friendship and respect, compassion and kindness. It is about defying the odds to reach a dream, it is about grit, endurance and raw courage, and it is inspiring in its true heroism.
