## THE GLOBALIZATION PARADOX

---

### WHY GLOBAL MARKETS, STATES, AND DEMOCRACY CAN'T COEXIST

---

**Oxford University Press** For a century, economists have driven forward the cause of globalization in financial institutions, labour markets, and trade. Yet there have been consistent warning signs that a global economy and free trade might not always be advantageous. Where are the pressure points? What could be done about them? Dani Rodrik examines the back-story from its seventeenth-century origins through the milestones of the gold standard, the Bretton Woods Agreement, and the Washington Consensus, to the present day. Although economic globalization has enabled unprecedented levels of prosperity in advanced countries and has been a boon to hundreds of millions of poor workers in China and elsewhere in Asia, it is a concept that rests on shaky pillars, he contends. Its long-term sustainability is not a given. The heart of Rodrik's argument is a fundamental 'trilemma': that we cannot simultaneously pursue democracy, national self-determination, and economic globalization. Give too much power to governments, and you have protectionism. Give markets too much freedom, and you have an unstable world economy with little social and political support from those it is supposed to help. Rodrik argues for smart globalization, not maximum globalization.

[Simon and Schuster](#) Inside a small Yorkshire parsonage, Charlotte, Branwell, Emily, and Anne Brontë have invented a game called Glass Town, where their toy soldiers fight Napoleon and no one dies. This make-believe land helps the four escape from a harsh reality: Charlotte and Emily are being sent away to a dangerous boarding school, a school they might not return from. But on this Beastliest Day, the day Anne and Branwell walk their sisters to the train station, something incredible happens: the train whisks them all away to a real Glass Town, and the children trade the moors for a wonderland all their own. This is their Glass Town, exactly like they envisioned it, almost. They certainly never gave Napoleon a fire-breathing porcelain rooster instead of a horse. And their soldiers can die; wars are fought over the potion that raises the dead, a potion Anne would very much like to bring back to England. But when Anne and Branwell are kidnapped, Charlotte and Emily must find a way to save their siblings.

So when his jacket goes missing, Marty is devastated. When his dad tells him the story of the Train of Lost Things, a magical train that flies through the air collecting objects lost by kids, Marty is sure that the train must be real, and that if he can just find the train and get his jacket back, he can make his dad better as well. It turns out that the train is real -- and it's gone out of control! Instead of just collecting things that have been accidentally lost, the train has been stealing things. Along with Dina and Star, the girls he meets aboard the train, Marty needs to figure out what's going on and help set it right. As he searches for his jacket, and for a way to fix the train, Marty begins to wonder whether he's looking for the right things after all.
