KEY=ST - MCKENZIE DENISSE

A SECURE BASE

Routledge As Bowlby himself points out in his introduction to this seminal childcare book, to be a successful parent means a lot of very hard work. Giving time and attention to children means sacrificing other interests and activities, but for many people today these are unwelcome truths. Bowlby's work showed that the early interactions between infant and caregiver have a profound impact on an infant's social, emotional, and intellectual growth. Controversial yet powerfully influential to this day, this classic collection of Bowlby's lectures offers important guidelines for child rearing based on the crucial role of early relationships.

STRENGTHENING FORENSIC SCIENCE IN THE UNITED STATES

A PATH FORWARD

National Academies Press Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction

and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

THE DEVELOPMENT OF CHILDREN AND ADOLESCENTS

AN APPLIED PERSPECTIVE

John Wiley & Sons The Development of Children and Adolescents, by Penny Hauser-Cram, J. Kevin Nugent, Kathleen Thies, and John F. Travers, provides an integrated view of child development. Presenting the most pertinent research for each developmental stage and linking this to practical applications in the areas of Parenting, Policy, and Practice, this balanced approach emphasizes the relationship between research and theory and applications. The rich media program, including WileyPLUS with Real Development promotes active learning and allows for increased understanding and comprehension of the course content. Real Development, authored by Nicole Barnes, Ph.D., Montclair State University and Christine Hatchard, Psy.D., Monmouth University, uses authentic video showcasing real families, along with activities and assessments that put students in the place of a professional, to gain an understanding of key concepts. Through the combination of text and media, students are engaged in meaningful learning that deepens and enriches their understanding of developmental concepts. WileyPLUS sold separately from text.

CHILD POVERTY IN RICH COUNTRIES 2005

United Nations This Review finds that the proportion of children living in poverty has risen in a majority of the world's developed economies for which data are available. No matter which of the commonly-used poverty measures is applied, the situation of children is seen to have deteriorated over the last decade. Allowing the kind of poverty that denies a child the opportunities that most children consider normal is a breach of the United Nations Convention on the Rights of the Child. Reducing child poverty is also a measure of progress towards social cohesion, equality of opportunity, and investment in both today's children and tomorrow's world.

TRANSFORMING THE WORKFORCE FOR CHILDREN BIRTH THROUGH AGE 8

A UNIFYING FOUNDATION

National Academies Press Children are already learning at birth, and they develop and learn at a rapid pace in their early years. This provides a critical foundation for lifelong progress, and the adults who provide for the care and the education of young children bear a great responsibility for their health, development, and learning. Despite the fact that they share the same objective - to nurture young

children and secure their future success - the various practitioners who contribute to the care and the education of children from birth through age 8 are not acknowledged as a workforce unified by the common knowledge and competencies needed to do their jobs well. *Transforming the Workforce for Children Birth Through Age 8* explores the science of child development, particularly looking at implications for the professionals who work with children. This report examines the current capacities and practices of the workforce, the settings in which they work, the policies and infrastructure that set qualifications and provide professional learning, and the government agencies and other funders who support and oversee these systems. This book then makes recommendations to improve the quality of professional practice and the practice environment for care and education professionals. These detailed recommendations create a blueprint for action that builds on a unifying foundation of child development and early learning, shared knowledge and competencies for care and education professionals, and principles for effective professional learning. Young children thrive and learn best when they have secure, positive relationships with adults who are knowledgeable about how to support their development and learning and are responsive to their individual progress. *Transforming the Workforce for Children Birth Through Age 8* offers guidance on system changes to improve the quality of professional practice, specific actions to improve professional learning systems and workforce development, and research to continue to build the knowledge base in ways that will directly advance and inform future actions. The recommendations of this book provide an opportunity to improve the quality of the care and the education that children receive, and ultimately improve outcomes for children.

THE UN CONVENTION ON THE RIGHTS OF THE CHILD

A COMMENTARY

OUP Oxford The United Nations Convention on the Rights of the Child is the most extensive and widely ratified international human rights treaty. This Commentary offers a comprehensive analysis of each of the substantive provisions in the Convention and its Optional Protocols on Children and Armed Conflict and the Sale of Children, Child Prostitution and Pornography. It offers a detailed insight into the drafting history of these instruments, the scope and nature of the rights accorded to children and the obligations imposed on states to secure the implementation of these rights. In doing so, it draws on the work of the Committee on the Rights of the Child, international, regional and domestic courts, academic and interdisciplinary scholarly analyses. It is of relevance to anyone working on matters affecting children including government officials, policy makers, judicial officers, lawyers, educators, social workers, health professionals, academics, aid and humanitarian workers, and members of civil society.

NEAR HUMAN

BORDER ZONES OF SPECIES, LIFE, AND BELONGING

Rutgers University Press *Near Human* takes us into the borders of human and animal life. In the animal facility, fragile piglets substitute for humans who cannot be experimented on. In the neonatal intensive care unit, extremely premature infants prompt questions about whether they are too fragile to save or, if they survive, whether they will face a life of severe disability. Drawing on ethnographic fieldwork carried out on farms, in animal-based experimental science labs, and in hospitals, Mette N. Svendsen shows that practices of substitution redirect the question of "what it means" to be human to "what it takes" to be human. The near humanness of preterm infants and research piglets becomes an avenue to unravel how neonatal life is imagined, how societal belonging is evaluated, and how the Danish welfare state is forged. This courageous multi-sited and multi-species approach cracks open the complex ethical field of valuing life and making different kinds of pigs and different kinds of humans belong in Denmark.

STREET PRACTICE

CHANGING THE LENS ON POVERTY AND PUBLIC ASSISTANCE

Routledge Presenting recent studies of non-profit organizations involved in poverty relief services in New York City in comparison with programmes in existence across the US, Street Practice provides a front-line, ground-level perspective on innovative research practices designed to solve community problems. It explores the manner in which organizations bridge the gap between research and policy advocacy, with an account of the ways in which research contributes to alleviating or solving a community problem, as well as details on successes and failures of advocacy work, problems and limitations of their research, funding constraints and political resistance. As such, this book not only offers compelling examples of social change in action, but also serves to introduce models for research and policy advocacy that can be applied similarly in other urban areas. Adopting a case-based learning approach that enables readers to better understand the dynamic process of research and policy advocacy, this innovative book will appeal to those with interests in poverty, homelessness, policy advocacy, social work and social change.

THE VICTORIA CLIMBIE INQUIRY

Stationery Office/Tso This is the official report of the independent inquiry into the events leading up to the death of Victoria Climbiâ, an eight year old child who died in hospital in February 2000 of injuries sustained after months of abuse. The report by Lord Laming finds that the death represents a gross failure of the system of public agencies involved to protect vulnerable children from deliberate harm, and this failure is primarily due to 'widespread organisational malaise'. The agencies involved were under-funded, inadequately staffed and often showed a lack of even basic good practice. However, the key issue is one of lack of leadership and accountability shown by senior level management of the agencies involved, rather than just a structural or staffing problem. The legislative framework for child protection is judged to be basically sound; the problem lies more with its implementation. The report contains 108 recommendations for fundamental changes to the way social care, healthcare and police child protection services are organised and managed at national and local level in England, in order to establish a clear line of accountability in the provision of services for vulnerable children and the support of families. These include: i) the creation of a Children and Families Board within the government, to be chaired by a minister of Cabinet rank; ii) the creation of a National Agency for Children and Families with responsibility to advise the Board on policies that affect the well-being of children and families, and the discretion to conduct serious case reviews; and iii) the creation of a Management Board and a Committee at local authority level, involving senior management representatives. Other recommendations relate to improvements in the exchange of information within and between agencies; the feasibility of a national children's database to record any contact a child has with any key protection service; service funding issues; staff training and supervision.

DEATH & DYING, LIFE & LIVING

Cengage Learning Practical and inspiring, DEATH & DYING, LIFE & LIVING, 8th Edition helps students learn how to navigate encounters with death, dying, and bereavement. The authors integrate classical and contemporary material, present task-based approaches for individual and family coping, and include four chapters devoted to death-related issues faced by children, adolescents, young and middle-aged adults, and older adults. They also discuss a variety of cultural and religious perspectives that affect people's understanding and practices associated with such encounters. Practical guidelines for constructive communication encourage

productive living in the face of death. You can use this book as a primary textbook for undergraduate and graduate courses in death, dying, and bereavement; as a supplementary text in related courses; or as a general resource. REWIRE YOUR BRAIN

THINK YOUR WAY TO A BETTER LIFE

John Wiley & Sons How to rewire your brain to improve virtually every aspect of your life-based on the latest research in neuroscience and psychology on neuroplasticity and evidence-based practices Not long ago, it was thought that the brain you were born with was the brain you would die with, and that the brain cells you had at birth were the most you would ever possess. Your brain was thought to be "hardwired" to function in predetermined ways. It turns out that's not true. Your brain is not hardwired, it's "softwired" by experience. This book shows you how you can rewire parts of the brain to feel more positive about your life, remain calm during stressful times, and improve your social relationships. Written by a leader in the field of Brain-Based Therapy, it teaches you how to activate the parts of your brain that have been underactivated and calm down those areas that have been hyperactivated so that you feel positive about your life and remain calm during stressful times. You will also learn to improve your memory, boost your mood, have better relationships, and get a good night sleep. Reveals how cutting-edge developments in neuroscience, and evidence-based practices can be used to improve your everyday life Other titles by Dr. Arden include: Brain-Based Therapy-Adult, Brain-Based Therapy-Child, Improving Your Memory For Dummies and Heal Your Anxiety Workbook Dr. Arden is a leader in integrating the new developments in neuroscience with psychotherapy and Director of Training in Mental Health for Kaiser Permanente for the Northern California Region Explaining exciting new developments in neuroscience and their applications to daily living, Rewire Your Brain will guide you through the process of changing your brain so you can change your life and be free of self-imposed limitations.

ASSISTED REPRODUCTION, DISCRIMINATION, AND THE LAW

CONCEIVING A NEW INTERPRETATION OF EQUALITY

Routledge The numbers of women undergoing Assisted Reproduction Technology (ART) treatments have risen steadily, yet they remain largely outside the scope of equality and employment law protection while undergoing treatment. *Assisted Reproduction, Discrimination, and the Law* examines this gap in UK law, with reference to EU law as appropriate, and argues that new conceptions of equality are necessary. Drawing from the literature on multidimensional and intersectional discrimination, it is argued that an intersectionality approach offers a more useful analytical framework to extend protection to those engaged in ART treatments. Drawing from Schiek's intersectional nodes model, the book critically examines two alternative interpretations of existing protected characteristics, namely infertility as a disability, with reference to the social model of disability and the UN Convention on the Rights of Persons with Disabilities 2006, and redefining the boundaries of pregnancy and/or sex discrimination, with reference to attempts to extend associative discrimination to pregnancy. Comparisons are drawn with the US, where infertility has been recognised as a disability under the American's with Disabilities Act 1990 and as a pregnancy-related condition under the Pregnancy Discrimination Act 1978. A specific right to paid time off work to undergo treatment is also proposed, drawing comparisons with the US Family and Medical Leave Act 1993 and the existing UK work-family rights framework. It is argued that the reinterpretations of equality law and the rights proposed here are not only conceptually possible, but could practically be achieved with minor, but significant, amendments to existing legislation.

ADULT DEVELOPMENT AND AGING

Cengage Learning Written within a bio-psychosocial framework, Cavanaugh and Blanchard-Fields' best-selling text covers the specific ages-stages of adult development and aging. In its unparalleled coverage of current research and theory, the authors draw clear connections between research and application. The book's focus on positive aging and the gains and losses people experience across adulthood distinguish it from its competitors. ADDRESSING ADVERSITY

PRIORITISING ADVERSITY AND TRAUMA-INFORMED CARE FOR CHILDREN AND YOUNG PEOPLE IN ENGLAND.

YoungMinds / Health Education England / Human-Experience / An edited collection of

papers published by YoungMinds and funded by Health Education England. With 1 in 3 adult mental health conditions related directly to adverse childhood experiences, it is vital that we understand the impact that adversity and trauma can have on the mental health and wellbeing of young people, and how we can strengthen resilience and support recovery. Addressing Adversity presents evidence, insight, direction and case studies for commissioners, providers and practitioners in order to stimulate further growth in adversity and trauma-informed care, and spark innovation and good practice across England. Section 1: Understanding adversity, trauma and resilience includes evidence and analysis of the impact that adverse childhood experiences and trauma have on children and young people's mental health and wider outcomes across the lifecourse. Section 2: Addressing childhood adversity and trauma includes insights from the NHS in England, organisations and clinicians working with children and young people who have experienced forms of adversity and trauma. Section 3: Emerging good practice includes insight, case studies and working examples of adversity and trauma-informed service models being developed across England. The collection ends with an agenda for change, calling on all Directors of Public Health, commissioners and providers to make adversity and trauma-informed care a priority in their locality.

SOCIAL WORK AND SOCIAL WELFARE

AN INVITATION

Routledge Social Work and Social Welfare: An Invitation is a best-selling text and website for introduction to social work courses. It provides students with the knowledge, skills, and values that are essential for working with individuals, families, groups, organizations, communities, and public policy in a variety of practice settings. The new edition calls students to become engaged in some of society's most challenging issues through diverse case studies and an emphasis on global issues. Students will read accounts of real-world social work, such as in Chapter 8 where thirteen social workers share their experiences in twelve different practice settings, including health and mental health, criminal justice, school, public health, and rural settings. Social workers describe working with children and families, immigrants and refugees, military veterans and families, older adults, persons with addictions, and persons with disabilities. This edition also includes new profiles of social workers and one older adult that depict individual journeys, contemporary practice areas, and challenges. The fourth edition of *Social Work and Social Welfare* is in full color, with more visuals and photos throughout. As with previous editions, this book is an up-to-date profile of the world in which today's social workers practice, with current demographic, statistical, legislative, policy, and research information; and sensitive discussions of contemporary ethical issues. The text includes exercises from six interactive cases, including the new case, Brickville. Visit www.routledgesw.com for the detailed cases and companion materials that teach

students about social work through practice.

BULLETIN OF THE ATOMIC SCIENTISTS

COMMUNITIES IN ACTION

PATHWAYS TO HEALTH EQUITY

National Academies Press In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. *Communities in Action: Pathways to Health Equity* seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.

ENGLISH AS A GLOBAL LANGUAGE

Cambridge University Press David Crystal's classic *English as a Global Language* considers the history, present status and future of the English language, focusing on its role as the leading international language. English has been deemed the most 'successful' language ever, with 1500 million speakers internationally, presenting a difficult task to those who wish to investigate it in its entirety. However, Crystal explores the subject in a measured but engaging way, always backing up observations with facts and figures. Written in a detailed and fascinating manner, this is a book written by an expert both for specialists in the subject and for general readers interested in the English language.

BEHAVIOUR FOR LEARNING

PROMOTING POSITIVE RELATIONSHIPS IN THE CLASSROOM

Routledge *Behaviour for Learning* offers teachers a clear conceptual framework for making sense of the many behaviour management strategies on offer, allowing them to make a critical assessment of their appropriateness and effectiveness in the classroom, and assisting them to promote closer links between 'behaviour' and 'learning'. Now in a fully updated second edition, the book focuses on how teachers can provide a safe and secure setting where positive relationships are fostered, placing increased emphasis on learning behaviours that contribute to pupils' cognitive, social and emotional development. The book is full of practical approaches

that can help teachers support pupils to achieve, relate to others and develop behaviours that characterise self-esteem, confidence and resilience. It includes chapters covering: • relationship with the curriculum, relationship with self and relationship with others; • whole-school approaches and the school behaviour policy; • reframing special educational needs; • dealing with more challenging behaviour; • transitions. This second edition also includes an updated emphasis on the links between mental health, behaviour and relationships in schools, and reflects Department for Education advice for school staff, changes to the National Curriculum and the new SEND Code of Practice. Through the application of the Behaviour for Learning framework, the book encourages teachers to address the needs of pupils who exhibit behavioural difficulties, whilst still pursuing excellence in teaching and learning for all pupils. It is a compelling and essential read for all trainees and practising teachers, CPD coordinators and other professionals working with children in schools.

PREVENT STRATEGY

The Stationery Office The Prevent strategy, launched in 2007 seeks to stop people becoming terrorists or supporting terrorism both in the UK and overseas. It is the preventative strand of the government's counter-terrorism strategy, CONTEST. Over the past few years Prevent has not been fully effective and it needs to change. This review evaluates work to date and sets out how Prevent will be implemented in the future. Specifically Prevent will aim to: respond to the ideological challenge of terrorism and the threat we face from those who promote it; prevent people from being drawn into terrorism and ensure that they are given appropriate advice and support; and work with sectors and institutions where there are risks of radicalization which need to be addressed

A HANDBOOK FOR STUDENT ENGAGEMENT IN HIGHER EDUCATION

THEORY INTO PRACTICE

Routledge Drawing on scholarship as well as established practice, *A Handbook for Student Engagement in Higher Education* is a sector-leading volume that unpacks the concept of student engagement. It provides ideas and examples alongside compelling theory- and research-based evidence to offer a thorough and innovative exploration of how students and staff can work together to genuinely transform the higher education learning experience.
