## Inside Inequality in the Arab Republic of Egypt

## Facts and Perceptions Across People, Time, and Space

World Bank Publications Inside Inequality in the Arab Republic of Egypt: Facts and Perceptions Across People, Time, and Space comprises four papers prepared in the framework of the Egypt inequality study financed by the World Bank. The first paper, by Sherine Al-Shawarby, reviews the studies on inequality in Egypt since the 1950s with the double objective of illustrating the importance attributed to inequality through time and of presenting and comparing the main published statistics on inequality. The second paper, by Branko Milanovic, turns to the global and spatial dimensions of inequality. The Egyptian society remains deeply divided across space and in terms of welfare, and this study unveils some of the hidden features of this inequality. The third paper, by Paolo Verme, studies facts and perceptions of inequality during the 2000-2009 period, which preceded the Egyptian revolution. The fourth paper, by Sahar El Tawila, May Gadallah, and Enas Ali A.El-Majeed, assesses the state of poverty and inequality among the poorest villages of Egypt. The paper attempts to explain the level of inequality in an effort to disentangle those factors that derive from household abilities from those factors that derive from local opportunities. Inside Inequality in the Arab Republic of Egypt provides some initial elements that could explain the apparent mismatch between inequality measured with household surveys and inequality aversion measured by values surveys. This is a particularly important and timely topic to address in light of the unfolding developments in the Arab region. The book should be of interest to any observer of the political and economic evolution of the Arab region in the past few years and to poverty and inequality specialists interested in a deeper understanding of the distribution of incomes in Egypt and other countries in the Middle East and North Africa region.

## Egypt

## Lost Civilizations

Reaktion Books From Roman villas to Hollywood films, ancient Egypt has been a source of fascination and inspiration in many other cultures. But why, exactly, has this been the case? In this book, Christina Riggs examines the history, art, and religion of ancient Egypt to illuminate why it has been so influential throughout the centuries. In doing so, she shows how the ancient past has always been used to serve contemporary purposes. Often characterized as a lost civilization that was discovered by adventurers and archeologists, Egypt has meant many things to many different people. Ancient Greek and Roman writers admired ancient Egyptian philosophy, and this admiration would influence ideas about Egypt in Renaissance Europe as well as the Arabic-speaking world. By the eighteenth century, secret societies like the Freemasons looked to ancient Egypt as a source of wisdom, but as modern Egypt became the focus of Western military strategy and economic exploitation in the nineteenth and early twentieth centuries, its ancient remains came to be seen as exotic, primitive, or even dangerous, tangled in the politics of racial science and archaeology. The curse of the pharaohs or the seductiveness of Cleopatra were myths that took on new meanings in the colonial era, while ancient Egypt also inspired modernist, anti-colonial movements in the arts, such as in the Harlem Renaissance and Egyptian Pharaonism. Today, ancient Egypt—whether through actual relics or through cultural homage—can be found from museum galleries to tattoo parlors. Riggs helps us understand why this “lost civilization” continues to be a touchpoint for defining—and debating—who we are today.

## The Ancient Egyptian Pyramid Texts

Society of Biblical Lit The Pyramid Texts are the oldest body of extant literature from ancient Egypt. First carved on the walls of the burial chambers in the pyramids of kings and queens of the Old Kingdom, they provide the earliest comprehensive view of the way in which the ancient Egyptians understood the structure of the universe, the role of the gods, and the fate of human beings after death. Their importance lies in their antiquity and in their endurance throughout the entire intellectual history of ancient Egypt. This volume contains the complete translation of the Pyramid Texts, including new texts recently discovered and published. It incorporates full restorations and readings indicated by post-Old Kingdom copies of the texts and is the first translation that presents the texts in the order in which they were meant to be read in each of the original sources.

## Ancient Egyptian Magic

Weiser Books In this practical manual, Eleanor Harris takes the reader step by step through ancient Egyptian religions and magical philosophy thousands of years old. Drawing on instruction found in such texts as The Leyden Papyrus and The Papyrus Ani (the Egyptian Book of the Dead), the author reveals such secrets as how to invoke Egyptian gods and spirits for divination and magic; scry with fire, oil, and water; evoke messengers and spirits of the dead; and cast spells for love, protection, and healing. Also included are detailed how-to instructions for making authentic ancient Egyptian clothing, amulets, and more to evoke the magic of ancient Egypt. This new edition of a Weiser classic features a foreword by Normandi Ellis, author of Awakening Osiris.

### The Penguin Book of Myths and Legends of Ancient Egypt

Penguin UK The civilization we know as Ancient Egypt stretched over three thousand years. What was life like for ancient Egyptians? What were their beliefs - and how different were they from ours? This title uses Egypt's narratives to create a panorama of its history, from the earliest settlers to the time of Cleopatra.

### Omm Sety's Egypt

## A Story of Ancient Mysteries, Secret Lives, and the Lost History of the Pharaohs

St Lynns Press Revelations in Egyptology, based on the diaries of Dorothy Eady, better known as Omm Sety. Omm Sety, a brilliant, adventuring Englishwoman, worked under some of the greatest Egyptologists of the 20th century and saw into the past. Hers is a story of ancient love - of gods, pyramids, pharaohs and queens, and treasures that wait beneath the sand. In Omm Sety's Egypt, the authors present never-before-seen episodes from her truly incredible life, including important revelations about Egypt's lost history. Hanny el Zeini was her close friend during the many years she lived in the ancient holy city of Abydos. It was a friendship filled with star-lit evenings among the ruins of ancient temples, speaking of the mysteries of this land they both loved. Dr. el Zeini was her trusted confidant to whom she revealed her secret other life in 19th Dynasty Egypt. Shortly before her death in 1981, she gave him her diaries, which chronicled her life in two worlds. Drawing on Omm Sety's diaries and on hundreds of hours of recorded conversations and Dr. el Zeini's own writings, co-author Catherine Dees brings this extraordinary material together into a story that asks the reader to suspend disbelief and enter into the mystery that was Omm Sety.

### Searching for the Lost Tombs of Egypt

Thames & Hudson Where are the tombs of Alexander the Great or Cleopatra? Both rulers were buried in Egypt, but their tombs have never been found despite years of intensive research and excavation. Yet we have tantalizing clues. Searching for the Lost Tombs of Egypt describes the quest for these and other great missing tombs those we know existed, but which have not yet been identified. It also discusses key moments of discovery that have yielded astonishing finds and created the archetypal image of the archaeologist poised at the threshold of a tomb left untouched for millennia. In this gripping account, Chris Naunton explains the mysteries of the missing tombs and presents all the evidence, skilfully unravelling the tangled threads surrounding the burials of the heretic pharaoh Akhenaten and his son Tutankhamun, and the burial place of Imhotep, architect of the Step Pyramid at Saqqara, among others. Could other such tombs lie undiscovered in the Valley of the Kings? In fact, the Valley almost certainly does guard hidden treasures. Amazing finds of unsuspected tombs continue to occur there and elsewhere in Egypt, making headlines worldwide all are covered in this book. As well as immersing the reader, step by step, in the action of the search and the thrill of discovery, the book also explores the reasons why tombs remain such a central part of both the popular perception of Egyptology and the continuing allure of ancient Egypt. ## Stolen Legacy

Simon and Schuster For centuries the world has been misled about the original source of the Arts and Sciences; for centuries Socrates, Plato and Aristotle have been falsely idolized as models of intellectual greatness; and for centuries the African continent has been called the Dark Continent, because Europe coveted the honor of transmitting to the world, the Arts and Sciences. It is indeed surprising how, for centuries, the Greeks have been praised by the Western World for intellectual accomplishments which belong without a doubt to the Egyptians or the peoples of North Africa.

## A Coptic Handbook of Ritual Power

Brepols Pub This volume publishes a new Coptic handbook of ritual power, comprising a complete 20 page parchment codex from the second half of the first millennium AD. It consists of an invocation including both Christian and Gnostic elements, ritual instructions, and a list of twenty-seven spells to cure demonic possession, various ailments, the effects of magic, or to bring success in love and business. The codex is not only a substantial new addition to the corpus of magical texts from Egypt, but, in its opening invocation, also provides new evidence for Sethian Gnostic thought in Coptic texts. A Coptic Handbook of Ritual Power is the first volume in the series The Macquarie Papyri, which will publish the papyri in the collection of the Museum of Ancient Cultures, Macquarie University (Sydney, Australia).

## The Ancient Egyptian Coffin Texts

### Spells 1-1185 & Indexes

Faulkner's authoritative English translation of Middle Kingdom coffin texts is essential for all Egyptologists. This new edition reprints his whole work in one volume. Filling the gap between the 'Pyramid' texts and the New Kingdom Book of the Dead, these writings were intended to supply the deceased with the speeches he would need to achieve a secure and important position in the next world. As such they supply valuable insights into Egyptian beliefs and mortuary practices. Concise textual notes are kept to a minimum, allowing the character of the texts to be experienced as a whole. Indexes cover divinities, localities, celestial bodies, selected Egyptian words in translation and also the parts of boats and sailing gear that figure prominently in some spells.

## The Spell of the Sensuous

### Perception and Language in a More-Than-Human World

Vintage Winner of the International Lannan Literary Award for Nonfiction Animal tracks, word magic, the speech of stones, the power of letters, and the taste of the wind all figure prominently in this intellectual tour de force that returns us to our senses and to the sensuous terrain that sustains us. This major work of ecological philosophy startles the senses out of habitual ways of perception. For a thousand generations, human beings viewed themselves as part of the wider community of nature, and they carried on active relationships not only with other people with other animals, plants, and natural objects (including mountains, rivers, winds, and weather patters) that we have only lately come to think of as "inanimate." How, then, did humans come to sever their ancient reciprocity with the natural world? What will it take for us to recover a sustaining relation with the breathing earth? In *The Spell of the Sensuous* David Abram draws on sources as diverse as the philosophy of Merleau-Ponty, Balinese shamanism, Apache storytelling, and his own experience as an accomplished sleight-of-hand of magician to reveal the subtle dependence of human cognition on the natural environment. He explores the character of perception and excavates the sensual foundations of language, which—even at its most abstract—echoes the calls and cries of the earth. On every page of this lyrical work, Abram weaves his arguments with a passion, a precision, and an intellectual daring that recall such writers as Loren Eiseley, Annie Dillard, and Barry Lopez.

## The Writing of the Gods

### The Race to Decode the Rosetta Stone

Simon and Schuster The surprising and compelling story of two rival geniuses in an all-out race to decode one of the world's most famous documents—the Rosetta Stone—and their twenty-year-long battle to solve the mystery of ancient Egypt's hieroglyphs. The Rosetta Stone is one of the most famous objects in the world, attracting millions of visitors to the British museum ever year, and yet most people don't really know what it is. Discovered in a pile of rubble in 1799, this slab of stone proved to be the key to unlocking a lost language that baffled scholars for centuries. Carved in ancient Egypt, the Rosetta Stone carried the same message in different languages—in Greek using Greek letters, and in Egyptian using picture-writing called hieroglyphs. Until its discovery, no one in the world knew how to read the hieroglyphs that covered every temple and text and statue in Egypt. Dominating the world for thirty centuries, ancient Egypt was the mightiest empire the world had ever known, yet everything about it—the pyramids, mummies, the Sphinx—was shrouded in mystery. Whoever was able to decipher the Rosetta Stone, and learn how to read hieroglyphs, would solve that mystery and fling open a door that had been locked for two thousand years. Two brilliant rivals set out to win that prize. One was English, the other French, at a time when England and France were enemies and the world's two great superpowers. *The Writing of the Gods* chronicles this high-stakes intellectual race in which the winner would win glory for both himself and his nation. A riveting portrait of empires both ancient and modern, this is an unparalleled look at the culture and history of ancient Egypt and a fascinating, fast-paced story of human folly and discovery unlike any other.

## Ancient Egypt: Facts and Fictions

ABC-CLIO Comprising a unique collection of primary sources, this book critically examines several topics relating to ancient Egypt that are of high interest to readers but about which misconceptions abound. • Provides an accurate view of the role of slavery in ancient Egyptian society • Discusses the ancient Egyptian conception of divinity and how it applied to the pharaoh and the use of animals in Egyptian worship and religious iconography • Critically examines the controversial proposition that Jesus never existed but was a myth created from ancient Egyptian stories about Osiris and Horus • Explains the purposes for which the pyramids were built, based on ancient Egyptian texts found within the pyramids themselves • Provides evidence for how misconceptions about ancient Egypt developed and spread, along with support for what we now believe to be the historical truths • Directs users to additional sources of information for further study

## Egyptology: The Missing Millennium

### Ancient Egypt in Medieval Arabic Writings

Routledge *Egyptology: The Missing Millennium* brings together for the first time the disciplines of Egyptology and Islamic Studies, seeking to overturn the conventional opinion of Western scholars that Muslims/Arabs had no interest in pre-Islamic cultures. This book examines a neglected period of a thousand years in the history of Egyptology, from the Moslem annexation of Egypt in the seventh century CE until the Ottoman conquest in the 16th century. Concentrating on Moslem writers, as it is usually Islam which incurs blame for cutting Egyptians off from their ancient heritage, the author shows not only the existence of a large body of Arabic sources on Ancient Egypt, but also their usefulness to Egyptology today. Using sources as diverse as the accounts of travelers and treasure hunters to books on alchemy, the author shows that the interest in ancient Egyptian scripts continued beyond classical writers, and describes attempts by medieval Arab scholars, mainly alchemists, to decipher the hieroglyph script. He further explores medieval Arab interest in Ancient Egypt, discussing the interpretations of the intact temples, as well as the Arab concept of Egyptian kingship and state administration—including a case study of Queen Cleopatra that shows how the Arabic romance of this queen differs significantly from Western views. This book will be of great interest to academics and students of archaeology, Islamic studies and Egyptology, as well as anyone with a general interest in Egyptian history.

## Ten Steps to a Results-based Monitoring and Evaluation System

## A Handbook for Development Practitioners

World Bank Publications An effective state is essential to achieving socio-economic and sustainable development. With the advent of globalization, there are growing pressures on governments and organizations around the world to be more responsive to the demands of internal and external stakeholders for good governance, accountability and transparency, greater development effectiveness, and delivery of tangible results. Governments, parliaments, citizens, the private sector, NGOs, civil society, international organizations and donors are among the stakeholders interested in better performance. As demands for greater accountability and real results have increased, there is an attendant need for enhanced results-based monitoring and evaluation of policies, programs, and projects. This Handbook provides a comprehensive ten-step model that will help guide development practitioners through the process of designing and building a results-based monitoring and evaluation system. These steps begin with a OC Readiness AssessmentOCO and take the practitioner through the design, management, and importantly, the sustainability of such systems. The Handbook describes each step in detail, the tasks needed to complete each one, and the tools available to help along the way."

## Mummy Portraits of Roman Egypt

## Emerging Research from the APPEAR Project

Getty Publications This publication presents fascinating new findings on ancient Romano-Egyptian funerary portraits preserved in international collections. Once interred with mummified remains, nearly a thousand funerary portraits from Roman Egypt survive today in museums around the world, bringing viewers face-to-face with people who lived two thousand years ago. Until recently, few of these paintings had undergone in-depth study to determine by whom they were made and how. An international collaboration known as APPEAR (Ancient Panel Paintings: Examination, Analysis, and Research) was launched in 2013 to promote the study of these objects and to gather scientific and historical findings into a shared database. The first phase of the project was marked with a two-day conference at the Getty Villa. Conservators, scientists, and curators presented new research on topics such as provenance and collecting, comparisons of works across institutions, and scientific studies of pigments, binders, and supports. The papers and posters from the conference are collected in this publication, which offers the most up-to-date information available about these fascinating remnants of the ancient world.

## Conflicted Antiquities

## Egyptology, Egyptomania, Egyptian Modernity

Duke University Press Conflicted Antiquities is a rich cultural history of European and Egyptian interest in ancient Egypt and its material culture, from the early nineteenth century until the mid-twentieth. Consulting the relevant Arabic archives, Elliott Colla demonstrates that the emergence of Egyptology—the study of ancient Egypt and its material legacy—was as consequential for modern Egyptians as it was for Europeans. The values and practices introduced by the new science of archaeology played a key role in the formation of a new colonial regime in Egypt. This fact was not lost on Egyptian nationalists, who challenged colonial archaeologists with the claim that they were the direct heirs of the Pharaohs, and therefore the rightful owners and administrators of ancient Egypt's historical sites and artifacts. As this dispute developed, nationalists invented the political and expressive culture of "Pharaonism"—Egypt's response to Europe's Egyptomania. In the process, a significant body of modern Pharaonist poetry, sculpture, architecture, and film was created by artists and authors who looked to the ancient past for inspiration. Colla draws on medieval and modern Arabic poetry, novels, and travel accounts; British and French travel writing; the history of archaeology; and the history of European and Egyptian museums and exhibits. The struggle over the ownership of Pharaonic Egypt did not simply pit Egyptian nationalists against European colonial administrators. Egyptian elites found arguments about the appreciation and preservation of ancient objects useful for exerting new forms of control over rural populations and for mobilizing new political parties. Finally, just as the political and expressive culture of Pharaonism proved critical to the formation of new concepts of nationalist identity, it also fueled Islamist opposition to the Egyptian state.

## A Test of Time

## Volume One-The Bible-from Myth to History

Random House By employing the same basic methodologies used to establish the currently accepted chronology, it has been possible for a group of young archaeologists, including David Rohl, to create a New Chronology which resolves many of the problems permeating ancient world studies. In particular, one model has been developed which has major implications for Old Testament research. Through the revision of the master chronology of ancient Egypt they have unlocked the key to biblical history - the epic events of the Bible really did happen as recorded in the Books of Genesis, Exodus, Judges, Samuel, Kings and Chronicles - the problem was that we had previously been looking for them in completely the wrong place in time. Many of the conundrums of the past are explained, and legendary figures such as Joseph, Moses, David and Solomon find their true political setting. Exodus and Conquest will be restored to history and the magic of legend will begin to make its great comeback
