SOCIOLOGY IN OUR TIMES: THE ESSENTIALS

Cengage Learning Current and relevant to today's students, **SOCIOLOGY IN OUR TIMES: THE ESSENTIALS**, 11th Edition presents the latest available data and new insights on behaviors, beliefs, issues, and trends in our nation and world from a sociological perspective. The new edition of this bestselling text emphasizes the themes of social change, the effects of social media on communication, and the intertwining nature of politics and social policy in the United States and worldwide. Students contemplate such issues as gun control, prevention of military suicides, environmental activism, and whether employers should be allowed to spy on their employees. New You Can Make a Difference boxes help students learn how to become involved in their communities and the world through such projects as campus

kitchens and global networking to fight hunger. First-person accounts of individuals' lived experiences draw students into each chapter by illuminating topics that reflect the text's primary themes. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

SHOOTING WOMEN

BEHIND THE CAMERA, AROUND THE WORLD

Intellect Books Shooting Women takes readers around the world to explore the lives of camerawomen working in features, TV news, and documentaries. From first world pioneers like African American camerawoman Jessie Maple Patton who got her job only after suing the union - to China's first camerawomen - who travelled with Mao - to rural India where poor women have learned camerawork as a means of empowerment, Shooting Women reveals a world of women working with courage and skill in what has long been seen as a male field.

ANIMAL WELFARE IN A CHANGING WORLD

CABI Contemporary and challenging, this thought-provoking book outlines a number of the key dilemmas in animal welfare for today's, and tomorrow's, world. The issues discussed range from the welfare of hunted animals, to debates around intensive farming versus sustainability, and the effects of climate and environmental change. The book explores the effects of fences on wild animals and human impacts on carrion animals; the impacts of tourism on animal welfare; philosophical questions about speciesism; and the quality and quantity of animal lives. The welfare impacts of human-animal interactions are explored, including human impacts on marine mammals, fish, wildlife, and companion and farm animals. *Animal Welfare in a Changing World* provides: Concise, opinion-based views on important issues in animal welfare by world experts and key opinion leaders. Pieces based on experience, which balance evidence-based approaches and the welfare impacts of direct engagement through training, campaigning and education. A wide-ranging collection of examples and descriptions of animal welfare topics which outline dilemmas in the real world, that are sometimes challenging, and not always comfortable reading. This is a 'must-read' book for animal and veterinary scientists, ethologists, policy and opinion leaders, NGOs, conservation biologists and anyone who feels passionately about the welfare of animals

Original. (Advanced)

BETTER BASKETBALL SHOOTING

IMPROVING FREE THROWS AND MIDRANGE JUMP SHOTS

Human Kinetics In **Better Basketball Shooting**, Dave Hopla, professional shooting coach and one of the best shooters in the world, offers the expertise to help players at any level elevate their shooting percentage. **Better Basketball Shooting: Improving Free Throws and Midrange Jump Shots** provides detailed instruction featuring seven shooting drills and 33 color photos from NBA shooting coach Dave Hopla. Hopla has worked with some of the game's biggest names, including Kobe Bryant, Carmelo Anthony, and Jason Kidd. Now you can benefit from his coaching insights. With this mini e-book you'll learn the physical skills and techniques for improving your shooting percentage from the line and from inside the arc. You'll perfect your midrange shooting techniques to sink your stationary jump shots as well as your shots coming off screens and off the dribble. Take your game to a whole new level by mastering these shooting techniques and leave your opponents confused and frustrated. Let **Better Basketball Shooting: Improving Free Throws and Midrange Jump Shots** take you from being a mere shooter to becoming a reliable scorer. The mini e-book **Better Basketball Shooting: Improving Free Throws and Midrange Jump Shots** is an abridged version of the comprehensive book **Basketball Shooting** (Human Kinetics, 2012).

INVESTIGATING TERRORISM

CURRENT POLITICAL, LEGAL AND PSYCHOLOGICAL ISSUES

John Wiley & Sons Investigating Terrorism takes a look behind the closed doors of terrorist cases. Major players from the world of counter-terrorism, including politicians, lawyers, psychologists and police, offer analyses of recent terror attacks and share their knowledge of terrorist behaviour Deals with legal, psychological and practical issues surrounding how to deal with a real life 'ticking bomb' scenario Provides an insight into the most recent police model for interviewing witnesses, victims and suspects Contains the latest analyses of recent terrorist attacks including the recent Norwegian tragedy carried out by terrorist Anders Breivik Contains the views of major players in the world of counter-terrorism, including Lord Carlile, the former HMG's Independent Reviewer of Terrorist legislation, and Peter Clarke, the recently retired Head of Terrorist Investigations for the UK Incorporates recently-released findings from studies commissioned by New Scotland Yard to study the effectiveness of police interviews with terrorist suspects Includes chapters discussing the context in which people become suicide bombers

THE AMISH AND THE MEDIA

JHU Press "Of all the religious groups in contemporary America, few demonstrate as many reservations toward the media as do the Old Order Amish. Yet these attention-wary citizens have become a media phenomenon, featured in films, novels, magazines, newspapers, and television - from Witness, Amish in the City, and Devil's Playground to the intense news coverage of the 2006 Nickel Mines School shooting. But the Old Order Amish are more than media subjects. Despite their separatist tendencies, they use their own media networks to sustain Amish culture. Chapters in the collection examine the influence of Amish-produced newspapers and books, along with the role of informal spokespeople in Old Order communities."

ICCWS 2018 13TH INTERNATIONAL CONFERENCE ON CYBER WARFARE AND SECURITY

Academic Conferences and publishing limited These proceedings represent the work of researchers participating in the 13th International Conference on Cyber Warfare and Security (ICCWS 2018) which is being hosted this year by the National Defense University in Washington DC, USA on 8-9 March 2018.

UNDERSTANDING DEATH AND DYING

ENCOUNTERING DEATH, DYING, AND THE AFTERLIFE

SAGE Publications **Understanding Death and Dying** teaches students about death, dying, bereavement, and afterlife beliefs by asking them to apply this content to their lives and to the world around them. Students see differing cultural experiences discussed in context with key theories and research. The text's pedagogy delivers relevant multi- and cross-cultural applications and connections across topics. This helps students evaluate their personal assumptions and appreciate how the content applies to their own current and future roles as individuals, family members, work colleagues, and as part of a community. The text simultaneously challenges learners to consider their own perspectives and to think critically about the parallels between their own lives and different cultures. Included with this title: The password-protected Instructor Resource Site (formally known as SAGE Edge) offers access to all text-specific resources, including a test bank and editable, chapter-specific PowerPoint® slides. Learn more.

DESTRUCTIVE SUBLIME

WORLD WAR II IN AMERICAN FILM AND MEDIA

Rutgers University Press **The American** popular imagination has long portrayed World War II as the “good war,” fought by the “greatest generation” for the sake of freedom and democracy. Yet, combat films and other war media complicate this conventional view by indulging in explosive displays of spectacular violence. Combat sequences, Tanine Allison argues, construct a counter-narrative of World War II by reminding viewers of the war's harsh brutality. *Destructive Sublime* traces a new aesthetic history of the World War II combat genre by looking back at it through the lens of contemporary video games like *Call of Duty*. Allison locates some of video games' glorification of violence, disruptive audiovisual style, and bodily sensation in even the most canonical and seemingly conservative films of the genre. In a series of case studies spanning more than seventy years—from wartime documentaries like *The Battle of San Pietro* to fictional reenactments like *The Longest Day* and *Saving Private Ryan* to combat video games like *Medal of Honor*—this book reveals how the genre's aesthetic forms reflect (and influence) how American culture conceives of war, nation, and representation itself.

THE ALPHABET BOMBER

A LONE WOLF TERRORIST AHEAD OF HIS TIME

U of Nebraska Press On August 6, 1974, a bomb exploded at Los Angeles International Airport, killing three people and injuring thirty-five others. It was the first time an airport had been bombed anywhere in the world. A few days later, police recovered a cassette tape containing a chilling message: "This first bomb was marked with the letter A, which stands for Airport," said a voice. "The second bomb will be associated with the letter L, the third with the letter I, etc., until our name has been written on the face of this nation in blood." In *The Alphabet Bomber: A Lone Wolf Terrorist Ahead of His Time*, internationally renowned terrorism expert Jeffrey D. Simon tells the gripping tale of Muharem Kurbegovic, a bright but emotionally disturbed Yugoslav immigrant who single-handedly brought Los Angeles to a standstill during the summer of 1974. He had conjured up the fictitious group "Aliens of America," but it was soon discovered that he acted alone in a one-man war against government and society. The story of the Alphabet Bomber is about an extraordinary manhunt to find an elusive killer, a dogged prosecutor determined to bring him to justice, a pioneering female judge, and a devious mastermind whose heinous crimes foreshadowed the ominous threats we face today from lone wolf terrorists.

THE FUTURE OF THE INTERNET--AND HOW TO STOP IT

Yale University Press This extraordinary book explains the engine that has catapulted the Internet from backwater to ubiquity—and reveals that it is sputtering precisely because of its runaway success. With the unwitting help of its users, the generative Internet is on a path to a lockdown, ending its cycle of innovation—and facilitating unsettling new kinds of control. iPods, iPhones, Xboxes, and TiVos represent the first wave of Internet-centered products that can't be easily modified by anyone except their vendors or selected partners. These "tethered appliances" have already been used in remarkable but little-known ways: car GPS systems have been reconfigured at the demand of law enforcement to eavesdrop on the occupants at all times, and digital video recorders have been ordered to self-destruct thanks to a lawsuit against the manufacturer thousands of miles away. New Web 2.0 platforms like Google mash-ups and Facebook are rightly touted—but their applications can be similarly monitored and eliminated from a central source. As tethered appliances and applications eclipse the PC, the very nature of the Internet—its "generativity," or innovative character—is at risk. The Internet's current trajectory is one of lost opportunity. Its salvation, Zittrain

argues, lies in the hands of its millions of users. Drawing on generative technologies like Wikipedia that have so far survived their own successes, this book shows how to develop new technologies and social structures that allow users to work creatively and collaboratively, participate in solutions, and become true “netizens.”

VIDEO GAMES AROUND THE WORLD

MIT Press **Thirty-nine essays explore the vast diversity of video game history and culture across all the world's continents. Video games have become a global industry, and their history spans dozens of national industries where foreign imports compete with domestic productions, legitimate industry contends with piracy, and national identity faces the global marketplace. This volume describes video game history and culture across every continent, with essays covering areas as disparate and far-flung as Argentina and Thailand, Hungary and Indonesia, Iran and Ireland. Most of the essays are written by natives of the countries they discuss, many of them game designers and founders of game companies, offering distinctively firsthand perspectives. Some of these national histories appear for the first time in English, and some for the first time in any language. Readers will learn, for example, about the rapid growth of mobile games in Africa; how a meat-packing company held the rights to import the Atari VCS 2600 into Mexico; and how the Indonesian MMORPG Nusantara Online reflects that country's cultural history and folklore. Every country or region's unique conditions provide the context that shapes its national industry; for example, the long history of computer science in the United Kingdom and Scandinavia, the problems of piracy in China, the PC Bangs of South Korea, or the Dutch industry's emphasis on serious games. As these essays demonstrate, local innovation and diversification thrive alongside productions and corporations with global aspirations. Africa • Arab World • Argentina • Australia • Austria • Brazil • Canada • China • Colombia • Czech Republic • Finland • France • Germany • Hong Kong • Hungary • India • Indonesia • Iran • Ireland • Italy • Japan • Mexico • The Netherlands • New Zealand • Peru • Poland • Portugal • Russia • Scandinavia • Singapore • South Korea • Spain • Switzerland • Thailand • Turkey • United Kingdom • United States of America • Uruguay • Venezuela**

THE EMERALD REVIEW OF INDUSTRIAL AND ORGANIZATIONAL PSYCHOLOGY

Emerald Group Publishing **This book provides a comprehensive review of the theory, research, and applications in Industrial and Organizational (I/O) Psychology. Analyzing three primary objectives of I/O psychology: improving the effectiveness of employees and organizations, enhancing employee well-being, and gaining an understanding of**

human behavior in organizations.

LONE-ACTOR TERRORISM

AN INTEGRATED FRAMEWORK

Oxford University Press "Contemporary lone-actor terrorism is a complex, multi-dimensional process, involving different contexts, ideologies, geographic regions, circumstances, drives, individuals, and modes of violence. Despite the complexity behind a violent incident, the outcome unfortunately is quite simple - harm and devastation to victims, families, and society. The purpose of this book is to explore lone-actor terrorism from different but complementary vantage points. One important focus is on the variability of clinical and forensic mental health concerns. In addition, this book explores other aspects of lone-actor terrorism, including law enforcement and homeland security, risk and threat assessment, geography, ethical considerations, and legal issues. Lone-actor terrorism does not happen in a vacuum. In the context of a given set of conditions, stressors, and rhetoric, many people will think about acting in some form of opposition, vocalize their disagreement or outrage, protest, and vote, in order to effect change. A very small number of individuals, however, think they have to 'take matters in their own hands' and act violently in order to effect change"--

WEAPONIZED MARKETING

DEFEATING ISLAMIC JIHAD WITH MARKETING THAT BUILT THE WORLD'S TOP BRANDS

Because Islamic jihad wins through marketing, Weaponized Marketing proposes to fight back with this marketing battle plan that uses the techniques that built the world's leading brands to succeed where military might and diplomacy have failed.--Peter Huessy, President, Geostrategic Analysis of Potomac Maryland and Director of Strategic Deterrent Studies at the Mitchell Institute of the Air Force Association and Guest Instructor, US Naval Academy
