SECOND LANGUAGE CLASSROOM RESEARCH

ISSUES AND OPPORTUNITIES

Routledge In an attempt to fill the gap left by the many published studies on classroom second language research, this book explores a variety of human, social, and political issues involved in the carrying out of such studies. Many journals are chock-full of the results of classroom research, with evidence to support one claim or another about the efficacy of one teaching method or another. Many textbooks are replete with statistical procedures to be used, and with experimental designs to fit varying situations. Too often overlooked in these treatments are the human, social, and political issues involved in carrying out research in classrooms that are not one's own. What are the problems going to be when one attempts work such as this? What does one do on discovering that an administrator's agenda is different than one had thought? What does one do when a teacher resents intrusions into her classroom?

This book offers a view on those kinds of issues, as presented and managed by successful classroom researchers themselves. The authors present their own experiences including, on occasion, their trials and tribulations and how they dealt with them. They lay themselves open to criticism in doing so, but they make their contributions much the richer as well. The classroom contexts extend to different countries, and range from elementary schools to universities. Some of the issues presented are: * the necessarily collaborative nature of the research; * the question of meshing pedagogically sound and experimentally acceptable practices; * the often strong possibility that political and social decisions will interrupt the research; * the perennial question of reporting out the results; and * the training of graduate student researchers.

WORKBOOK WITH KEY (71 P.)

MARCOVALDO

OR, THE SEASONS IN THE CITY

HMH A charming portrait of one man's dreams and schemes, by "the greatest Italian writer of the twentieth century" (The Guardian). In this enchanting book of linked stories, Italo Calvino charts the disastrous schemes of an Italian peasant, an unskilled worker in a drab northern industrial city in the 1950s and '60s, struggling to reconcile his old country habits with his current urban life. Marcovaldo has a practiced eye for spotting natural beauty and an unquenchable longing for the unspoiled rural world of his imagination. Much to the continuing puzzlement of his wife, his children, his boss, and his neighbors, he chases his dreams and gives rein to his fantasies, whether it's sleeping in the great outdoors on a park bench, following a stray cat, or trying to catch wasps. Unfortunately, the results are never quite what he anticipates. Spanning from the 1950s to the 1960s, the twenty stories in Marcovaldo are alternately comic and melancholy, farce and fantasy. Throughout, Calvino's unassuming masterpiece "conveys the sensuous, tangible qualities of life" (The New York Times).

ENGLISH MEDIUM INSTRUCTION

Oxford University Press Ernesto Macaro brings together a wealth of research on the rapidly expanding phenomenon of English Medium Instruction. Against a backdrop of theory, policy documents, and examples of practice, he weaves together research in both secondary and tertiary education, with a particular focus on the key stakeholders involved in EMI: the teachers and the students. Whilst acknowledging that the momentum of EMI is unlikely to be diminished, and identifying its potential benefits, the author raises questions about the ways it has been introduced and developed, and explores how we can arrive at a true cost-benefit analysis of its future impact. "This state-of-the-art monograph presents a wide-ranging, multi-perspectival yet coherent overview of research, policy, and practice of English Medium Instruction around the globe. It gives a thorough, in-depth, and thought-provoking treatment of an educational phenomenon that is spreading on an unprecedented scale." MALTESE AND OTHER LANGUAGES

A LINGUISTIC HISTORY OF MALTA

Throughout the ages, the Maltese language has undergone a series of internal changes as well as modifications and accretions caused by various external forces. As a result the Maltese language has been shaped by its inhabitants' interactions with all the peoples who, throughout the centuries, have landed on the islands to govern it or establish colonies there. The population of the Maltese islands has multiplied in the past one thousand years, rising to around 400,000, and such a rapid increase in such a small place could not fail to

exert a strong influence on the linguistic scenario. The increase in population was due not only to natural growth but also to cumulative waves of settlers from abroad. Social interaction between the locals and the visitors was strong, bilingual communication took place in various domains at all social levels and relations were especially strong when mixed marriages took place. For this reason, a history of the Maltese language must be seen in the wider context of a linguistic history of the Maltese islands and will offer linguists belonging to both the historical and typological fields an intriguing case study of what can be considered a "minor" language from the international point of view (used only in a small state, but spoken by the great majority of the islanders) which has managed to survive alongside a series of "major" languages such as Arabic, Latin, Sicilian, Italian and English, languages which were widely spoken and written abroad and which also enjoyed prestige in Malta itself but whose local circulation was generally limited to the literate minority.

ALIGNING TESTS WITH THE CEFR

REFLECTIONS ON USING THE COUNCIL OF EUROPE'S DRAFT MANUAL

Cambridge University Press The Council of Europe released a preliminary version of the Manual for Relating Language Examinations to the Common European Framework of Reference for Languages (CEFR) in 2003. Over the next 5 years a wide range of institutions and individuals undertook case studies to pilot this draft version. Towards the close of the piloting phase, a two-day colloquium was held in Cambridge, UK enabling practitioners and academics to reflect on and share their experiences of applying the Manual procedures. Insights from this colloquium informed the Manual revision project during 2008/2009. This volume features selected case studies presented at the Cambridge Colloquium in December 2007. They include the linking of a single test to the CEFR, the CEFR-linking of suites of examinations at different levels and large scale national projects undertaken by examination boards and specialist research institutes. Some studies focus on part of an examination, while others involve all test components. Some apply one or two of the procedures - familiarisation, specification, standardisation, and empirical validation. As well as describing their studies and reporting their findings, contributors reflect and comment on their experience of using the draft Manual. A clear and comprehensive introductory chapter explains the development of the CEFR and the draft Manual for linking tests, and discusses its relevance for the future. The volume will be of interest to examination boards, language test developers and educational policy-makers, as well as academic lecturers, researchers and graduate students interested in the principles and practice of aligning tests to the CEFR.

LANGUAGE TEACHING RESEARCH BASED ON THE THEORY OF MODELS

THE FRIULIAN LANGUAGE

IDENTITY, MIGRATION, CULTURE

Cambridge Scholars Publishing Are minor languages the lifeblood of cherished local identities or just passports with restricted validity, serving no purpose in today's transnational, global world? Italy's north-eastern region of Friuli is a case in point: in this area, around half a million people speak Friulian, a Romance language of the Rhaeto-Romance family, which is attested to in written texts since 1150 and acquired official minority language status in 1999. Geographically and politically off-centre, Friuli remained isolated for a long part of its history and developed a unique language that sustained a distinctive identity and culture. Starting from the nineteenth century, large-scale migration towards Northern Europe and the Americas brought Friulian into contact with other languages and contexts of use. *The Friulian Language: Identity, Migration, Culture* is the first comprehensive study in English of this little-known language to consider its history and the variety of its cultural manifestations from antiquity to the present day. The volume gathers together the work of ten contributors who are specialists in the fields of history (Fulvio Salimbeni), law (William Cisilino), linguistics (Paola Benincà, Franco Finco, Fabiana Fusco and Carla Marcato), literary studies (Rosa Mucignat and Rienzo Pellegrini), and migration (Javier P. Grossutti and Olga Zorzi Pugliese). The focus of the book is on Friulian, its varieties, its linguistic characteristics and its use in literature from fourteenth-century ballads to Pier Paolo Pasolini, and more recent poetry by Novella Cantarutti and others. Equal attention is given to the Friulians themselves, the social and political transformations of the region, and the experience of migration, in particular the case of high-skilled mosaic craftsmen from the Alpine foothills. Thanks to its multidisciplinary approach, the book sheds light on the questions of why Friulian has developed the way it has, what its significance as a minor language is, and how it can negotiate its relationship to other languages on a global scale.
