Engaging Theories in Family Communication

Multiple Perspectives

Routledge Engaging Theories in Family Communication, Second Edition delves deeply into the key theories in family communication, focusing on theories originating both within the communication discipline and in allied disciplines. Contributors write in their specific areas of expertise, resulting in an exceptional resource for scholars and students alike, who seek to understand theories spanning myriad topics, perspectives, and approaches. Designed for advanced undergraduate and graduate students studying family communication, this text is also relevant for scholars and students of personal relationships, interpersonal communication, and family studies. This second edition includes 16 new theories and an updated study of the state of family communication. Each chapter follows a common pattern for easy comparison between theories.

Communication Yearbook 33

Routledge The Communication Yearbook annuals publish diverse, state-of-the-discipline literature reviews across the field of communication. Sponsored by the International Communication Association, volumes offer insightful descriptions of research as well as reflections on the implications of those findings for other areas of the discipline. Editor Christina S. Beck presents a diverse, international selection of articles that highlight empirical and theoretical intersections in the communication discipline.

Family Communication

Cohesion and Change

Routledge Family Communication: Cohesion and Change encourages students to observe family interaction patterns analytically and relate communication theories to family interactions. Using a framework of family functions, first-person narratives, and current research, Family Communication: Cohesion and Change emphasizes the diversity of today's families in terms of structure, ethnic patterns, and developmental experiences.

Perspectives on Information

Routledge Information is everywhere, and defines everything in today's society. Moreover, information is a key concept in a wide range of academic disciplines, from quantum physics to public policy. However, these disciplines all interpret the concept in quite different ways. This book looks at information in several different academic disciplines - cybernetics, ICT, communications theory, semiotics, information systems, library science, linguistics, quantum physics and public policy. Perspectives on Information brings clarity and coherence to different perspectives through promoting information as a unifying concept across the disciplinary spectrum. Though conceived as a contribution to the ongoing conversation between academic disciplines into the nature of information, the deliberately accessible style of this text (reflecting the authors' backgrounds at The Open University) will be make it valuable for anyone who needs to know something more about information. Given the ubiquity of information in the 21st century, that means everyone.

The Handbook of Communication Science

SAGE In 1987, publication of the Handbook of Communication Science signaled the "coming of age" for one of the most exciting interdisciplinary fields in the social sciences. With the 2nd edition of The Handbook of Communication Science almost twenty years later, editors Charles R. Berger and David Roskos-Ewoldsen bring together again a stellar cast of communication scholars to contribute to this volume. Opening chapters address the methods of research and the history of the field. In subsequent parts, the authors examine the levels of analysis in communication (individual to macrosocial), the functions of communication (such as socialization and persuasion), and the contexts in which communication occurs (such as couples, families, organizations, and mass media).

Family Therapy with Ethnic Minorities

SAGE The classic and critically acclaimed book Family Therapy with Ethnic Minorities, Second Edition has now been updated and revised to reflect the various demographic changes that have occurred in the lives of ethnic minority families and the implications of these changes for clinical practice. Family Therapy with Ethnic Minorities provides advanced students and practitioners with the most up-to-date examination yet of the theory, models, and techniques relevant to ethnic minority family functioning and therapy. After an introductory discussion of principles to be considered in practice with ethnic minorities, the authors apply these principles to working with specific ethnic minority groups, namely African Americans, Latinos, Asian/Pacific Americans, and First Nations People. Distinctive cultural values of each ethnic group are explored as well as specific guidelines and suggestions on culturally significant family therapy strategies and skills. Key Features: The revised text reflects advances in family therapy scholarship since the first edition thus ensuring for readers an up-to-date treatment of the topic Accents and extends current critical constructionist theories and techniques and applies them within a culturally specific perspective Pays special attention to the issues of 'historical trauma' (referred to as 'soul wound'), especially in work with First Nations Peoples and African American families /span

Sourcebook of Family Theory and Research

SAGE This volume provides a diverse, eclectic, and paradoxically mature approach to theorizing and demonstrates how the development of theory is crucial to the future of family research."

Communicating Mental Health History, Contexts, and Perspectives

Lexington Books Communicating Mental Health: History, Contexts, and Perspectives explores mental health through the lens of the communication discipline. In the first section, contributors describe the major contributions of the communication discipline as it pertains to a broader perspective and stigma of mental health. In the second section, contributors investigate mental health through various narrative perspectives. In the third and fourth sections, contributors consider many applied contexts such as media, education, and family. At the conclusion, contributors discuss the ways in which future inquiries regarding mental health in the communication discipline can be investigated. Scholars of health communication, mental health, psychology, history, and sociology will find this volume particularly useful.

EBOOK: Human Communication: South African edition

McGraw Hill The new South African edition of Tubbs and Moss offers examples, applications and cases tailored to the local market whilst retaining the successful focus on the principles and contexts of communication studies. The authors link theory and research with fundamental concepts and create plentiful opportunities for students to apply their understanding and develop useful communication skills. The new edition is fully updated with the most up to date reseach and examples, with a strong focus on cultural diversity, technology and local applications.

Neurolinguistic Psychotherapy A Postmodern Perspective

Routledge Neurolinguistic Psychotherapy offers a unique and exciting postmodern perspective on an advancing model of therapy. It places neurolinguistic psychotherapy in context and considers the history of NLP and its relationship to psychotherapy. Presented as an effective model for facilitating neurological change through the therapeutic relationship, this book challenges therapists to incorporate a psychodynamic approach within their work. In addition the book also presents: A model of the developing personality and the relationship to attachment theory and emerging theories of neuroscience. A discussion of the linguistic components of NLP and the effectiveness of utilising the language patterns offered by NLP. A challenge to neurolinguistic psychotherapists – asking them to consider the benefits of including relational approaches to therapy above that offered by a programmatic model of change. This book will be of great interest to all psychotherapeutic practitioners and trainers, students and academics.

Researching Interpersonal Relationships

Qualitative Methods, Studies, and Analysis

SAGE Publications Researching Interpersonal Relationships: Qualitative Methods, Studies, and Analysis, by Jimmie Manning and Adrienne Kunkel, explores and demonstrates methodological tools and theories used to guide relationships research, especially studies of interpersonal communication. Featuring chapters illustrated by research studies conducted by leading communication scholars, this book introduces both classic and cutting-edge methodological approaches to qualitative inquiry and analysis. Each chapter highlights a particular method, context, and analytical tool. Through the methodological and analytical overviews, illustrative research studies, and post-study interviews with the researchers, readers can better understand how qualitative research approaches can expand and solidify understandings of personal relationships.

Family Communication

Routledge Family Communication carefully examines state-of-the-art research and theories of family communication and family relationships. In addition to presenting cutting-edge research, it focuses on classic theories and research findings that have influenced and revolutionized the way scholars conceptualize family interaction. This text offers a thorough and up-to-date presentation of scientific research in family communication for both teachers and students of family communication as well as professionals who work with families. This second edition features: Chapters updated with the latest research, including over 2000 references. Material on understudied family relationships, such as extended family relationships and gay and lesbian relationships Recent research on understudied topics in family communication, including the influence of technology on mate selection, negotiating work and family stress, single parenting, cohabitation, elder abuse, forgiveness in marriage, and the links among communication, culture, and mental health. A revised chapter on parent-child communication, taking a lifespan perspective that helps organize the large body of research in this area. A new chapter devoted to extended family relationships, with special focus on grandparent-grandchild relationships, in-law relationships, and adult children and their parents. An expanded review of family conflict processes, especially in relation to decision making and power. A companion website provides chapter outlines, exam questions, and PowerPoint slides for students and instructors. Undergraduate readers should find the information easy to understand, while advanced readers, such as graduate students and professionals, will find it a useful reference to classic and contemporary research on family communication and relationships.

Design, User Experience, and Usability. Theory, Methods, Tools and Practice

First International Conference, DUXU 2011, Held as Part of HCI International 2011, Orlando, FL, USA, July 9-14, 2011, Proceedings

Springer Science & Business Media The two-volume set LNCS 6769 + LNCS 6770 constitutes the proceedings of the First International Conference on Design, User Experience, and Usability, DUXU 2011, held in Orlando, FL, USA in July 2011 in the framework of the 14th International Conference on Human-Computer Interaction, HCI 2011, incorporating 12 thematically similar conferences. A total of 4039 contributions was submitted to HCI 2011, of which 1318 papers were accepted for publication. The total of 154 contributions included in the DUXU proceedings were carefully reviewed and selected for inclusion in the book. The papers are organized in topical sections on DUXU theory, methods and tools; DUXU guidelines and standards; novel DUXU: devices and their user interfaces; DUXU in industry; DUXU in the mobile and vehicle context; DXU in Web environment; DUXU and ubiquitous interaction/appearance; DUXU in the development and usage lifecycle; DUXU evaluation; and DUXU beyond usability: culture, branding, and emotions.

Multiple Literacies Theory

A Deleuzian Perspective

BRILL "The essays in this book think through and with Deleuzian concepts in the educational field. The resultant encounters between concepts such as multiplicity, becoming, habit and affect and Multiple Literacies Theory exemplify philosophically inspired and productive thinking."—Paul Patton, Professor of Philosophy, University of New South Wales

Systems Theory in Action

Applications to Individual, Couple, and Family Therapy

John Wiley & Sons "Smith-Acuña illuminates the structural hierarchy, roles, and boundaries that give a system structure. The relationship between parts and wholes is both simple and profound, and particularly important in looking at systems structure. These morsels of wisdom are good examples of Smith-Acuña's grace as a systems theory tour guide: one moment she's digging deeper into the nuances among the theories, the next moment she's simplifying without dumbing down, but in a manner that is enormously liberating. We enjoy the fun, full, and informed journey with her." —Frank S. Pittman III, MD A practical presentation of systems theory as a fundamental model for clinical practice Valuable for seasoned mental health professionals as well as those in training, *Systems Theory in Action* presents systems theory—the unifying principles surrounding the organization and functioning of systems—as it applies to individual, couples, and family therapy. This innovative book explores systems theory as an effective model for general mental health practice. It examines the role systems theory can play, specifically in understanding clients' presenting problems in context, within the various systems and subsystems in which the problems are embedded. Filled with realistic clinical stories illustrating relevant concepts that tie theory to technique, *Systems Theory in Action* takes an in-depth look at: Systems theory as a solid guide through the dynamic process of psychotherapy The multilayered value of observing human interactions through a systems view Systemic thinking, its core components, and how it serves to reveal a "big picture" view of clients and their presenting problems *Systems Theory in Action* is a unique contribution to the field, translating the technical terminology of general systems thinking into common, everyday language.

Sourcebook of Family Theories and Methods

A Contextual Approach

Springer Science & Business Media *Origins* We call this book on theoretical orientations and methodological strategies in family studies a sourcebook because it details the social and personal roots (i.e., sources) from which these orientations and strategies flow. Thus, an appropriate way to preface this book is to talk first of its roots, its beginnings. In the mid 1980s there emerged in some quarters the sense that it was time for family studies to take stock of itself. A goal was thus set to write a book that, like Janus, would face both backward and forward a book that would give readers both a perspective on the past and a map for the future. There were precedents for such a project: *The Handbook of Marriage and the Family* edited by Harold Christensen and published in 1964; the two *Contemporary Theories about the Family* volumes edited by Wesley Burr, Reuben Hill, F. Ivan Nye, and Ira Reiss, published in 1979; and the *Handbook of Marriage and the Family* edited by Marvin Sussman and Suzanne Steinmetz, then in production.

Handbook of Family Theories

A Content-Based Approach

Routledge Organized by content areas rather than by theory, this comprehensive, accessible handbook helps readers gain greater insight into how key theories have impacted today's family research. Most competing books, organized by theory, do not provide a strong sense of the links between theory and research. Using the 2000 and 2010 decade-in-review issues of the *Journal of Marriage and Family* as a resource, the book addresses the most important topics impacting family studies research today. The introductory chapter, written by the editors, provides an overview of the role family theories have had on the field. This chapter is followed by 23 others on family-related content areas written by renowned scholars in the field. The book is organized around the most important domains in the field: parenting and parent-child relationships, romantic relationships, conflict and aggression, structural variation and transitions, demographic variations, and families and extra-familial institutions. Each of the contributors describes how theory has been used to generate new knowledge in the field and suggests future directions for how theory may be used to extend our knowledge base. The book helps readers acquire a working knowledge of the key family science theories, findings, and issues and understand how researchers make use of these theories in their empirical efforts. To maximize accessibility, each of the renowned contributors addresses a common set of issues in their chapter: • Introduction to the content area • Review of the key topics, issues, and findings • A description of each of the major theories used to study that particular content area • Limitations of the theories • Suggestions for better use of the theories and/or new theoretical advances • Conclusions about future theoretical developments. An ideal text for graduate and/or advanced undergraduate family theories courses, this book's unique organization also lends itself to use in content-based family studies/science courses taught in family studies, human development, psychology, sociology, communication, education, and nursing. Due to its comprehensive and current approach, the book also appeals to scholars and researchers in these areas.

Textbook of Palliative Care Communication

Oxford University Press, USA 'The *Textbook of Palliative Care Communication*' is the authoritative text on communication in palliative care. Uniquely developed by an interdisciplinary editorial team to address an array of providers including physicians, nurses, social workers, and chaplains, it unites clinicians and academic researchers interested in the study of communication.

Exploring Communication Theory

Making Sense of Us

Taylor & Francis This text presents and explains theories from the epistemological perspectives of the researchers who use them. Rather than representing a specific theoretical paradigm (social scientific, interpretive, or critical), the author team presents the three major paradigms in one text, each writing in his or her area of expertise. Every theory is explained in a "native" voice, from a position of deep understanding and experience, improving clarity for readers. The text also provides insights on using communication theory to address real-life challenges. Considering that theories are developed to guide scholarly research more than to provide practical advice, this feature of the book helps students create realistic expectations for what theories can and cannot do and makes clear that many theories can have practical applications that students can use to their advantage in everyday life. Offering a comprehensive exploration of communication theories through multiple lenses, *Exploring Communication Theory* provides an integrated approach to studying communication theory and to demonstrating its application in the world of its readers.

The SAGE Handbook of Family Communication

SAGE Publications A thorough exploration of the critical topics and issues facing family communication researchers today. The Sage Handbook of Family Communication provides a comprehensive examination of family communication theory and research. Chapters by leading scholars in family communication expand the definition of family, address recent shifts in culture, and cover important new topics, including families in crisis, families and governmental policies, social media, and extended families. The combination of groundbreaking theories, research methods, and reviews of foundational and emerging research in family communication make this an invaluable resource that explores the critical topics and issues facing family communication researchers today.

Transgressing Feminist Theory and Discourse

Advancing Conversations across Disciplines

Routledge Despite decades of activism, resistance, and education, both feminists and gender rebels continue to experience personal, political, institutional, and cultural resistance to rights, recognition, and respect. In the face of these inequalities and disparities, *Transgressing Feminist Theory and Discourse* seeks to engage with, and disrupt the long-standing debates, unquestioned conceptual formations, and taboo topics in contemporary feminist studies. The first half of the book challenges key concepts and theories related to feminist scholarship by advocating new approaches for theorizing interdisciplinarity, intersectionality, critical race theory, trans studies, and genetics. The second half of the book offers feminist critiques or explorations of timely topics such as the 2017 Women's March and Donald Trump's election as well as non-Western perspectives of family and the absence of women's perspectives in healthcare. Contributors comprise of leading scholars and activists from disciplines including gender and sexuality studies, African American studies, communication studies, sociology, political science, and media. *Transgressing Feminist Theory and Discourse* is a compelling examination of some of the most high-profile feminist issues today. It hopes to infuse future and current debates and conversations around feminism and feminist theory with intersectional, imaginative, provocative, and evocative ideas, inspiring bold cross-fertilizations of concepts, principles, and practices.

Communication Yearbooks Vols 6-33 Set

Routledge The Communication Yearbook annuals originally published between 1977 and 2009 publish diverse, state-of-the-discipline literature reviews that advance knowledge and understanding of communication systems, processes, and impacts across the discipline. Topics dealt with include Communication as Process, Research Methodology in Communication, Communication Effects, Taxonomy of Communication and European Communication Theory, Information Systems Division, Mass Communication Research, Mapping the Domain of Intercultural Communication, Public Relations, Feminist Scholarship, Communication Law and Policy, Visual Communication, Communication and Cross-Sex Friendships Across the Life Cycle, Television Programming and Sex Stereotyping, InterCultural Communication Training, Leadership and Relationships, Media Performance Assessment, Cognitive Approaches to Communication.

Close Encounters

Communication in Relationships

SAGE Publications *Close Encounters: Communication in Relationships* helps students learn about their own relationships with romantic partners, friends, and family members by focusing on issues that are central to describing and understanding close relationships. Best-selling authors Laura K. Guerrero, Peter A. Andersen, and Walid A. Afifi present research-based insights and content illustrated with engaging scenarios to show how state-of-the-art research and theory can be applied to specific issues within relationships. The updated Sixth Edition includes fresh content reflecting current research and trends in relationships, balanced with coverage of classic research, and continues to empower readers to be more critical consumers of information about relationships.

Family Communication

Cohesion and Change

Routledge *Family Communication: Cohesion and Change* encourages students to think critically about family interaction patterns and to analyze them using a variety of communication theories. Using a framework of family functions, current research, and first-person narratives, this text emphasizes the diversity of today's families in structure, ethnic patterns, gender socialization, and developmental experiences. New for the tenth edition are expanded pedagogical features to improve learning and retention, as well as updates on current theory and research integrated throughout the chapters for timely analysis and discussion. Cases and research featured in each chapter provide examples of concepts and themes, and a companion website offers expanded resources for instructors and students. On the book's companion website, www.routledge.com/cw/galvin, instructors will find a full suite of online resources to help build their courses and engage their students, as well as an author video introducing the new edition: Course Materials Syllabi & Suggested Calendars Course Projects & Paper Examples Essay Assignments Test/Quiz Questions and Answer Keys Case Studies in Family Communication Family Communication Film and Television Examples Family Communication in Literature Examples Chapter Outlines Detailed Outlines Discussion Questions Case Study Questions Sample Chapter Activities Chapter PowerPoint Slides

Encyclopedia of Family Health

SAGE Including entries from disciplines across the social sciences, this two-volume set provides coverage of a variety of issues related to the theory, research, practice and policy of health within a family context.

Shared Decision Making in Mental Health: International Perspectives on Implementation

Frontiers Media SA

Parenting Matters

Supporting Parents of Children Ages 0-8

National Academies Press Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

Family Theories

Foundations and Applications

John Wiley & Sons Family Theories: Foundations and Applications presents a comprehensive and accessible approach to the most current perspectives in the field of family theory. Integrates classic and contemporary writings on family theories Features compelling case studies drawn from the authors' experiences working with thousands of students Represents an integrative use of theory, research, and practice Utilizes the metaphor of “developing your theory app” to translate complex academic ideas into accessible, student-friendly language

Family Ministry

A Comprehensive Guide

InterVarsity Press This book by Diana Garland provides a multifaceted, well-informed sense of both the Christian purpose of family and the complex world our families inhabit. Winner of the 2000 Academy of Parish Clergy Book of the Year award.

Handbook of Family Therapy

The Science and Practice of Working with Families and Couples

Routledge This new Handbook of Family Therapy is the culmination of a decade of achievements within the field of family and couples therapy, emerging from and celebrating the dynamic evolution of marriage and family theory, practice, and research. The editors have unified the efforts of the profession's major players in bringing the most up-to-date and innovative information to the forefront of both educational and practice settings. They review the major theoretical approaches and break new ground by identifying and describing the current era of evidence-based models and contemporary areas of application. The Handbook of Family Therapy is a comprehensive, progressive, and skillful presentation of the science and practice of family and couples therapy, and a valuable resource for practitioners and students alike.

Research and Theory in Family Science

Brooks/Cole Publishing Company

Family-Peer Relationships

Modes of Linkage

Routledge Originally published in 1992, this volume provided an up-to-date overview of recent research concerning the links between family and peer systems. Considerable work in the past had focused on family issues or peer relationships, but these systems had typically been considered separately. This volume bridges the gap across these two important socialization contexts and provides insights into the processes that account for the links across the systems – the ways in which the relationships between these systems shift across development. In addition, the variations in the links between family and peers are illustrated by cross-cultural work, studies of abused children, and research on the impact of maternal depression. In short, the volume provides not only a convenient overview of recent progress at the time but lays out an agenda for future research.

Online Social Communication: Establishing, maintaining, and ending online relationships

Families in Motion

Dynamics in Diverse Contexts

SAGE Publications Dynamics of the family can be seen as a complex set of interrelated cogs, like the dials and wheels within a sophisticated timepiece. Families in Motion: Dynamics in Diverse Contexts is a clear, comprehensive, and contextual view of how the dials and wheels of that complex set work together. With a focus on multicultural competence through diverse contexts and examples, this new text explores the complexities of the family regarding roles, functions, and development in a way that is approachable for students. Grounded in theory and using 40 years of academic experience, author Clara Gerhardt guides readers through concepts of family theories and examines the ever-changing movement, communication, and conditions of both the family as a system and each member within the system. Covering approaches from the theoretical to the therapeutic, Families in Motion will

support students in extending their cultural competence while understanding families and their members with greater confidence.

Benefits of Leisure

Venture Pub Here is the book that defines state-of-the-art documentation in the benefits of recreation. Various chapters define the state-of-knowledge concerning recreation benefits including psychological measures, health measures, sociological measures, economic measures and environmental measures. Additionally, this book explores ways in which benefits of leisure are defined and measured from the standpoint of various disciplines. A useful book, not only to those who study recreation and leisure, but also for those who manage recreation, park, and leisure services.

Case Studies in Organizational Communication: Ethical Perspectives and Practices

Ethical Perspectives and Practices

SAGE This updated edition integrates ethical theory and practice to help strengthen readers' awareness, judgment, and action in organizations by exploring ethical dilemmas in a diverse range of well-known business cases. This volume explores a range of complex issues in today's organizations, addresses ethical concerns, and investigates the fundamentals that enable organizations to be simultaneously productive and ethical. Compiled with a variety of important examples of organizational communication ethics of today, case studies include the discussion of ethical dilemmas faced by Walmart, Toyota, Enron, Mitsubishi, BP, Arthur Andersen, Google, college athletics, and the pharmaceutical industry, among others. Through these case studies, students are able to directly assess ethical and unethical decision making in a rich, diverse, and complex manner that moves beyond simple explanations of ethics. This book is an invaluable resource for students and those interested in organizational communication ethics.

Organizing Relationships

Traditional and Emerging Perspectives on Workplace Relationships

SAGE "Organizing Relationships makes a contribution to the discipline in its treatment of this area from multiple perspectives, in its deliberate engagement/suggestions of future research directions, and its functional purpose of bringing together extant research on this important topic in a coherent and organized way. It adds cumulatively to our knowledge of organizational communication and relationships, it fits within the horizon of the established parameters of our field while opening new areas for engagement, and, moreover, it is a very interesting read. It will, no doubt, become a touchstone for the field of organizational communication." —Janie Hardin Fritz, Duquesne University "This book represents an important step to a relational approach to organizational behavior (communication) by pulling together many different areas/types of relationships. It will be a 'must' book to anyone who teaches relationships in organization or broadly relational/applied organizational communication." —Jaesub Lee, University of Houston The first book in the field to provide a comprehensive, interdisciplinary treatment of workplace relationships, *Organizing Relationships: Traditional and Emerging Perspectives on Workplace Relationships* explores both negative and positive workplace relationships, including supervisor-subordinate relationships, peer relationships, workplace friendships, romantic workplace relationships, and customer-client relationships. Author Patricia M. Silas, a recognized scholar in the field, examines workplace relationships from multiple theoretical perspectives, including postpositivism, social construction theory, critical theory, and structuration theory. She helps readers understand the unique influences of the workplace on relationship processes and dynamics. **Key Features** Examines the role of workplace relationships as information-sharing, resource-distributing, decision-making, and support systems and highlights their importance to both organizational and individual well-being Includes cases in each chapter that demonstrate the usefulness of approaching real-world workplace problems and issues from multiple perspectives Helps readers broaden and enrich the ways they think about workplace relationships and their roles in organizational processes Provides an innovative agenda for future research *Organizing Relationships* is appropriate for upper-level undergraduate and graduate courses in Workplace Relationships, Relational Communication, Applied Interpersonal Communication, Organizational Communication, Communication Management, Operations/Human Resource Management, Organizational Psychology, and Organizational Sociology.

Understanding Family Businesses

Undiscovered Approaches, Unique Perspectives, and Neglected Topics

Springer Science & Business Media Businesses owned and operated by families constitute the vast majority of firms around the world. These firms are found in all industrial segments, from retail and service establishments to heavy manufacturers. Their sizes and revenues range from the smallest venture of a husband and wife roadside food stall in rural India to the largest multinational, highly diversified corporations in the United States and Europe. Many challenges, such as competition, regulation, environmental concerns, access to capital, and macroeconomic factors confront family and nonfamily firms alike. In addition, family and closely-held firms grapple with such issues of succession, continuity, conflict resolution, identity and organizational roles, estate and financial planning that are idiosyncratic to them; when psychological, social, and emotional factors are in play, constantly changing familial relationships influence the strategic and financial choices they make. Yet, there has been comparatively little theoretical or empirical research undertaken on family firms, relative to entrepreneurship and strategic management. This book addresses gaps in the literature by presenting a holistic, multi-disciplinary approach to the study and practice of family business that draws from such fields as psychology, anthropology, sociology, strategy, family therapy, family studies, wealth management, and international business. An international array of experts addresses both macro issues (including the role of family businesses in new business creation and economic development, influences of culture on family business, public policies that can encourage or threaten family business) and firm management (strategic and financial decision making, governance, entering and exiting). Featuring case studies from firms in a variety of industries, *Understanding Family Businesses* not only offers provocative new insights on family business dynamics, but outlines an agenda for future research.
