## TOURISM IN INDIA

---

**Zenon Academic Publishing** *The tourism industry of India is economically important and growing rapidly. The World Travel & Tourism Council calculated that tourism generated ₹ 6.4 trillion or 6.6% of the nation's GDP in 2012. It supported 39.5 million jobs, 7.7% of its total employment. The sector is predicted to grow at an average annual rate of 7.9% from 2013 to 2023. This gives India the third rank among countries with the fastest growing tourism industries over the next decade. India has a large medical tourism sector which is expected to grow at an estimated rate of 30% annually to reach about ₹ 95 billion by 2015. According to provisional statistics 6.29 million foreign tourists arrived in India in 2011, an increase of 8.9% from 5.78 million in 2010. This ranks India as the 38th country in the world in terms of foreign tourist arrivals. Domestic tourist visits to all states and Union Territories numbered 1,036.35 million in 2012, an increase of 16.5% from 2011. The most represented countries are the United States (16%) and the United Kingdom (12.6%). In 2011 Maharashtra, Tamil Nadu and Delhi were the most popular states for foreign tourists. Domestic tourists visited the states Uttar Pradesh, Andhra Pradesh and Tamil Nadu most frequently. Chennai, Delhi, Mumbai and Agra have been the four most visited cities of India by foreign tourists during the year 2011. Worldwide, Chennai ranked 41 by the number of foreign tourists, while Delhi is ranked at 50, Mumbai at 57 and Agra at 65 and Kolkata at 99. The Travel & Tourism Competitiveness Report 2013 ranks India 65th out of 144 countries overall. The report ranks the price competitiveness of India's tourism sector 20th out of 144 countries. It mentions that India has quite good air transport (ranked 39th), particularly given the country's stage of development, and reasonable ground transport infrastructure (ranked 42nd). Some other aspects of its tourism infrastructure remain somewhat underdeveloped however. The nation has very few hotel rooms per capita by international comparison and low ATM penetration. As per the UNWTO World Tourism Barometer, December 2013, India's rank in the World Tourism Receipts during 2012 was 16th and rank in international tourist arrivals was 41. The rank of India was 7th among Asia and the Pacific Region in terms of tourism receipts during 2012. The Ministry of Tourism designs national policies for the development and promotion of tourism. In the process, the Ministry consults and collaborates with other stakeholders in the sector including various Central Ministries/ agencies, State Governments, Union Territories and the representatives of the private sector. Concerted efforts are being made to promote new forms of tourism such as rural, cruise, medical and eco-tourism. The Ministry also maintains the Incredible India campaign. India's rich history and its cultural and geographical diversity make its international tourism appeal large and diverse. It presents heritage and cultural tourism along with medical, business, educational and sports tourism. Therefore the practitioners, academicians and researchers need to meticulously review these aspects and acquaint them with knowledge to sustain in such scenarios. Thus, these evident scenarios emphasize the need of a broad-based research in the field of Tourism in India. This book is an attempt in that direction. I sincerely hope that this book will provide insights into the subject to faculty members, researchers and students from the Tourism institutes, consultants, practicing managers from industry and government officers. Prof. K.VijayaBabu Jayaprakashnarayana. G*

## **GODS, HEROES AND THEIR STORY TELLERS**

---

### **INTANGIBLE CULTURAL HERITAGE OF SOUTH INDIA**

---

**Notion Press** We can hear Urumula Naganna's drum roll during the rendition of the Sri Akammagaru Kaviya. An oral tradition which is as old as the hills is captured in the book *Gods, Heroes and their Storytellers*. Do you know the story of how the Madiga community came to inherit the right to skin cattle carcass and produce leather articles? How are contemporary Folk Oral Literatures connected to the Ramayana and the Mahabharata? There are many such stories and tradition bearers who doggedly go on in spite of the onslaught of the digital media. The author here has tried his best in keeping these traditions alive by not only telling the stories but also by living with the story tellers themselves. The rich details give us a window to a world which is not only very far away for our everyday mundane existence but also makes us retrospect on what we are missing out. Each of the tradition bearers are different and so are their stories and the region to which they belong. These are not merely stories but a way of life for these oral narrators who are fast disappearing in today's consumerist landscape. The need of the hour is to keep alive these traditions and the tradition bearers.

---

### **A STUDY AT FARM LAND**

---

**Mittal Publications**

## **THE MAKING OF INDIA**

---

### **GEODYNAMIC EVOLUTION**

---

**Springer** This book presents in a concise format a simplified and coherent geological-dynamical history of the Indian subcontinent (including Sri Lanka, Bangladesh, Myanmar, Southern Tibet and Pakistan). Encompassing a broad array of information related to structure and tectonics, stratigraphy and palaeontology, sedimentation and palaeogeography, petrology and geochemistry, geomorphology and geophysics, it explores the geodynamic developments that took place from the beginning around 3.4 billion years ago to the last about 5,000 years before present. Presented in a distilled form, the observations and deductions of practitioners, this book is meant for teachers, researchers and students of geology, geophysics and geomorphology and practitioners of earth sciences. A comprehensive list of references to original works provides guidance for those seeking further details and who wish to examine selected problems in depth. The book is illustrated with a wealth of maps, cross sections and block diagrams — all simplified and redesigned.

## **THE PERFORMANCE OF TRIBAL SARPANCHES IN ANDHRA PRADESH**

---

### **A STUDY**

---

**Cambridge Scholars Publishing** The local administration system in India has a vast history, extending from the ancient and medieval periods today. The local government system was, however, formally launched in 1882 by Lord Rippon, and is popularly known as Magna Carta. Article 40 of the Indian constitution states the directive principles of state policy and the importance of local government administration to the functioning of Indian democracy. The government of India has appointed several committees to focus on the functioning and restructuring of Panchayat Raj bodies, including the 73rd Constitutional Amendment Act and the Burya committee recommendations, which gave importance to political reservation for the Scheduled Tribes in Panchayat Raj bodies. The PESA Act paved the way for the political empowerment of Scheduled Tribes in Panchayat raj systems, allowing them the opportunity to utilise various politico-administrative powers and functions. This book explores the role and performance of Scheduled Tribe Sarpanches in Panchayat Raj local bodies in the Telangana region of Andhra Pradesh. It sheds light on the development of, and welfare activities undertaken by, the Sarpanches. Further, this book also reveals the utilization of powers, functions and grants by the Tribal Sarpanches, giving a vivid picture of the decision-making style of Scheduled Tribal Sarpanches at the grassroots level of the Panchayat Raj system.

---

## **THE SIGNIFICANCE OF MINOR FOREST PRODUCE IN THE INDIAN TRIBAL ECONOMY**

---

**Cambridge Scholars Publishing** This book uses empirical data to articulate the issues of the Indian tribal economy in general and the role of minor forest produce in the tribal economy in particular. It throws new light on hitherto under-researched areas, especially those related to the significance of minor forest produce. This book is primarily based on the functioning of the tribal economy and draws on the experience gained by the author during his sojourn as a research scholar working the debt of tribal farmers and the technological gap in tribal agriculture. Empirical evidence is given in the present book to explore the validity of the earlier hypotheses in respect of the contribution of minor forest produce to the total income of the tribal households. Furthermore, a statistical analysis is undertaken to ascertain the relative contribution of each forest product to the augmentation of tribal earnings. The empirical work in this book also corroborates the theories of dependency between the forest and the tribals.

## **RARE EARTH ELEMENT RESOURCES: INDIAN CONTEXT**

---

**Springer Nature** This volume presents a brief introduction to the Rare Earth Elements (REE) and their discovery, mineralogy, deposit types and applications. The book focusses on the aspects of both natural and industrial REE resources of India. It covers geological, structural, geochemical, petrological, mineralogical and genetic aspects of the natural deposits, and provides an account of the available industrial sources. The relative merits and potential of the several resources for future development and directions for inputs in REE exploration are discussed at the end of the monograph.

---

## **DECENTRALISED GOVERNANCE IN TRIBAL INDIA**

---

## **NEGOTIATING SPACE BETWEEN THE STATE, COMMUNITY AND CIVIL SOCIETY**

---

**Cambridge Scholars Publishing** The potential of civil society in interfacing with the government for ensuring good governance has gained currency in academic and policy debates in the recent times. This becomes particularly relevant in an old democracy like India where the State has not been able to meet the need for basic things. However, the State provides space and freedom for people to engage in collective action, to critically evaluate the State's policies and demand a revision in policy for effective implementation of the laws that are elaborately codified in the Constitution and also to improve the functioning of its institutions. This book studies the level of participation of tribal communities in the new Panchayat Raj dispensation introduced in Andhra Pradesh since the PESA Act. It specifically analyses how much the community has achieved or benefited after the introduction of Panchayat Raj. The objective is to determine how the power structures of tribal communities have been influenced by the socio-political changes and institutional innovations, like the extension of representative democracy at the grassroots level; what kind of changes have taken place in the study area with the institutionalization of Panchayats; and the politicization of the tribal people by the different parties. This book also throws light on the role of civil society actors in influencing governance positively as well as the limitations that have inhibited the impact of their influence. The empirical research highlights that the institution of Gram Sabha has been instrumental in bringing transparency and accountability in the working of local bodies. The author has rightly emphasized the need for an attitudinal change both in the political and administrative machinery at State, district and village level. The inter-relationship of the three Ds, i.e. Democracy, Decentralisation and Development, has been brought out beautifully with the support of field study. While the 73rd amendment and PESA Act of the Constitution has mandated the democratization of local self-governments, the process of decentralisation is yet to take concrete shape through real devolution from Lok Sabha to Gram Sabha.

**INTRODUCTION OF BIOTECHNOLOGY IN INDIA'S AGRICULTURE**

---

---

**IMPACT, PERFORMANCE AND ECONOMICS**

---

**Springer** *Biotechnology can bring major breakthroughs in agriculture. The book examines the experience of introduction of biotechnology in Indian agriculture, specifically, examining the performance of Bt cotton versus non-Bt cotton across India's major cotton states, namely Andhra Pradesh, Gujarat, Maharashtra and Tamil Nadu, which together account for nearly 70 percent of the country's cotton production. Major advances in biotechnology have made it possible to directly identify genes, determine their functions, and transfer them from one organism to another. The advances have spawned many technologies and Bt cotton is one important outcome. Bt cotton has become one of the most widely cultivated transgenic crops and is currently grown in 21 countries - 11 developing and 10 industrialized countries. The Government of India was relatively late in permitting biotechnology, only approving the cultivation of three transgenic Bt cotton hybrids from April 2002. Many concerns were raised about their performance there was strong opposition from some quarters. In India, Gujarat and Maharashtra were the first states to adopt them, followed by Andhra Pradesh, Karnataka, Tamil Nadu and Madhya Pradesh. Based on a sample of 694 farming households, the book examines and analyzes the performance on the yields, pesticide costs, seed costs, overall production costs and profits. It also reports on the environmental impacts, satisfaction with the technology and ways of improving its performance.*

**PHYTOMEDICINE**

---

---

**A TREASURE OF PHARMACOLOGICALLY ACTIVE PRODUCTS FROM PLANTS**

---

**Academic Press** *Phytomedicine: A Treasure of Pharmacologically Active Products from Plants aims to present updated knowledge of plant-based medicines in terms of their research and development, production, and utilization, from the viewpoint of sustainability and by using the latest technologies. The book explores different phytometabolites on a mass scale, coupled with the efficacy, performance and applicability on target organisms to treat curable and fatal diseases. Readers will find a coherent package of phytotherapeutic information regarding inclusive assortment of research based, scientific amplitude of metabolites from the plant world encompassing various action plans. Information is presented sequentially regarding phytochemistry, biological activity and the serviceable aspects of bioactive compounds. The book also addresses various advancements and achievements of novel drugs from plants using molecular and enzymatic activities, and various technological tools in an ecofriendly fashion. Discusses phytotherapeutic properties for a wide range of medical conditions, including anti-pyretic, anti-infective, anti-malarial, Anti-AIDS, anti-diabetic, anti-cancerous, immune-modulatory applications Includes a discussion of synergistic effects of formulations and antagonistic drug interactions Addresses advancements and achievements of novel plant-based drugs using molecular, enzymatic activities and various technological tools in an eco-friendly fashion*

---

### ART AND CULTURE OF MARGINALISED NOMADIC TRIBES IN ANDHRA PRADESH

---

**Gyan Publishing House** *India is rich in its oral tradition. Its antiquity defies historical inquiry. Indian folklore offers diversity in the forms of expression while retaining the unity of theme, i.e. Dharma., The forms may be changing periodically to suit the times. The purpose of these popular art forms has been the same in a way as the classical arts. They provide education through entertainment. Andhra Desa, comprising roughly the present state of Andhra Pradesh, is very significant in its folk tradition in variety of forms. Numerous producing and service castes so far maintained their own sub castes of bards to retain their collective memory of the community and family histories besides propagating the Puranic knowledge and stories from great epics. The dependent sub-castes who have been so far preserving these arts and ancient knowledge are speedily disappearing due to lack of patronage and changing life-style. In this context, this book, the result of a painstaking research involving lot of field work may serve as a tribute to those unselfish barefoot narrators and preservers of history of bygone ages.*

---

### TWO DECADES OF MARKET REFORM IN INDIA

---

#### SOME DISSENTING VIEWS

---

**Anthem Press** *Have neoliberal policies truly yielded beneficial effects for India? 'Two Decades of Market Reform in India' presents a collection of essays that challenge the conventional wisdom of Indian market reforms, examining the effects of neoliberal policies enacted by the Indian government and exploding the myths that surround them. In particular, the volume questions the perceived benefits of India's reform policies in the areas of growth, agriculture, industry and poverty alleviation, and examines how the government's focus on preventing a fiscal deficit caused a large-scale decline in development expenditures, which in turn has had a negative impact on the well-being of the poor. With its rich and insightful analysis, 'Two Decades of Market Reform in India' bravely shines a light on the true implications of India's neoliberal governmental policies, and provides a revealing indication of how policy reform since 1991 has, at times, detrimentally affected the general populace of India.*

### ENCYCLOPEDIA OF THE STATELESS NATIONS: ETHNIC AND NATIONAL GROUPS AROUND THE WORLD A-Z [4 VOLUMES]

---

**ABC-CLIO** *Nationalism is a mighty force in the 21st century. It has not been so politically significant since prior to World War I. While current trends tilt toward regional economic groupings, national identity—and demands for greater political and economic autonomy—has created a national, regional, and international groundswell since the end of the Cold War. An expanded sequel to Minahan's award-winning guide to some 200 groups, Nations Without States: A Historical Dictionary of Contemporary National Movements (1996), this book provides an easy-to-use, accurate, and up-to-date guide to over 300 developed or emerging national groups worldwide. Providing fuller historical profiles of each group, this is the definitive reference on the nationalism and national groups that helped shape 20th century politics—and will likely shape the politics of tomorrow. Included are numerous new national groups that have emerged since the publication of Minahan's 1996 book. Many of these remain unknown outside of their own regions. Others make headlines. The evolution of each group is traced from its earliest history to the present day, making the book an indispensable reference for those wishing to understand the world's growing multitude of national groups.*

---

### ENCYCLOPEDIA OF THE STATELESS NATIONS: A-C

---
