The growing importance of Althusser's philosophy in contemporary debates on the left has - for practical and political, as well theoretical reasons - made a sustained consideration of his conception of law more necessary than ever. As a form of what Althusser called 'Ideological State Apparatuses', law is at the forefront of political struggles: from the destruction of Labour Law to the exploitation of Patent Law; from the privatisation of Public Law to the ongoing hegemony of Commercial Law; and from the discourse on Human Rights to the practice of judicial courts. Is Althusser still useful in helping us to understand these struggles? Does he have something to teach us about how law is produced, and how it is used and misused? This collection demonstrates that Althusser's ideas about law are more important, and more contemporary, than ever. Indeed, the contributors to *Althusser and Law* argue that Althusser offers a new and invaluable perspective on the place of law in contemporary life. **Hannah Arendt and the Search for a New Political Philosophy** [Springer](#) **Dionysius the Areopagite on the Divine Names and the Mystical Theology** [Cosimo, Inc.](#) First published in 1920, this book is a translation—the only known work of British scholar CLARENCE EDWIN ROLT (1880-1917)—of *On the Divine Names and The Mystical Theology*, by Dionysius the Areopagite, a first-century bishop of Athens. The author is often also referred to as "pseudo-Dionysius" because a variety of anachronisms suggest that the manuscript was actually written much later by an unknown writer. Despite the book's unclear origins, the writings are still greatly valued for their theological insight. Saint Thomas Aquinas often quoted from pseudo-Dionysius, as did many other famous and influential theologians and philosophers. Pseudo-Dionysius deals, here, with the Supra-Personality of God. Personality, by definition, is a quality limited to an individual. God, on the other

hand, is the opposite of an individual. God is in all things, so one cannot speak of a personality for the divine. Rather, pseudo-Dionysius proposes a Supra-Personality, which describes aspects and qualities of the universal being. Religious scholars and Christians wanting a different understanding of the relationship between God and the universe will find this a challenging but ultimately thought-provoking study. **4x4 Suspension Handbook** [CarTech Inc](#) Author Trenton McGee, 4x4 suspension expert and host of *Outdoor Channels Off-Road Adventures*, explains 4x4 suspension systems in an easy-to-understand manner. For almost 90 years Pininfarina has been synonymous with Italian coachbuilding. Some of the most iconic cars in the history of not only Italian but also worldwide motoring have been clothed by a firm that has been recognised as the creator of true works of art. Battista Farina, known as "Pinin", was the master craftsman who in 1930 founded in Turin the "Società Anonima Carrozzeria Pinin Farina". Between the 1950s and 1990s the company produced iconic designs such as the Alfa Romeo Giulietta Spider and the "Duetto", the Lancia Aurelia B24 and the Flaminia, the Fiat Dino Spider and the 124 coupé, not to mention the innumerable Ferraris bodied by the prestigious Turin firm that from 1952 had become Maranello's coachbuilder of choice. Numerous 250 GTs, the 250 Le Mans, the 365 Daytona, the 308 GTB, the Testarossa and the 288 GTO are all Pininfarina-bodied Ferraris. This book recounts the most recent history of this giant of Italian car design with all the latest products realised in particular for the Asian market where the Pininfarina brand has an increasing presence.
