The Proclamations of the Tudor Queens

CUP Archive This study investigates the independent prerogative which Mary I and Elizabeth I exercised through royal proclamations. These public documents were announced throughout England, informing men and arguing the Queen's positions, commanding local officials to perform specific actions, and on occasion creating new but temporary law that was designed to meet crisis situation when no delay could be tolerated. The theoretical relationship between this prerogative power and the existing statutory law has been the subject of much debate. This study adds an element previously neglected, the investigation of the Queens' actual use of the proclamations, showing that they did innovate with vigour and legislate in them, but only to supplement and not supplant the law, and within the limits slowly being formulated in the sixteenth century. Professor Youngs demonstrates how the proclamations affected domestic security and foreign affairs, social and economic matters, and religion.

The Proclamations of the Tudor Kings

CUP Archive Royal proclamations were an important instrument of Tudor government and their legislative function has long been a subject of historical controversy, but the actual use of them by the Tudor monarchs has not been adequately studied. The main purpose of this book is to provide a systematic analysis of the use, authority and enforcement of proclamations in early Tudor England. Professor Heinze first attempts to establish a more accurate account of the proclamations issued; and then describes their formulation and promulgation. He also investigates the authority of proclamations as defined by Parliament and the role and power attributed to them by Tudor judges and legal writers. The main body of the study traces the actual use of proclamations and their relationship to statutory and common law. Separate chapters are devoted to the controversial Statute of Proclamations and the long neglected subject of enforcement.

Royal Voices

Language and Power in Tudor England

Cambridge University Press The Tudors are one of the most well-known and powerful dynasties in English history. How they constructed and maintained their social magnificence and status, against a background of political upheaval, has fascinated people for centuries. This book argues that Tudor royal power was, to a large degree, textual. By examining examples of correspondence alongside lesser-studied texts such as proclamations and historical chronicles, the book explores the material and linguistic practices that came to symbolise monarchic authority in the Tudor era, and provides fascinating insights into well-known figures including Henry VII, Henry VIII, Edward VI, Mary I and Elizabeth I. Mel Evans applies contemporary sociolinguistic and pragmatic concepts, as well as methods developed in corpus linguistics, to map out the textual similarities across the sixteenth century that highlight this symbolic

'royal voice', crucial to the power and might of the Tudor dynasty.

John Nichols's The Progresses and Public Processions of Queen Elizabeth: Volume III 1579 to 1595

Oxford University Press The third volume in this annotated collection of texts relating to the 'progresses' of Queen Elizabeth I around England includes accounts of dramatic performances, orations, and poems, and a wealth of supplementary material dating from 1579 to 1595.

A Theory of the Executive Branch: Tension and Legality

Oxford University Press, USA This monograph offers a theoretical foundation of the executive branch in Western democracies and argues that the tension between dominance and submission is maintained by the adoption of various forms of fuzziness, under which a guise of legality masks the absence of the substantive limitation of power.

Patronage and Recruitment in the Tudor and Early Stuart Church

Borthwick Publications

The Body of the Queen

Gender and Rule in the Courtly World, 1500-2000

Berghahn Books "Inspired by existential thought, but using ethnographic methods, Michael Jackson explores a variety of contemporary topics, including 9/11, episodes from the war in Sierra Leone and its aftermath, the marginalization of indigenous Australians, the application of new technologies, mundane forms of ritualization, the magical use of language, the sociality of violence, the prose of suffering, and the discourse of human rights. Throughout this compelling work, Jackson demonstrates that existentialism, far from being a philosophy of individual being, enables us to explore issues of social existence and coexistence in new ways, and to theorise events as the sites of a dynamic interplay between the finite possibilities of the situations in which human beings find themselves and the capacities they possess for creating viable forms of social life."--BOOK JACKET.

The Business of Books

Booksellers and the English Book Trade 1450-1850

Yale University Press In 1450 very few English men or women were personally familiar with a book; by 1850, the great majority of people daily encountered books, magazines, or newspapers. This book explores the history of this fundamental transformation, from the arrival of the printing press to the coming of steam. James Raven presents a lively and original account of the English book trade and the printers, booksellers, and entrepreneurs who promoted its development. Viewing print and book culture through the lens of commerce, Raven offers a new interpretation of the genesis of literature and literary commerce in England. He draws on extensive

archival sources to reconstruct the successes and failures of those involved in the book trade—a cast of heroes and heroines, villains, and rogues. And, through groundbreaking investigations of neglected aspects of book-trade history, Raven thoroughly revises our understanding of the massive popularization of the book and the dramatic expansion of its markets over the centuries.

Bad Queen Bess?

Libels, Secret Histories, and the Politics of Publicity in the Reign of Queen Elizabeth I

Oxford University Press Bad Queen Bess? analyses the back and forth between the Elizabethan regime and various Catholic critics, who, from the early 1570s to the early 1590s, sought to characterise that regime as a conspiracy of evil counsel. Through a genre novel - the libellous secret history - to English political discourse, various (usually anonymous) Catholic authors claimed to reveal to the public what was 'really happening' behind the curtain of official lies and disinformation with which the clique of evil counsellors at the heart of the Elizabethan state habitually cloaked their sinister manoeuvres. Elements within the regime, centred on William Cecil and his circle, replied to these assaults with their own species of plot talk and libellous secret history, specialising in conspiracy-driven accounts of the Catholic, Marian, and then, latterly, Spanish threats. Peter Lake presents a series of (mutually constitutive) moves and counter moves, in the course of which the regime's claims to represent a form of public political virtue, to speak for the commonweal and true religion, elicited from certain Catholic critics a simply inverted rhetoric of private political vice, persecution, and tyranny. The resulting exchanges are read not only as a species of 'political thought', but as a way of thinking about politics as process and of distinguishing between 'politics' and 'religion'. They are also analysed as modes of political communication and pitch-making - involving print, circulating manuscripts, performance, and rumour - and thus as constitutive of an emergent mode of 'public politics' and perhaps of a 'post reformation public sphere'. While the focus is primarily English, the origins and imbrication of these texts within, and their direct address to, wider European events and audiences is always present. The aim is thus to contribute simultaneously to the political, cultural, intellectual, and religious histories of the period.

Cambridge University Press A comprehensive history of martial law, outlining how it was a vital component of England's domestic and imperial legal order.

Governing by Virtue

Lord Burghley and the Management of Elizabethan England

Oxford University Press, USA Governing by Virtue asks how a monarchy with no police force, no standing army, and a tiny bureaucracy could rule England in the second half of the sixteenth century. Elizabeth I thought of herself as God's chosen handmaiden, but Lord Burghley, her chief manager, had to use the tools of positive and negative persuasion, networking, family connections, and the value system of the ruling classes in order to gain their cooperation in making England run. He depended heavily on the virtue and honour of the ruling classes, since he had very weak tools of coercion, even in national crises like that of the Spanish Armada.

John Nichols's The Progresses and Public Processions of Queen Elizabeth: Volume I 1533 to 1571

Oxford University Press The first volume in this annotated collection of texts relating to the 'progresses' of Queen Elizabeth I around England includes accounts of dramatic performances, orations, and poems, and a wealth of supplementary material dating from 1533 to 1578.

Chronicle of the Grey Friars of London Shakespeare and Masculinity

Oxford Shakespeare Topics This work juxtaposes Shakespeare's male characters with the medical beliefs, ethical ideals and social realities that shaped masculine identity for Shakespeare, as for his fellow actors and their audiences.

The Oxford History of the Laws of England: 1483-1558

Oxford University Press on Demand This volume in 'The Oxford History of the Laws of England' covers the years 1483-1558, a period of immense social political, and intellectual changes which profoundly affected the law and its workings.

Mary Tudor

England's First Queen

Penguin An engrossing, unadulterated biography of “Bloody Mary”—elder daughter of Henry VIII, Catholic zealot, and England’s first reigning Queen Mary Tudor was the first woman to inherit the throne of England. Reigning through one of Britain’s stormiest eras, she earned the nickname “Bloody Mary” for her violent religious persecutions. She was born a princess, the daughter of Henry VIII and the Spanish Katherine of Aragon. Yet in the wake of Henry’s break with Rome, Mary, a devout Catholic, was declared illegitimate and was disinherited. She refused to accept her new status or to recognize Henry’s new wife, Anne Boleyn, as queen. She faced imprisonment and even death. Mary successfully fought to reclaim her rightful place in the Tudor line, but her coronation would not end her struggles. She flouted fierce opposition in marrying Philip of Spain, sought to restore England to the Catholic faith, and burned hundreds of dissenters at the stake. But beneath her hard exterior was a woman whose private traumas of phantom pregnancies, debilitating illnesses, and unrequited love played out in the public glare of the fickle court. Though often overshadowed by her long-reigning sister, Elizabeth I, Mary Tudor was a complex figure of immense courage, determination, and humanity—and a political pioneer who proved that a woman could rule with all the power of her male predecessors.

Selling the Tudor Monarchy

Authority and Image in Sixteenth-century England

Reveals how, from even before the Reformation, the Tudors sought to sustain and enhance their authority by representing themselves to their people through the media of building, print, art, material culture and speech.

Mary Tudor

Princess, Bastard, Queen

Random House She was the first woman to inherit the throne of England, a key player in one of Britain's stormiest eras, and a leader whose unwavering faith and swift retribution earned her the nickname "Bloody Mary." Now, in this impassioned and absorbing debut, historian Anna Whitelock offers a modern perspective on Mary Tudor and sets the record straight once and for all on one of history's most compelling and maligned rulers. Though often overshadowed by her long-reigning sister, Elizabeth I, Mary lived a life full of defiance, despair, and triumph. Born the daughter of the notorious King Henry VIII and the Spanish Katherine of Aragon, young Mary was a princess in every sense of the word—schooled in regal customs, educated by the best scholars, coveted by European royalty, and betrothed before she had reached the age of three. Yet in a decade's time, in the wake of King Henry's break with the pope, she was declared a bastard, disinherited, and demoted from "princess" to "lady." Ever her deeply devout mother's daughter, Mary refused to accept her new status or to recognize Henry's new wife, Anne Boleyn, as queen. The fallout with her father and his counselors nearly destroyed the teenage Mary, who faced imprisonment and even death. It would be an outright battle for Mary to work herself back into the king's favor, claim her rightful place in the Tudor line, and ultimately become queen of England, but her coronation would not end her struggles. She flouted the opposition and married Philip of Spain, sought to restore Catholicism to the nation, and

fiercely punished the resistance. But beneath her brave and regal exterior was a dependent woman prone to anxiety, whose private traumas of phantom pregnancies, debilitating illnesses, and unrequited love played out in the public glare of the fickle court. Anna Whitelock, an acclaimed young British historian, chronicles this unique woman's life from her beginnings as a heralded princess to her rivalry with her sister to her ascent as ruler. In brilliant detail, Whitelock reveals that Mary Tudor was not the weak-willed failure as so often rendered by traditional narratives but a complex figure of immense courage, determination, and humanity.

Historical Dictionary of the Elizabethan World Britain, Ireland, Europe and America

Routledge No period of British history generates such deep interest as the reign of Elizabeth I, from 1558 to 1603. The individuals and events of that era continue to be popular topics for contemporary literature and film, and Elizabethan drama, poetry, and music are studied and enjoyed everywhere by students, scholars, and the general public. The *Historical Dictionary of the Elizabeth World* provides clear definitions and descriptions of people, events, institutions, ideas, and terminology relating in some significant way to the Elizabethan period. The first dictionary of history to focus exclusively on the reign of Elizabeth I, the Dictionary is also the first to take a broad trans-Atlantic approach to the period by including relevant individuals and terms from Irish, Scottish, Welsh, American, and Western European history. Editors' Choice: Reference

Guides students through four centuries of critical writing on Shakespeare's history plays. Covers both significant early views and recent critical interventions. Substantial editorial material links the articles and places them in context. Annotated suggestions for further reading allow students to investigate further.

Tudor Rule and Revolution

Essays for G R Elton from His American Friends

Cambridge University Press The work of G. R. Elton has inspired its own 'Tudor Revolution' in the historiography of Tudor and Stuart government and society. In this volume a distinguished gathering of eighteen historians, all now resident in North America, pay tribute to Professor Elton's broad influence in shaping modern interpretations of the sixteenth- and seventeenth-century constitution. Each contributor to this volume has addressed, directly or indirectly, some aspect of that tempestuous age which has been dubbed 'Elton's era', and each of the sections relates directly to particular problems or topics which have figured prominently in Professor Elton's own work. Most extend his findings in new directions and with new evidence from archival researches. Others take issue with some of his tentative conclusions, though admitting the extent to which his work has made such advances possible.

Queen Elizabeth and the Making of Policy, 1572-1588

Princeton University Press Acclaimed for their dramatic rendering of the personalities and forces that shaped Elizabethan politics, Wallace T. MacCaffrey's three volumes thoroughly chronicle the Queen's decision making throughout her reign in a way that combines pleasurable reading with subtle analysis. Together in paperback for the first time, these books will find a wide readership among those interested in debunking Elizabeth's many mythic images and in following the steps of Elizabethan policy-makers as they grapple with the most crucial political problems of their day. To determine how policy evolved from the interaction between Elizabeth and her councillors from 1572 to the Armada in 1588, MacCaffrey begins with domestic affairs, focusing on the central problem of religious dissent, both Protestant and Catholic. Turning to foreign affairs, he then examines England's external relations with the Continental monarchies and Scotland. Lastly, he analyzes the two focuses of decision making, the Court and Parliament. Originally published in 1981. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

The Struggle for Sovereignty in England

From the Reign of Queen Elizabeth to the Petition of Right

The Elizabethan World

Routledge This comprehensive and beautifully illustrated collection of essays conveys a vivid picture of a fascinating and hugely significant period in history. Featuring contributions from thirty-eight international scholars, the book takes a thematic approach to a period which saw the defeat of the Spanish Armada, the explorations of Francis Drake and Walter Raleigh, the establishment of the Protestant Church, the flourishing of commercial theatre and the works of Edmund Spenser, Philip Sidney and William Shakespeare. Encompassing social, political, cultural, religious and economic history, and crossing several disciplines, *The Elizabethan World* depicts a time of transformation, and a world order in transition. Topics covered include central and local government; political ideas; censorship and propaganda; parliament, the Protestant Church, the Catholic community; social hierarchies; women; the family and household; popular culture, commerce and consumption; urban and rural economies; theatre; art; architecture; intellectual

developments ; exploration and imperialism; Ireland, and the Elizabethan wars. The volume conveys a vivid picture of how politics, religion, popular culture, the world of work and social practices fit together in an exciting world of change, and will be invaluable reading for all students and scholars of the Elizabethan period.

The Tudor Queens of England

Bloomsbury Publishing An intimate and revealing look at the daily lives and responsibilities of the Tudor Queens of England From Elizabeth of York, wife of Henry VII, the first Tudor monarch, to Elizabeth I, her grand-daughter and the last, The Tudor Queens of England delves into the secret lives of some of the most colorful and dramatic women in British history. The majority of the fourteen queens considered here, from Catherine de Valois and Elizabeth Woodville to Elizabeth of York, Jane Seymour and Catherine Parr, were consorts, the wives of kings. Although less frequently examined than ruling queens, queen consorts played a crucial and central role within the Royal Court. Their first duty was to bear children and their chastity within marriage had to be above reproach. Any suspicion of sexual misconduct would cast doubt on the legitimacy of their offspring. Three of these women - Margaret of Anjou, Anne Boleyn and Catherine Howard - were accused of such conduct, and two were tried and executed. A queen also had to contribute to her husband's royal image. This could be through works of piety or through humble intercession. It could also be through her fecundity because the fathering of many children was a sign of virility and of divine blessing. A queen might also make a tangible contribution to her husband's power with her marriage as the symbol of an international diplomatic agreement. A ruling queen was very different, especially if she was married, insofar as she had to fill the roles of both king and queen. No woman could be both martial and virile, and at the same time submissive and supportive. Mary I solved this problem in a constitutional sense but never at the personal level. Elizabeth I sacrificed motherhood by not marrying. She chose to be mysterious and unattainable - la belle dame sans merci. In later

life she used her virginity to symbolize the integrity of her realm and her subjects remained fascinated by her unorthodoxy. How did they behave (in and out of the bedchamber)? How powerful were they as patrons of learning and the arts? What religious views did they espouse and why? How successful and influential were they? From convenient accessory to sovereign lady the role of queen was critical, colorful, and often dramatic. The Tudor Queens of England is the first book of its kind to intimately examine these questions and more.

Queen's Quarterly
