180 DAYS OF SOCIAL STUDIES FOR SECOND GRADE

PRACTICE, ASSESS, DIAGNOSE

[Teacher Created Materials](#) Supplement your social studies curriculum with 180 days of daily practice! This essential classroom resource provides teachers with weekly social studies units that build students' content-area literacy, and are easy to incorporate into the classroom. Students will analyze primary sources, answer text-dependent questions, and improve their grade-level social studies knowledge. Each week covers a particular topic within one of the four social studies disciplines: history, economics, civics, and geography. Aligned to the National Council for the Social Studies (NCSS) and state standards, this social studies workbook includes digital materials.

USING DEVELOPMENTALLY APPROPRIATE PRACTICES TO TEACH THE COMMON CORE

GRADES PREK-3

[Routledge](#) Using Developmentally Appropriate Practices to Teach the Common Core: Grades PreK-3 provides current and prospective primary grade teachers with an understanding of the CCSS-ELA and CCSS-M that highlights their compatibility with developmentally appropriate practices (DAP), the instructional approach generally preferred by teachers of young children. The book begins by framing the CCSS as a distinct improvement over lengthy lists of academic content standards and as a carefully conceptualized and DAP-friendly set of curriculum guidelines. Next, the CCSS-ELA and CCSS-M for Grades K-3 are unpacked, analyzed, synthesized, and cross-referenced to key features of DAP. Finally, several "hot topic" issues—differentiating instruction to meet the needs of all learners, ensuring equitable access to the curriculum for English Language Learners, addressing assessment and accountability expectations, and educating parents and families about the CCSS and DAP—are prioritized and examined in depth. Using Developmentally Appropriate Practices to Teach the Common Core: Grades PreK-3 is a highly useful guide for both pre-service and in-service early childhood education teachers.

THE READING TEACHER'S BOOK OF LISTS

[John Wiley & Sons](#) **The essential handbook for reading teachers, now aligned with the Common Core The Reading Teacher's Book of Lists is the definitive instructional resource for anyone who teaches reading or works in a K-12 English language arts-related field. Newly revised and ready for instant application, this top seller provides up-to-date reading, writing, and language content in more than 240 lists for developing targeted instruction, plus section briefs linking content to research-based teaching practices. This new sixth edition includes a guide that maps the lists to specific Common Core standards for easy lesson planning, and features fifty brand-new lists on: academic and domain-specific vocabulary, foundation skills, rhyming words, second language development, context clues, and more. This edition also includes an expanded writing section that covers registers, signal and transition words, and writers' craft. Brimming with practical examples, key words, teaching ideas, and activities that can be used as-is or adapted to students' needs, these lists are ready to differentiate instruction for an individual student, small-group, or planning multilevel instruction for your whole class. Reading is the center of all school curricula due to recent state and federal initiatives including rigorous standards and new assessments. This book allows to you skip years of curating content and dive right into the classroom armed with smart, relevant, and effective plans. Develop focused learning materials quickly and easily Create unit-specific Common Core aligned lesson plans Link classroom practice to key research in reading, language arts and learning Adapt ready-made ideas to any classroom or level It's more important than ever for students to have access to quality literacy instruction. Timely, up to date, and distinctively smart, The Reading Teacher's Book of Lists should be on every English language arts teacher's desk, librarian's shelf, literacy coach's resource list, and reading professor's radar.**

WRITING STRATEGIES FOR SOCIAL STUDIES

[Teacher Created Materials](#) **Help students write about social studies content and build their historical thinking skills! This 2nd edition resource was created to support College and Career Readiness Standards, and provides an in-depth research base about content-area literacy instruction, including key strategies to help students write about and comprehend historical content. Each strategy includes classroom examples by grade ranges (1-2, 3-5, 6-8 and 9-12) and necessary support materials, such as graphic organizers, templates, or digital resources to help teachers implement quickly and easily. Specific suggestions for differentiating instruction are also provided to help English language learners, gifted students, and students reading below grade level.**

LITERACY ASSESSMENT AND INTERVENTION FOR CLASSROOM TEACHERS

[Taylor & Francis](#) **The fourth edition of this comprehensive resource helps future and practicing teachers recognize and assess literacy problems, while providing practical, effective intervention strategies to help every student succeed. The author thoroughly explores the major components of literacy, providing an overview of pertinent research, suggested methods and tools for diagnosis and assessment, intervention strategies and activities, and technology applications to increase students' skills. Discussions throughout focus on the needs of English learners, offering appropriate instructional strategies and tailored teaching ideas to help both teachers and their students. Several valuable appendices include assessment tools, instructions and visuals for creating and implementing the book's more than 150 instructional strategies and activities, and other resources.**

FORMATIVE ASSESSMENT & STANDARDS-BASED GRADING

[Solution Tree Press](#) **Learn everything you need to know to implement an integrated system of assessment and grading. The author details the specific benefits of formative assessment and explains how to design and interpret three different types of formative assessments, how to track student progress, and how to assign meaningful grades. Detailed examples bring each concept to life, and chapter exercises reinforce the content.**

HOW TO CREATE AND USE RUBRICS FOR FORMATIVE ASSESSMENT AND GRADING

[ASCD](#) **What is a rubric? A rubric is a coherent set of criteria for student work that describes levels of performance quality. Sounds simple enough, right? Unfortunately, rubrics are commonly misunderstood and misused. The good news is that when rubrics are created and used correctly, they are strong tools that support and enhance classroom instruction and student learning. In this comprehensive guide, author Susan M. Brookhart identifies two essential components of effective rubrics: (1) criteria that relate to the learning (not the "tasks") that students are being asked to demonstrate and (2) clear descriptions of performance across a continuum of quality. She outlines the difference between various kinds of rubrics (for example, general versus task-specific, and analytic versus holistic), explains when using each type of rubric is appropriate, and highlights examples from all grade levels and assorted content areas. In addition, Brookhart addresses * Common misconceptions about rubrics; * Important differences between rubrics and other assessment tools such as checklists and rating scales, and when such alternatives can be useful; and * How to use rubrics for formative assessment and grading, including standards-based grading and report card grades. Intended for educators who are already familiar with rubrics as well as those who are not, this book is a complete resource for writing effective rubrics and for choosing wisely from among the many rubrics that are available on the Internet and from other sources. And it makes the case that rubrics, when used appropriately, can improve outcomes by helping teachers teach and helping students learn.**

DIFFERENTIATING INSTRUCTION WITH MENUS

SOCIAL STUDIES (GRADES K-2)

[Routledge](#) The Differentiating Instruction With Menus series offers teachers exciting tools to challenge and reach both gifted and advanced students in the classroom. Whether these students need enrichment, choice in independent practice, or even additional academic options resulting from curriculum compacting, these books provide teachers a complete ready-to-use resource. Each book includes a rubric that can assess different types of products, free choice proposal forms to encourage independent study, specific guidelines for each of the products included in the menus to save the teacher time, and challenging menus to meet the needs of these diverse higher level learners. Differentiating Instruction With Menus: Social Studies (Grades K-2) contains attractive reproducible menus, based on the levels of Bloom's revised taxonomy, that students can use as a guide when making decisions about which products they will develop after they study a major concept or unit. Topics addressed include culture and citizenship, geography, government, history, and people and places. The products included on the menu are carefully selected from various learning styles to build students' excitement and so that teachers can more accurately assess the depth of what has been learned. Using creative and challenging choices found in Three-Shape Menus, Tic-Tac-Toe Menus, Meal Menus, Give Me Five Menus, 2-5-8 Menus, and List Menus, students will look forward to sharing their newfound knowledge throughout the year! print and online sources, develop vocabulary, build study and test-taking skills, and become motivated readers.

SMART TESTS

TEACHER-MADE TESTS THAT HELP STUDENTS LEARN

[Pembroke Publishers Limited](#) High-stakes accountability and the growing move towards standardized testing are placing teacher knowledge and assessment skills under ever-increasing scrutiny. Teachers know what is going on in their classrooms and have first-hand reliable evidence of what their students can accomplish. They can be the major factor in student assessment and help their students better demonstrate what they have learned. Smart Tests shows educators how to create well-structured evaluation tools that match assessment tasks to the purpose and content of instruction. Teachers learn how to relate testing directly to classroom goals and activities and make assessment an integral part of learning and teaching, not just the end result. They will find the information they need to build assessment tasks that give students in grades K-8 the opportunity to succeed. These tasks encourage students to apply new knowledge, reflect and defend their thoughts and opinions, and connect what they learn the world beyond the classroom.

HANDBOOK OF RESEARCH ON USING MOTOR GAMES IN TEACHING AND LEARNING STRATEGY

[IGI Global](#) Motor games are incredibly useful in enhancing education and developing critical skills; they can entertain, produce pleasant emotions, improve moods, and increase the level of relationships. Motor games allow social, emotional, and cognitive development as well as the acquisition of motor skills such as knowledge and mastery of body, postural control and adjustment, and improvement of coordination. However, it is essential to select the appropriate game for each context to achieve the desired learning in all students. Further research on the opportunities, challenges, and future directions of motor games in education is necessary to successfully implement them. The Handbook of Research on Using Motor Games in Teaching and Learning Strategy presents significant advances in motor game education and collects research evidence that uncovers the certainties and testifies to the educational power of motor games in various situations and specific contexts that promote the learning of participants. Covering topics such as emotional physical education and educational mediation, this major reference work is ideal for researchers, academicians, educators, practitioners, and students.

DIFFERENTIATING INSTRUCTION WITH MENUS FOR THE INCLUSIVE CLASSROOM

SOCIAL STUDIES (GRADES K-2)

[Routledge](#) Differentiating Instruction With Menus for the Inclusive Classroom: Social Studies for grades K-2 offers teachers everything needed to create a student-centered learning environment based on choice. This book provides seven different types of menus that students can use to select exciting products that they will develop so teachers can assess what has been learned—instead of using a traditional worksheet format. Topics addressed include citizenship and culture, geography, government, history, and people and places. Differentiating Instruction With Menus for the Inclusive Classroom: Social Studies provides numerous types of leveled menus that lower and on-level primary-age students can use to select exciting products to demonstrate learning. Menus with similar formats but geared toward varying ability levels allow teachers to differentiate easily. Using the creative and challenging choices found in Meal menus, Tic-Tac-Toe menus, Target-Based List menus, 2-5-8 menus, Give Me 5 menus, Three-Shape menus, and Pick 3 menus, students will look forward to sharing their newfound knowledge throughout the year. Also included are specific guidelines for products, rubrics for assessing student products, and teacher introduction pages for each menu. This is a must-have for any teacher wanting to differentiate for a wide range of learners! Grades K-2

DOING HISTORY

INVESTIGATING WITH CHILDREN IN ELEMENTARY AND MIDDLE SCHOOLS

[Taylor & Francis](#) Now in its sixth edition, Doing History offers a unique perspective on teaching and learning history in the elementary and middle grades. Through case studies of teachers and students in diverse classrooms and from diverse backgrounds, it shows children engaging in authentic historical investigations, often in the context of an integrated social studies curriculum. The book is grounded in the view that children can engage in valid forms of historical inquiry—asking questions, collecting and analyzing evidence, examining the varied perspectives and experiences of people in the past, and creating evidence-based historical accounts and interpretations. Grounded in contemporary sociocultural theory and research, the text features vignettes in each chapter showing communities of teachers and students doing history in environments rich in literature, art, writing, and discussion. The authors explain how these classrooms reflect contemporary principles of teaching and learning, and thus, the descriptions not only provide specific examples of successful activities but also place them in a context that allows teachers to adapt and apply them in a wide range of settings. Doing History emphasizes diversity in two ways: Readers encounter students from a variety of backgrounds and see how their diverse experiences can form the foundation for learning, and they also see examples of how teachers can engage students with diverse experiences and perspectives in the past, including those that led to conflict and oppression. The book also discusses principles for working with English learners

and newcomers, and it provides guidance in using multiple forms of assessment to evaluate the specifically historical aspects of children's learning. Updates to this edition include updated historical and instructional examples to ensure currency, new suggestions for children's literature to support good teaching, expanded attention to teaching about oppressed groups in history, and greater attention to when historical perspective taking is and is not appropriate.

THE POWER OF PICTURE BOOKS IN TEACHING MATH AND SCIENCE

Taylor & Francis This book's 50-plus lessons—each based on a different picture book or story—will help classroom teachers build a foundation for teaching math, science, and social studies concepts to their students. Each lesson uses children's literature to make challenging, abstract concepts relevant to children's lives, inviting them to learn these concepts while responding to a story's illustrations, theme, characters, and plot. The lessons also demonstrate how teachers can use children's literature to meet national standards in math, science, and social studies. Chapters 1 through 5 set the stage for using picture books, discussing the effective, imaginative integration of literature into the classroom. Teachers will learn to create an environment that ensures that when children and books come together, the experience is enjoyable and thought provoking. Chapters 6 through 9 provide individual lessons, by grade level, with detailed activities based on specific books.

VISIBLE LEARNING FOR SOCIAL STUDIES, GRADES K-12

DESIGNING STUDENT LEARNING FOR CONCEPTUAL UNDERSTANDING

Corwin Press Read this review from the National Social Studies Supervisors Association, Spring 2021: https://us.corwin.com/sites/default/files/vlss_from_nsssa_the_leader_spring_2021.03_002_0.pdf Help students move from surface-level learning to the transfer of understanding. How do social studies teachers maximize instruction to ensure students are prepared for an informed civic life? **VISIBLE LEARNING®** for Social Studies, Grades K-12 shows how the field is more than simply memorizing dates and facts—it encapsulates the skillful ability to conduct investigations, analyze sources, place events in historical context, and synthesize divergent points of view. The Visible Learning framework demonstrates that learning is not an event, but rather a process in which students move from surface-level learning to deep learning, and then onto the transfer of concepts, skills, and strategies. Encouraging learners to explore different facets of society, history, geography, and more, best practices for applying visible learning to social studies curriculum are presented through:

- A scaffolded approach, including surface-level learning, deep learning, and transfer of learning
- Examples of strategies, lessons, and activities best suited for each level of learning
- Planning tools, rubrics, and templates to guide instruction

Teachers must understand the impact they have on students and select approaches to maximize that impact. This book will guide you through the process of identifying the right strategy for the right time to successfully move students through surface, deep, and transfer learning.

THE ENCYCLOPEDIA OF MIDDLE GRADES EDUCATION (2ND ED.)

IAP The second edition of **The Encyclopedia of Middle Grades Education** has been revised, updated, and expanded since its original publication in 2005. The Encyclopedia is a comprehensive overview of the field; it contains alphabetically organized entries that address important concepts, ideas, terms, people, organizations, publications, and research studies specifically related to middle grades education. This edition contains over 210 entries from nearly 160 expert contributors, this is a 25% increase in the number of entries over the first edition. The Encyclopedia is aimed at a general audience including undergraduate students in middle-level teacher preparation programs, graduate students, higher education faculty, and practitioners and administrators. The comprehensive list of entries are comprised of both short entries (500 words) and longer entries (2000 words). A significant number of entries appearing in the first edition have been revised and updated. Citations and references are provided for each entry.

TEACHING SOCIAL STUDIES TODAY 2ND EDITION

Teacher Created Materials This second edition of **Teaching Social Studies Today** has been updated to reflect the latest research and today's best practices in social studies instruction. This invaluable resource focuses on implementing social studies instruction with a language arts instructional lens. It addresses effective research-supported ways to differentiate instruction, as well as how curriculum can be extended, accelerated, and enriched for the C3 framework. Packed with various teaching methods and techniques, up-to-date research-based theory and practical applications, and easy-to-implement strategies and techniques, this book is essential reading for both novice and seasoned teachers.

HANDBOOK OF RESEARCH ON FIELD-BASED TEACHER EDUCATION

IGI Global Teacher education is an evolving field with multiple pathways towards teacher certification. Due to an increasing emphasis on the benefits of field-based learning, teachers can now take alternative certification pathways to become teachers. The **Handbook of Research on Field-Based Teacher Education** is a pivotal reference source that combines field-based components with traditional programs, creating clinical experiences and "on-the-job" learning opportunities to further enrich teacher education. While highlighting topics such as certification design, preparation programs, and residency models, this publication explores theories of teaching and learning through collaborative efforts in pre-Kindergarten through grade 12 settings. This book is ideally designed for teacher education practitioners and researchers invested in the policies and practices of educational design.

TEACHING INTENSIVE AND ACCELERATED COURSES

INSTRUCTION THAT MOTIVATES LEARNING

John Wiley and Sons In this comprehensive resource, Raymond J. Wlodkowski and Margery B. Ginsberg describe how to meet the challenge of teaching intensive and accelerated courses to nontraditional learners and working adults. By making motivation and cultural relevance essential to instruction, they clearly show what instructors can do to enhance learning in classes that can last from three to six hours. *Teaching Intensive and Accelerated Courses* makes full use of the authors' twenty years of experience researching and teaching accelerated courses, along with selected strategies from Wlodkowski's classic *Enhancing Adult Motivation to Learn*, to offer tried-and-true practices instructors can use to provide continuously engaging learning. Praise for *Teaching Intensive and Accelerated Courses* "Part-time teachers who work in accelerated degree programs are an enormous—and grossly underserved—group of adult education faculty. In this indispensable text, Wlodkowski and Ginsberg, two teachers with extensive firsthand experience of accelerated learning formats, provide an accessible, practical, and highly readable guide to engaging learners in these programs. Warm, wise, and down-to-earth, this will be an invaluable resource for teachers in these programs and for faculty developers everywhere."—Stephen D. Brookfield, Distinguished University Professor, University of St. Thomas, Minnesota "Whether you are an experienced teacher of accelerated courses or about to become a new one, I can't think of a better guide and standard-setter than this book. Wlodkowski and Ginsberg have created an instructional theory with practices that mirror the very principles and processes they advocate. Central to their thesis is the need to create conditions that will allow adults' natural desire to learn to emerge; in my view, this perspective is often lost in adult learning courses in the name of efficiency or productivity. That is one of the many reasons this book is refreshing in both its approach and the values it espouses."—Pamela Tate, president and CEO, The Council for Adult and Experiential Learning "What a helpful resource for faculty professional development! The information is strategic without being formulaic. New faculty can use this book as a resource to design their materials and to use their existing skills to help adults learn. The parts of this book that focus on graduate students are extremely insightful."—Victoria Gardner, director, Office of Multicultural Affairs, University of Washington School of Medicine
