## Gardening at Longmeadow

**Random House** Monty Don made a triumphant return to our screens as presenter of *Gardeners' World*. A firm favourite with viewers, Monty's infectious enthusiasm for plants, attention to the finer details of gardening technique and easy charm have seen the ratings soar. Here Monty invites us into the garden at Longmeadow, to show us how he created this beautiful garden, and how we can do the same in our own. Following the cycle of the seasons, *Gardening at Longmeadow* will introduce readers to the garden from the earliest snowdrops of January through the first splashes of colour in the Spring Garden, the electric summer displays of the Jewel Garden, the autumn harvest in the orchard, and on to a Christmas feast sourced from the vegetable gardens. Describing the magic of each area at different times of the year, Monty will explain the basics of what to do when and how to get the most from each plant. He'll talk through the essential techniques and more complex processes, accompanied by easy-to-follow, step-by-step photography. Longmeadow is a gardeners' garden, but this will be a book for gardening enthusiasts of all skill levels who have been inspired by what they've seen, and who would like to achieve something similar for themselves.

# Wood Coatings

# Theory and Practice

**Elsevier** Wood Coatings addresses the factors responsible for the performance of wood coatings in both domestic and industrial situations. The term 'wood coatings' covers a broad range of products including stains, varnishes, paints and supporting ancillary products that may be used indoors or outdoors. Techniques for coating wood go back many centuries but in recent decades there has been a move towards more environmentally-friendly materials, for example, the use of water-borne rather than solvent-borne chemicals. A major objective of Wood Coatings is to explain the underlying factors that influence selection, application and general operational issues. Basic information on the chemistry and technology of coatings is included for the benefit of students and laboratory technicians.

Additionally, the book includes individual chapters of interest to architects, specifiers, and industrial users. \* Offers up-to-date guidance on current availability and usage of wood coatings \* Provides the reader with a basic understanding of both coating and substrate interactions \* Covers both architectural (trade and DIY) and industrial sectors

## Understanding Rwanda's Agribusiness and Manufacturing Sectors

**International Growth Centre** This book comes after the 50th anniversary of Rwanda's Independence and provides the first ever comprehensive overview of firms in the country's agribusiness and manufacturing sectors. Understanding Rwanda's Agribusiness and Manufacturing Sectors puts these sectors into context historically, explaining how decisions and initiatives going back to the 1930s have contributed to determining the shape and composition of agribusiness and manufacturing in Rwanda today. These sectors, more than any others, have followed the ups and downs of Rwanda's history. The book also provides an in-depth analysis of agribusiness and manufacturing in Rwanda today, with a focus on understanding the origins, evolution and capabilities of firms, and how these capabilities came to be. This overview, or "Enterprise Mapping," gives the reader a detailed understanding of the ownership structures, products, systems, resources and exports of leading firms in Rwanda's agribusiness and manufacturing sectors today. Finally, this book individually profiles forty-three of Rwanda's largest manufacturing and agribusiness firms. This book is targeted at policymakers, academics, business people, and prospective investors interested in gaining a better understanding of Rwanda's industrial sector.

## An Enterprise Map of Tanzania

**Nightingale Books** In the first decade of the new millennium, Tanzania's gross domestic product doubled in real terms, making it one of the handful of sub-Saharan economies that have shown strong and sustained growth in recent years. This growth was, moreover, broad based, with manufacturing output growing slightly faster than the economy as a whole. To maintain this rate of growth over the next decade, Tanzania's industrial capabilities will need to advance in a quite substantial way. The foundations for this advance lie in the current capabilities of Tanzania's industrial companies. The purpose of this volume is to set out a detailed description, industry by industry, of those capabilities. Along the way, we explore a series of questions. Where did Tanzania's current industrial capabilities originate? To what extent are Tanzanian firms held back by problems of access to land? Will it be possible to successfully integrate Tanzanian companies into the supply chains of the oil and gas sector?

This is the third volume in John Sutton's "Enterprise Map" series, which profiles the industrial capabilities of selected countries in sub-Saharan Africa. Volumes on Ethiopia and Ghana have already appeared. The forthcoming fourth volume will be on Zambia.
