THE PLAGUE YEAR

AMERICA IN THE TIME OF COVID

Penguin UK **'A virtuoso feat ... a book of panoramic breadth'** New York Times Book Review **'A devastating analysis ... Wright is a master of knitting together complex narratives'** The Observer Just as Lawrence Wright's **The Looming Tower** became the defining account of our century's first devastating event, 9/11, so **The Plague Year** will become the defining account of the second. The story starts with the initial moments of Covid's appearance in Wuhan and ends with Joseph Biden's inauguration in an America ravaged by well over 400,000 deaths - a mortality already some ten times worse than US combat deaths in the entire Vietnam War. This is an anguished, furious memorial to a year in which all of America's great strengths - its scientific knowledge, its great civic and intellectual institutions, its spirit of voluntarism and community - were brought low, not by a terrifying new illness alone, but by political incompetence and cynicism on a scale for which there has been no precedent. With insight, sympathy, clarity and rage, **The Plague Year** allows the reader to see the unfolding of this great tragedy, talking with individuals on the front line, bringing together many moving and surprising stories and painting a devastating picture of a country literally and fatally misled. **'Maddening and sobering - as comprehensive an account of the first year of the**

THE FINANCIAL CRISIS INQUIRY REPORT

THE FINAL REPORT OF THE NATIONAL COMMISSION ON THE CAUSES OF THE FINANCIAL AND ECONOMIC CRISIS IN THE UNITED STATES INCLUDING DISSENTING VIEWS

Cosimo, Inc. The Financial Crisis Inquiry Report, published by the U.S.
 Government and the Financial Crisis Inquiry Commission in early 2011, is
 the official government report on the United States financial collapse and
 the review of major financial institutions that bankrupted and failed, or
 would have without help from the government. The commission and the
 report were implemented after Congress passed an act in 2009 to review
 and prevent fraudulent activity. The report details, among other things,
 the periods before, during, and after the crisis, what led up to it, and
 analyses of subprime mortgage lending, credit expansion and banking
 policies, the collapse of companies like Fannie Mae and Freddie Mac, and
 the federal bailouts of Lehman and AIG. It also discusses the aftermath of
 the fallout and our current state. This report should be of interest to
 anyone concerned about the financial situation in the U.S. and around the
 world. THE FINANCIAL CRISIS INQUIRY COMMISSION is an independent, bi-
 partisan, government-appointed panel of 10 people that was created to
 "examine the causes, domestic and global, of the current financial and
 economic crisis in the United States." It was established as part of the
 Fraud Enforcement and Recovery Act of 2009. The commission consisted of
 private citizens with expertise in economics and finance, banking, housing,
 market regulation, and consumer protection. They examined and reported
 on "the collapse of major financial institutions that failed or would have

failed if not for exceptional assistance from the government."News Dissector DANNY SCHECHTER is a journalist, blogger and filmmaker. He has been reporting on economic crises since the 1980's when he was with ABC News. His film In Debt We Trust warned of the economic meltdown in 2006. PRE-INCIDENT INDICATORS OF TERRORIST INCIDENTS

THE IDENTIFICATION OF BEHAVIORAL, GEOGRAPHIC AND TEMPORAL

PATTERNS OF PREPARATORY CONDUCT

DIANE Publishing This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.
