A TEXTBOOK OF LEGAL STUDIES FOR CLASS XII

Goyal Brothers Prakashan A Textbook of Legal Studies for Class XII In the last few decades, India has not only showcased itself as the world's largest democracy but also exhibited the resilience of its institutions and the fortitude of its governance benchmarks. As India pursues a leadership position in the world community, the need for a rule-of-law society has become a necessary pre-condition. A compliant and law-abiding citizenry alone can build the requisite ecosystem for a nation to surge ahead. This calls for a greater legal literacy amongst its masses to enhance their understanding of public affairs as well their entitlements and duties as citizens. In the long run, this can also potentially eradicate the ethics deficit in society. Structured training in law not only helps the youth challenge their thought process and nurture analytical and negotiation skills but also prepares them for myriad opportunities and exciting career options. No wonder, in the last few years, apart from offering the traditional career in litigation, the law has established itself into fields like public service, academics, research, public policy, journalism, and various other emerging streams. To cater to this burgeoning demand for trained legal professionals, India has seen a tremendous growth of institutions like the National Law Universities and many private universities offering law courses, in addition to the expansion of the existing facilities. Central Board of Secondary Education's decision to introduce 'Legal Studies' as an elective subject, in the year 2013-14 for the Class XI students and in the year 2014-15 for the Class XII students, could not have come at a better time. It is a testimony to the realisation that the introduction of an important subject like Legal Studies at an early stage can do wonders for the students who plan a career in the field of law. Even for those who may pursue other careers, their intellectual strength and the problem-solving abilities will be enhanced through the study of law. This book is a humble attempt to make a student's first interface with the law as a subject an elevating experience. Care has been taken to make the presentation of the text simple and reader-friendly. The various units of the book, while meeting the requirements of the prescribed syllabus, offer comprehensive coverage of the aspects of law that have been covered. Important legal terms have been meticulously explained with examples to help the students develop a clear understanding about them. All relevant cases have been duly cited, and it has been ensured that the text comprises the latest information about the incorporated content. PREFACE Authors are confident that the book shall be extremely useful for the students of Class XII in developing a clear understanding of the various critical facets of law. They can also benefit immensely from the tips given by the authors for preparing for the examinations and scoring well. The book also has the potential to become a foundational text in the hands of those seeking a basic understanding of the Indian legal system. Our sincere thanks to Dr. B.L. Babel, retired District and Sessions Judge and an acclaimed author of innumerable law books, and Dr. Anil Kaushik, former Dean, Faculty of Law, M.G.S. University, Bikaner, and presently, Principal, S.D. Law (P.G.) College, Sri Ganganagar, Rajasthan, for guiding us in the development of the text. Special thanks to Mr. Sanjay Sardana and Mr. Sankalp Sardana of the Manav Mangal Group of Schools for helping us develop a perspective about the students' expectations from the book. We would like to express our deep gratitude to Prof. Ramesh Arora and Mrs. Priyanka Sapra for their mentoring and consistent motivation in all our endeavours. We are deeply indebted to the publishers, Goyal Brothers Prakashan, particularly Mr. Suresh Goyal and his dedicated team for making this book a reality despite all the impediments posed by the pandemic. Their efforts in enhancing the presentation of the book are sincerely acknowledged. The authors shall also like to register their profound appreciation for the outstanding academic and research environment at the O.P. Jindal Global University, Sonapat, which helped in the conception and development of this book. In particular, the suggestions from a few students turned out to be invaluable in the development of this work, for which the authors shall remain indebted. Human efforts, however ingenuous, are at best attempts seeking excellence and are liable to suffer from infirmities. We look forward to the feedback from our readers and shall be ever so keen to learn from their views and acknowledge the same appropriately. Last but by no reckoning the least, the authors would like to thank all their friends and family members profusely for their encouragement and constant support.

STUDIES IN CONTRACT LAW - CASEBOOKPLUS

Foundation Press *As a part of our CasebookPlus offering, you'll receive a new print book along with lifetime digital access to the downloadable eBook. In addition, you'll receive 12-month online access to the Learning Library which includes quizzes tied specifically to your book, an outline starter and three leading study aids in that subject and the Gilbert Law Dictionary. The included study aids are Contracts in a Nutshell, Exam Pro on Contracts, Objective and Acing Contracts. In the Ninth Edition of Studies in Contract Law, Ian Ayres and Greg Klass have continued their work of streamlining, updating and supplementing this classic casebook. The new edition includes extensive discussion of the Draft Restatement (Third) of Consumer Contracts. There are new cases on telemarketing, good faith, the perfect tender rule, warranties and reliance, half-truths, fraud liability between contracting parties, class arbitration, adequate assurances, mitigation, mental anguish, intentional interference, and personal services contracts. And the authors have added three new drafting exercises to the many practice problems that the book has always included. This edition makes some structural changes to the chapter on remedies to make it more accessible to students. The discussion now begins with general principles, such as the choice between damages and specific performance, efficient breach, and the foreseeability, mitigation and certainty rules. It then addresses seller and buyer remedies, under the UCC and common law, followed by a discussion of special topics such as personal service contracts, liquidated damages, and recovery for nonpecuniary damages. The new edition also includes a new section on fraud liability between contract parties--a topic that usually falls in the gap between Torts and Contracts. And the authors have integrated materials from the arbitration chapter into the rest of the book, and added new section on the Supreme Court's recent class arbitration jurisprudence. Ayres has now recorded more than 90 contract law videos that will be freely available for viewing on Coursera.com and YouTube (search for "Ian Ayres Contracts"). These videos are largely free-standing discussions of individual cases from the casebook and can be used as supplemental lectures or to "flip the classroom." Ayres has also recorded more than 30 videos, also freely available on these platform (search for "Ayres Law Students toolkits"), covering basic legal concepts (e.g., rules vs. standards) and techniques (e.g., how to brief a case) that might be useful for first-year students.*

LAW IN THE COURTS OF LOVE

LITERATURE AND OTHER MINOR JURISPRUDENCES

Routledge *Law in the Courts of Love traces the literary history and diversity of past legal systems. These 'minor jurisprudences' range from the spiritual laws of the courts of conscience to the code and judgements of love handed down by women's courts in medieval France. Professor Goodrich presents the 15th Century Courts of Love in Paris as one instance of an alternative jurisdiction drawn from the diversities of the legal and literary past. Their textual records are correspondingly mixed in genre, being in the form of poems, narratives, plays, treaties and judicial decisions. More broadly, these studies trace certain boundaries of modern law and make up one of many forms of legal knowledge which escape today's vision of a unitary law. The author believes that the unquestionable faith in a unity law and its distance from person and emotion is precisely what makes impossible the attention to the individual that justice ultimately requires. Law in the Courts of Love shows how the historical diversity of forms and procedures of law can competently form the basis for critical revisions of contemporary legal doctrine and professional practice. This book will be of interest to undergraduate and postgraduate*

students of law and literature, critical legal studies and legal history, or anyone wishing to specialise in feminist legal theory.

THE LEGAL CONSTRUCTION OF PERSONAL WORK RELATIONS

OUP Oxford *This book explores the conceptual framework of European employment law, focusing on understanding the law's construction of employment relationships. The book draws on extensive comparative research of the legal architecture of employment relations in national legal systems and EU law to analyse the traditional model of the contract of employment and the difficulties of using the traditional model to frame modern working relationships. The authors then present a new model of the foundations of employment relationships, based on the concept of a personal work nexus, and explore the potential of their model to shape the future development of employment law. Throughout the book, the authors analyse the interaction of domestic and EU employment law, and discuss the possibility of future legal harmonisation in the area. They conclude by exploring the potential for a common framework for European employment law, in the context of broader debates surrounding the harmonisation of European private law.*

PHILOSOPHY OF PRIVATE LAW

OUP Oxford *On what basis does tort law hold us responsible to those who suffer as a result of our carelessness? Why, when we breach our contracts, should we make good the losses of those with whom we contracted? In what sense are our torts and our breaches of contract 'wrongs'? These two branches of private law have for centuries provided philosophers and jurists with grounds for puzzlement. This book provides an outline of, and intervention in, contemporary jurisprudential debates about the nature and foundation of liability in private law. After outlining the realm of the philosophy of private law, the book divides into two. Part I examines the various components of liability responsibility in private law, including the notions of basic responsibility, conduct, causation and wrongfulness. Part II considers arguments purporting to show that private law does and should embody a conception of either distributive or corrective justice or some combination of the two. Throughout the book a number of distinctions - between conceptual and normative argument, between jurisprudential 'theory' and private law 'practice', between legal obligation and moral obligation - are analyzed, the aim being to give students an informed grasp of both the limits and possibilities of the philosophy of private law.*

CONTRACT AS PROMISE

A THEORY OF CONTRACTUAL OBLIGATION

This book has two purposes: a theoretical purpose, to show how a complex legal institution, contract, can be traced to and is determined by a small number of basic moral principles; and a pedagogic purpose, to display for students the underlying structure of this basic legal institution. The author argues that that the promise principle - that principle by which persons can impose upon themselves obligations where none existed before - is the moral basis of contract law.

FOUNDATIONS OF PRIVATE LAW

PROPERTY, TORT, CONTRACT, UNJUST ENRICHMENT

Oxford University Press on Demand *Foundations of Private Law is a treatise on the Western law of property, contract, tort and unjust enrichment in both common law and civil law systems. It describes the doctrines that govern these fields of law and identifies principles that can explain both the similarities and differences between them. The thesis of the book is that underlying these fields of law are common principles, and that these principles can be used to explain the history and development of these areas. These underlying common principles are matters of common sense, which were given their archetypal expression by older jurists who wrote in the Aristotelian tradition. These principles shaped the development of Western law but can resolve legal problems which these older writers did not confront.*
