Also available as an ebook **Light & Shadows A History of Motion Pictures** **Streetlights and Shadows** **Searching for the Keys to Adaptive Decision Making** [MIT Press](#) An expert explains how the conventional wisdom about decision making can get us into trouble—and why experience can't be replaced by rules, procedures, or analytical methods. In making decisions, when should we go with our gut and when should we try to analyze every option? When should we use our intuition and when should we rely on logic and statistics? Most of us would probably agree that for important decisions, we should follow certain guidelines—gather as much information as possible, compare the options, pin down the goals before getting started. But in practice we make some of our best decisions by adapting to circumstances rather than blindly following procedures. In **Streetlights and Shadows**, Gary Klein debunks the conventional wisdom about how to make decisions. He takes ten commonly accepted claims about decision making and shows that they are better suited for the laboratory than for life. The standard advice works well when everything is clear, but the tough decisions involve shadowy conditions of complexity and ambiguity. Gathering masses of information, for example, works if the information is accurate and complete—but that doesn't often happen in the real world. (Think about the careful risk calculations that led to the downfall of the Wall Street investment houses.) Klein offers more realistic ideas about how to make decisions in real-life settings. He provides many examples—ranging from airline pilots and weather forecasters to sports announcers and Captain Jack Aubrey in Patrick O'Brian's **Master and Commander** novels—to make his point. All these decision makers saw things that others didn't. They used their expertise to pick up cues and to discern patterns and trends. We can make better decisions, Klein tells us, if we are prepared for complexity and ambiguity and if we will stop expecting the data to tell us everything. **Eel Question** [eBook Partnership](#) Bound to serve a cruel master, Nant's curiosity never fails to get her into trouble. Her dreams of a life beyond her marshland home intensify each autumn when the silver eels return, along with her questions. Where do they come from?

And where do they go? The last in a series of six illustrated folk tales for children which explore the supernatural world, inspired by ancient folk tales and a love of nature. Be ready to feel a little bit of magic, and perhaps a few shivers down the spine. Written by Nicola Davies and illustrated by Beth Holland. 'This unusual, mythic-feeling story is one of a series of tales from Welsh publisher Graffeg that explore the deeper and sometimes darker side of our connection with the natural world. Nant finds herself at the mercy of a witch hunt, and the story explores themes of ignorance and curiosity with a deft and gentle hand. As ever, Davies' love of the natural world is obvious, and her writing sings with a dark exuberance.' BookTrust 'These stories ask as many questions as they answer and highlight the strong ties that exist between nature and mankind; they beg us to seek a little deeper. Thought-provoking, haunting and swimming with the diverse beauty of the natural world.' Mary Esther Judy, *Fallen Star Stories Light Shadows, Mirrors, and Rainbows* [Capstone](#) Briefly explains the effects of light and includes experiments to demonstrate. Among the Shadows Watchers of the Light Ethan and Milena Dietrich are two of the rare ones among us, gifted in using their supernatural self - their soul - to reach through the veil. After years of rooting out evil around the world, they attempt to live a normal life, all the while realizing they are meant for more. Their part in the Story is unfinished. Now, what was locked in shadow stirs, and where darkness has laid dormant, evil awakes. Once, when the world was new, the Fallen battled the Light for control over humankind. Civilization was left in flames, the Scourges turned back by the Watchers in the last hour. The Darkness, though, was not defeated. Malice not seen since ancient times, far worse than anything on the evening news, is preparing for a new Scourge across the Earth. They seek lost relics that surge with power. Nightmarish creatures thought only to be myth and legend will leave the shadows once more. The Dark One's Followers will travel through time and history, obtaining all they need to propel mankind into collapse and ruin. There is one problem with their plan. Watchers like Ethan and Milena are not afraid to bring the Light to dark places. Nor are they alone. A war of the worst sort that could end the age of man is about to begin. *Shadows and Light Journeys with Outlaws in Revolutionary Hollywood* [Createspace Independent Publishing Platform](#) Written by writer/director, actor, stuntman, special effects guru, production manager Gary Kent, *SHADOWS AND LIGHT* tells of a Hollywood that was and still is, from the perspective of a man who has seen and done it all. As stated in the original printing: "Shadows and Light illuminates the "reel" revolution that started in 1960 with director John Cassavetes' work. An officer in this revolution, Kent compiled credits on over one hundred motion pictures and won several major film awards. This book is Kent's homage to the artistic, talented makers of magic, who began on the bottom of the dog-pile making biker flicks and nudie cuties and today find themselves on top of the Hollywood heap. The book is filled with memories, reminiscences, inside information, heretofore unknown facts, anecdotes and photos accumulated over forty-some years in independent, outrageous and courageous cinema. Kent provides a glimpse into the mystery of preparing stunt, action and special effects sequences without resorting to computer graphics and offers an inside take at the making of some favorite motion pictures, from concept to release. The book features stories of William Shatner, Ann-Margret, Brian De Palma, Bruce Campbell, Ed Wood, Charles Manson, Frank Zappa, Duane Eddy, the Hells Angels and others." With budgets big and small, Gary Kent has worked on the movies and met some of the biggest characters to ever grace the screen. This is the first printing from Happy Cloud Media, LLC, bringing *SHADOWS AND LIGHT* back into print with an updated Afterword. *The Light of Burning Shadows Book Two of The Iron Elves* [Simon and Schuster](#) Konowa Swift Dragon was once commander of the Iron Elves, the legendary Elven regiment of the human army of the Calahrian Empire. Light chases the shadows from the crevices of a heart's corridors. Where once, fed by pain and sin, The shadow grew in strength, again and again. Now surrendered, my life is new; The light has grown and misery's taunts are few. For He, on that sacrificial day, gathered the shadows; took the pain away Now when the world builds its storms, His love gives me shelter; His light keeps me warm. For the reader who wishes to journey from the darkness to the light, with side glances at the grey shadows between day and night, I offer this path of varying shadows of grey, With turns and twistings along the way. Inside, you will find poetry of various styles, prose and a short story. I have also included a special tribute section devoted to "The Ravyn," a very special lady, whose writings on the Poetrypages.com have inspired, and revealed a spirit that wouldn't quit in the most terrible of times; and to my mother, Sarah Jane Watson, who wrote as a hobby only occasionally, but through those few writings, became my inspiration. *How Are Shadows and Reflections Made?* [Pebble](#) Have you ever seen your own shadow on a sunny day? At the same time, a secret, dark prophecy has set in motion events that will affect not only them, but the thrones of rulers throughout all of Atolas, threatening to eclipse the world in shadow. But all is not lost while hope remains in the guise of an unlikely hero and the strength of friendship. *The Curse of the Mistwraith* [HarperCollins UK](#) The world of Athera lives in eternal fog, its skies obscured by the malevolent Mistwraith. Only the combined powers of two half-brothers can challenge the Mistwraith's stranglehold: Arithon, Master of Shadow, and Lysaer, Lord of Light. Arithon and Lysaer soon find that they are inescapably bound to a series of events dictated by their own deepest convictions. Yet as the sorcerers of the Fellowship of Seven know well, there is more at stake than one battle with the Mistwraith: between them the half-brothers hold the balance of the world—its harmony and its future—in their hands. *A Light from the Shadows Reflections on Oneness, Identity, and the Creation of Experience* (an Emergence Book) [CreateSpace](#) For thousands of years, spiritual and religious practitioners in India, Tibet, and elsewhere have made special use of prayer bead garlands called "mala" in chanting the divine Name and other words of power. Even today, these sacred objects are believed to aid the seeker in establishing a rhythmic centering of consciousness, reconnecting him or her with the energies believed to sustain the natural world. In the spirit of this same meditative tradition, 108 original poetic insights form the body of this powerful and nuanced exploration of individual and cosmic identity, acceptance, and psychological freedom. With a thematic structure corresponding to the seven major "chakras" or energy centers of the human body, "A Light from the Shadows" guides the reader on a journey of personal revelation: from an introduction to personal mythology and its power to shape our life experience; to the role of suffering and love in the creation of identity; to the subjective nature of time, separateness, and linear causality. This unique and engaging collection of quotable wisdom is the perfect companion gift, not just for the spiritual seeker or adept, but for anyone interested in taking his or her first step towards a larger understanding of the universe and our place in it. For more information and accompanying images, readers are encouraged to visit the author's virtual gallery at [www.theartofemergence.com](#) *In Praise of Shadows* [Random House](#) A fully illustrated, beautifully produced edition of Junichiro Tanizaki's wise and evocative essay on Japanese culture. 'We find beauty not in the thing itself but in the patterns of shadows, the light and the darkness, that one thing against another creates... Were it not for shadows, there would be no beauty.' This book is in fact a portal. Reading it, you will be led by Junichiro Tanizaki's light touch into a mysterious and tranquil world of darkness and shadows, where gold flashes in the gloom and a deep stillness reigns. If you are accustomed to equate light with clarity, the faded with the worthless and the dim with the dreary, prepare for a courteous but powerful realignment of your ideas. *In Praise of Shadows* is a poetic paean to traditional Japanese aesthetics - in a free-ranging style that moves from architecture to No theatre, and from cookery to lighting, Tanizaki teaches us to see the beauty in tarnished metal, the sombre dignity in unglazed pottery, the primacy of organic materials that bear witness to the regular touch of human hands. It is also astonishingly prescient, offering a gentle warning against the quest for airbrushed perfection, and reminding us that too much light can pollute and obscure our natural world. In this special edition, the text is accompanied by specially selected images to complement Tanizaki's reflections and further illustrate the pattern and beauty of shadows. *Out of the Light, Into the Shadows* [Penguin](#) The darkest hour is before the dawn... headlines a sinful new anthology where the dark and light sides of desire collide... Embrace the darkness and experience the light in this all-new anthology filled with touching stories of happily ever after alongside smoldering tales of irresistibly dangerous, otherworldly passion. From bewitching emotions and untamed desire to dazzling romance and tantalizing sensuality, these novellas explore the complex facets of the human heart—both the light side and the dark. *Cloak and Dagger* *Shadows and Light* [Marvel Entertainment](#) Collects Peter Parker, the Spectacular Spider-Man (1976) #64, 69-70, 81-82, 94-96; *Cloak and Dagger* (1983) #1-4; *Marvel Team-Up Annual* #6; *Marvel Fanfare* (1982) #19; *New Mutants* (1983) #23-25. *Cloak and Dagger* step out of the darkness and into the light! Arthur *Daughter of Light and Shadows: A Gorgeous Fantasy* [Page Turner of Witchcraft and Magic](#) [Bookouture](#) The stranger stood in the doorway, smiling as if he knew her. From the moment MacKayla Lane arrived in Dublin to hunt her sister's murderer, she's had to fight one dangerous battle after the next: to survive, to secure power, to keep her city safe, to protect the people she loves. The matter of who's good and who's evil can be decided by the answer to a single question: Whose side are you on? Now, as High Queen of the Fae, Mac faces her

greatest challenge yet: ruling the very race she was born to hunt and kill—a race that wants her dead yesterday, so they can put a pure-blooded Fae queen on the throne. But challenges with her subjects are the least of her concerns when an ancient, deadly foe resurfaces, changing not only the rules of the game but the very game itself, initiating a catastrophic sequence of events that have devastating consequences and leave Mac questioning everything she's ever learned and everyone she's ever loved. Now begins an epic battle between Mortal and Fae, Seelie and Unseelie, would-be kings and would-be queens, with possession of the Unseelie King's virtually unlimited power and the fate of humanity at stake. From the exquisite, deadly gardens of the High Queen's court, to long-forgotten truths found in the Sacred Grove of Creation, from the erotic bed of her enigmatic, powerful lover to the darkest, seductive reaches of the Unseelie kingdom, Mac's final journey takes her places no human has been before, and only one human could possibly survive . . . One who's willing to sacrifice everything.

A Light Amongst Shadows Dark is the Night, #1 James Spencer is hardly the typical troubled youth who ends up at Whisperwood School for Boys. Instead of hating the strict schedules and tight oversight by staff, James blossoms, quickly making friends, indulging in his love of writing, and contemplating the merits of sneaking love poems to the elusive and aloof William Esher. The rumours about William's sexuality and opium reliance are prime gossip material amongst the third years...rumours that only further pique James' curiosity to uncover what William is really like beneath all that emotional armor. And, when the normally collected William stumbles in one night, shaken and ranting of ghosts, James is the only one who believes him. James himself has heard the nails dragging down his bedroom door and the sobs echoing in the halls at night. He knows others have, too, even if no one will admit it. The staff refuses to entertain such ridiculous tales, and punishment awaits anyone who brings it up. Their fervent denial and the disappearance of students only furthers James' determination to find out what secrets Whisperwood is hiding...especially if it prevents William and himself from becoming the next victims.

Lighting Dance A Study of Technical, Philosophical, and Psychological Shadows Lighting Dance pioneers the discussion of the ability of lighting design to foreground shadow in dance performances. Through a series of experiments integrating light, shadow, and improvised dance movement, it highlights and analyses what it advances as an innovative expression of shadow in dance as an alternative to more conventional approaches to lighting design. Different art forms, such as painting, film, and dance pieces from Loie Fuller, the Russell Maliphant Dance Company, Elevenplay, Pilobolus, and the Tao Dance Theater served to inspire and contextualise the study. From lighting to psychology, from reviews to academic books, shadows are examined as a symbolic and manipulative entity. The book also presents the dance solo *Sombreiro*, which was created to echo the experiments with light, shadow, and movement aligned to an interpretation of cultural shadow (Jung 1954, in Samuels, Shorter, and Plaut 1986; Casement 2006; Ramos 2004; Stein 2004; and others). The historical development of lighting within dance practices is also outlined, providing a valuable resource for lighting designers, dance practitioners, and theatre goers interested in the visuality of dance performances.

Light and Shadows [Ginn](#) Providing a solution for teaching junior science, *New Star Science 3* books are aimed at the third primary school year. This Pupil's Book provides practical tasks and activities, with work throughout the topic and support for group activities. The topic covered is light and shadows. Shadow the architectural power of withholding light [Routledge](#) Each of these *Analysing Architecture Notebooks* is devoted to a particular theme in understanding the rich and varied workings of architecture. They can be thought of as addenda to the foundation volume *Analysing Architecture*, which first appeared in 1997 and has subsequently been enlarged in three further editions. Examining these extra themes as a series of *Notebooks*, rather than as additional chapters in future editions, allows greater space for more detailed exploration of a wider variety of examples, whilst avoiding the risk of the original book becoming unwieldy. Shadows may be insubstantial but they are, nevertheless, an important element in architecture. In prehistoric times we sought shade as a refuge from the hot sun and chilling rain. Through history architects have used shadows to draw, to mould form, to paint pictures, to orchestrate atmosphere, to indicate the passing of time ... as well as to identify place. Sometimes shadow can be the substance of architecture.
