Navajo and Tibetan Sacred Wisdom: The Circle of the Spirit

Inner Traditions The similarity between the Navajo and Tibetan spiritual traditions has often been remarked upon by scholars chiefly because of the mandala sand paintings common to both cultures, their ideas about matter and spirit, and their uncanny physical resemblance to one another. Author Peter Gold substantiates the shared knowledge of these seemingly disparate people by drawing extensive parallels among many aspects of both cultures: creation myths, cosmology, geomancy, psychology, visionary arts, and healing and initiation rituals. Through his sensitive comparison of Navajo and Tibetan sacred ways, the author encourages us to reconsider our own cultural paradigms and shows us how we might begin to recover a sense of the sacred.

Condensed Wisdom of Herb Fitch Volume Two

The Golden Circle of the Soul

In 1988 Herb Fitch wrote to Stephen and Lynn Jay about his intent to take four years and write four books. This did not come to pass before his transition on June 13, 1996, but a seed was planted that left the Jays with a deep desire to fulfill Herb's wishes. Condensed Wisdom of Herb Fitch, Volume 2: The Golden Circle of the Soul builds on the Jays' previous work, Condensed Wisdom of Herb Fitch, The Silver Highway to Redemption. Both books are rooted in a work began in 1988 as a study guide for the Jays that they call The Condensed Wisdom of Herb Fitch, A - Z. This was woven together with the meat of a 1969 transcript of thirty lessons entitled "Know Thyself," given by Herb in San Francisco. This high mysticism is seasoned with private lessons, journal entries, letters, photos, and the Jays' personal experiences with Herb in Bali, and the result is a work of love "with no missing parts or extra pieces," which was, according to Herb, a pure sign of Spirit. This collection, the second of three volumes, gathers writings, recorded knowledge, and personal narratives from mystic revelator Herb Fitch and charts their journey of friendship and love.

Advancing Business Ethics Education

IAP This book features sixteen chapters written by distinguished scholars who collectively point to a roadmap for advancing business ethics education at a critical juncture in the history of corporate America. The editors frame the book with an introductory chapter that details a gold standard for delivering ethics in the business school curriculum that signals to students that ethics matters, provides an adequate counterbalance to the amoral subtext that dominates much of business education, remedies assessment problems associated with current accrediting standards, and

prepares students for newly minted and fast-growing careers in ethics compliance, risk management, and corporate social responsibility. The chapters that follow lay out some challenges and opportunities that administrators and educators need to address in order to improve business ethics education and business school reputations in a post-Enron climate. Both traditional and experimental perspectives on delivering ethics in the curriculum are covered in conjunction with research that substantiates the potential for improving student ethics competencies after exposure to ethics coursework. Methods for incorporating ethics in various subjects, including accounting, corporate governance, environmentalism, global business, managerial decision making, and human resource management are also given as part of the roadmap for advancing business ethics education.

Awakening to the Spirit World

The Shamanic Path of Direct Revelation

Sounds True Today, practicing shamanism doesn't mean you have to live in a rain forest or a desert. Thanks to a modern renaissance of shamanic spirituality, practitioners from all walks of life now use powerful indigenous techniques for healing, insight, and spiritual growth. With Awakening to the Spirit World, teachers Sandra Ingerman and Hank Wesselman bring together a circle of renowned Western shamanic elders to present a comprehensive manual for making these practices accessible and available in our daily lives, including: How the original practice of shamanism shaped the world's spiritual traditions and why it is still relevant today. The art of the shamanic journey--a time-tested meditative method for experiencing important spiritual lessons and truths. Guidance for avoiding common pitfalls of shamanic practice. Instruction for working with your dreams, connecting to your spirit guides, healing yourself and your environment. The core of shamanism is the experience of direct revelation-- to communicate firsthand with your spiritual allies and discover your own power. Awakening to the Spirit World takes you through each step of developing a personal connection with your helping spirits to receive wisdom, insight, and healing energy. From an overview of shamanism, to your first journeys and encounters with your power animals, to expanding your skills and insight through long-term practice, here is an in-depth resource for the shamanic arts that includes: Creating rituals and ceremonies for healing and transformation Reconnecting with nature to heal ourselves and the planet Working with your dreams, songs, and artistic vision to strengthen your practice Traditional wisdom for children-- healthy rites of passage for each phase of a child's journey to adulthood Honoring the cycle of life and death-- shamanic practices to prepare for and celebrate our final transition in this life Excerpt Shamanism is the most ancient spiritual practice known to humankind and is the "ancestor" of all our modern religions. As a method, it is a form of meditation combined with a focused intention to accomplish various things, as well become apparent in this book. As a spiritual

practice, shamanism can become a way of life that may utterly transform the one who practices it. The word "shaman" comes from the language of the Evenki peoples, a Tungusic tribe in Siberia. This is a word whose meaning has to do with esoteric knowledge and extraordinary spiritual abilities and as such a shaman is often defined as an intermediary between the human and spirit worlds. In shamanic cultures, the word "shaman" has come to mean "the one who sees in the dark" or "the one who knows." There are certain commonalities in a shaman's worldview and practice across the world that allow us to make certain broad generalizations about shamanism. In the majority of indigenous cultures, the universe is viewed as being made up of two distinct realms: a world of things seen and a world of things hidden, yet that these two worlds present themselves together as two halves of a whole. The shaman is the inspired visionary, a man or a woman who learns through practice how to enter into this "world of things hidden," and once there, he or she typically encounters extra-mundane personalities or archetypal forces that the indigenous peoples refer to as spirits, ancestors, or even gods. Reviews "Awakening to the Spirit World" takes a deep look at tapping sources of invisible power in daily life. So much of what Sandra Ingerman and Hank Wesselman write about is lost to modern medicine: listening to the weather and the elements, understanding death, and more. This is a courageous book that will appeal to all who long to explore the unseen world." —Judith Orloff, MD, author of Emotional Freedom "In an era when chaos, confusion, and uncertainty take center stage, the ancestors, focused on balancing the energies of life, call forth calm, clarity, and pragmatic direction for accessing the medicine needed to heal the individual and collective psyche. In this moment in time, we are invited into "Awakening the Spirit World," where we are reassured that we are not alone. We are in good company, indeed." —Malidoma Patrice Some, PhD, author of "Of Water and the Spirit, The Healing Wisdom of Africa," and "Ritual: Power, Healing, and Community."

In the Shadow of the Shaman

Connecting with Self, Nature, and Spirit

Llewellyn Worldwide In the Shadow of the Shaman is about the importance of connection to the deepest power of Nature. It tells you how to use natural objects from the shamanic worlds -- Plant, Mineral, Animal, and Human -- to help make this personal connection with Earth energies. In doing this, you are able to reconnect with the center of your own power. Because the shamanic path is such a personal one, often not able to be shared, this book has been designed so that it has the experiential quality of the shamanic journey traditions. The author is also careful to present the information in a clear, organized manner. In doing so, she blends the deeply personal wisdom of a shamanic path with the shared, community wisdom of a medicine path. This represents an ideal for Aquarian shamanism. But this book is not simply about shamanism -- it shows, through techniques, exercises, meditations, and rituals, how anyone can become a shaman. You will learn how to attune yourself with the shamanic worlds of Nature, and with the Higher Self, for self-healing and self-empowerment. You will learn to develop shamanic balance, to become the living tree, and you will do this by using such tools as stones, crystals, feathers, masks, drums, and incense. Book jacket.

Artists become visionaries by cultivating their instinctive creative spark and sharing their profound visions with the world. In this lavishly illustrated memoir, including more than 80 full-color reproductions of her intricate watercolor paintings and the stories behind them, Francene Hart recounts the evolution of her art from formative influences to her masterful integrations of Nature, Spirit, and Sacred Geometry. Opening with her early work on mandalas and her explorations of the work of Joseph Campbell and C. G. Jung, Hart explains how her first works of art were in response to the solitary life she led in the forest, where she discovered the hidden order of Nature. She reveals how she learned to center her artistic explorations on the intelligence of the heart rather than the intellect, utilizing the wisdom and imagery of Sacred Geometry, reverence for the natural environment, and the interconnectedness between all things as her inspirations. She describes the shamanic lessons that accompanied her discoveries and shaped her understanding of sacred relationships with the self, others, and Mother Earth. She explores how to tap into the energies provided by spirit guides and power animals, like Jaguar, Raven, Octopus, and Dolphin, and explains her profound affinity for the ocean, including her discovery of water consciousness in Hawaii. Offering chronicles of her inspiring travels and transformational encounters around the world, Hart shares her experiences at sacred sites in the Amazon, Central America, Egypt, England, Scotland, Paris, Cambodia, and the Himalayas and how these places influenced her art. Exploring what is revealed as inspiration arises, Spirit informs, and vision is transformed into art, Francene Hart's journey offers a window into the secret order of Nature, the power of sacred symbols for evolving consciousness, and a visionary artistic path that perfectly blends the mathematical rigors of sacred geometry and the numinous.
