TALLER DE ESCRITORES: GRAMMAR AND COMPOSITION FOR ADVANCED SPANISH

EXPERIENCIAS

INTERMEDIATE SPANISH

"In Experiencias Intermediate, students follow Sofía, a 23-year-old heritage learner of Spanish from the U.S., who travels extensively. Like Daniel in Experiencias Beginning, Sofía introduces each chapter's main strategy and shares her blog on the Spanish-speaking world. Through her video segments, Sofía poses questions to Spanish speakers and invites students to compare others' perspectives to their own. Guided by the ACTFL Proficiency Guidelines (2012), Experiencias concentrates on what students can realistically communicate after two to four semesters of classroom-based Spanish language instruction. Experiencias Beginning develops oral communication and literacy through a variety of authentic tasks. With the help of Experiencias Intermediate students continue to develop communicative competencies while also focusing on practical literacies, digital humanities, and job-related skills. The communicative nature of the tasks found in the book encourages students to begin using Spanish immediately in the classroom as they express their own personal meaning"--

"Filmed in various parts of Ecuador, the program offers 5-7 minutes of footage for each of the eighteen lessons in the Vistas student textbook. Each module tells the continuing story of four college students from different Spanish-speaking countries (Ecuador, Spain, Mexico, and Puerto Rico) who spend a vacation break on a bus tour of the Ecuadorian countryside with the ultimate goal of climbing a volcano."--Video container

PHILOSOPHY THROUGH FILM*Routledge* Many of the classic questions of philosophy have been raised, illuminated, and addressed in celluloid. In this Third Edition of Philosophy through Film, Mary M. Litch teams up with a new co-author, Amy Karofsky, to show readers how to watch films with a sharp eye for their philosophical content. Together, the authors help students become familiar with key topics in all of the major areas in Western philosophy and master the techniques of philosophical argumentation. The perfect size and scope for a first course in philosophy, the book assumes no prior knowledge of philosophy. It is an excellent teaching resource and learning tool, introducing students to key topics and figures in philosophy through thematic chapters, each of which is linked to one or more "focus films" that illustrate a philosophical problem or topic. Revised and expanded, the Third Edition features: A completely revised chapter on "Relativism," now re-titled "Truth" with coverage of the correspondence theory, the pragmatist theory, and the coherence theory. The addition of four new focus films: Inception, Moon, Gone Baby Gone, God on Trial. Revisions to the General Introduction that include a discussion of critical reasoning. Revisions to the primary readings to better meet the needs of instructors and students, including the addition of three new primary readings: excerpts from Bertrand Russell's The Problems of Philosophy, from William James' Pragmatism: A New Way for Some Old Ways of Thinking, and from J. L. Mackie's "Evil and Omnipotence". Updates and expansion to the companion website, including a much expanded list of films relevant to the various subfields of philosophy. Films examined in depth include: Hilary and Jackie The Matrix Inception Memento Moon I, Robot Minority Report Crimes and Misdemeanors Gone Baby Gone Antz Equilibrium The Seventh Seal God on Trial Leaving Las Vegas**ASI SE DICE! TEACHING IN CONTEXT

THE SOCIAL SIDE OF EDUCATION REFORM

Teaching in Context provides new evidence from a range of leading scholars showing that teachers become more effective when they work in organizations that support them in comprehensive and coordinated ways. The studies featured in the book suggest an alternative approach to enhancing teacher quality: creating conditions and school structures that facilitate the transmission and sharing of knowledge among teachers, allowing teachers to work together effectively, and capitalizing on what we know about how educators learn and improve. The studies also show how social dynamics influence the speed, depth, and success with which any new idea is implemented, and how policies enacted without adequate consideration of their impact on the social fabric of schools can produce unintended negative consequences. Policies aimed at improving teaching should focus on strengthening the organization as a whole so that all teachers are likely to improve. The chapters in this book point to the need to reevaluate current policies for assessing and ensuring teacher effectiveness, and establish the foundation for a more thoughtful, research-informed approach.
