Tractatus de Scire et Dubitare. fasc.

## 8. Tractatus de necessitate et contingentia futurorum

## La tradition medievale des categories, XIIIe-XVe siecles

*Peeters Publishers Evoquees par Augustin, les Categories d'Aristote, accompagnees de l'introduction de Porphyre, sont traduites et commentees par Boece. Deja exposee dans le monde arabo-musulman, cette oeuvre devait faire l'objet de nombreux commentaires dans le monde latin, sans interruption, du temps d'Abelard jusqu'a la fin du Moyen Age. De l'etude du langage a la theorie de l'etre, ouvrant sur la philosophie naturelle et la theologie, les interrogations que suscitent les Categories sont multifformes. Elles concernent le statut des categories, leur nombre, les differents types de predication, ou la nature particuliere de certaines categories comme la relation ou la quantite. Le premier chapitre du traite, avec sa distinction entre equivoques, univoques et paronymes, suscite des reflexions sur les variations semantiques, les transferts de sens, et donne en meme temps naissance a la theorie de l'analogie de l'etant, aux implications metaphysiques et theologiques majeures. Les vingt deux essais de ce recueil explorent, a travers l'etude d'auteurs connus ou moins connus, les multiples facettes de cette riche tradition medievale de commentaires sur les Categories d'Aristote.*

## Sophisms in Medieval Logic and Grammar

Acts of the Ninth European  
Symposium for Medieval Logic and  
Semantics, held at St Andrews, June

# 1990

Springer Science & Business Media *The first Symposium consisted of three people in a cafe in Warsaw in 1973. Since then, meetings have grown in size and have been held in Leyden, Copenhagen, Nijmegen, Rome, Oxford, Poitiers and Freiburg am-Breisgau. The ninth Symposium was held in St Andrews in June 1990, with 57 participants who listened to addresses by 28 speakers. It was very fitting that Scotland's oldest university, founded in the heyday of medieval learning in 1411, should have been given the chance to bring together scholars from all over Europe and beyond to present their researches on the glorious past of scholastic rational thought. The topic of the Symposium was "Sophisms in Medieval Logic and Grammar". The present volume consists, for the most part, of the papers presented at the Symposium. In fact, however, it proved impossible to include five of the contributions. Two of the papers included here were intended for the Symposium but in the event not delivered, because of the unavoidable absence of the speakers. The Symposium received very helpful financial support from one of the major philosophical associations in Britain, the Mind Association, from the Philosophical Quarterly, a journal published at St Andrews, from the University of St Andrews, from the British Academy, and from Low and Bonar plc. In organising the programme for the conference and in preparing the papers for publication I received invaluable help from: Professor E.J.*

# Lies, Language, and Logic in the Late Middle Ages

Routledge *'This sentence is false' - is that true? The 'Liar paradox' embodied in those words exerted a particular fascination on the logicians of the Western later Middle Ages, and, along with similar 'insoluble' problems, forms the subject of the first group of articles in this volume. In the following parts Professor Spade turns to medieval semantic theory, views on the relationship between language and thought, and to a study of one particular genre of disputation, that known as 'obligationes'. The focus is on the Oxford scholastics of the first half of the 14th century, and it is the name of William of Ockham which dominates these pages - a thinker with whom Professor Spade finds himself in considerable philosophical sympathy, and whose work on logic and semantic theory has a depth and richness that have not always been sufficiently appreciated.*

## Dictionnaire des philosophes médiévaux

Les Editions Fides *Ce dictionnaire est la refonte complète et fortement augmentée d'un Dictionnaire abrégé des philosophes médiévaux paru en 2000. Il est le fruit de recherches menées depuis plus de trente-cinq ans et se veut un instrument de haute érudition tout autant qu'un outil de consultation. Il n'est donc pas réservé seulement aux spécialistes de la philosophie médiévale, mais s'adresse aussi à quiconque s'intéresse de près ou de loin aux grandes orientations de la pensée du Moyen Age. Il comprend plus de 450 entrées consacrées aussi bien à des penseurs occidentaux, tels que Pierre Abélard, Philippe le Chancelier, Duns Scot, Buridan, Ockham ou Thomas d'Aquin, qu'à des philosophes arabes, tels que Al-Fârâbî, Avempace, Avicenne ou Averroès, ou juifs, tels que Maïmonide ou Gersonide. Il passe également en revue les principaux savants, traducteurs et auteurs spirituels de cette époque, tout en les replaçant dans les courants de pensée qui leur sont contemporains. Pour la première fois, un ouvrage de langue française permet de faire la synthèse à peu près complète des grandes orientations doctrinales de l'Antiquité finissante et du Moyen Age.*

## Pauli Veneti Logica Magna: fasc.4. Capitula de conditionalibus et de

The Tradition of Medieval Logic and  
Speculative Grammar

A Bibliography (1977-1994)

*Brepols Pub La bibliographie repertorie les livres et articles publies entre 1977 et 1994 portant sur la logique et la grammaire depuis Boece jusqu'a la fin du XVIIe siecle. L'inclusion des auteurs comme Pascal, Descartes, Arnauld, Leibniz et Locke est justifiee tant par le developpement des etudes en ce domaine (880 items jusqu'en 1976, 2124 items entre 1977 et 1994) que par l'extension chronologique de ces memes etudes. La recherche des sources amene les modernistes a s'interesser de plus en plus aux auteurs medievaux, tandis que certains medievistes cherchent a savoir quelle fut la fortune des textes qu'ils etudient. En annexe un supplement a la bibliographie de Earline Jennifer Ashworth (Toronto, 1978) est propose.*

Iter Italicum

A Finding List of Uncatalogued Or  
Incompletely Catalogued  
Humanistic Manuscripts of the  
Renaissance in Italian and Other  
Libraries. Italy, Orvieto to Volterra,  
Vatican City

*BRILL* The "Iter Italicum" serves as a useful reference work for scholars in the history of philosophy, the sciences, classical learning, grammar and rhetoric, Neolatin literature, historiography of the theory of the arts and of music and related subjects. By scanning the volume or through this index, scholars will be able to find source material for individual writers as well as for certain subjects, problems or themes. By indicating for each manuscript its location and shelf-mark, scholars will find it easier to order microfilms or to pursue more detailed studies of some of the manuscripts

*listed. The volumes should also prove useful for librarians as a reference for the holdings of their own or other libraries.*
