## Buggies, Bicycles, and Iron Horses

## Transportation in the 1800s

**Simon and Schuster** In today's world, where we routinely zip down the highway at 70 miles per hour and we can fly coast-to-coast in a matter of hours, it is hard to imagine the revolution in transportation that took place in the 1800s. From a world where most people rarely traveled faster than their legs could carry them or much beyond their home towns, the 1800s witnessed an amazing and rapid development of technology, improvements in infrastructure, and a national will to conquer the vast distances of a growing country. Through the work of inventors, individual entrepreneurs, and municipalities, Americans found new opportunities for traveling conveniently from place to place within their communities, and a frontier nation was unified by rail, by road, and by a sense of national identity. This is the story of nineteenth-century America on the move!

## Successful Keyword Searching

## Initiating Research on Popular Topics Using Electronic Databases

**Greenwood** Empowers students to search on-line successfully for 144 of the most popular research topics using the keywords, key people, organizations, and web sites found in this book.
