From home dressmaking to couture, from wartime rationing to 'The New Look', from the birth of the teenager to mass manufacture, this selection of over 400 photographs and illustrations tells the fascinating story of a fashion revolution. 100 Years of Fashion will appeal to everyone with an interest in fashion.* **Chinese Propaganda Posters: From Revolution to Modernization From Revolution to Modernization** *Routledge Brightly coloured prints, portraying model behaviour or a better future, have been a ubiquitous element of Chinese political culture from Imperial times until present. As economic reform swept the People's Republic in the 1980s, visual propaganda ceased to depict the tanned and muscular labourers in a proletarian utopia, so typical of preceding decades. Instead, Western icons of progress and development were employed: high-speed bullet trains, spacecraft, high-rise buildings, gridlocked free-ways and projections of general affluence. Socialist Realism was phased out by design and mixed-media techniques that were influenced by Western advertising. This lavishly illustrated study traces the development of the style and content of the Chinese propaganda poster in the decade of reform, from its traditional origins to its use as a tool for political and economic purposes.* **D&AD, the Copy Book** *In 1995, the D&AD published a book on the intricate art of writing for advertising. Starting in the 1920s, attention-grabbing buildings began to appear that would draw in passing drivers for snacks, provisions, souvenirs, or a quick meal. The architectural establishment of the day dismissed these roadside buildings as "monstrosities". Yet, they flourished, especially along America's Sunbelt, and in particular, in Southern California, as proprietors indulged their creative impulses in the form of giant, eccentric constructions -- from owls, dolls, pigs, and ships, to coffee pots and fruit. Their symbolic intent was guileless, yet they were marginalized by history. But, over the past 40 years, California's architectural*****

anomalies have regained their integrity, and are now being celebrated in this freshly revised compendium of buildings, *California Crazy*. Brimming with the best examples of this architectural genre, *California Crazy* includes essays exploring the influences that fostered the nascent architectural movement, as well as identifying the unconventional landscapes and attitudes found on Los Angeles and Hollywood roadsides which allowed these buildings to flourish in profusion. In addition, *California Crazy* features David Gebhard's definitive essay, which defined this vernacular movement almost forty years ago. The *California Crazy* concept is expanded to include domestic architecture, eccentric signage, and the automobile as a fanciful object. "Combine a freethinking populace with a desire to leave the past and reinvent itself, and a climate was created that served as the perfect incubator for the outrageous and amazing." -- Jim Heimann

The Golden Age of Advertising-- the 50s Taschen America Llc Second in a series of books featuring advertising by era, *All-American Ads* of the 50s offers page after page of products that made up the happy-days decade. The start of the cold war spurred a buying frenzy and a craze for new technology that required ad campaigns to match. The nuclear age left its mark all over the advertisements, with a spotlight on planes, rockets, and even mushroom clouds. Shiny, big, beautiful cars abound, styled to keep up with the space age. Editor Jim Heimann, in his essay "From Poodles to Presley, Americans Enter the Atomic Age," explains: "Car designers came up with exaggerated tail fins for automobiles to express this new accelerated speed." Modernist home interiors look slick and shiny with their molded plastic furniture and linoleum floors. While clothing and furniture styles look strangely contemporary--a testament to our current obsession with vintage--some things have definitely changed. A baby sells Marlboro cigarettes! Also included are chapters on movies, food, and travel. --J.P. Cohen.

Piet Mondrian, 1872-1944 Structures in Space Taschen This volume presents Dutch painter Piet Mondrian (1872-1944). His earliest landscapes are rendered in an Impressionistic style but possess the marked vertical and horizontal tendencies that foreshadow his mature paintings. Mondrian's work began to show the influences of Cubism, and in 1912, the artist moved to Paris where he continued to refine his style, continually exploring increasingly sophisticated compositions. In his paintings, Mondrian strove to achieve a universal form of expression by reducing form and color to their simplest components. The artist termed his work "Neo-Plasticism". Mondrian's most well-known works consisted of white ground, upon which was painted a grid of vertical and horizontal black lines and the three primary colors.

100 Masterpieces in Detail Taschen Masterpieces under the microscope: Paintings' hidden secrets revealed This important addition to our understanding of art history's masterworks puts some of the world's most famous paintings under a magnifying glass, to help us look much, much closer at images we might have thought we knew well. Guiding our eye to the minutiae of subject and symbolism, Rose-Marie and Rainer Hagen help us become detectives of details, solving the mysteries of a masterpiece through its most small and subtle elements. Is the bride pregnant? Why is just one candle burning in the chandelier? And what does the mirror in the background reveal? As they address these and many more intricacies in some of art's most celebrated scenes, the authors not only offer us a vastly enriched appreciation of these paintings, but also shed light on the fashions and lifestyles, loves and intrigues, politics and people that first informed and inspired these works. Delve in and be dazzled, as even the most familiar panels and canvases come alive anew in all the intricacies of their composition and in a very real sense of context of time and place.

The Private Lives Of The Impressionists Random House Manet, Monet, Pissarro, Cézanne, Renoir, Degas, Sisley, Berthe Morisot and Mary Cassatt. Though they were often ridiculed or ignored by their contemporaries, astonishing sums are paid today for the works of these artists. Their dazzling pictures are familiar - but how well does the world know the Impressionists as people? In a vivid and moving narrative, biographer Sue Roe shows the Impressionists in the studios of Paris, rural lanes of Montmartre and rowdy riverside bars as Paris underwent Baron Haussman's spectacular transformation. For over twenty years they lived and worked together as a group, struggling to rebuild their lives after the Franco-Prussian war and supporting one another through shocked public reactions to unfamiliar canvasses depicting laundresses, dancers, spring blossom and boating scenes. This intimate, colourful, superbly researched account takes us into their homes as well as their studios and describes their unconventional, volatile and precarious lives, as well as the stories behind their paintings.

Gustav Klimt The Complete Paintings Taschen America Llc The prince of decadence: Looking at Klimt in a whole new light: a groundbreaking monograph The countless events being held to celebrate the 150th anniversary of his birth make a clear statement to the enduring appreciation for the work of Gustav Klimt. Not that it takes such a special occasion for the press and the public to start talking about Klimt. More than two hundred articles about the artist appeared online in August 2011 alone, in comparison with barely seventy on Rembrandt within the same period. This media publicity set editor Tobias G. Natter thinking about the value of compiling the present book. During his lifetime, Klimt was a controversial star whose works made passions run high; he stood for Modernism but he also embodied tradition. His pictures polarized and divided the art-loving world. Journalists and general public alike were split over the question: For or against Klimt? The present publication therefore places particular emphasis upon the voices of Klimt's contemporaries via a series of essays examining reactions to his work throughout his career. Subjects range from Klimt's portrayal of women to his adoption of landscape painting in the second half of his life. The cliché that Gustav Klimt was a man of few words who rarely put pen to paper is vehemently dispelled: no less than 179 letters, cards, writings and other documents are included in this monograph. This wealth of archival material, assembled here for the first time on such a scale, represents a major contribution to Klimt scholarship. Defining features of this edition: Catalog of Klimt's complete paintings All known letter correspondence Featuring new photographs of the Stoclet Frieze commissioned exclusively for this book Contributing authors: Evelyn Benesch, Marian Bisanz-Prakken, Rainald Franz, Anette Freytag, Christoph Grunenberg, Hansjörg Krug, Susanna Partsch, Angelina Pötschner and Michaela Reichel
