KEY=VOICE - FRENCH MARSHALL

Anatomy of Voice

How to Enhance and Project Your Best Voice

Simon and Schuster An illustrated guide to the dynamic physiological structures that create and individualize the voice • Explores the structures of the vocal tract and their functional relationships to the entire musculoskeletal system with detailed drawings • Examines the components of the larynx and pharynx, the effects of muscular tensions on the vocal cords, the importance of skeletal alignment, and the complex roles of the diaphragm, soft palate, lips, and tongue in vocalization • Provides exercises and techniques for increased air flow, correct posture, proper tongue position, jaw relaxation, and toning of the soft palate to improve the voice When we use the voice, we involve the entire body. Our internal balance, muscular tone, skeletal alignments, soft tissue flexibility, and even our eye movements are reflected in the voice we project to our audience, whether one person or thousands. Using the signature anatomical style of Blandine Calais-Germain's groundbreaking book Anatomy of Movement, this illustrated guide presents a dynamic, integrated study of the physical structures of the vocal tract and their functional relationships to the entire musculoskeletal system. From the individual bones and muscles of the head and neck to the intricate structure of the shoulders to the abdominal muscles and pelvis, the authors explain how each part of the body moves, flexes, vibrates, and supports the creation and individualization of the voice. With detailed drawings and clear, concise text, they examine the individual components of the larynx and pharynx, the effects of muscular tensions on the vocal cords, proper alignment of the skull, rib cage, and pelvis, the intimate relationship between breath and voice, and the complex roles of the diaphragm, soft palate, lips, and tongue in vocalization. They provide simple exercises and techniques for increasing air flow and force, correct posture, proper positioning of the tongue, relaxation of the jaw, and toning of the soft palate. Whether singer, teacher, actor, lawyer, politician, or workshop leader, this book reveals how understanding your vocal anatomy enables you to express your best voice.

Personal Development With Success Ingredients

Step-by-Step Guide for Success, Wealth & Happiness

eBookIt.com The team of successful people is a network of readers whose feedback have remained frankly remarkable. They have transformed themselves into an epitome of success by studying and practicing the principles outlined in the book. The book titled Personal Development with Success Ingredients written by Mo Abraham is a step-by-step guide for success, wealth, and happiness and the formula are by far tried and proven. The 12-In-1 book covering over fifty topics on Health & Mental Development, Personal & Social Development, and Financial Development was written with the sole aim of illuminating the minds of those who are disappointed at so-called 'success books' as many of them are only theoretical and somewhat not applicable in a different localized setting and hence, not workable. But Personal Development with Success Ingredients is a book embracing principles which are very much universal and can be found in virtually everyone. It's also like a whole library of knowledge, wisdom, key secrets and more packed into one book. For those wondering where the real secret of success can be found, it can be surely found in this book. The book was written by Mo Abraham, an experienced entrepreneur who has gained success by applying these same principles in his own life and business. He was a former merchant navy officer who also worked in big telecommunication companies occupying very high positions until he set up his own business in 2003. Like everyone else, Mo Abraham was also faced with the same struggle everyone faced but overcame those using strategic universal laws which he has hidden in the pages of this great book. The principles are affluently assuring and guarantee a life-changing experience. The author has deliberately set an

affordable price so that anyone can have the alluring experience this book has to offer. The massive book contains over 900 pages of LIFE-TRANSFORMING information that have been proven to work for thousands and thousands of successful people around the world today.

Voices of the Field

Pathways in Public Ethnomusicology

Oxford University Press Ethnomusicologists face complex and challenging professional landscapes for which graduate studies in the field do not fully prepare them. The essays in *Voices of the Field: Pathways in Public Ethnomusicology*, edited by León F. García Corona and Kathleen Wiens, provide a reflection on the challenges, opportunities, and often overlooked importance of public ethnomusicology. These essays capture years of experience of fourteen scholars who have simultaneously navigated the worlds within and outside of academia, sharing valuable lessons often missing in ethnomusicological training. Power and organizational structures, marketing, content management and production are among the themes explored as an extension and re-evaluation of what constitutes the field of/in ethnomusicology. Many of the authors in this volume share how to successfully acquire funding for a project, while others illustrate how to navigate non-academic workplaces, and yet others share perspectives on reconciling business-like mindsets with humanistic goals. Grounded in case studies in multiple institutional and geographical locations, authors advocate for the importance and relevance of ethnomusicology in our society at large.

Good Grief! Using the Grief Sheet to Improve Community Theatre Production

Telling the Story Better Than It Has Ever Been Told

Good Grief! Using the Grief Sheet to Improve Community Theatre Production was written to encourage theatre directors to take advantage of the benefits involved in a daily written critique of amateur play rehearsals. In over 40 years of directing community and school productions, as well as acting for other directors, I have yet to meet a director who employs this technique. I don't know why this is so, except that it does require a large investment in time. Typically, the directors I have known wrote grief notes and then assembled cast and crew to convey them verbally. Obviously, much time is wasted following this method since everyone has to listen whether or not they are specifically involved. Furthermore, the published grief sheet provides the perceived need for instruction as well as a record to return to, to refresh the memory in regard to the needed improvements, which often are forgotten otherwise. The Grief Sheet is also a team builder, and the team concept is an essential quality of a successful theatre company. In writing this book, my collections of grief sheets have enabled me to relive some exciting and memorable productions.

Promoting Climate Change Awareness through Environmental Education

IGI Global Addressing global climate change is a monumental battle that can only be fought by the leaders of tomorrow, but future leaders are molded through education and shaped by the leaders of today. While the pivotal role of education in spreading awareness of climate change is one universally espoused, equally universal is the recognition that current education efforts are falling woefully short. *Promoting Climate Change Awareness through Environmental Education* stems the rising tide of shortcomings in environmental education by plugging a known gap in current research and opening a dialogue for the future. Targeting an audience of young scholars, academics, researchers, and policymakers, this volume provides a much needed dam of empirical evidence regarding the role of youth

education in addressing one of the greatest challenges of our age. This timely publication focuses on topics such as building resilience to climate change, green learning spaces, gender issues and concerns for developing countries, and the impact of young adults on the future of environmental sustainability.

Communication Skills for the Healthcare Professional, Enhanced Edition

Great Lessons in Project Management

Berrett-Koehler Publishers Learn from Other Projects to Avoid Pitfalls on Your Projects! Projects fail at an alarming rate, whether they are information technology, training, construction, or policy development projects. No matter the focus, each year we experience an abundance of challenged projects that either require super-human effort to resuscitate or die an untimely death. Great Lessons in Project Management is a treasure trove of lessons learned from troubled projects—and from projects that went well. This collection of stories describes the events surrounding a particular challenge a project manager faced or a tool that another used effectively. Project managers of all types of projects can draw on these stories to validate their own good practices and to avoid the pitfalls so many have encountered on their projects.

What Every Engineer Should Know About Business Communication

CRC Press Engineers must possess a range of business communication skills that enable them to effectively communicate the purpose and relevance of their idea, process, or technical design. This unique business communication text is packed with practical advice that will improve your ability to— Market ideas Write proposals Generate enthusiasm for research Deliver presentations Explain a design Organize a project team Coordinate meetings Create technical reports and specifications Focusing on the three critical communication needs of engineering professionals—speaking, writing, and listening—the book delineates critical communication strategies required in many group settings and work situations. It demonstrates how to integrate a marketing strategy into every facet of engineering communication, from presentations, visual aids, proposals, and technical reports to e-mail and phone calls. Using situational examples, the book also illustrates how to use computers, graphics, and other engineering tools to effectively communicate with other engineers and managers.

Voice Rehabilitation: Testing Hypotheses and Reframing Therapy

Jones & Bartlett Publishers Voice Rehabilitation: Testing Hypotheses and Reframing Therapy is a specific guide for beginning speech-language pathology student clinicians to develop a hierarchy of goals and procedures related to the therapeutic process. This text is written from the students perspective and it addresses the questions that students consistently ask when they begin their first internship. Features: Chapter Objectives, Case Studies, Voice Evaluation Forms

Making Effective Presentations

Kogan Page Publishers Making Effective Presentations is a practical guide on how to prepare, organise, deliver and evaluate all types of presentation. It shows how to apply the techniques described to your own particular needs. The book demonstrates how you can achieve the right result by adopting the correct attitude, matching the presentation to the audience, preparing in advance, opening and closing the presentation and controlling body language. A useful appendix shows you how to incorporate data displays into your presentation.

Natural Resources Management: Concepts, Methodologies, Tools, and Applications

Concepts, Methodologies, Tools, and Applications

IGI Global The perseveration of our natural environment has become a critical objective of environmental scientists, business owners, and citizens alike. Because we depend on natural resources to survive, uncovering methods for preserving and maintaining these resources has become a focal point to ensure a high quality of life for future generations. Natural Resources Management: Concepts,

Methodologies, Tools, and Applications emphasizes the importance of land, soil, water, foliage, and wildlife conservation efforts and management. Focusing on sustainability solutions and methods for preserving the natural environment, this critical multi-volume research work is a comprehensive resource for environmental conservationists, policymakers, researchers, and graduate-level students interested in identifying key research in the field of natural resource preservation and management.

Boost your child's confidence

52 brilliant drama techniques to help your child shine

Infinite Ideas Growing up is a tough business. As children get older and become more independent they can struggle to work out where they fit into the world, and as a parent it's natural to want to make this potentially scary process as easy and problem-free as possible. But the answer isn't to be overprotective or mollycoddle your child. To be able to negotiate successfully all the new territories they find themselves in as they grow up children need to be confident, outgoing and unafraid to ask questions, have a go at things, or make mistakes. So how do you prepare your child to be confident, happy and capable of making the most of every opportunity? With the help of "Boost your Child's Confidence" you can help your child grow into a balanced and self-assured person who can cope with everything life may throw at them. Packed with drama techniques you can practise with your children to help them be more confident and outgoing, "Boost your Child's Confidence" will help your child shine in every situation, whether at school, at play or with family. With the help of "Boost your Child's Confidence" you can help your shy and retiring wallflowers blossom into the confident, self-reliant and happy children you know they can be.

Social Marketology: Improve Your Social Media Processes and Get Customers to Stay Forever

McGraw Hill Professional Manage all your social media marketing efforts with repeatable, improvable processes Winner of a 2013 Small Business Book Award for Social Media "In studying social media we must also embrace social sciences. Sociology, psychology, neuroscience, statistical analysis, ethnography, as well as marketing are at the source of Social Marketology, and Dragon explains how and why it matters to business." —Brian Solis, author of Then End of Business as Usual "There is no longer any doubt that social media is one of the key digital trends that are reshaping today's industries, brands, and customer networks. Ric Dragon's immensely practical guide will help you get the most out of your own social media investment by identifying the processes and best practices that build real and valuable business relationships. Read it, and use it, today!" —David Rogers, bestselling author of The Network is Your Customer "If you think Facebook, Twitter, and the like are simply trends or fads, you're missing the bigger picture. Consumers are more connected than ever before, and they are highly untethered (thanks to smartphones and tablets). Now that we're past the whole 'Do I really need social media for my business?' Ric is here with Social Marketology, a smart look at how to get social media organized for your business." —Mitch Joel, President of Twist Image and author, blogger, and podcaster at Six Pixels of Separation About the Book: Covering subjects ranging from the best-tasting breakfast cereal to the latest developments in cancer treatment, personal interactions are occurring with increased frequency on social media. And if you want to connect with customers, you have no choice but to join their conversations. This much has been established by the mountains of social media marketing literature produced in recent years. What has not been established are the best practices for creating the most ideal social media strategy for your particular needs—and that's where this book comes in. In Social Marketology, cofounder Ric Dragon of the renowned search engine marketing firm DragonSearch, takes social media marketing to the next step—showing how to choose the best tools for your needs and develop a strategy tailored to your goals. Drawing from such process methodologies as LEAN and the Capability Maturity Model, Dragon helps you develop a social media process that is quantifiable, repeatable—and improvable. His process is based on these basic steps: Focus on desirable outcomes: Vision, Goals, Objectives, and Metrics Pinpoint the very smallest segments of your customers Determine the communities to which these microsegments belong Identify the influencers of those communities Create an action plan for your project Measure and constantly improve your efforts The beauty of Dragon's method is its core flexibility. New social media platforms are guaranteed to pop up in the near future. Any strategy based on the methods in this book can be adapted to take full advantage of them. The age of blind trial and error for social media marketers is over. Social Marketology provides the means to implement an effective campaign that is testable, controllable, and fully integrated within broader campaigns and goals.

The Game Narrative Toolbox

CRC Press Learn how to create compelling game storylines. Four experienced narrative designers from different genres of game development have banded together to create this all-inclusive guide on what it's like to work as a writer and narrative designer in the videogame industry. From concept to final testing, The Game Narrative Toolbox walks readers through what role a narrative designer plays on a development team and what the requirements are at every stage of development. Drawing on real experiences, authors Tobias Heussner, Toiya Finley, Ann Lemay, and Jennifer Hepler provide invaluable advice for writing compelling player-centered stories and effective dialogue trees in order to help readers make the switch from prose- or screen- writing to interactive. Accompanying every chapter are exercises that allow the reader to develop their own documentation, outlines, and game-dialogue samples for use in applying for industry jobs or developing independent projects. This first installment of Focal Press's Game Design Workshops series is a must-have for individuals looking to create captivating storylines for games.

Enhancing the Wellbeing and Wisdom of Older Learners

A co-research paradigm

Routledge Enhancing the Wellbeing and Wisdom of Older Learners: A Co-research Paradigm examines how lifelong learning, becoming wise, and sharing wisdom are integrally linked to older people's wellbeing. The book highlights appropriate learning styles and pedagogies for older people, including research models emphasising participation, and offers recommendations for research in lifelong learning with the potential to effect change. Focusing upon a collaborative action research project, 'Sagaciation', chapters explore the involvement of older learners in the design and delivery of the scheme, which enabled them to expand their knowledge and skills, and to fully engage as critical and creative voices in a supportive and welcoming environment. The book offers an account of the process of the action research, as well as its findings. The project is set into the context of leading academic thinking on fields such as the growth of an ageing population, the rise of literature on ageing, negative and positive constructions of ageing, social gerontology, the wellbeing and health of older people, and educational gerontology. This book challenges negative representations of older people as a burden by offering a paradigm of hope, resilience, and sagacity within education and beyond. It will appeal to researchers, academics and postgraduate students in the fields of adult education, lifelong

learning, gerontology, mental health and wellbeing, and the sociology of education, as well as to policymakers and those working with older people

With the help of several fascinating and instructive case studies, Sandred explores practical concerns such as building, motivating, and managing virtual teams; structuring tasks and meeting deadlines; establishing trust; project management software tools; maintaining project security; and more.

Digital citizenship education

Volume 2: Multi-stakeholder consultation report

Council of Europe An analysis of good practices, research findings, lessons learned and resources identified across Europe in the area of digital citizenship: empowerment of children through education Most young people in Europe today were born and have grown up in the digital era. Education authorities have the duty to ensure that these digital citizens are fully aware of the norms of appropriate behaviour when using constantly evolving technology and participating in digital life. Despite worldwide efforts to address such issues, there is a clear need for education authorities to take the lead on digital citizenship education and integrate it into school curricula. In 2016, the Education Department of the Council of Europe began work to develop new policy orientations and strategies to help educators face these new challenges and to empower young people by helping them to acquire the competences they need to participate actively and responsibly in digital society. This second volume in the Digital Citizenship Education series contains the results of a multi-stakeholder consultation to identify good practices regarding digital citizenship education and the gaps and challenges to be met in formal and informal learning contexts. It examines the role the development of digital citizenship competence plays in education, considers the types of online resources and contemporary information technologies used in educational settings, and details the administrative and legal responsibilities for school leaders, teachers, students and parents.

Reframing Teacher Leadership to Improve Your School

ASCD Do you want your school or district to truly become a learning organization? How do you foster lasting and meaningful change? How do you avoid rejection of your new approach to teaching and learning? If you've been involved in a school change effort, you most likely have struggled with these questions. To ease this struggle, Douglas B. Reeves has proposed a new framework to promote effective change efforts through teacher leadership. In this book, you will explore not only cutting-edge research findings, but also practical applications that can help improve student achievement and educational equity. You can learn how to achieve lasting results as an educator and school leader. You can learn from other teacher researchers how to infuse your classroom, school, or district with enthusiasm, meaningful teaching, improved results, and greater satisfaction. Even as you strive for innovation, you naturally want to avoid having the next new thing become the latest old thing. To achieve lasting change, educators must embrace evidence-based decision making rather than the fact-free debate. Reeves has found that educators more readily accept decisions they disagree with if they believe the decision-making process was fair—not based on opinion or hierarchy. Reeves aims for you to help him build a network of teacher leaders based on this new evidence-based framework that will foster resilient learning organizations. Come along—explore, act, and share.

Educating Democratic Citizens in Troubled Times

Qualitative Studies of Current Efforts

SUNY Press Examines various aspects of citizen education programs that serve contemporary youth in the United States.
