Flipping a Switch: Your Guide to Happiness and Financial Security in Later Life

Atlantic Publishing Company Leaving full-time employment to enter retirement often requires a 180-degree change--in mindset and behavior--from the way you managed your time and money previously. This is especially true for Baby Boomers who may have never experienced adult life without a full-time job and have been practicing the same habits since their 20s. These life transitions can be looked at as if they require "flipping a switch." Some changes happen suddenly like an on/off switch, while others happen over time like a "dimmer switch". Some "switches" are voluntary like spending accumulated savings, while some are mandatory like taking required minimum distributions starting at age 72. And to make matters more confusing, there are also lifestyle and social

changes to consider as well. Flipping a Switch discusses 35 financial, lifestyle, and social transitions you'll encounter upon entering retirement, including: • Full-time work to new pastimes • Saving money to spending money • Receiving a paycheck to creating a "paycheck" • Funding retirement savings plans to taking required minimum distribution withdrawals • Accumulating possessions to downsizing Everyone has unique "switches" to flip. Flipping a Switch: Your Guide to Happiness and Financial Security in Later Life offers important information and guidance new retirees need before undertaking their new life. Each chapter includes a "How to Flip This Switch" section with suggested action steps. Nationally known speaker, author, and Certified Financial Planner® Dr. Barbara O'Neill will help you develop a plan to become your best future self.

All that is required is that you look at the world differently, through the eyes of a seducer.” “What will seduce a person is the effort we expend on their behalf, showing how much we care, how much they are worth.” “Seducers take pleasure in performing and are not weighed down by their identity, or by some need to be themselves, or to be natural.” “Every seduction has two elements that you must analyze and understand: first, yourself and what is seductive about you; and second, your target and the actions that will penetrate their defenses and create surrender.”

Aging With Humor and Grace

CreateSpace In the first of Partee's funny books for women, the award winning Aging with Humor and Grace may just be a cross between Erma Bombeck and Chicken Soup for the Soul. This humorous book isn't just about aging, it's about living life. Partee's entertaining anecdotes will make you laugh whether she's describing the application of eye makeup with glasses on or what to do with your extra chin. Her funny stories include how to conquer restless leg syndrome; the drawback of starting an exercise program after a ten year hiatus and admitting to ridiculous fears and phobias. While written especially for middle aged women, it's not just about new wrinkles. It's about family and relationships as well. You'll find funny short stories about parenting, family life and the drawback of raising kids to be honest. And embarrassing moments abound whether she's falling off her high heels in front of her ex-husband's wife, discovering hair growing in the wrong places or sharing the tough way she lost 40 pounds. Andrea's authentic, honest and hilarious sense of humor is like listening to your best friend (or wishing you had one like this) over a cup of freshly brewed coffee in the kitchen or a glass of wine outside on a summer evening. More Rave Reviews...~ "A great work of fiction." --An ex husband~ "This is a book everyone should buy." - Her creditors~ "Filled with funny

stories, I wish she'd had this sense of humor when I raised the rent." --Her landlord~ "I especially enjoyed the section on eyesight and the stupidity of texting while driving." -- Used car salesman~ "With a sense of humor all her own, this funny lady may be just what you need to laugh out loud." -- Anonymous Readers Favorite Says...If you are looking for an inspirational book about gracefully coping with the less than appealing aspects of aging, Andrea Partee's "Aging with Humor and Grace" isn't that tale. Instead Partee provides hilarious insight into the pitfalls of aging in a self-deprecating way to which we can all relate...or will eventually be able to relate. You don't have to be a woman of a certain age to enjoy her witty, and often embarrassing take on wayward hair growth, bodily functions, pregnancy and child-rearing among dozens of other frighteningly funny topics. Partee's book is aptly named because she deals with embarrassment, insecurity and tragedy with both humor and grace. Subtly touting the grace that comes from the ability to laugh at oneself, "Aging with Humor and Grace" is a refreshing take on a genre typically focused on how to reverse the clock and make your fifty year old bum look twenty again. Written in a fast-paced, acerbic manner, this book allows women to laugh about the inevitability of aging in an effort to accept what comes. Instead of pretending as though she has found the secret to aging gracefully, Partee simply provides her funny take on the things we are often afraid to talk about in public. When the time comes for you to cope with the hazards of aging, skip the self-help section and pass by the plastic surgeon's guide to aging gracefully and go straight to the humor section where Partee will happily guide you down the road to aging gracefully and hilariously. - - Natasha Jackson for Readers' Favorite Scroll up and click the "look inside" feature or buy this treasure now.

The Wrinkly Ranch

Unbelievably funny, shocking and poignant anecdotes of life and work in Long-Term Care

FriesenPress “God’s Waiting Room, Geezer Glen, Catheter Flats, the Wrinkly Ranch . . . whatever euphemistic pet name you have for long-term care homes, the overall sentiment remains the same: it’s the last stop. But is all hope lost? Is there no joy? Shenanigans? Thefts? Laughter? Sex?” After serving in various roles for two decades in the clinical area of long-term care (LTC), Tristan Squire-Smith demystifies the daily realities of living (and working) in LTC through a collection of unvarnished and comedic short stories. Told in the type of blunt, dead-pan, narrative only a veteran, seen-it-all-before, registered nurse could offer, a stodgy old bromide, this book is not. “If assholes could fly, this place would be an airport!” Each chapter tackles a different issue. While the names are fabricated, and some stories might seem stranger than fiction, the contextual circumstances and all events described are based on lived and authentic experiences. Learn more about the nuances and understand the complexities of LTC... because old people are old, not dead, and life goes on until the end. The Wrinkly Ranch lends helpful perspective and aims to foster greater appreciation for the challenges and lessons that life at the last stop can teach us all. Useful hints are peppered throughout to guide the reader how to interact with the care team most effectively, what to expect and how best to offer meaningful assistance to a parent or loved one living in LTC. Any health care professional will be able to identify with these tales; there is therapy in being able to laugh at the work, knowing you are not alone. Friends and family may be amazed at the insights these stories offer into the (unknown) lives of the front-line workers they know so well.

WFH During The Pandemic and Beyond: A Comprehensive Guide to Increase Motivation, Productivity and Freedom

Practical and Tested Tips for Successful Working From Home Entrepreneurs

Intelligent Digital Marketing Agency 'What you can do matters more than where you are. If you have the tools and resources to stay connected to your world you still can make a big difference.' ** Every positive component of liberty that accompanies WFH also has engulfed complications. For example, when working from home, you have the freedom to establish your schedule. This freedom can be challenging because there is a possibility that your performance is not as satisfying as it should be, or as your employer expects, simply because of the unlimited freedom to do whatever you want, whenever you want. Whether you like to play, relax or work, it is in your control. Challenges are inevitable because WFH does not come with the traditional workplace cultural reinforcement that is essential for a smooth mental transition. You can enjoy a less stressful morning and evening because there is no daily commute involved. Yet that lack of daily commute can cause the mental transition into work mode to be harder. This transition is the crucial factor that keeps you working till late and finding the motivation to start your day. ** ** Creating boundaries is the only solution for every challenge stemming from unrestrained freedom. If this sounds restrictive to you than you have not yet realised that the beauty of these boundaries is that you are the creator of them. Neither this book nor I, at any point, are going to tell you when you should start working and when you should end your working day. Instead, we both will explore the opportunities to achieve high productivity from your working from home day. But, in the end, you are in control, and you will need to think about these boundaries and how to implement them. I would recommend that you create these boundaries like the highway rules. You might be thinking, why should these boundaries be like the rules of the road? Following road rules allow drivers to reach their destination safely, and in the same way, boundaries for working from home will help

you to stay focused and productive. It will also help you to avoid the pitfalls of indefinite freedom. ** ** For better productivity, work must stay in the Workspace, and everything else must remain outside of the Workspace. I understand that everyone has a different amount of space and budget available in their homes, and, especially for those who share their home with others, it may be difficult to designate an entirely separate room or area as a Workplace, but it is not impossible. First, we must consider what is essential for setting up an ideal Workplace, and then we can work on individual budget and space constraints. ** **A successful entrepreneur and Working From Home dad, Jeffrey Hamilton who lives in a two-bedroom apartment with his wife and two little girls, tells the secret of his WFH success. 'When I started my Business consultancy service from home, I invested in a desk that could be closed at the end of each working day. There was a strong reason to have such desk as it prevented me from putting my personal items in it when I was not working and to ensure my clients' private and confidential information was not compromised. The greatest advantage of having this desk, however, was that it created a clear boundary between work and family time— when the desk was open it meant I was at work. My wife and daughters knew that when I was at work, they should not call me unless there was an emergency. They always waited patiently and supported my working environment. I also was extremely strict with my personal calls and only answered my phone outside of the desk's opening hours.' ** Download or get a paperback to read Jeffrey's story and other success stories of Working From Home Mums and dads....

Mi Vida Loca, My Crazy Life

A Biographical and Historical Account of the Life of a Native New Mexican in the Twentieth Century

Balboa Press This book is about what life was like in the twentieth century as experienced by one who was born in a small farming and ranching community during the Great Depression and grew up with, lived among, played with, and worked with people of Hispanic descent like himself, and then in a small New Mexico city among people whose descendants came mostly from Europe, Asia, Central and South America, and the Indigenous People who were here first. Almost his entire life and career were spent living among, and/or working with, and for the people of the Navajo, Zuni, Acoma, Laguna, Apache, Hoopa and Yurok Tribes and served in an Administrative capacity with the Department of the Interior, Bureau of

Indian Affairs. From a small boy herding sheep in the foothills of the San Pedro Mountains of Northern New Mexico to a country boy living in the city, to a young man serving his country during the Korean Conflict (sometimes referred to as The Forgotten War and Frozen Chosin), to working for his Country in a Branch of the Federal Government that provides human services and assistance to the Indigenous Peoples of this country, to raising a family of eight children, and the adventures he and his family had along the way while living and working in various Indian Reservations located throughout New Mexico, Arizona and California. This was a journey of Learning, Living, and Loving that taught the author and his family the true meaning of the word love; love of God, love of self, love for one and other, and love for others. It has been a life mostly happy, sometimes sad, sometimes funny, sometimes full of grief and tears, but always full of love and thankfulness to our Creator who is the source of our strength and who makes everything possible. Everything that's written herein has been gleaned from the life and experiences of the author during his eighty-five (and counting) years on this planet, conversations with his parents and his numerous aunts, uncles, cousins, friends, co-workers, and other native New Mexicans who have lived and experienced the kind of lives written about in this book. For accuracy and veracity, he has referenced the works of other New Mexico authors and on-line services such as Wikipedia. He has tried to be as true and accurate as possible in his account and asks for the readers forgiveness for any information which may be found to be erroneously and unintentionally presented.

Women Are Crazy, Men Are Stupid The Simple Truth to a Complicated Relationship

Simon and Schuster **THE REVEALING AND RIP-ROARINGLY FUNNY GUIDE TO MAKING EVERY RELATIONSHIP SMARTER, SANER, AND HAPPIER** It's all very simple. When it comes to women, men are profoundly stupid. And when it comes to men, women—no matter how intelligent or mature—are completely crazy. Based on this groundbreaking insight, comedy writers and real-life couple Howard J. Morris and Jenny Lee have devised a relationship guide that is refreshingly honest, completely hilarious, and surprisingly practical. Using their own crazy/stupid romance as an example, they explain why women ask questions they don't want answered—and why men persist in answering them. Why do guys suck at being romantic? And why does every conversation with a woman lead back to whether or not she's fat? With wit, hard-earned wisdom, and an entertaining he said/she said format, the authors explore the unwitting method to his dumbness and the valid reasons behind her insanity while providing real relationship solutions and helping couples to reach the place where giving isn't giving in, needing isn't needy, and the sexes can break dysfunctional patterns and find a way to live happily ever after.
